ADDITIONAL COMPENSATION TO CUSTODIAN, MEMORIAL HIGH SCHOOL (GIRLS).

A communication was received from the Business Manager, under date of Jan. 17, 1927, recommending the passage of an accompanying order allowing the custodian of the Memorial High School (Girls) an additional sum of sixty dollars (\$60) per week, to take effect Sept. 27, 1926, and to continue during the occupancy of part of the building by a branch of the Boston Public Library, such rate to be revised if in the future the building is occupied for evening school or school center purposes.

Placed on file.

On motion, it was ORDERED, That there be allowed and paid to the Custodian of the Memorial High School (Girls) an additional sum of sixty dollars (\$60) per week, to take effect September 27, 1926 and continue during the occupancy of part of the building by a branch of the Boston Public Library, and that such rate be revised when the building is occupied for evening school or school center purposes.

APPOINTMENT OF A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of Jan. 17, 1927, stating that the Division of Civil Service reports an error on its part in failing to certify the name of John R. Hall as eligible for appointment as custodian, and recommending that he be appointed as regular substitute custodian, to take effect Jan. 16, 1927, and that, in the matter of promotions, Mr. Hall be given his proper standing on the seniority list that he would have had the error not occurred.

Placed on file, the appointment approved, to take effect on the date stated, and the recommendation regarding seniority adopted.

TRANSFER OF A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of Jan. 17, 1927, recommending that Michael J. Kane, custodian of the Hobart Street Schoolhouse, the only candidate in the service desiring transfer to the custodianship of the Skinner Schoolhouse, be appointed to the position, to take effect Jan. 7, 1927.

Placed on file and the transfer of Michael J. Kane approved, to take effect on the date stated.

UNFINISHED BUSINESS.

The order submitted by Mr. Sullivan and laid over at the meetings of Jan. 3 and 10, 1927, which proposes amendment to the rules which shall limit the period of service as chairman of the Committee was taken up.

In this connection Mr. Sullivan made the following statement: Mr. Chairman and Members:

The re-election for the fourth successive term of the present Chairman in my opinion was one of the worst things that could have happened for the school service, but one of the best because it serves to focus public attention on a most deplorable situation. Hence my order to prevent a similar predicament in the future. I stated two weeks ago when I presented this order, which limits the term of any member as Chairman to 2 years, with the further restriction that no member shall be Chairman for 2 years in succession, that 2 years was enough for the best Chairman and too much for a mediocre one.

Rotation in public office is a fundamental American principle and experience has proved its wisdom and efficacy. It makes for representative government I mean here a government responsive and responsible to the popular will.

Let us see.—The late James J. Storrow and his associates of the Public School Association reorganized the School Committee in 1906,

reducing its membership from twenty-four to five. Twenty-one years have passed. The Public School Association in that period has had 19 majorities on the five member school board, majorities ranging from 5 to 1. In that period of 21 years the Public School Association has had 19 chairmen out of a possible 21. James J. Storrow, endorsed by the Public School Association, was Chairman 3 years in succession; David A. Ellis, endorsed by the Public School Association, was Chairman 4 successive terms; George E. Brock, endorsed by the Public School Association, was Chairman 2 terms successively; Dr. David D. Scannel, than whom no one gave a greater measure of high grade service, endorsed by the Public School Association, was Chairman twice; Joseph Lee, endorsed by the Public School Association, was Chairman in 1917 for one term; Judge Michael H. Sullivan, endorsed by the Public School Association, was Chairman two successive terms; Dr. Frederick L. Bogan, endorsed by the Public School Association, was Chairman 5 times, of which 4 were successive terms. Is that rotation in public office? Is that true representation? Is the Public School Association to continue in uninterrupted control of the public schools? Has it a monopoly in our public school system? Can there be no member without its endorsement and without the fold of the Public School Association whose service merits recognition by his fellow members? What was the matter with Charles S. O'Connor who served with ability and fidelity on this Board in 1920, 1921 and 1922? Can anyone deny his ability? Can anyone question his integrity? Dare the present Chairman, who was his colleague, intimate that Mr. O'Connor was guilty of malfeasance, misfeasance or nonfeasance in office?

Mr. O'Connor, as a member here, experienced a similar reception to that accorded me. The minutes of the School Committee in those years are teeming with 4 to 1 votes on nearly all important measures; he, of course, standing alone. He was the crusader in the 4 to 1 procession, which promises to become as famous in Boston School Committee annals, if the Public School Association continues in control, as was the 16 to 1 ratio immortalized in Bryan's "Cross of Gold" speech in the history of American currency.

To illustrate: Mr. O'Connor moved that this Committee establish in our schools the Franklin-Jefferson medal for excellence in American history (and this at a time when America was deporting 50 aliens a week as undesirable). This motion was defeated in conference by a 4 to 1 vote. Mr. O'Connor then threatened to expose this 4 to 1 vote in the public meeting. His motion was laid on the table until the next meeting, when it was passed unanimously. What was the matter with Mr. O'Connor in 1920, in 1921, in 1922?

To illustrate further: Mr. William G. O'Hare, our colleague, has been a member of this Board since 1923. This is his fifth year. Mr. O'Hare came to this Board as a submaster of many years' experience in the service. In my opinion Mr. O'Hare knows as well and as intimately the public schools as any member of this Committee. Is it because Mr. O'Hare has never been endorsed by the Public School Association that his colleagues have not seen fit to elect him their Chairman?

I make this observation without fear of successful contradiction. This is my fourth year on the School Committee. Each year the Public School Association has had a 3 to 2 majority, and a Chairman endorsed by the Public School Association, and each year, in spite of the enmities among the committee members endorsed by the Public School Association, and in spite of the unfavorable estimates the said members had with reference to the qualifications of one another, they always managed a caucus immediately preceding the election of the Chairman, from which a Public School Association Chairman issued.

The School Board at present constituted, is a committee of 5, which incidentally I have petitioned the Legislature to increase to 9. In the present Board of 5 a minority of 1 or 2 is powerless and helpless, and the majority of 3 is absolutely without check, with more power in the field of school administration than the Mayor of Boston has in his particular sphere. (Because the Mayor must contend with the City Council as a check).

The School Committee of 3, endorsed by the Public School Association, and always able to elect a Public School Association Chairman, spending 20 millions of dollars, are without a check. The jump in school expenditures has been enormously out of proportion with the increase in school population. In 1916 the cost of land and construction of school buildings was \$440,000.00. This item jumped to \$4,800,000.00 in 1926, a percentage increase in ten years' time, from 1916 to 1926, of 1000 per cent.

In 1916 the cost of maintenance of our public schools, exclusive of land and construction, was \$6,045,000.00. In 1926 this same item cost \$15,000,000.00, or a percentage of 170 per cent. In a word, it cost the citizens of Boston in 1926 \$12,314,000.00 more for their schools than in 1916, or a jump of 200 per cent. This tremendous increase in school costs is a vital factor in the high and oppressive tax rate which threatens to stifle our realty progress; and this notwithstanding the fact that parochial and private schools are increasing in leaps and bounds, so that this year approximately 70,000 pupils are being educated without cost to the city. Shall a majority of 3 members, all endorsed by the Public School Association, continue to control without check?

On request of the Chairman, the order referred to was read by the Secretary, as follows:

ORDERED, That the rules be amended to provide that no member of the Committee shall be eligible for election or for service as Chairman of the Committee for more than two years; and further, that no member of the Committee shall be eligible for election or for service as Chairman of the Committee for two successive years, and further, that any member of the Committee who shall have been elected or shall have served as Chairman of the Committee at any time for two years shall be forever ineligible for election and for service as Chairman of the Committee.

Mrs. Barron: Before taking a vote, I wish in a very few words to answer some of the statements that have been made by Mr. Sullivan. In the first place, I want emphatically to deny that in the one year of my four-year term that I have served

on the Board, there has been any caucus held previous to the election of Chairman, either the first or this second election. I want to sincerely and honestly state that when I came to the meeting I had no intimation as to how Mr. Gray was to vote, or how the Chairman was to vote, until the vote was taken in this room. I also wish to add that it is just as unfair to say that because the Public School Association has endorsed any particular member, that member must follow or does follow the dictates of the Public School Association, as it would be for me to say that Mr. Sullivan, if he happened to be endorsed by the Friendly Sons, or the Workingmen's Association or the American Legion, is being dictated to by the Workingmen's Association, or the Friendly Sons, or by any other association. I believe that every member of this Board stands on his own feet, does as his conscience and his judgment dictate, and I absolutely deny that there is any dictation by or any information given to the Public School Association. I want to report that this year I voted for Dr. Bogan as Chairman because this is only his second year in this four-year term of the new Committee, and I felt that from an administrative point of view having the experience, he was the best choice. And I wish to add that every member of this Board has just as much power as any other member, although from an administrative point of view our Chairman expedites matters.

However, in order to create harmony among the members of this Board, I would be willing, provided such action would be legal, although I doubt if we could pass any rules stating what a future school committee shall do, to agree to the enactment of a rule which shall limit the term of service as chairman to two or three years. I fear that such action would be illegal because we would be dictating the policies of a future board. If found to be legal, I would be willing to vote that no member of the committee shall serve more than two years in succession, or more than two years in any four-year term, but to restrict a person who might have the ability, or the experience, from service as chairman more than once in say a fifteen-year period, would, I believe, be detrimental to our system and to the public welfare.

Dr. Bogan: Do you offer that as an amendment?

Mrs. Barron: I do not offer that as an amendment. I simply want it to go on record as an opinion.

Mr. Gray: I have not supposed that it was necessary to make any statement, but as Mr. Sullivan has raised this question, I should like to go on record as saying that the fact that I was endorsed by the Public School Association has not made the slightest difference to me, or in any way entered into or guided me in any vote since I have been on this committee. I have never gone to the Public School Association to ask their advice. I have not seen them. I should like to have that on record.

As to my choice of chairman: I voted for Dr. Bogan because I honestly believed that he was the best man, and that is no reflection on the high standing of the other members of the Committee. When I want to do a thing, I do just what I want to do, without anyone telling me what to do. When it comes to the question of Mr. Sulli-

van's motion or order limiting the term of chairmanship: In my opinion, a committee should be permitted without rules or restrictions to elect as its chairman the person it deems best qualified for chairmanship, and I believe, though I have made no study of the matter, that this policy is just as American as rotation in office.

Dr. Bogan: I have been on this Board a number of years and at no time in my entire career has any thought, word, or intimation been given me from the Public School Association as to how I should act or how I should vote on one question or another. I have been entirely free to act according to my conscience. I believe with Mrs. Barron that the proposed limitation of period of service as chairman is illegal, for the procedure is: The senior member calls the Board together. Then, as a rule, the letter from the Election Commissioners is read reporting the names of the new members according to recent election. Then the Board proceeds to the election of a chairman and a treasurer, and the Board then adopts the rules and regulations under which the Committee will act.

Mr. O'Hare: The question here is a question of policy. The question of rotation in office against the choice of the individual makes no difference to me. The City Charter of the City of Boston today, as amended, does not allow a mayor to succeed himself, and he is the highest pinnacle of executive office in our city. I have served on this Board four years. As a school teacher I was a candidate for election because I thought that probably the viewpoint of one who had children attending school, who had taught in the schools, might be helpful, and when I made the first run the School Committee, then controlled by the Public School Association membership, not by the Public School Association because there isn't any, voted that if I or any other teacher dared to become a candidate for election the result would be termination of service in the schools,—the most illegal unconstitutional deprivation of rights that I have ever seen put into writing or print.

Mr. Sullivan: That was by a four-to-one vote?

Mr. O'Hare: The only negative vote on that question was Mr. O'Connor.

Mr. O'Hare: I am not vainglorious, I am not egoistical—I do not think I have the whole knowledge so well in hand that I am better than any of my colleagues. I have voiced my opinions freely. The Public School Association as a body has never memorialized the committee on which I served on any matter of public policy. So far as I can learn, they meet near or about election time, pick men and women they think will be good standardbearers, sponsor their cause, offer them to the public, and then absolutely do not function until another election time comes around. They have never asked me or memorialized the committee while I have been a member to support any action or vote. Naturally, in a rotating system which has always been the practice until two years ago, a member who has seniority and who feels competent does look for the higher glory, and that is all there is of service willingly given to a city, and honestly expects it when at least on one occasion, more than the majority have expressed themselves to him as being in favor of his election.

Mr. Sullivan: What happened on that occasion—were you elected?

Mr. O'Hare: The day came and the accomplishment and fulfillment of a dream went to the Board—I am not in controversy about this matter—

Mrs. Barron: Will you state when this took place?

Mr. O'Hare: I will not. My word is good. I do not have to name persons or places. Naturally, therefore, the only part a minority has in an expression of opinion is in inhibition, the same inhibition as the legislature takes upon itself when it says that the Mayor of the city may not succeed himself. Therefore, without any chagrin, without any worry, without any uncertainty, without any fear, I support Mr. Sullivan's order.

Mr. Sullivan: Let me answer the objections to my order briefly. Mrs. Barron stated with some emphasis that she considered it just as unfair for me to state or have anyone infer from any statements I make, that the Public School Association because it endorsed Mrs. Barron and others, controlled Mrs. Barron and others. That it is just as unfair to make that statement as it would be for Mrs. Barron or anyone else to say that the Friendly Sons or the American Legion controls me because it endorsed me. Mrs. Barron loses sight of a very serious aspect so admirably developed by Mr. O'Hare, namely, that the Public School Association exists for the sole and exclusive purpose of electing members to this committee and for no other purpose. Now, Mr. Gray hit the issue when he said that he believes the issue is "rotation" and that it is just as American fundamentally that the Committee be permitted to elect its own chairman, as the American principle of rotation in office. I disagree with that in the light of the situation that has prevailed here since 1906. Only two chairmen in twenty-one years have been non-Public School Association. We must take into consideration circumstances that exist in a given situation. How can the Committee express its desirability when the majority of the Committee is endorsed by the Public School Association? I want to add right here and I offer proof if it is denied,—you ask me whether or not the members here at any time endorsed by the Public School Association, were controlled by the Public School Association—and I give you the best answer possible. Mr. Foss was,—whether or not he still is, he was—Secretary of the Public School Association at or about the time of the last school committee campaign and Mr. Foss has made this statement—the Public School Association picks and endorses candidates for School Committee whom they, the Public School Association, think promise to continue the policies that the Public School Association has been associated with since inception. When Mr. Foss was asked how he exercised control over the members after their election, his answer was—"If they kick over the traces, they don't get our endorsement again." This is the best evidence as to the Public School Association.

As to the legality of the order,—Dr. Bogan is a doctor, Mrs. Barron is an attorney, Mr. Gray is an attorney,—Mrs. Barron is of the opinion it would be illegal to attempt to bind any future committee. This is absurd. If we have not got the power to make legislation with relation to the future, we might as well stop our proceedings. Legislatures bind other legislatures. When a

new board comes in, every remedy is at hand. Of course it is legal to bind a future board insofar as we can. I hope the order passes.

Mrs. Barron: Mr. Sullivan quotes Mr. Foss, an individual, as making certain statements. There is absolutely no proof that such statement, if made, was made at the behest or on behalf of the Public School Association in the first place, and assuming such a statement was made, may I say that if an individual makes a statement it does not bind a third party to such statement, and Mr. Sullivan, being a lawyer, knows that.

Mr. Sullivan: His admission does not go against you, I admit.

Mr. Gray: I just want to say that I don't care what Mr. Foss says. There is not any organization or any individual in this world that has anything to do with the action I choose to take. No one has any influence over me. If I do anything, I do what I think is right.

Mr. Sullivan: Each one has his own viewpoint, but I am telling this Board that Mr. Foss, not an individual but the Secretary of the Public School Association, made those remarks.

Dr. Bogan: I can simply say again what Mr. Gray has said. I voted according to my own thinking. The first or second time that I was a candidate for the School Committee, I was not given the endorsement of the Public School Association, but the next time I was endorsed, and I gladly accepted the endorsement.

Question came on the passage of the order amending the rules limiting the period of service as chairman of the Committee, and the order failed of passage by the following vote:

YEAS—Messrs. O'Hare and Sullivan—2.

NAYS—Mrs. Barron, Messrs. Bogan and Gray—3.

The Board adjourned.

Attest:

ELLEN M. CRONIN,

SCHOOL COMMITTEE.

PROPOSALS FOR REBINDING BOOKS FOR THE BOSTON PUBLIC SCHOOLS.

The School Committee invites bids on re-binding approximately twenty-five thousand (25,000) books. Proposals made on the form to be obtained at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street, will be received until Monday, February 28, 1927, at 12 o'clock m. at said office at which time and place they will be publicly opened and read. Envelopes containing proposals must be plainly marked "Proposal for Rebinding Books." Each bid must be made in duplicate, one to be sent to the Business Manager of the School Committee as above, and the other to be filed with the City Auditor, City Hall, Boston, previous to the time named for opening bids. A certified check for one hundred dollars (\$100), payable to the City of Boston, must be filed with the copy of bid sent to the Business Manager of the School Committee. The bidder awarded a contract will be required to furnish a bond for not less than twenty-five (25) per cent of the estimated amount of the contract awarded him. The School Committee reserves the right to reject any or all bids and to accept such bid as may appear to be best for the interests of the city.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.

SUPPLY DEPARTMENT.

PROPOSALS FOR HAY, GRAIN AND STRAW.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 801, City Hall Annex, until 12 m., Friday, February 25, 1927, at which time and place they will be publicly opened and read, for furnishing hay, grain and straw to the various departments during the month of March, 1927. The bidder must include the cost of delivery. The bidders are requested to bid on domestic United States No. 2 timothy hay, United States No. 2 light grass mixed, United States No. 2 light clover mixed, large and medium size bales. The straw to be rye straw in good condition. The grade of hay must comply with Federal hay grades and straw must comply with the National Hay Association. The bidders are requested to bid on No. 2 white oats, thirty-six pounds or over, graded under the Federal standards. The hay and oats must be weighed by a sworn weigher. The bidder must use the form of proposal to be obtained at Room 801, City Hall Annex. Proposals must be accompanied by a certified check for \$200. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The successful bidder must furnish a bond for one quarter the total amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder. No reservations or stipulations submitted by the various bidders will be considered by the Superintendent.

PUBLIC WORKS DEPARTMENT.

PROPOSAL FOR FOUNDATIONS FOR FERRY BRIDGE FOR THE NORTH FERRY, EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for building foundations for ferry bridge at the North Ferry, East Boston, and giving bond therefor of a surety company approved by the Commissioner in the sum of seventeen thousand (17,000) dollars, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex, after Tuesday, February 8, 1927. Each proposal should be enclosed in an envelope, sealed, marked "Bid for Foundations for Ferry Bridge," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m. on Wednesday, March 2, 1927, with a certified check for one thousand seven hundred (1,700) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

JAMES H. SULLIVAN,
Commissioner of Public Works.

MAYORS OF BOSTON.

In its 103 years of existence as a city Boston has had 36 elected Mayors and five *ex-officio* Acting Mayors. Of the 36 men who have held the office for one year or more, six were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Curley who served 4 years ending Feb., 1918 and 3 years and 11 months, ending 1925. Next in length of service was Mayor Lincoln, serving 3 years ending 1860 and 4 years ending 1866. The first Mayor Quincy had the distinction of serving through six successive one-year terms ending 1828, and Mayor Fitzgerald also served six years but in two separated terms. Those who served 4 years were Mayors Prince, O'Brien, Matthews, (third) Quincy, Hart and Peters. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second) Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year, Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairmen (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, Representative in Congress also Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in the lower house of Congress, Mayor Peters having also served as Assistant Secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years but his service was terminated by his death in 1922. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Doc., *Municipal Register*, for full list of Mayors from 1822 to 1925, with place and date of birth, years of service and date of death.)

BOSTON CHARTER CHANGES.

In 1854, 1885, 1909 and 1924 important changes in the original City Charter of 1821 were effected for the purpose of improving the methods and efficiency of the City Government. The revision of 1854 (Chap. 448, Stat. 1854) referred to the voters for acceptance, gave the Mayor a qualified veto over the action of the City Council, also the power of removal of appointed officials, besides providing for his election by a plurality instead of a majority vote. The amendments of 1885 (Chap. 266, Stat. 1885) were not submitted to the voters for approval. They transferred all the executive powers to the Mayor, prohibiting the City Council from interference with the executive and administrative business of the City. This was done in order to end the inefficiency resulting from an excessive number of joint committees, a municipal development conforming to the traditions of the outgrown town government.

The amendments of 1909 (Chap. 486, Stat. 1909) cut down the number and powers of the legislative branch of the government to a minimum, the Board of Aldermen (13 members) and the Common Council (75 members) being abolished. For these was substituted a single City Council of nine members to be elected at large for 3-year term. The Mayor's position was further strengthened by giving him a 4-year term, subject to recall at end of two years, but requiring a majority vote of the registered voters to make the recall effective. The Mayor's power over appointments was no longer subject to check by aldermen but by a State board, the Civil Service Commission and City elections were removed from all connection with national and State politics, no primaries nor caucuses being permitted, all candidates for office to be selected by means of nomination papers. The only

question in this Act of 1909 which was submitted to the voters was contained in section 35, *i. e.*, whether Plan 1 or Plan 2 should be adopted, the first providing for a term of two years for Mayor and a City Council of 36 members to be chosen in primaries. Plan 2, providing for City Council of 9 members, was adopted by a majority of 3,894.

Charter of 1909 amended later as follows: (1) By Chap. 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in sec. 26. (2) Chap. 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in sec. 32; changing the requirements as to signatures on nomination papers to 3,000 for Mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in sec. 53, also limiting the number of nomination papers issued to 300 for a candidate for Mayor and 200 for other candidates, referring to sec. 54. (3) Chap. 37, Special Acts of 1918, annulling the jurat at end of nomination papers. (4) Chap. 94, Special Acts of 1918, abolishing recall of Mayor and making him ineligible for re-election, *i. e.*, establishing a single term of four years, but not prohibiting the election of any Mayor for other than consecutive terms. (5) Chap. 288, Acts of 1921, fixing date of the annual municipal election on the first Tuesday after the second Monday in December, also making slight changes as to nominations. (6) Chap. 133, Acts of 1922, changing publication of list of City officials and employees to every second year from 1923. (7) Chap. 479, Acts of 1924, providing for biennial City elections (dating from Nov. 3, 1925); for borough or ward representation in City Council; for a fiscal year dating from Jan. 1 to Dec. 31, beginning in 1926, also a municipal year dating from the first Monday in January, to begin in 1926; for election of the five members of School Committee in 1925, the candidates receiving the two largest votes to hold office four years, the other three for two years and at the election in 1927 and thereafter the term for all to be four years.

The only amendment of 1924 subject to a referendum was the alternative of Plan 1 or Plan 2 as to the City Council. At the State election on Nov. 4 Plan 2 was adopted, providing for the election by each ward in 1925 and every second year thereafter of one councillor for 2-year term.

SETTLEMENT OF BOSTON, 1630.

Effected by Puritan colonists under Governor John Winthrop in the latter part of August, 1630. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630. This date was moved forward by the New Style calendar in 1752 to Sept. 17, the recognized date of the founding of Boston. The name, Trimountaine, had been given because of the three peaks of the most prominent hill, afterward called Beacon Hill, much higher then than now. By the Indians the place was called Shawmut. The name, Boston, was derived from the English town of Boston in Lincolnshire, the home of some of the leading colonists and promoters of the enterprise.

No. 9

MUNICIPAL CALENDAR.

Meeting of the City Council Monday, February 28, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

Board of Zoning Adjustment. Public hearings and executive meetings are held on the first Friday of each month, Room 30, City Hall, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

CLAIMS DISAPPROVED.

The Law Department has disapproved claims against the city, aggregating \$5,058.68, and they are classified as follows:

Against the Building Department, one, amounting to \$24; against the Collecting Department, one, amounting to \$422.65; against the Fire Department, one, amounting to \$500; against the Park Department, two, amounting to \$270; against the Public Works Department, seventy-eight, amounting to \$3,792.03; against the Street Laying-Out Department, one, amounting to \$50.

MAYOR ASKS \$13.50 TAX LIMIT FOR THIS YEAR.

The Mayor has addressed the following communication to the Committee on Municipal Finance of the Legislature:

BOSTON, February 21, 1927.

To the Honorable the Committee on Municipal Finance, State House, Boston, Mass.

GENTLEMEN,—The tax limit of the City of Boston is fixed by general law at \$6.52 per thousand on the average valuation of the city for the preceding three years. Since 1918 this limit has been inadequate to meet the growing needs of the city and it has been necessary for the Chief Executive of the city to annually petition the Legislature for an increase in this statutory figure. The increases allowed in the several years have been of special nature in that they were operative only for the year in which allowed. Thus, while last year the limit was fixed at \$14 per thousand, this figure only applied to the financial year ending December 31, 1926; hence, without additional legislation at the present time, the city will be subject to the regular statutory limitation of \$6.52 for municipal purposes in 1927. The amount available for appropriation under this figure is approximately \$18,500,000. Since, as shown in Exhibit A, the tentative departmental allowances for the current year total \$31,303,992.76, it is hardly necessary to say that the city cannot function under the present limit.

We therefore can proceed directly to the question of what limit should be fixed by this committee for the year 1927. In answer to this question, I will say that in the opinion of the financial officers of the city the limit for the present fiscal year should be fixed at \$13.50, a decrease of fifty cents from the figure granted for the last fiscal year.

In support of our request that this limit be allowed, we present for the consideration of the committee schedules, exhibits and explanatory matter showing as briefly and concisely as is possible under the circumstances the various elements entering into the budget of the City of Boston for the fiscal year 1927.

GENERAL STATEMENT.

The tentative departmental allowances, as indicated in Exhibit A, total \$31,303,992.76. This total represents a reduction of \$1,898,992.72 in the departmental estimates as originally submitted to the Mayor, and is \$470,756.24 in excess of the total departmental allowances for 1926. This increase in maintenance costs is the smallest since 1921 and, as will be pointed out later in this brief, is caused largely by the overlay resulting from the appointment last year of 300 additional patrolmen and the granting of a \$5 per day wage to the laborers of the city. If these two items were not provided for in last year's budget, it might have been possible, for the first

John J. Sheehan, 19 High street, Westboro, in the sum of \$116, as compensation for damage to automobile by defective condition of highway on Washington street, Brighton, at Tip Top street, May 16, 1926.

Anna C. Welch, 44 Beals street, Brookline, in the sum of \$150, as compensation for personal injuries received November 16, 1926, by hole in sidewalk on P street in front of vacant lot at north-west corner of junction of P street and Columbia road.

P. J. Whoriskey, 57 Binney street, Roxbury, in the sum of \$125, as compensation for damage to property by defective water piping at 57 Binney street, September 10, 1926.

Ellen J. Williams, 493 East Sixth street, South Boston, in the sum of \$50, as compensation for personal injuries received November 7, 1925, by defective condition of sidewalk and curbstone adjacent to a crosswalk on Broadway at westerly corner of H street, southwest corner of H street and Broadway.

Sadie Pelletierri, 88 Prince street, Boston, in the sum of \$20, as reimbursement for money which was in the possession of her husband, Antonio Pelletierri, who was a patient in the Haymarket Square Relief Station, and who died there on November 21, 1926, and which money was not among his effects when checked up by the supervisor.

ACTION OF BOARD OF ZONING
ADJUSTMENT ON PETITIONS.

Petition No. 117.—Petition of Patrick F. Moran to extend the L-40 zone along Belgrade avenue in a westerly direction from Colberg avenue to Ardent street to a depth of approximately one hundred feet on the southerly side, or such extension or modification of this area as might appear advisable to the Board. Dismissed. (Sheet 10, Zoning Map.)

Petition No. 118.—Petition of Georgia A. Harris, by W. H. Holbrook, for a change of zoning lines in the vicinity of Monterey avenue, Alabama street, New Calvary Cemetery, Elene, Prairie and Almont streets, Dorchester, from an R-35 to an R-40 district. Dismissed. (Sheet 8, Zoning Map.)

TAX LIMIT FOR 1927.

(Continued from page 217.)

time since the outbreak of the World War, to reduce rather than increase the running expenses of the city.

REASONS UNDERLYING DECREASE IN TAX
LIMIT.

At first glance it may seem strange that while there is an increase in the total of this year's budget over that of last year, the tax limit request for this year is less than that of 1926. This apparent con-

tradiction is explained by the fact that in the computation of the appropriating power for 1927 certain excesses and new items are available which were not present in 1926. Increased appropriating power due to the increase in the average valuation, increased estimates of departmental income and the presence in the treasury for the first time since 1924 of a cash surplus are the contributing factors which offset the increase in the budget total. The following schedule indicates in detail the different factors entering into the reduction in our tax limit request:

SCHEDULE A.

SUMMARY OF FACTORS AFFECTING TAX LIMIT REDUCTION.

Average Valuation:		
\$13.50 yield on average valuation for 1927.....	\$24,854,277 14	
13.50 yield on average valuation for 1926.....	24,042,763 79	
		\$811,513 35
Estimated Income:		
Estimate for 1927.....	\$6,140,000 00	
Estimate for 1926.....	5,900,000 00	
		240,000 00
Surplus:		
Cash in treasury, January 1, 1927.....		309,715 62
Gross increase in appropriation power.....		\$1,361,228 97
Less:		
Increase in budget total.....		470,756 24
Net increase in appropriating power.....		\$890,472 73

The average valuation for 1927 is \$1,841,057,566.16. One dollar on the thousand will produce from this figure \$1,841,057.56. The net increase in the appropriating power for 1927 as shown in the above table is approximately one half of this dollar yield, hence, the resulting request for a fifty cent reduction in the tax limit of 1927.

COMPARISON WITH 1926.

The budget of the City of Boston is purely a maintenance budget, no appropriations of a capital nature being included within its pages. Since maintenance charges are more or less of a fixed character it is only logical to assume that the natural starting point in the analysis of the budget of any year is the budget for the previous year. The following schedule indicates in comparative form the main points of difference between the budgets of 1926 and 1927.

SCHEDULE B.

TWO-YEAR BUDGET COMPARISON.

		30,833,236 52	347,669 46	
Net increase.....		\$470,756 24	\$470,756 24	

The following explanations are offered in connection with the items appearing in Schedule B:

PERSONAL SERVICE.

The personal service requirements for 1927 are \$567,000.34 in excess of the requirements of 1926. A glance at the items appearing in Exhibit B under this heading will indicate that this group excess is made up of the following items:

Increase in appropriations for permanent employees.....	\$687,828 84
Decrease in appropriations for temporary employees.....	\$100,767 50
Decrease in appropriations for overtime, etc.....	20,061 00
	120,828 50
	\$567,000 34

The following schedule is offered to indicate the various elements entering into the increase in appropriations for permanent employees:

The additional patrolmen appointed to the Police Department in 1926 were added to the department forces in squads of fifty at approximately forty-five day intervals, ranging from April 30, 1926, to November 26, 1926. It was therefore unnecessary to provide the full first year cost represented by the addition of this number of patrolmen in last year's budget, but the difference between this full year cost and the amount actually provided in 1926 must be borne or met in the budget of 1927. The salary and wage increases granted to 2,000 laborers and 1,000 miscellaneous employees were effective but part of the year 1926, hence, the difference between the full year cost and the actual amount provided must be reflected in the budget of 1927.

The salary increases proposed for the year 1927 are based on a salary study made by a committee appointed by me in the early part of last year. While I have not accepted in total the recommendations presented by this committee, nevertheless, their work has been of great value in that for the first time in the history of the city there has been made available for the consideration of the Chief Executive a comprehensive survey of the entire personnel of the city.

The new positions which it is proposed to allow in the budget for 1927 are the result of the natural expansion and growth of the activities of the city. The erection of new buildings and the expansion of activities in our institutions make it necessary that additions to the personnel of the various departments involved be allowed. The list of positions as herein submitted represents what is to my mind the irreducible minimum.

The reduction in appropriations for temporary employees may be attributed in the main to two causes. Last year two election functions were conducted by the Election Department, namely, the State Primary and State Election. This year only one function will be held — the city election in November. The pay roll expenses incidental to an election function average \$35,000, hence, this saving is reflected in the appropriations of the Election Department for 1927. Last year it was necessary in order to cope with the heavy snow storms to employ a large force of temporary employees during the winter months. While it is unsafe to predict at this time what the needs for this year in this respect will be, our tentative allowances for temporary help in the Public Works Department reflect an anticipated saving of approximately \$80,000. Slight increases in the appropriations of the Fire, Health, Hospital, Law and

Cemetery Departments reduce the two large savings already mentioned to the figure listed at the beginning of this section.

The reduction in the appropriations for overtime may be directly attributed to the belief that overtime payments in connection with snow removal work will not run as high this year as last.

CONTRACTURAL SERVICES.

Appropriations for services to be rendered the city by individuals and corporations during 1927 show a net increase of \$39,728.36 over similar appropriations for the previous year. The important items entering into this increase are indicated below:

Increases:	
B-8. Light, heat and power.....	\$35,552
B-14. Motor vehicle repairs and care.....	14,656
B-28. Expert.....	12,840
B-39. General plant.....	115,320
B-35. Fees, etc.....	3,556
	\$181,924
Decreases:	
B-6. Hire of teams and auto trucks.....	\$65,140
B-17. Care of persons.....	43,000
B-18. Cleaning.....	33,678
	\$141,818
Net increase.....	\$40,106

During 1926 approximately 381 new electric and gas lamps were installed on the streets and highways of the city. It is estimated that the full cost of the lamps installed in 1926 and the partial cost of the 400 new lights to be installed during the current year will swell the lighting bill of the city by approximately \$20,000. Minor increases in the appropriations of the Fire, Health, Library, Public Buildings, Park, Police and Sewer Departments make up the balance of the increase indicated under the first item in the above list.

During the past year the motor equipment of the Public Works Department was swelled by the addition of sixty five-ton trucks. The presence of these trucks is reflected in three items on the above list. Increased appropriations have been necessary to cover the repair work which the trucks will require and for the fees incidental to the registration of the vehicles and their drivers. On the other side of the picture appears a natural reduction in the allowance for the hire of trucks from outside sources.

Complete replacement of the electric wiring and switchboard system and extensive roof repairs at the Central Library Building, extensive repairs and alterations in seven branch libraries, replacement of antiquated and unsafe elevators at the City Hospital, alterations and remodeling at the Brighton and Fields Corner Police Stations, extensive repairs at the Fort Hill and Albany Street Sanitary Receiving Stations, improvements in lighting facilities in certain sections of the city, demolition of unsafe buildings throughout the city and additional allowances for fire-proofing fire stations are the principal items responsible for the increase indicated in Item B-39. This increased allowance for plant and building repairs is also reflected in the increased allowance for Item B-28, covering the hire of engineers and architects to plan and supervise these repairs.

Improved methods and procedure in the Child Welfare Division of the Institutions Department have necessitated an increased allowance under Item B-17 of approximately \$10,000. This increase will be more than offset by savings estimated at \$53,000 in the same item in the budgets of the Health and Hospital Departments.

Prior to this year all the catch-basins in the city were cleaned by contract. This year, through the purchase of two catch-basin cleaning machines, it is planned to perform the work in three of the seven districts with city labor. Last year the contracts for these three districts totalled \$33,500, hence, a saving of this amount is reflected in the 1927 budget of the Sewer Division of the Public Works Department.

EQUIPMENT.

Allowances for the purchase of new equipment during 1927 show a decrease of \$146,074.13 from the corresponding figures of last year. A glance at the items appearing under this group in Exhibit B will indicate that this decrease centers in the reductions made under items C-1 (\$161,000) and C-5 (\$6,000), Motor and Motorless Vehicles, these reductions being offset just a trifle by the increased allowance under Item C-7 (\$22,000), Furniture and Fittings.

Last year an excess allowance of \$100,000 was included in the budget of the Fire Department to permit of the replacement of obsolete equipment and also to extend the service in certain sections of the city. With the expenditure of this allowance in 1926, the 1927 budget of the Fire Department reflects a reduction or saving of this amount. The purchase of the sixty trucks previously mentioned has reduced the requirements of the Public Works Department by approximately \$62,000 under the items for Motor and Motorless Vehicles. The following table indicates the changes in departmental allowances for Motor Vehicles reflected in the 1927 budget:

INCREASES.	
Assessing.....	\$1,050
Boston Sanatorium.....	750
Building.....	2,040
Collecting.....	2,400
Police.....	10,000
Sewer Service.....	11,500
	<u>\$27,740</u>
DECREASES.	
Fire.....	\$105,708
Wire Division.....	1,500
Health.....	1,200
Hospital.....	4,375
Institutions.....	1,400
Mayor's Office.....	1,300
Park.....	7,800
Public Buildings.....	1,025
Paving Service.....	20,000
Sanitary Service.....	35,500
Weights and Measures.....	4,200
	<u>\$187,008</u>

The increase shown above in the Police Department allowance is to cover the purchase of four motor ambulances for use in the outlying sections of the city and the increase in the Sewer Service covers the purchase of two catch-basin cleaning machines mentioned in a previous section of this brief.

During the present year the Library Department contemplates establishing four new branch libraries in different sections of the city. To permit carrying out of this proposal, it has been necessary to increase the Furnishings and Fittings allowance of this department by \$19,000. The Boston Sanatorium will occupy for the first time this year their new Out-Patient Building at the corner of Rutland street and Harrison avenue. To permit of the proper furnishing and fitting up of this building an additional allowance of \$7,000 has been included in the budget of the Sanatorium Department. These two increases account, in the main, for the increase which is indicated in Exhibit B under item C-7, Furniture and Fittings.

SUPPLIES.

Department appropriations under this heading show an increase of \$99,643 over similar appropriations of the previous year. The following brief comment is offered in connection with the items and amounts making up this increase:

OFFICE SUPPLIES show an increase of approximately \$12,000 due to expansion in business and office records of the Assessing, Collecting, Fire, Hospital and Police Departments.

FOOD AND ICE shows an increase of approximately \$18,500 due to increased allowances at the City Hospital, Long Island Hospital and Wayfarer's Lodge. Slight reductions under this item are reflected in the budgets of the Election, Police and Sanitary Departments.

FUEL shows an increase of approximately \$40,000 due to increased allowances in the budgets of the Boston Sanatorium, Fire, Hospital, Library and Public Buildings Departments.

FORAGE AND ANIMAL shows a reduction of approximately \$15,500 due to the gradual replacement which is taking place in the various city services of horses by motor equipment.

LAUNDRY, CLEANING AND TOILET shows an approximate increase of \$5,000 due to extensions in the laundry service of the Boston Sanatorium and Long Island Hospital.

MOTOR VEHICLE (gasolene and oils) shows an increase of \$33,600 due mainly to the increased requirements occasioned by the purchase of the sixty trucks in the Public Works Department.

MATERIALS.

Under this group are charged materials such as lumber, paint, nails, crushed stone, road oils, sewer pipe, machinery parts, fuses, bulbs, rope, etc. The replacements of the various departments for these items, do not, in the main, vary from year to year as is indicated by the fact that the allowances under this group for 1927 show a decrease of \$1,705 from the corresponding allowances in 1926.

SPECIAL ITEMS.

Schedule B indicates that the allowances under this group for the current year are \$82,054 in excess of the corresponding allowances for 1926. In the following table is indicated the approximate makeup of this increase:

Increase:	
Pensions and Annuities.....	\$58,604
Care of Dependents.....	75,000
Mothers' Aid.....	5,000
	<u>\$138,604</u>
Decrease:	
Soldiers' Relief.....	\$50,000
Workingmen's Compensation.....	3,700
Listing.....	1,600
	<u>55,300</u>
	<u>\$83,304</u>

During 1926 and the early part of the current year a large number of the uniformed forces in the Fire and Police Departments were retired on half pay. Because of this fact the pension rolls provided for in the annual budget show an increase in the Fire Department of \$35,000 and in the Police Department of \$27,000. These two amounts more than make up the net increase shown above under this item.

The allowance for Care of Dependents in the budget of the Public Welfare Department for 1927 is \$75,000 in excess of the similar allowance for 1926. In passing it might be stated that the 1927 allowance for this item is approximately

\$75,000 less than the actual expenditure under this item in the year just closed. Whether this saving will be actually realized is a question which can only be answered by the passage of time.

Expenditures for Mothers' Aid in the Public Welfare Department are more or less constant from year to year and the slight increase which is shown in the above table under this item is made in order to bring the allowance for 1927 close to the expenditure figure for 1926.

During recent years the expenditures under Soldiers' Relief have shown a tendency to diminish. Last year the expenditure under this item was approximately \$273,500 and it is felt that an allowance of \$300,000 (a reduction of \$50,000 over last year's appropriation) will afford the Soldiers' Relief Department a reasonable measure of safety in its expenditures under this item.

Slight reductions in the allowances for Workingmen's Compensation and listing expenses are based on the experiences and results of the past year.

MISCELLANEOUS.

A slight reduction of \$4,890.33 from the appropriations for 1926 is reflected in the current year allowances under this group. This reduction is due, in the main, to the transfer of the activities of the Conservation Bureau to the Health Department. This transfer has resulted in a material reduction in the overhead expenses which were present last year when the Conservation Bureau was functioning as a separate unit or division.

RESERVE FUND.

The Reserve Fund of the city is a lump sum appropriation which is used for the payment of claims, executions of court, court fees, expert witnesses, legal and miscellaneous expenses and for transfers. It is the only fund which the city has for use in the case of contingencies or emergencies arising after the appropriations of the year have been fixed. Last year an appropriation of \$500,000 was included in the budget under this item. The expenditures directly charged to the item during the year (see Exhibit A) totaled \$278,564.18 and there was transferred from the item to various departmental appropriations sums totaling \$182,427.76. The addition of these two amounts makes it evident that last year the requirements met by the Reserve Fund were within \$39,000 of the original amount appropriated. In view of last year's experience, it does not seem wise to provide any less sum in the budget of the current year. With appropriations totaling over thirty-one million dollars, the sum provided in the Reserve Fund represents but 1½ per cent of the total. It is hard to see how any lesser amount could be provided and still leave a margin of safety which should be present in any appropriation bill.

BRIDGES, REPAIRS, ETC.

During the year all emergency repairs made on the 191 bridges owned and maintained by the city are charged to this item. Pointing masonry piers, installation of new flooring, and the painting of an entire bridge, represent some of the items charged under this heading. For the past four years it has been customary to include in the budget allowances an appropriation of \$125,000 for this purpose. Last year the expenditures charged against this item totaled approximately \$97,500, thus leaving a balance in the appropriation of last year of approximately \$25,000. As this balance has been carried over into

the new year, it is felt that an appropriation of \$100,000 will afford the Bridge Department ample funds to meet whatever demands may be made this year in the way of bridge repairs.

FERRY IMPROVEMENTS, ETC.

Under this item are charged annually expenses in connection with major repairs made at the piers and wharves and on the boats of the Ferry Service. At the beginning of this year there was an available balance of approximately \$68,500 in this item and it was contemplated that no additional appropriation would be required this year. In the past few weeks, however, the Government inspectors have reported that the boilers on the ferryboat "John H. Sullivan" are in very poor condition and that if the boat is to be continued in operation it will be necessary to replace the present boilers with new ones. To build new boilers and install them on this boat will cost approximately \$45,000, as there is considerable decking and steel work to be torn out in order to put the new boilers in place. This expense will materially reduce the unexpended balance now available and it is felt necessary in order that necessary repairs on the piers and wharves may not be retarded that an appropriation of \$25,000 should be included in the budget allowances of the current year.

GRANOLITHIC SIDEWALKS.

In point of number probably more individual petitions for granolithic sidewalks are received in the course of the year by the Public Works Department than for any other service which this department offers to the citizens. It is estimated at the present time that petitions in excess of \$500,000 are in the offices of this department. Last year an appropriation of \$50,000 was included in the budget for this item and during the year an additional \$50,000 was transferred to the item, thus making available in 1926 \$100,000 for this work. At the beginning of this year there was available in the accounts of the Public Works Department an unexpended balance of approximately \$52,500 under this item. With an allowance of \$75,000 in this year's budget the department will have approximately \$125,000 available for this work. It is felt that this represents a reasonable program of work under this item.

STREET RECONSTRUCTION AND REPAIR.

Last year an appropriation of \$1,000,000 was included in the budget under this item. During the year \$50,000 was transferred from the item to Granolithic Sidewalks, and contracts totalling \$608,543.17 were completed. Contracts approximating \$350,000 were awarded, but, due partly to the early arrival of winter, actual work on these contracts could not be started. With an allowance of \$900,000 in the budget for 1927, the Public Works Department will be called upon to plan and supervise a street reconstruction program of approximately \$1,250,000. It is felt that this represents the maximum program which the present facilities of this department can adequately handle.

PARKWAY RECONSTRUCTION.

The estimates of the Park Department for this year under this item total \$75,000, the same amount as was allowed in the budget of last year. Included in the department's estimate, however, were

certain stretches of roadway in the Fens and park system which could under the provisions of the Parkman Fund be properly charged against the annual income of this fund. For this reason, these items have been eliminated and an appropriation sufficient to cover all the other stretches of roadway has been allowed.

PUBLIC CELEBRATIONS.

Last year an appropriation of \$60,000 was included in the budget under this item. During the year a transfer of \$10,000 was made to the item from the Reserve Fund. In connection with the sesqui-centennial celebration of Evacuation Day a grant of approximately \$5,000 was received from the Federal Government. Against these total credits of \$75,000 the sum of \$70,796.55 was actually expended during the year. Since the sesqui-centennial celebrations have now passed into history, it is felt that a slight reduction from last year's total expenditure can be anticipated in 1927 and for this reason an appropriation of \$65,000 has been allowed under this item.

CONVENTIONS, ETC.

In accordance with a recent ruling of the Attorney-General, holding that municipalities cannot legally make expenditures for the general purpose of entertaining delegates to conventions conducted within the confines of the municipality, no appropriation has been included for this purpose in the budget for 1927.

STREET SIGNS.

In order to properly designate the city streets in a systematic manner, the policy of including in the annual budget for a period of four years the sum of \$25,000 was inaugurated in 1926. This policy is continued in the budget of 1927 and an

appropriation of like amount to that included in the 1926 budget is present in the allowances for the current year.

CONCLUSION.

Appended to this brief will be found four exhibits in which are summarized important statistical data pertaining to the tax limit request of the city for the fiscal year 1927. These exhibits are entitled as follows:

A. TWO-YEAR COMPARISON OF DEPARTMENTAL ALLOWANCES.

B. TWO-YEAR COMPARISON OF ALLOWANCES BY ITEMS.

C. APPROPRIATING POWER BASED ON \$13.50 TAX LIMIT.

D. TWO-YEAR COMPARISON OF ESTIMATED INCOME.

With the presentation of these exhibits, and the schedules and explanatory matter making up this brief, the city rests its tax limit case for 1927.

The departmental allowances which have been tentatively fixed under our tax limit request have been arrived at only after months of intensive study and investigation by myself and the Budget Commissioner. All unnecessary items have been eliminated from departmental estimates, and departmental methods and procedure have been reviewed and revisions ordered in order that advantage might be taken of every possible saving. The fact that the reduction in departmental estimates closely approximates \$2,000,000, and that the increase in the budget total over that of last year is the smallest increase over a period of six years is indicative of the care and attention and conscientious effort which has been exerted by all the responsible officers of the city in the making up of this city budget. I sincerely feel that the tax limit herein requested is the smallest amount on which the city services can be efficiently maintained.

Respectfully submitted,
MALCOLM E. NICHOLS, Mayor.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Upon February 8 the Mayor approved a contract with the Boston Bridge Works, Inc., for the adjustment and repairs to the draw span of the Chelsea North Bridge. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, February 7, 1927.

To the Mayor of Boston.

Your permission is respectfully requested to the award of a contract, without advertising, to the Boston Bridge Works, Inc., for adjustments and repairs to the draw span of the Chelsea Bridge North, at an estimated cost of \$2,000.

There has been considerable trouble with the draw span of this bridge, particularly with regard to the rods holding the wheels to the turntable, and the rods holding the lower truck ring to the center, and also, with the center, and as a result of these defects there have been several derailments of electric cars.

The Boston Bridge Works, Inc., built the bridge originally and are familiar with the work, and for this reason can, in my opinion, do better work on these adjustments and repairs than any other concern.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon February 23 the Mayor approved a contract with Edward A. Reynolds for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, February 16, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Edward A. Reynolds, 17 Morley street, Roxbury, is hereby requested on the

ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon February 23 the Mayor approved a contract with the Miller Contracting Company for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

Boston, February 11, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the Miller Contracting Company, 804 Washington street, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sanitary Service).

Upon February 8 the Mayor approved a contract with the Coleman Disposal Company for the disposal of ashes and refuse in Charlestown. A communication from James H. Sullivan of the Public Works Department was as follows:

Boston, January 31, 1927.

To the Mayor of Boston.

Authority is respectfully requested to award a contract, without advertising, to the Coleman Disposal Company to dispose of the ashes and refuse of the Charlestown district, to be delivered by the city at the Fort Hill Wharf, from February 1, 1927, to December 31, 1927, at the rate of \$900 per month.

Yours respectfully,

JAMES H. SULLIVAN,
Commissioner of Public Works.

A. Piotti Company has been allowed the following addition to the contract for the East Boston High School to disconnect outlets and put covers on same, \$27.50; to furnish and install extra hardware on kitchen fixtures, \$42; total \$69.50, per architect's letter of February 2, 1927, and the amount of \$69.50 will be added therefor, making the account as follows: Contract price, \$1,105,870; total additions, \$48,499.49; total deductions, \$16,302; amount of contract, \$1,138,067.49.

EXTENSION OF CONTRACTS.

FIRE DEPARTMENT.

James F. Kavanaugh has been granted an extension of the time for the completion of the contract for completing repairs and renewals at the quarters of Engine Company 42 and Ladder Company 30, from February 10, 1927, to March 2, 1927, for the reason that inclement weather has delayed sewer work thereby holding up the rest of the work.

PUBLIC WORKS DEPARTMENT.

Joseph Capone has been granted an extension of the time of completion of the contract for the building of sewerage works in Alarie street and Louder's lane, West Roxbury, from January 31, 1927, to April 2, 1927 (sixty days).

George J. Regan has been granted an extension of time of completion of the contract for building sewerage works in Fuller, Colorado and Messinger streets, Dorchester; Ruskin road and Tyler street, Hyde Park; from January 29, 1927, to May 15, 1927 (106 days).

A. Piatelli & C. Andreasse have been granted an extension of the time of completion of the contract for the building of sewerage works in Winton street outlet, West Roxbury, from December 31, 1926, to May 2, 1927 (121 days).

John F. Shea & Co. have been granted an extension of the time of completion of the contract for repairs to city build-

ings, 650 Albany street and 32 North Grove street, dated December 18, 1926, from February 16, 1927, to March 18, 1927, a period of thirty days.

EXTRA WORK UNDER CONTRACT.

Joseph A. Singarella has been directed to perform the following extra work under contract for remodeling canopy, North Ferry, Boston. (It was discovered that the soil for the foundation was poor and as it is necessary for the contractor to do considerable excavation and placing of concrete in order to secure a satisfactory foundation for spread footings. The work around the footings will necessitate some work on artificial stone sidewalk, curb and granite block paving.) Items ordered: Construct artificial stone sidewalk, 61 square feet at 50 cents, \$30.50; concrete curb, 8 linear feet at \$2, \$16; granite block paving, on concrete base, 10 square yards at \$8, \$80; concrete below grade (including excavation) 7.6 cubic yards at \$20, \$152. Total, \$278.50. Estimated cost of extra work (agreed prices), \$278.50.

The Rendle Corporation have been directed to perform the following extra work under contract for installing dump stick on sea wall on Dorchester avenue, between Congress street and Summer street. Items ordered: Bevel back of dump stick as directed. Estimated cost of extra work, \$20.

FINANCE COMMISSION LETTER.

The Mayor has received the following letter from the Finance Commission:

Boston, February 24, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston:

SIR,—The Finance Commission acknowledges your public reply of February 9 to its private communication of January 26, relating to the proposed settlement for damages to two parcels of real estate in Dock square and Faneuil Hall square, standing in the name of Moses Shapiro, but actually owned by Joseph Paul.

Two questions are involved. The first and more important relates to the whole system of taking land for public improvements, awarding damages and settling claims.

Ever since its investigation of the scandalous methods of settling awards in the Stuart street takings the commission has urged the establishment of a system under which the Street Commissioners would be obliged in the first instance to make fair awards of damages and thereafter dissatisfied owners would be left to their remedy in court. It continues to maintain that the city should endeavor to get away from the custom of making settlements out of court with claimants persistent in their own interests and claimants with personal influence. It believes that the public avowal that the city is afraid to try damage cases is detrimental to the city's interests. It is convinced that a policy of trying in court all damage claims of dissatisfied owners would result in substantial saving for the city, not only because owners would be deterred from making unwarranted claims, but because in the long run jury awards would be fairer than settlements forced by fear or favor.

On the second and more specific question of the Dock square and Faneuil Hall square settlements, involving a profit to Mr. Paul, who has held the property less than two years, of approximately \$111,000, your Honor cited the case of one Barry, which went to the jury, intimated that the verdict was large and gave the impression that the Barry and Paul cases were analogous. The fact is that the verdict of the jury was nearly \$2,000 less than the amount awarded by the Street Commissioners before the arbitrary cut referred to in your letter, the verdict being \$148,294, and the award of the commissioners \$150,000.

In comparing the price paid by Barry with that paid by Paul, you did not mention the fact that Barry bought about five years before the improvement was authorized, but that Paul took title after the Governor had signed the bill authorizing the widening, and furthermore, in mentioning the price paid by Barry it was not disclosed that he also paid about \$13,000 in back taxes and that subsequently improvements were made on the property at an expense of about \$17,500. Your letter stated that "the Barry property was immediately adjacent to one of the properties concerned." In fact, it is 100 feet from the nearest parcel and 170 feet from the other.

It may interest your Honor to know that in connection with both the Paul lots the common trick was played by some one of attaching to the deeds more than the required amount of revenue stamps to give the appearance that a much larger sum was paid than was actually paid. Thus an examination of the records shows that the deed of the Dock square parcel bore stamps indicating that the parcel cost \$115,000, instead of

the \$85,000 actually paid, and the deed of the Faneuil Hall square parcel stamps indicating that the parcel cost \$130,000 instead of the \$100,000 actually paid. Your real estate expert was deceived by the stamps on the latter deed and was led to believe that the price paid was \$130,000 while he stated to the commission that he did not depend on the price in reaching his conclusions, he admitted that it was a fact to be considered.

It is a matter of record that other experts have figured the damages in these cases for the benefit of the city. The commission does not at this time compare the relative merits of municipal experts. It points out, however, that the Board of Street Commissioners, consisting of the same persons on whom your Honor now relies, has for years in the past employed to estimate damages, Messrs. John Beck, Richard F. Andrews and John B. Graham. Mr. Graham has not only served the City of Boston in this capacity for some twenty-five years, but is now acting in a similar capacity for the city of Fall River. It might have some weight in your Honor's mind to know that in estimating the damages to the Barry parcel Mr. Beck placed the figure at \$150,000, Mr. Andrews at \$155,000, the Board's original award before the cut was \$150,000, and the jury, as before stated, awarded only \$148,294.

The damages to the Paul lot in Faneuil Hall square were estimated by both Mr. Beck and Mr. Andrews at \$130,000, and this sum was the original award of the Board. Your real estate expert, however, estimated these damages at \$144,700. In the case of the Dock square parcel, Mr. Beck estimated the damages at \$70,000, Mr. Andrews at \$75,000, and the Board awarded \$70,000, while your expert estimated the damages at \$91,300. The differences between the figures of the experts for damages to the buildings alone is striking. Mr. Freeman said the damages to the Faneuil Hall square building were \$35,000; Mr. Graham said only \$7,000. Mr. Freeman said the damages to the Dock square building were \$20,000, while Mr. Graham said they were only \$5,500.

If your Honor would establish and maintain the policy, recommended by the commission, of trying the cases of all dissatisfied claimants of damages, the commission would not be disturbed if at times large verdicts were found against the city. The commission, however, should not assume responsibility for the outcome of the trial of the damage suits in these two isolated cases. It has performed its full duty in disclosing the facts to your Honor. The control of the trial is largely in your Honor's power. You select the attorneys to try the case. You also select the real estate expert. The commission has been informed that some land damage cases have been tried with only one expert testifying in behalf of the city, while the claimants have had a group of such experts. The trial of these cases is important enough for the city to put forth its best efforts, whatever the proper expenditures may amount to.

On your question as to whether the Finance Commission was aware of the arbitrary cut made by the Street Commissioners in the damage awards to property in Dock square and Faneuil Hall square, letters on file in the Law Department and in the Board of Street Commissioners should disclose to your Honor that the Finance Commission not only knew of that arbitrary cut, but questioned the validity of such action and protested against proceeding further with the improvement without disclosing the

facts to the Legislature and asking for the right to spend more funds.

In conclusion, the Finance Commission inquires of your Honor if you are satisfied with the present system of determining and awarding real estate damages, and settling claims therefor by the City of Boston. The commission proposed to the Legislature in the present year a bill prescribing a policy which it believed would be for the interest of the taxpayers of Boston. Your legislative agent opposed this bill. If the policy recommended by the commission does not meet your Honor's approval, will you join with it in working out and establishing a satisfactory system?

Respectfully submitted,
THE FINANCE COMMISSION,
by CHARLES L. CARR, *Chairman.*

SNOW REMOVAL WORK PRAISED.

The Mayor has received the following letter from the Boston Automobile Club:

Boston, February 22, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

MY DEAR MAYOR,—The Board of Governors of the Boston Automobile Club again wish to congratulate you and your assistants for the speedy and efficient manner in which the principal streets of Boston were cleared of snow both during and following the recent storm. According to the older members of our Board, a new time record has been established for the removal of snow from our main thoroughfares.

You will be pleased to learn that our Traffic Service Department reports that on Sunday evening, a few hours after the storm had ceased, it was able to send out the information that all of the main arteries of traffic in Boston were accessible to all kinds and types of motor vehicles.

Very truly yours,
PAUL H. HINES, *Secretary.*

APPROVES PETITION FOR
NORTH STATION GARAGE.

Mayor Nichols on February 24 approved the petition of the North Station Garage Company for the keeping of 5,000 gallons of gasoline, at 160 Causeway street. The permit for building a garage at this place has already been granted by the Board of Street Commissioners.

The location is the old Fitchburg Station, which it is proposed to tear down and erect a new modern four or five-story garage at a cost of \$1,500,000.

The petitioners are willing to set back their garage 30 feet from the line of Causeway street, which gives the city an artificial widening of the street at that point, and, in the event of a street widening, will lessen the expense.

POLICE DEPARTMENT ORDERS.

General Order No. 1037.

The resignation of Patrolman Edward S. O'Brien of Division 10 having been presented, it is hereby accepted, to take effect Saturday, February 19, 1927, at 5.45 o'clock p. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1038.

A trial board consisting of Captains Barry, McDevitt and Campbell, having heard by reference a complaint against Patrolman Robert L. Spredby of Division 10, charging him with neglect of

duty, has reported to the commissioner a finding of guilty as charged. In accordance with which, it is hereby ordered that the said Patrolman Robert L. Spredby, perform one hundred and forty hours' punishment duty.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1039.

The resignation of Patrolman Benjamin F. Stone of Division 21 having been presented, it is hereby accepted, to take effect Wednesday, February 23, 1927, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1040.

Division commanders will instruct all officers that automobiles taken possession of by them as abandoned, stolen or because of incapacity of operator to operate the same, shall be taken to the nearest available public garage and stored therein. The owner shall be notified forthwith and if the automobile is not taken by the owner within three days from the time of storage, notice in writing through the office of the superintendent will be sent to the property clerk of this fact. The property clerk will then transfer the automobile to the storage warehouse allotted under the superintendent's order of February 21, 1927, to the division upon which the car was found or seized.

In the case of seized automobiles, other than those found abandoned, seized as stolen cars or taken from operators, because of incapacity to operate, these shall be taken forthwith to the storage warehouse allotted to the division upon which the automobile was found or seized. A report in triplicate with description of automobile and engine and registration numbers, if obtainable, shall be sent to the superintendent of every automobile taken possession of by the police.

Division commanders will instruct the men that water, gasoline, oil and whenever necessary, batteries, shall be removed by employees of storage warehouses from cars placed in storage therein. Batteries will be cared for by owners of warehouses.

Responsibility will rest upon division commanders to see that all property of value found in recovered or seized automobiles is properly safeguarded.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1041.

A trial board consisting of Captains McConnell, McDevitt and Campbell, having heard by reference a complaint against Patrolman William J. Mitchell of Division 12, charging him with neglect of duty, has reported to the commissioner a finding of guilty as charged. In accordance with which, it is hereby ordered that the said Patrolman William J. Mitchell perform one hundred and forty hours' punishment duty.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 9.

I. ANNUAL BALL.

The forty-eighth annual ball of the Boston Fire and Protective Departments will be held on Wednesday evening, February 16, 1927, at Mechanics Building, Huntington avenue, Boston. It is hoped that this ball will be one of the most successful, both financially and socially, in the history of the department, and this result can be accomplished if every member of the department will put their shoulders to the wheel and render every possible assistance to the ball committee, which has been untiring in its efforts.

Members of the department detailed for duty at the ball will report to the floor marshal, Captain John H. Leary at the above mentioned hall at 7 p. m. sharp on that date, unless otherwise ordered.

Members will attend strictly to the duties assigned them.

It is the desire of the committee in charge of the ball that all aids take part

in the grand march, as well as many other members of the department as possible. The committee would also like to have as many of the members as possible attending the ball, appear in uniform.

The regulation uniform, sack coat, black shirt and tie, white gloves and aid badge, will be worn on this occasion. This applies to all members appearing in uniform, whether acting as aids or not.

By order of Fire Commissioner E. C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

General Order No. 10.

I. FIRE PREVENTION INSPECTION.

The practice of detailing members for fire prevention inspection from companies in the various fire districts is hereby abolished.

Deputy chiefs, as well as company officers and district chiefs will continue the practice of inspection of buildings

in accordance with Rules 281 and 284, and while making these inspections should they observe any violations of law, ordinance or rules, they report same to this office on Form 12.

All fire prevention badges now held by members who have been heretofore detailed to fire prevention inspection duty in the various companies will be collected by district chiefs and returned to department headquarters as soon as possible.

District chiefs and company officers will also instruct the members of companies relative to conditions existing in the various buildings in their districts, which knowledge will be of value to them in case of fire in said buildings.

II. CLASSES IN INSTRUCTIONS.

For the purpose of conducting classes each deputy chief will visit at least two fire stations in their divisions each week. On the occasions of these visits the deputy chiefs will be accompanied by the chief of the district.

The officers in command will assemble all members of the department on duty in the station with the exception of the man on patrol, and the deputy chiefs will instruct the officers and privates in their duty as firemen by lectures or otherwise. Classes will commence at 8 p. m. and continue for at least one hour.

Deputy chiefs will post in each fire station in their divisions the date on which they expect to hold a school in that house and members on the off-duty tour may attend these lectures if they desire.

Members of the company may submit written questions on fire duty to the deputy chiefs for answer at least three days before the date of the meeting.

By order of Fire Commissioner E. C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

General Order No. 11.

I. HEARING.

A hearing was held before the Fire Commissioner at 10 a. m., February 17, 1927, on a charge preferred by Captain Daniel W. Baker, Drill Master, against Hoseman Cornelius J. Harrington of Engine Company 46.

Charge: Violation of Rule 374, Section j.

Specification: In attempting to perform the evolution in connection with the annual drill which calls for the running of a line of hose from the hydrant to the deluge set, Hoseman Harrington was unable to operate the high pressure hydrant in the drill yard owing to his stupid condition due apparently to his being under the influence of liquor or drugs. I relieved him from duty for about ten minutes and then he seemed to straighten up and continued with his work. This incident occurred at the afternoon session, February 7, 1927.

Plea: To charge and specification: Not guilty.

Finding: To charge and specification: Guilty.

Sentence: Suspended from duty, without pay, for two weeks, commencing at 5.30 p. m., February 7, 1927.

By order of Fire Commissioner E. C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

WEALTH AND TAXATION.

Total assessed valuation of real estate on April 1, 1924, in the 39 cities and 316 towns of Mass., \$5,249,628,907 (\$283,-567,249 more than in 1923) of which 60.85 per cent applied to buildings and 39.15 per cent to land; of personalty, \$1,046,215,516; aggregate valuation, \$6,-295,844,423 (5.44 per cent increase over 1923) on which the total tax levy was \$176,859,926, showing an average tax rate of \$27.71 per \$1,000. Boston's valuation (\$1,808,569,298) equal to more than 40 per cent of all other valuations in Mass.

Massachusetts ranks fourth in amount of Federal income tax paid, this total being \$109,857,344 in year ended June 30, 1924. N. Y., Penn. and Ill. rank first, second, and third.

Total taxes assessed by Mass. (exclusive of \$10,000,000 State Tax on municipalities) in year 1924, \$44,068,996, divided thus: Income tax, \$15,211,192; business tax on domestic corporations, \$11,448,89; same on foreign corporations, \$2,528,470; inheritance tax, \$6,484,110; franchise tax on 252 out of 403 public-service companies making returns, \$2,-447,692; on insurance premiums, etc., \$2,558,523; on savings bank deposits (incl. Trust Co. Savings Depts.) \$2,194,-323; on national banks, \$935,408; all other, \$261,189. Additional 10 per cent assessment of \$3,382,976 under Chap. 487 of 1923, to pay refunds to national banks for excess taxation.

Number of Mass. income tax returns received in 1924, 327,354, of which 213,-221 were found taxable. Total taxable income reported for 1923 and assessed in 1924, \$467,320,201, divided thus: Business income, \$268,793,704; interest and dividends, \$167,053,669; gains, \$29,787,-328; annuities, \$1,685,500.

Total distribution of income tax to Mass. cities and towns in 1924, \$13,972,-422 (\$1,215,238 more than in 1923) of which Boston's share was \$3,554,002; distribution of business, public-service, etc., taxes, \$14,073,870, of which Boston received \$3,110,115. Number of business corporations taxed, 22,104, of which 2,755 were foreign.

Total property in Mass. exempted from taxation in 1924, \$1,138,209,926 (mostly real estate) divided thus: Public property of cities and towns, \$488,136,195; of literary and scientific institutions, \$196,737,667; of United States, \$141,772,-499; of churches, \$108,583,064; of charitable and benevolent institutions, etc., \$80,795,278; of State, \$85,371,327; of counties, \$15,940,489; cemeteries, etc., \$12,641,996; all other, \$8,231,411. In Boston, the total exempt property in 1924 was \$355,485,100 or 31.23 per cent of all in Mass.

The total wealth in the United States on Jan. 1, 1923 as ascertained by the Federal Census Bureau, was \$320,803,862,-000 or \$2,918 per capita. This is an apparent increase of 72.2 per cent in the 10 years since 1913. The value of real estate, with improvements, amounted to \$155,908,625,000, not including public, ecclesiastical and institutional property exempt from taxation, which amounted to \$20,505,819,000.

The increase in money value of other classes of property is largely due to the price inflation of recent years and should not be represented as a permanent increase in the quantity of wealth.

In Massachusetts the total wealth increased 106.7 per cent or from \$6,279,-

266,000 in 1913 to \$12,980,839,000 in 1923, the latter averaging \$3,243 per capita.

On June 30, 1924 the 8,085 national banks in U. S. had aggregate capital of \$1,334,011,000; deposits, \$18,347,837,000; total resources, \$22,565,919,000.

PORT OF BOSTON.

Boston comprises an area of about 47 square miles, (exclusive of the islands) including all the expanse of tidewater within a straight line from Point Allerton to Point Shirley and extending therefrom to the mainland. It is the best of natural harbors, near open sea, sheltered and spacious for anchorage; main ship channel 35 feet in depth at mean low water, increasing to 40 feet from President Roads to open sea; new dredging operations in charge of U. S. engineers are under way for increasing depth of said main channel to 40 feet; waterfront (i. e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water.

Commonwealth Pier No. 5, South Boston 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fire-proof buildings of steel and concrete construction, containing 900,000 square feet of floor space, total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston, (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. Commonwealth Pier, No. 1, East Boston, 900 feet long, costing State \$764,600 for site and \$426,674 for construction. New dry dock at South Boston (probably the largest in the world), completed in 1919, 1,200 feet long and 120 wide, costing \$3,169,651 and taken by U. S. Government at total cost.

Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 143, of which 8 are owned by the City.

There are 32 foreign steamship lines with regular sailings to and from Boston and 18 coastwise lines (5 to Pacific ports). In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Pt. will be filled in and used for extensive commercial developments under State control. About 175 acres of flats have recently been filled in and added to the land area of East Boston and 160 acres to that of South Boston.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased from the State, the price being \$1,317,510, soon followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was \$26,000,000.

Total expenditure by State for improvement of Boston Harbor \$21,968,003, from 1859 to 1924, inclusive; total Federal expenditure from 1790 to June 30, 1924, \$13,148,538.

BOSTON PARK DEPARTMENT.

Number of large parks, 24; separate playgrounds, 50, with total of 354.82 acres, also 13 playgrounds in parks with area of 156 acres; small parks and squares, 69.72 acres; total area, 2,647.68 acres. Cost of Main Park System, i. e., 1,389.40 acres (incl. Common and Public Garden, 72.65 acres) land and construction (since 1877 when begun) \$12,781,042; of Marine Park System, i. e., 457.9 acres (since 1883), \$5,509,388; of all other parks, playgrounds, etc., \$7,647,051. Total cost, \$25,937,481, of which \$10,192,754 is for land and \$15,744,727 for construction.

The leading attraction of the main park system is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, also 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1925 being \$4,935,920. There are also within the City limits 964 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury and Hyde Park districts, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; indoor gymnasia, 11; summer beach baths, 9.

Park Department maintenance for 1924 (including Cemetery Div., \$163,908) \$1,646,541 or \$9,661 less than in 1923. Outlay for playground improvements, \$374,246; for park improvements, \$429,-743, of which \$233,902 was from Parkman Fund income.

Gross debt for parks, public grounds, etc., outstanding Feb. 1, 1925, \$6,190,800; for playgrounds, \$2,653,500; total \$8,844,300 or \$1,902,000 less than in 1924.

Including the State assessments of \$1,020,907 for Metropolitan parks, boulevards, etc., and \$230,088 for Charles River Basin, also the City's outlay for permanent park and playground improvements, or \$803,989, the total expended for public recreation purposes in 1924 was \$3,537,616.

AREA OF BOSTON TO WARD LINES.

Total, 30,598 acres (i. e., 47.81 square miles), 2,944 acres being filled land, 1,143 acres water area and 1,436 acres flats, land area only, 28,019 acres (i. e., 43.78 square miles). Included in the latter are 160 acres of filled flats recently added to the land area of South Boston and 175 acres to that of East Boston.

Original Boston contained about 780 acres of land. Of the twelve leading American cities, eight are larger in land area than Boston, viz., Los Angeles (364 sq. miles), New York (318), Chicago (199.4), Philadelphia (129), Baltimore (91.9), Detroit (80), Cleveland (56.6), and St. Louis (61.25). The only city in Massachusetts with larger land area is Taunton (50 sq. mi.).

If Boston should expand by annexations as New York, Chicago, Philadelphia, Los Angeles and others have expanded, its total area, in case of including the 39 cities and towns within the 15-mile radius, would exceed the largest, viz., Los Angeles, the present land area of "Greater Boston" being 409.3 square miles.

PROCEEDINGS OF CITY COUNCIL.

Monday, February 14, 1927.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President HEFFERNAN in the chair. Absent, Coun. Wilson.

BRANCH LIBRARY, CHARLESTOWN.

The following was received:

City of Boston,
Office of the Mayor, February 12, 1927.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Boston Public Library in reply to your order of January 17, 1927, relative to establishing a branch library on Bunker Hill street, Charlestown Heights.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Library Department, February 8, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—At a meeting of the trustees held on Friday last, Councilor Green's order adopted by the City Council on January 17, that a branch library be established on Bunker Hill street, Charlestown Heights, was presented to the Board.

I have been directed to reply that a subcommittee of the trustees and of the Examining Committee have been appointed to co-operate with the library authorities in determining where new branch libraries are to be established, provided the sums for such purposes in the current budget are allowed. The Bunker Hill street location will be given careful consideration.

Very truly yours,
CHARLES BELDEN,
Director.

Placed on file.

VETO BY MAYOR.

The following was received:

City of Boston,
Office of the Mayor, February 12, 1927.
To the City Council.

Gentlemen,—Referring to the following resolutions:

1. Legislation to authorize the city to borrow money outside the debt limit for the widening of Dorchester avenue;

2. Legislation to authorize the city to borrow money outside the debt limit for the building of a bridge over a railroad located near the Morton street station;

3. Legislation to authorize the city to borrow money outside the debt limit for the widening of River street, from Mattapan square to Pierce square;

I would refer to Joint Rule 7B of the Legislature which requires the specific approval of the Mayor and City Council and I am unwilling to approve these matters and hereby return them without my signature.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

Placed on file.

COUNTY OF SUFFOLK BUDGET.

The following was received:

City of Boston,
Office of the Mayor, February 12, 1927.
To the City Council.

Gentlemen,—I submit herewith the budget for the County of Suffolk for the fiscal year 1927. In past years it has been customary to defer the submission of this document until such time as the city budget was ready. I am departing from this policy this year in order that your honorable body may have ample time to study the estimates and allowances as herewith submitted.

The allowances as recommended total \$3,492,759.31. This total represents a reduction of \$169,581.51 in the estimates as originally submitted, and is \$78,674.28 less than the total county requirements for 1926. I respectfully recommend the adoption of this budget by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

County of Suffolk Appropriations and Tax Orders for the Financial Year 1927.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1927, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston or County of Suffolk or the departments or officers thereof, and to meet their obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money specified in the tables and schedules hereinafter set out be and the same are hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on December 31, 1926, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation, and by the income of the financial year beginning January 1, 1927, and taxes to the amount of \$3,492,759.31, and that said amount be raised by taxation on the polls and estates in the City of Boston.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any depart-

ment or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city and county and all taxes assessed for meeting the city's proportion of the state tax for the year 1927, be due and payable on the fifteenth day of September, 1927; that interest shall be charged on all taxes remaining unpaid after the second day of October, 1927, in accordance with the provisions of chapter 59, section 57, of the General Laws, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the fifteenth day of September, 1927, until paid; and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purposes or item; and except as aforesaid, no salary or wages shall be paid in excess of the rate specified in said tables and schedules.

CONVEYANCE OF LAND, FOREST HILLS CEMETERY.

The following was received:

City of Boston,
Office of the Mayor, February 14, 1927.
To the Honorable the City Council.

Gentlemen,—Enclosed please find an order authorizing the Mayor of the City of Boston to convey to the Forest Hills Cemetery 6,906 square feet of land on Morton street, reserving to the City of Boston the right to retain ownership of a water pipe now located on said 6,906 square feet, on condition that the said Forest Hills Cemetery, upon the payment of \$19,000, convey to the City of Boston 90,490 square feet of land taken for the widening of Morton street and dismiss a suit against the City of Boston for damages on account of said taking.

The Board of Street Commissioners of the City of Boston by a resolve and order approved by the Mayor of said city October 13, 1925, relocated Morton street, between near Canterbury street and near Morton road. By this order 90,490 square feet of land belonging to the Forest Hills Cemetery were taken and about 6,906 square feet of land or what was part of old Morton street was not contained within the limits of the new street as relocated. The Board of Street Commissioners awarded as damages on account of this taking the sum of \$19,000 which was accepted by the Forest Hills Cemetery. At the time of the making of this award it was supposed that the parcel of land left out of the new street would revert to the Forest Hills Cemetery by reason of the relocation. The

Street Commissioners at the time of the making of the award understood that the damages were to cover the damage to the fence of the Forest Hills Cemetery Association and remaining land of the said cemetery, and the said association did not care to have damages for the value of the land taken but were willing that the city should have the land.

When Roxbury was annexed to Boston, title to the fee of old Morton street passed to the City of Boston. Upon this relocation of Morton street there was a reverter to the City of Boston of so much of old Morton street as was situated outside the lines of the new street to the City of Boston free from any easement. The Cemetery Association had accepted the \$19,000 award under the misunderstanding that the fee of old Morton street outside of the relocation would revert to it. The cemetery has now brought suit against the City of Boston asking for damages occasioned by the taking.

The piece of land which was originally a part of old Morton street and which was left out of the new Morton street by its relocation is of practically no value to the City of Boston for street purposes. The said piece of land not being part of the highway might now become a detriment to the city because the city would be obliged to maintain it as land adjoining a highway. Forest Hills Cemetery is desirous of building its fence out to the street line and would be willing to dismiss the above-mentioned suit and accept the \$19,000 award for all damages occasioned by the said taking if the city would convey to it for a nominal

consideration the land which reverted to the City of Boston on said relocation.

At the request of the Law Department, Mr. Warren F. Freeman has made an examination of the land with the object of giving the value of the land which the city took for street purposes and the value of the land which reverted to the city by reason of the relocation. The city took by the above-mentioned taking for street purposes 90,490 square feet of land, which Mr. Freeman values at 20 per cent per square foot, making the value of said land \$18,094. By reason of the relocation above referred to 6,906 square feet of land reverted to the City of Boston, which Mr. Freeman valued at 20 cents per square foot, making the valuation of said land \$1,381.20.

Taking into consideration, therefore, the misunderstanding of the parties at the time of the original settlement, I think that it will be a fair thing for the city to convey the 6,906 square feet to the Forest Hills Cemetery in accordance with the terms of the enclosed order, and I recommend the passage of the said order.

Respectfully submitted,
MALCOLM E. NICHOLS, Mayor.

Whereas, The Board of Street Commissioners of the City of Boston by a Resolve and Order approved by the Mayor of said City of Boston October 13, 1925, relocated Morton street between Canterbury street and near Morton road; and

Whereas, By said taking the said Board took for street purposes 90,490 square feet of land belonging to the Forest Hills Cemetery; and

Whereas, 6,906 square feet of land of what was part of old Morton street was outside of the limits of the new street as relocated by said resolve and order;

Now, Therefore, be it Ordered, That the Mayor of said City of Boston be authorized and he hereby is authorized in the name and behalf of said City of Boston to convey for a nominal consideration to the said Forest Hills Cemetery by an instrument in writing satisfactory in form to the Law Department of said City of Boston all the right, title and interest which the said City of Boston has in and to the said 6,906 square feet, reserving to the said City of Boston the right to retain the ownership of the water pipe now located in said 6,906 square feet, and reserving also to the said City of Boston the right to go upon the said 6,906 square feet at any and all times for the purpose of maintaining, using, repairing and reconstructing the said main or building any other main within the said 6,906 square feet, and the said conveyance is to be made upon condition that the said Forest Hills Cemetery at the same time of the conveyance to it by the said City of Boston of the said 6,906 square feet shall convey to the said City of Boston by a street deed in form satisfactory to the Law Department of the said City of Boston, the said 90,490 square feet of land and shall upon the payment of the sum of \$19,000 dismiss the suit now pending against the City of Boston for damages on account of the taking of said easement by the resolve and order aforesaid and shall release the said City of Boston from all claims for damages by reason of or in any way growing out of said taking.

Referred to Committee on Public Lands.

LAND ON CHARLES STREET, CHARLESTOWN.

The following was received:

City of Boston,
School Committee, February 11, 1927.

Mr. Wilfred J. Doyle,
Assistant City Clerk,

Dear Sir,—At the meeting of the School Committee of Monday, February 7, 1927, the Board took up for further consideration the communication from the superintendent submitted to the School Committee at the meeting of January 10, 1927, in reply to the order passed by the City Council on November 29, 1926, requesting the School Committee, through his Honor the Mayor, to consider the advisability of taking land at the corner of Charles street, Charles Street place, and Schoolhouse court, Charlestown, for school extension purposes.

At this recent meeting of the committee a communication was received from the Director of School Hygiene in response to the request of the School Committee that the director report to the committee his opinion as to the necessity of taking the land in question in the interest of the health of the school children.

The Director of School Hygiene, Dr. John A. Ceconi, reports that the Rand & Ryan Soap Company factory, located on the land in question, has been in existence since 1816; that up to thirty years ago an offensive odor or an effluvia was popularly supposed to be a deadly emanation which produced communicable disease and ill health; that for over a score of years the science of public health has been teaching that these factors are not demonstrable detriments to health; and finally, the Director of School Hygiene is of the opinion that this is not a health problem affecting the school children; that, if anything, the factory is a nuisance; and if it is a public health nuisance, the only department that can function in the abatement of such nuisance is the local health department.

The report of the Director of School Hygiene was accepted. The report of the superintendent of Schools was likewise accepted and a copy ordered sent to the City Council as the committee's reply to the order passed November 29, 1926.

Very truly yours,
ELLEN M. CRONIN, Secretary.

Boston, January 10, 1927.

To the School Committee:

At the meeting of the School Committee of December 6, there was referred to the superin-

tendent an order passed by the City Council on November 29, 1926, requesting the School Committee, through his Honor the Mayor, to consider the advisability of taking land at the corner of Charles street, Charles Street place and Schoolhouse court, Charlestown District, for school extension purposes.

At the request of the superintendent, the Board of Apportionment gave careful consideration to this request of the City Council, and reported to the superintendent that in its opinion it is inadvisable to recommend the purchase of this property, since there are other more urgent needs for which appropriation should be made. There has recently been acquired for the pupils of the Bunker Hill and Thomas Starr King Schools playground area amounting to 9,863 square feet. This, in addition to about 5,000 square feet recently transferred from the Park Department, makes a total of newly-acquired area of 14,863 square feet. Furthermore, the School Committee has in contemplation the erection soon of a large central intermediate school in Charlestown. This building, when completed, will relieve all the other districts of their seventh, eighth and ninth grades. At that time it is quite likely that the Thomas Starr King building, which is very old and which adjoins the Bunker Hill School will be abandoned, and thus adequate play space will be provided for the pupils.

The superintendent concurs in the opinion of the Board of Apportionment, and recommends that a copy of this communication be sent to the City Council as the School Committee's reply to the order passed by the City Council on November 29, 1926.

Respectfully yours,
JEREMIAH E. BURKE,
Superintendent of Public Schools.

Placed on file.

MINORS' LICENSES.

President HEFFERNAN submitted report recommending granting of minors' licenses to eighty-nine newsboys and seven vendors, under usual conditions. Report accepted, said licenses granted.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President HEFFERNAN called up, under unfinished business, Nos. 1 and 2 on the calendar, viz.: Action on appointments submitted by the Mayor, February 7, 1926, viz.:

1. Joseph S. Halbert, Albert Olem, Lewis E. Weinberg, Jefferson H. Parker and Joseph Weiner, to be Constables.

2. Thomas W. Berridge and Walter F. Mager, to be Weighers of Coal.

The question came on confirmation. Committee, Coun. Green and Dowling. Whole number of ballots 17, yeas 17, nays 0, and the appointments were confirmed.

DISPLAY OF FLAGS.

Coun. DOWLING offered the following:

Ordered, That his Honor the Mayor be requested to issue a proclamation to the citizens of Boston requesting a general display of the American flag on all private residences and business places on Tuesday, February 15, which date has been designated by his Excellency Alvan T. Fuller as Spanish War Memorial Day and Maine Memorial Day.

Coun. DOWLING—Mr. President, I have in my hand a proclamation issued by his Excellency the Governor calling attention to the fact that February 15 is the memorial day of the Spanish War Veterans, the Maine Memorial Day. The 15th of February is the anniversary of the sinking of the battleship "Maine" in Havana Harbor, which called to the colors perhaps the last volunteer army that this country may ever see. As a member of one of the Spanish War organizations in this state, I have followed with interest the activities of the organizations, and it is fitting that the City of Boston should follow in the footsteps of the Governor in this matter, setting apart a day that will be a memorial day for the veterans of the Spanish-American War. Therefore, I ask the passage of the order under suspension of the rule.

The order was passed under suspension of the rule.

REPAVING OF HYDE PARK AVENUE.

Coun. WRAGG offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave Hyde Park avenue, between Metropolitan avenue and Ashland street, Ward 18, with a smooth pavement.

Passed under suspension of the rule.

REMOVAL OF CAR TRACKS, HYDE PARK AVENUE.

Coun. WRAGG offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to remove the car tracks on Hyde Park avenue,

between Dana avenue and Wolcott square, Ward 18, and resurface the street between these points with a smooth pavement.

Passed under suspension of the rule.

SPECULATION IN THEATER TICKETS.

Coun. RUBY offered the following:

Ordered, That a committee of three members of the City Council be appointed to conduct an investigation into the speculation in theater and moving picture house tickets in the City of Boston, and to submit a report to the City Council with such recommendations as the committee may deem warranted.

Referred, on motion of Coun. RUBY, to the Executive Committee.

BRANCH LIBRARY, FRANKLIN PARK.

Coun. RUBY offered the following:

Ordered, That the Library Trustees be requested, through his Honor the Mayor, to establish a branch library in the Refectory Building at Franklin Park.

Passed under suspension of the rule.

LEASE OF ELMWOOD STREET GYMNASIUM.

Coun. McGRATH, for the Committee on Public Lands, submitted a report on the order transmitted by the Mayor (referred January 31) authorizing the Mayor for the city to execute and deliver to James J. Mahoney Roxbury Post, Veterans of Foreign Wars, No. 457, a lease of building commonly known as the Elmwood Street Gymnasium, on Elmwood street in the Roxbury district, formerly used as a gymnasium, said lease to run for a term of five years beginning November 1, 1926, the premises to be used for Post headquarters, etc.,—that the same ought to pass.

Coun. FITZGERALD—Mr. President, I would like to ask the chairman of the committee one question with reference to that order. Is that building used for political purposes, for meetings at election time?

Coun. McGRATH—Mr. President, I cannot answer that question, but probably Coun. Ward can do so for me.

Coun. WARD—That building is used on election days as a precinct polling place.

Coun. FITZGERALD—Mr. President, my purpose in rising is this. During the past three or four years it has become quite a fad in this city to turn over our public buildings to organizations for the sum of \$1, and we then find at about election time, when there is a call to use those buildings for public meetings and rallies, that they have been set aside to certain citizens for these particular purposes and are not available. Therefore, in some cases you have to go to the extreme ends of the ward to get places where the citizens can meet. In the ward where I reside we find that now we are even without a public building to hold political rallies or meetings in. That was my reason for rising at this time to find out the facts in this case. I think in all such leases there should be a clause to the effect that when political organizations or candidates for office desire to use the buildings for rallies or meetings, they should be allowed to do so, because many times we find that such buildings, erected for just such purposes, so that citizens may have an opportunity to assemble peacefully for meetings interesting them at any time, are not available because of just such action as it is proposed that we take here today. We often find ourselves unable to hold public meetings, possibly in protest against something that concerns the public, and have to hire a hall. I think in all the leases from now on a clause should be included that at election times or other times when meetings of the citizens might properly be held, they may not find such buildings closed to them, buildings that the citizens have paid for.

Coun. McGRATH—Mr. President, if the councilor will offer an amendment to that effect, I should be perfectly willing to have the amendment included in the order.

Coun. GREEN—Mr. President, I think it would be better to have the order recommitted, and I make a motion to that effect.

Coun. WARD—Mr. President, in regard to this special order reported by the committee, let me say that the Elmwood Street Gymnasium, as it was formerly called, was used simply as a basketball court but since such activities have been transferred to the Cabot Street Bath House there has been no use for the Elmwood Street Gymnasium. I believe the only day in the year when the city uses this building is on election day, when it is used as a precinct booth.

Coun. FITZGERALD—Mr. President, right there,—I understand the councilor to say that it was only used for basketball purposes. An opportunity to play basketball is a crying need in this city today. It would seem that the young men there are now deprived of the use of the building for basketball, which has become one of our leading winter indoor sports. One of the main reasons today why many of our young men are spending their time in State's Prison, in Charles-

town or Concord, is that they have had no place to go for amusement and recreation other than the street corners. I believe the Elmwood street building is a long distance from Cabot street. I think this is in Coun. Freeley's district, and if this building is abandoned, the boys will have just so much less opportunity to play basketball or indulge in indoor sports. I think this order should be very carefully considered, looked into.

Coun. FREELEY—Mr. President, while the Elmwood street building has in the past occasionally been used for basketball, I understand that it was never very well fitted for that purpose, and that conditions are much better in the Cabot street building, which is not such a long distance away. I might say that the Roxbury Post of Veterans of Foreign Wars has been using the building for the past five years, and I don't know why there should be objection at the present time when it is proposed that the Legion be given an opportunity to use it. I think this lease should be granted, without any question.

Coun. WARD—Mr. President, I would say that this Elmwood Street Gymnasium happens to be in my district, and that it is not the most appropriate place in the world for men and boys to go for games. Such activities in the district are now centering in the Cabot Street Bath House, which is properly fitted up for that sort of thing and is easy to get to. I don't know of any people who care to utilize the Elmwood street building for a meeting place. I know personally that I have always been interested in politics, and I know, when it comes to holding public meetings, that there are five or six other places where the people of the district would rather go than to the Elmwood street building. It is out of the way. There are never any rallies at the Elmwood Street Gymnasium, so I don't think there can be any controversy over that question.

Coun. FITZGERALD—Mr. President, I want my position to be correctly understood. Having had to consider and deal with this question of places for rallies in different parts of the city for the last few years, I will simply say that we have found ourselves up against this proposition, not only in my own ward but in different sections of the city, that the public buildings were being used for the benefit of different posts or organizations and that the people in general have been deprived of their right to use such buildings for public meeting places. In my own district we find the buildings absolutely closed against them. When the councilor spoke of the only use for the place being for basketball, the situation of many of the boys in my section immediately occurred to my mind. I know how hard it is to get places for that sort of thing and how hard it is for boys interested in such sports to get a place where they can indulge in them today. Even the public parks are taken up by the so-called professionals and the boys have no opportunity. I was simply speaking in their interests, as they have no opportunities today as they should have for indulging in such sports, and the citizens around election time do not have the chance they should to avail themselves of such buildings for public meetings. In the matter of sports, everything is being commercialized, and when that order was read I simply wanted to find out if it meant that that place could no longer be used for such uses as I have suggested, as a public building. Therefore, it occurred to me that a provision might be put in the lease that at election times at least it might be used for public rallies and meetings.

The motion to recommit was declared lost.

Report accepted, order given its first reading and passage, yeas 19, nays 0.

REPAVING OF MAYWOOD STREET.

Coun. BUSH offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Maywood street, Ward 12.

Passed under suspension of the rule.

REPAVING OF BEECH GLEN STREET.

Coun. ENGLERT offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Beech Glen street, Ward 11.

Passed under suspension of the rule.

PLAYGROUNDS FOR CHILDREN.

Coun. GREEN offered the following:

Ordered, That the Park Commission and the City Planning Board be requested, through his Honor the Mayor, to make a comprehensive study and report to the City Council as to the advisability of taking by eminent domain land in the various sections of the city, where dilapidated structures now stand, to be used for mothers' rests and playgrounds for small children.

Referred, on motion of Coun. GREEN, to the Executive Committee.

REPAVING OF CAMBRIDGE STREET, CHARLESTOWN.

Coun. GREEN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Cambridge street, Charlestown.

Passed under suspension of the rule.

SEMAPHORE AT FAY SQUARE, CHARLESTOWN.

Coun. GREEN offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to place a semaphore at Fay square, in the Charlestown district.

Passed under suspension of the rule.

EXAMINATION OF RESTAURANT EMPLOYEES.

Coun. GREEN offered the following:

Ordered, That all persons engaged in the handling of food supplies, such as meats, etc., and all employees of restaurants and lunch rooms engaged in the preparing and dispensing of foods in the City of Boston be required to appear before the Health Commissioner every three months to undergo a physical examination as a means of preventing the spread of communicable diseases.

Referred, on motion of Coun. GUILD, to the Executive Committee.

INFORMATION FROM CORPORATION COUNSEL.

Coun. FITZGERALD offered the following:

Ordered, That the Corporation Counsel at his earliest convenience, through his Honor the Mayor, be requested to answer for the information of the Council, the following questions relating to the agreement referred to by him in his opinion dated February 4, 1927.

1. Is Harvard University a school or institution of learning, whether under public control or otherwise, wherein any denominational doctrine is inculcated?

2. Is Harvard University a school, college, institution, or educational undertaking, which is not publicly owned and under the exclusive control, order and superintendence, of public officers or public agents authorized by the Commonwealth or Federal authority or both?

Coun. FITZGERALD—Mr. President, my purpose in offering that order is to request the Corporation Counsel, through his Honor the Mayor, to answer those two questions, in view of the fact that an opinion has already been rendered and referred to the Committee on Libraries. In order that the matter may be intelligently discussed here or before the committee, it will be necessary to get the information requested in the order I have offered. I do not desire to take up the matter until I have an understanding of it such as may be obtained from an answer to the questions I have asked.

Coun. WARD—Mr. President, I move that the order be referred to the Executive Committee.

Coun. Ward's motion to refer to the Executive Committee was declared carried.

Coun. FITZGERALD—Mr. President, I would like to ask the reason for reference to the Executive Committee.

Coun. WARD—Mr. President, if the councilor from the West End desires the order held up by reason of the fact that we are awaiting an opinion from the Corporation Counsel, I don't think the matter should be discussed until the Corporation Counsel has answered the questions asked by the councilor from the West End.

Coun. FITZGERALD—Mr. President, I said I did not desire to discuss or to consider the matter until the questions were answered. The other matters are now in the Committee on Libraries. I do not wish to enter into any debate or controversy upon the matter today. I simply want the questions answered. The other matters are, as I say, now before the Committee on Libraries.

The order stood referred to the Executive Committee.

SIDEWALK, SAVIN HILL AVENUE.

Coun. McGRATH offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Savin Hill avenue in front of Nos. 10 and 12, Ward 13, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

REINSTATEMENT OF FRANK FASANO.

Coun. MAHONEY offered the following:

Resolved, That the City Council of Boston favors the enactment of legislation to authorize

the reinstatement of Frank Fasano as a member of the Police Department of the City of Boston. Passed under suspension of the rule.

BRIDGE BETWEEN MARINE PARK AND CASTLE ISLAND.

Coun. MAHONEY offered the following:

Ordered, That the Park Department be requested, through his Honor the Mayor, to make necessary repairs to the bridge between Marine Park and Castle Island in order to insure the safety of the public during the coming season.

Passed under suspension of the rule.

IMPROVEMENT OF LIGHTING SYSTEM, ROXBURY.

Coun. DOWD offered the following:

Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be requested to include in the budget for the year 1927 a sum sufficient to improve the lighting system in Roxbury.

Referred, on motion of Coun. DOWD, to the Executive Committee.

WIDENING OF DUDLEY STREET.

Coun. DOWD offered the following:

Resolved, The City Council hereby approves the enactment of legislation to authorize the City of Boston to borrow money outside the debt limit for the widening of Dudley street in the Roxbury district of said city.

Coun. GUILD—Mr. President, I move reference of the resolution to the Committee on Legislative Matters.

Coun. DOWD—Mr. President, I might say in presenting that resolution that I am doing so out of courtesy to a colleague of mine who represents my ward in the Legislature. I am heartily in accord with reference of the matter to the Committee on Legislative Matters.

The resolution was referred to the Committee on Legislative Matters.

REPAVING EAST COTTAGE STREET.

Coun. DOWD offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving East Cottage street, from Dudley street to Norfolk avenue, Ward 8.

Passed under suspension of the rule.

IMPROVEMENT OF ORCHARD PARK, ROXBURY.

Coun. DOWD offered the following:

Ordered, That the Park Department be requested, through his Honor the Mayor, to expend the sum of \$5,000 in improving Orchard Park, Roxbury, Ward 8, to be charged against the income of the Parkman Fund.

Passed under suspension of the rule.

HEALTH UNIT IN ROXBURY.

Coun. DOWD offered the following:

Ordered, That the trustees of the George Robert White Fund be requested, through his Honor the Mayor, to consider the establishment and maintenance of a health unit in Roxbury.

Coun. DOWD—Mr. President, I rise to speak on this order because our president is now a member of the George Robert White Fund Board. I want to call the attention of the President, the Mayor of Boston and the members of the City Council to the fact that Roxbury is today represented in the City Council by five members. Coun. Bush represents a large section of it; Coun. Ward represents a large section; Coun. Freeley represents another section, Coun. Englert another, and there is a section of Roxbury that I represent. Roxbury, to my mind, has more suffering than perhaps any other section of the city, with the possible exception of the North End. The North End has a health unit, East Boston has one, and South Boston is now having one erected. I hope, therefore, Mr. President, when there is future discussion in reference to this matter in that honorable board, you will take it up and advise the Board that Roxbury, with a population of about 95,000, has not a health unit, whereas these other sections have. I do not speak because I have a desire necessarily to have a health unit placed in my particular ward, but I believe that the five councilors from Roxbury could very well get together and agree upon a place for such a unit which will be agreeable to all concerned.

Coun. GREEN—Mr. President, I disagree with the councilor who has just taken his seat. I don't think there is any more suffering in the Roxbury district than there is in my humble district and I hope, you, Mr. President, sitting

on that Board as President of the Boston City Council, when you are acting as a trustee of the George Robert White Fund, will do so with an open mind.

Coun. WARD—Mr. President, about ten months ago I placed a similar order before this body, which was passed under suspension of the rule, and I spoke with some of the members of the George Robert White Fund Board, including our ex-president, who at the time was a member of that Board. I then pointed out to him, as I intend to point out to our present President, the necessity of placing a health unit in Ward 9. Certainly there should be such a unit in Roxbury because, as Coun. Dowd has stated, Roxbury contains probably the biggest population of any section of the city at the present time. There is no part of the City of Boston with a more congested population, and I hope the matter may be taken up by you personally, Mr. President, outside of the Council meeting, impressing upon the other members of that Board the necessity of a health unit in that district.

Coun. BUSH—Mr. President, while I have no objection to the councilor's order, myself, and while I also feel that perhaps a health unit might be of great benefit to the Roxbury district, we must not forget that the George Robert White Fund provides only for the building of a health unit and not for its maintenance. The maintenance has to come out of the City of Boston. Besides we in Roxbury are within a short distance of the City Hospital, and it is not very difficult to get there, as far as the health of the people, children or adults, is concerned. I don't think a health unit should be constructed out of that fund in that section.

Coun. DOWD—Mr. President, I realize full well that the upkeep of projects constructed through the George Robert White Fund is tremendous, but I very much question Coun. Bush's statement that it is not difficult to go from our section to the Boston City Hospital, and his feeling that a health unit is not necessary in our district. I certainly very much disagree with the councilor on the matter of the necessity of such a health unit. If I remember rightly, both councilors Bush, Dowd and myself, in fact all the councilors from Roxbury, pledged ourselves when we were going before the people, to work hand in hand to bring a clinic to Roxbury, through the George Robert White Fund.

The order was passed.

CLOCK IN COUNCIL CHAMBER.

Coun. KEENE offered the following:

Ordered, That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to include in his budget for the present year a sum sufficient to provide for the repair of the clock in the City Council Chamber.

Passed under suspension of the rule.

BOARD WALK, PARKER HILL AVENUE.

Coun. FREELEY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to replace the board walk on the south side of Parker Hill avenue, from Parker street to the Robert Bent Bigham Hospital, Ward 10.

Passed under suspension of the rule.

PURCHASE OF ELEVATED STRUCTURES

On motion of Coun. DOWD, No. 3 on the calendar was taken from the table, viz.:

3. Resolved, That the Boston City Council favors the plan proposed by former representative Luke D. Mullen of Charlestown calling for the purchase of the elevated structures, their removal and the substitution of subway or tunnel transportation.

Coun. DOWD—Mr. President, I now move you, sir, that the words "proposed by former Representative Luke D. Mullen of Charlestown" be stricken from the resolve, and that the following words be inserted, "as outlined in Senate Bill No. 7." I simply want to say, in moving that amendment, I offer it at the personal solicitation of former Representative Luke D. Mullen of Charlestown. He feels that the reference here should be to Senate Bill No. 7, and that it should not be referred to as his own personal bill.

Coun. Dowd's amendment was adopted, and the order as amended was passed.

DISCHARGE OF MEMBERS OF BOARD OF OVERSEERS.

On motion of Coun. DOWD, No. 4 on the calendar was taken from the table, viz.:

4. Ordered, That his Honor the Mayor be requested to furnish the City Council with the reasons for the recent discharge of members of the Board of Overseers of the Public Welfare.

On motion of Coun. DOWD the order was indefinitely postponed.

RECESS.

The Council voted at 2.48 p. m., on motion of Coun. GREEN, to take a recess, subject to the call of the Chair.

The members reassembled in the Council Chamber and were called to order by President HEFFERNAN at 3.53 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. DOWLING, for Coun. GILBODY, submitted the following:

1. Report on order (referred today) for the appointment of a committee of five members to conduct an investigation into the speculation in tickets—that the same be referred to the Committee on Public Safety, when appointed.

Report accepted; said reference ordered.

2. Report on order (referred today) relative to the examination of restaurant employees—that the same be referred to the Committee on Public Safety, when appointed.

Report accepted; said reference ordered.

3. Report on order (referred today) requesting the Park Commission and the City Planning Board, through the Mayor, to make a comprehensive study and report to the City Council as to the advisability of taking land in the various sections of the city, where dilapidated structures now stand, to be used for mothers' rests and playgrounds for small children—that the same be referred to the Committee on Parks and Playgrounds.

Report accepted; said reference ordered.

4. Report on order (referred today) requesting the Commissioner of Public Works, through the Mayor, to include in the budget for 1927 a sum sufficient to improve the lighting system in Roxbury—that the same be passed, striking out the words "in Roxbury" and inserting in place thereof the words "throughout the city."

The report was accepted, and the order in the amended form was passed.

FINANCE REPORTS.

Coun. GREEN, for the Committee on Finance, submitted the following:

1. Report on order transmitted by the Mayor (referred January 17) for a loan of \$1,000,000 for highways, making of, under the provisions of chapter 393 of the Acts of 1905—that the same ought to pass.

The question came on accepting the report.

Coun. DONOVAN—Mr. President, is there a list of the streets affected by this million dollar appropriation?

Coun. GREEN—Mr. President, I might say for the information of the gentleman who has just taken his seat that the Committee on Finance when they met invited the chairman of the Board of Street Commissioners before the committee as well as the Commissioner of Public Works, and both of those gentlemen at that time stated their program for the coming year. Every member of the committee was satisfied. The chairman of the Board of Street Commissioners informed me that if any member of the Council wished to appear before the commission, he would submit the program for 1927 for his approval or disapproval. But he said that every section of the city was going to be considered. I might say that the million dollars will be equitably divided.

The report was accepted and the order was passed, yeas 18, nays 0.

2. Report on order transmitted by the Mayor (referred January 10)—for a loan of \$1,000,000 for sewerage works—that the same ought to pass.

Coun. McMAHON—Mr. President, I would like to ask the President where that million dollar sewerage program happens to be?

Coun. GREEN—Mr. Chairman, the Commissioner of Public Works explained himself on that matter very thoroughly before our committee. It has to do with the construction of new streets. Of course, where we have new streets, we need new sewers, and it will cost a million dollars to put those sewers in the new streets.

The report was accepted, and the order was passed, yeas 18, nays 0.

SOLDIERS' RELIEF.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in City of Boston for month of February, 1927.

Report accepted; said order passed.

COMMITTEE ON RULES.

Coun. LYNCH, for the Committee on Rules, submitted the following:

1. Report on the order (referred February 7) for the appointment of a committee of at least three members of the Council to investigate the advisability, practicability and additional expense, if any, of constructing a roadway for pleasure vehicles over and along the tunnel and araway of the Shawmut Branch extension of the Cam-

bridge Tunnel, from Geneva avenue or Park street to Peabody square—that the same ought to pass.

Report accepted; said order passed.

2. Report on order (referred February 7) that Rule 24 of the Rules of the City Council be amended by inserting the following standing committee, Committee on Public Safety, to consist of five members of the City Council—that the same ought to pass.

Coun. LYNCH—Mr. President, the committee also recommends that this Committee on Public Safety be increased from five to seven members, and I offer that amendment to this order.

The order was amended by striking out the word "five" and inserting in place thereof the word "seven," and the report was accepted, and the order as amended was passed.

LISTENING IN ON TELEPHONES.

Coun. McGRATH offered the following:

Ordered, That his Honor the Mayor be authorized, in the name and on behalf of the City of Boston, to petition the Massachusetts Legislature during its present term, for legislation to strike out section 102 of chapter 272 of the General Laws of 1921, which reads "the three preceding sections" (99, 100, and 101) "shall not apply to a corporation subject to the jurisdiction of the department of public utilities of the Commonwealth or to the jurisdiction of the interstate commerce commission, or to the employees of any such corporation while engaged in the conduct of its business."

Coun. McGRATH—Mr. President, my reason for introducing this order at this time, calling upon the Mayor to petition the Legislature, on behalf of the City of Boston, to strike out section 102 of chapter 272 of the General Laws of 1921, is that I was advised in the State House, when I made inquiry of those in authority, in order not to establish the dangerous precedent of having members of the Board of Aldermen or of the City Council in the various cities petition the Legislature without the support of the Mayor, it was well to have the Mayor himself petition the Legislature for necessary legislation. I take the official stand I do upon this matter at this time in order to settle the controversy that has been going on here for the last few weeks. Some three weeks ago I accused the New England Telephone and Telegraph Company of listening in on telephones. Instead of merely making the customary accusation, in a general way, I named the place where the listening in was taking place, I named the man in whose office it was occurring, and I named the girl who had charge of the listening in. I also referred to the voltmeters used for listening in purposes and for no other purpose. Up to date those whom I accuse of listening in have not answered. A good many officials of the telephone company have been much disturbed, and statements have been made in the press as emanating from them, but their names have not been given, as they apparently did not dare to stand back of the statements refuting the charges that were made; and up to date Mr. Hannigan, the man whom I accused of listening in on my telephone and on your telephone, President Heffernan, has not come forward to deny the charge. In order to show how far they will go in interesting themselves in the political field, let me state to you another concrete instance. Some years ago in the town of Milton there was a fight for a seat in the Massachusetts Senate. Mr. Franklin L. Codman, who had been a member of the Board of Aldermen here, was a candidate for the Senate, and running against him was a Mr. Pierce, a member of the Walter Baker concern in Dorchester. A Mr. John Murray, who now holds a responsible position with the telephone company, went out to the Pierce place in Milton, and put Mr. Pierce's line up, and every night the private conversation between Mr. Pierce and others was listened in on by Murray, under authorization of members of the telephone concern, with the result that when anything whatever was planned in the interest of his candidacy it was upset, and Mr. Pierce does not know to this day why he was defeated for a seat to which he was entitled and which he could have had if he had had a fair opportunity to win it. He was defeated for the Massachusetts Senate by Mr. Codman because the telephone company sold the information thus obtained through the services of their employee, Mr. Murray, and because of the fact that the service was meddled with in that way Mr. Pierce, instead of getting the service that he should have, that he paid for, was robbed. There is a concrete instance, and let Mr. Murray today deny that, and also let Mr. Hannigan deny what has been said about his actions in that connection. If such an accusation were made concerning me, Mr. President, and I were innocent, I would deny it. I have accused Mr. Hannigan and Mr. Murray, and now let them come forward, sir, and deny that they are listening in or have been listening in on your line, sir, or on my line, or other lines. I made complaint to the proper source, the Department of Public Utilities, through Mr. O'Brien, and he comes back with a letter that says the law of 1921 specifically exempts—and he underlines the provision—"any corporation subject to the jurisdiction of the Department of Public Utilities." I have no quarrel with Mr. O'Brien. I know him well and think very highly of him, and I don't want to have this construed as a dispute between myself and Mr. O'Brien, because I want to thank him for the

prompt attention he gave to my charge of listening in. But, of course, by the time that the charges were taken up by him the whole thing was so well known that the cause of complaint was removed for the time being. I do, however, wish to put into the record something that I wish to stand for all time, something that will raise the matter above a mere dispute between myself and any other individual in Boston, and I will then leave it to the members of this body and to the citizens of Boston to decide on the facts as presented whether the law is as it should be, and whether they think that any individuals or corporations are bigger than the law. Early in 1921, on the 14th day of January, there was a bill introduced into the Legislature, known as House Bill 350, which specifically prevented any one with a dictaphone, graphophone, telephone or telegraph, from tapping a wire. You, Mr. President, know something about legislation, and so do other members of this body, and I now wish to submit three pages setting forth the process and the steps which that matter took, until in May, 1920, it was enacted into law, with every tooth in the law taken out. I don't think in the history of legislation in this state you can find a bill that took so long to go through and has so many amendments nullifying the purpose of the bill itself. And so I am going to submit this record to the stenographer so that it will appear as a matter of record in our proceedings. As I say, the bill as originally introduced, House No. 350 of 1920, was one thing, and the bill as finally changed and amended, in House No. 1577, was a very different thing. The bill as introduced provided that whoever, "except when authorized by written permission of the Attorney General of the Commonwealth, whether on his own account or as the servant or agent of another, permits or acquiesces in the installing of any device or arrangement, or the tapping of any wire, with intent to divulge information concerning any official matter or to injure another, shall be punished by imprisonment for not more than two years or by a fine of not more than \$1,000 or by both such fine and imprisonment." And the bill specifically stated what it meant to injure another and what it meant by the device that might be used. It said that "device" shall mean and include within this meaning any mechanical, electrical or other apparatus or contrivance for the transmission or recording of spoken words, and including the instruments commonly known as a telephone, dictograph, and dictaphone."

It said that "injure" shall mean and include within this meaning any act tending to vex, annoy, harass, harm or expose any person to ridicule, contempt, hatred or disgrace."

That, sir, was the intent of the original bill. But somewhere along the line, although originally everyone in Massachusetts was included in the penalty under this bill, so that if guilty of this offence he could be sent to jail for a period of two years or fined \$1,000, or both, if the tapping of the wire was for the purpose of getting information concerning official matter or to injure another, in the final event that applied under the law to everyone, sir, except the telephone company or its agents. That is, the last section of House No. 1577 included this provision which is now section 102 of Chapter 272:

"This act shall not apply to a corporation subject to the jurisdiction of the Department of Public Utilities of this Commonwealth or to the jurisdiction of the Interstate Commerce Commission, nor shall it apply to the employees of any such corporation while engaged in the conduct of its business."

So that the only ones who under the law in Massachusetts can listen in on your phone or my phone, Mr. President, and get information concerning any official matter or information that will injure us are the New England Telephone Company and its employees. In closing, let me submit this to you. If they are sincere in their protestations that they do not listen in, they will not even make any effort to prevent this section 102 being stricken from chapter 272 of the General Laws of 1921. If they are not sincere, their position will undoubtedly be different. Now, Mr. President, if they had that section put in the law, why did they have it put in, and if they did not have it put there, why do they object to having it stricken out? My bill simply proposes to strike out section 102 of chapter 272 of the Laws of 1921, so as to have the telephone company and its employees on a par with other people, other citizens of Massachusetts. I shall hand to the stenographer this record of what was done at the State House in regard to this matter and shall also ask that he include in the record sections 99, 100 and 101 and 102 of chapter 272 of the Laws of 1921.

(Chapter 272, Crimes against Chastity, Morality, Decency and Good Order.)

Section 99. Whoever, except when authorized by written permission of the attorney general of the Commonwealth, or of the district attorney for the district, secretly overhears, or attempts to overhear, or to have any other person secretly overhear, any spoken words in any building by using a device commonly known as a dictagraph or dictaphone, or however otherwise described, or any similar device or arrangement, or by tapping any wire, with intent to procure information concerning any official matter or to injure another, shall be guilty of the crime of eavesdropping and shall be punished by imprisonment for not more than two years or by a fine of not more than one thousand dollars, or both.

Section 100. Whoever, except when authorized under the preceding section, either on his own account or as the servant or agent of another, permits or acquiesces in the installing of a device commonly known as a dictagraph or dictaphone or any similar device or arrangement, or the tapping of any wire, with intent to procure or knowing or intending that it will be used to procure information concerning any official matter or to injure another, shall be punished by imprisonment for not more than two years or by a fine of not more than one thousand dollars, or both.

Section 101. Proof of the installation in any building of any device or arrangement which may be used for the purpose of violating the provision of section ninety-nine of this act by listening to any spoken words or proof of the tapping of any wire, unless duly authorized and unless done with the consent of the owner or person in control of the building, shall be *prima facie* evidence of the commission of the crime of eavesdropping; but nothing contained in this or the two preceding sections shall render it unlawful for any person to install and use such a device on premises under his exclusive control.)

The record submitted by Coun. McGrath was as follows:

Wednesday, January 14, 1920. House, 59.

By Mr. Abbott of Haverhill, petition (accompanied by bill, House, No. 350) of Essex S. Abbott for legislation to define and punish the crime of eavesdropping.

Monday, January 19, 1920. Senate, 65.

Petition (accompanied by bill, House, No. 350) of Essex S. Abbott for legislation to define and punish the crime of eavesdropping.

Tuesday, February 3, 1920. House, 207.

By Mr. Abbott of Haverhill, for the joint committee on the judiciary, on a petition, a bill to define and punish the crime of eavesdropping (House, No. 350, changed in section 3 by inserting after the word "arrangement", in line 2, the words, "except a telephone,").

Wednesday, February 4, 1920. House, 215.

To define and punish the crime of eavesdropping (House, No. 350, changed).

Monday, February 9, 1920. House, 235.

The bill to define and punish the crime of eavesdropping (House, No. 350, changed) was read a third time.

The Committee on Bills in the third reading reported recommending that the bill be amended, in section 4, by inserting after the word "words", in line 11, the words, "except a telephone"; and by striking out, in line 12, the word "telephone". These amendments were adopted.

Mr. Abbott of Haverhill moved that the bill be amended by adding at the end thereof the following: "Section 7. This act shall not apply to a corporation subject to the jurisdiction of the department of public utilities of this Commonwealth or to the jurisdiction of the interstate commerce commission, nor shall it apply to the employees of any such corporation while engaged in the conduct of its business."

Mr. Bradbury of Lawrence moved that the further consideration of the bill be postponed until the next session; and this motion, after debate, was negatived, by a vote of 22 to 44.

Mr. Bradbury raised the point of order that a quorum was not present. A count of the House showed that 143 members were present.

The amendment moved by Mr. Abbott was then adopted.

After further debate Mr. Martin Hays of Boston moved that the bill be recommitted to the joint committee on the Judiciary; and this motion prevailed.

Monday, April 12, 1920. House, 729.

By Mr. Abbott of Haverhill, for the joint committee on the Judiciary, that the bill (recommitted) to define and punish the crime of eavesdropping (House, No. 350, changed and amended) ought to pass in a new draft with the same title (House, No. 1577).

Tuesday, April 13, 1920. House, 747.

The bill to define and punish the crime of eavesdropping (House, No. 1577) was read a second time.

Mr. Lane of Boston moved that the further consideration of the bill be postponed until after the disposition of the remaining matters in the orders of the day; and after debate this motion was negatived.

After further debate the bill was ordered to a third reading.

Friday, April 16, 1920. House, 779.

The bill to define and punish the crime of eavesdropping (House, No. 1577) was read a third time.

Mr. Abbott of Haverhill moved that the bill be amended, in section 3, by inserting before the word "listening", in line 3, the words "violating the provisions of section one of this act by".

After debate (Mr. Young of Weston being in the chair) Mr. Lane of Boston moved that the bill be amended by adding at the end of section 3 the words "; but nothing herein contained shall render it unlawful for any person to install and use such device on premises under his exclusive control".

The amendments were severally adopted; and the bill, as amended, was then passed to be engrossed, by a vote of 87 to 21. Sent up for concurrence.

Wednesday, April 21, 1920. Senate, 635.

To define and punish the crime of eavesdropping (House, No. 1577, amended,—on the petition of Essex S. Abbott, accompanied by bill, House, No. 350).

Thursday, April 22, 1920. Senate, 653.

To define and punish the crime of eavesdropping (House, No. 1577, amended).

Friday, May 7, 1920. Senate, 735.

The House Bill to define and punish the crime of eavesdropping (House, No. 1577, amended),—was read a third time.

Mr. Donovan, for the Committee on Bills in the third reading, reported, recommending that the bill be amended as follows:

In section 1, by striking out, in line 9, the word "divulge", and inserting in place thereof the word "procure"; and by inserting after the word "be", in line 10, the words "guilty of the crime of eavesdropping and shall be"; and

In section 2, by striking out, in line 6, the word "divulge", and inserting in place thereof the words "procure or knowing or intending that it will be used to procure".

Mr. Weston moved that the bill be amended by adding the following new section:

"Section 6. It will constitute a complete defense to any indictment hereunder that the act complained of was done for the purpose of apprehending the commission of criminal acts and with reasonable cause to believe that the commission of crime could be thereby apprehended."

Pending these amendments and pending the main question on passing the bill to be engrossed, in concurrence, the further consideration thereof was postponed until the next session, on motion of Mr. Weston.

Monday, May 10, 1920. Senate, 743.

The House Bill to define and punish the crime of eavesdropping (House, No. 1577, amended),—was considered, the main question being on passing it to be engrossed, in concurrence.

The Senate adopted the following pending amendments, previously recommended by the Committee on Bills in the third reading:

In section 1, striking out, in line 9, the word "divulge", and inserting in place thereof the word "procure"; and inserting after the word "be", in line 10, the words "guilty of the crime of eavesdropping and shall be"; and

In section 2, striking out, in line 6, the word "divulge", and inserting in place thereof the words "procure or knowing or intending that it will be used to procure".

The Senate rejected the pending amendment, previously moved by Mr. Weston,—adding the following new section:

"Section 6. It will constitute a complete defense to any indictment hereunder that the act complained of was done for the purpose of apprehending the commission of criminal acts and with reasonable cause to believe that the commission of crime could be thereby apprehended."

The bill was then passed to be engrossed, in concurrence, with the amendments, which were sent down for concurrence.

Tuesday, May 11, 1920. House, 939.

The House Bill to define and punish the crime of eavesdropping (House, No. 1577, amended) came down passed to be engrossed, in concurrence, with the following amendments:—

In section 1, striking out, in line 9, the word "divulge", and inserting in place thereof the word "procure"; and inserting after the word "be", in line 10, the words "guilty of the crime of eavesdropping and shall be"; and

In section 2, striking out, in line 6, the word "divulge", and inserting in place thereof the words "procure or knowing or intending that it will be used to procure".

Placed in the orders of the day for the next session, the question being on concurring with the Senate in the amendment.

Thursday, May 13, 1920. House, 953.

The Senate amendments of the House Bill to define and punish the crime of eavesdropping (House, No. 1577, amended) were adopted, in concurrence.

Thursday, May 27, 1920. Senate, 867.

Engrossed bills:

To define and punish the crime of eavesdropping.

Thursday, May 27, 1920. House, 1071.

To define and punish the crime of eavesdropping.

The order was passed under suspension of the rule.

Coun. DOWD in the chair.

THE NEXT MEETING.

On motion of Coun. KEENE, it was voted that when the Council adjourn it be to meet on Monday, February 28, at 2 p. m.

PRICES CHARGED AT HEAD HOUSE, SOUTH BOSTON.

Coun. MAHONEY offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to investigate and report relative to the charges or rumors to the effect that the lessee of the Head House, South Boston, is charging exorbitant prices for food, etc., under his concession privilege.

Passed under suspension of the rule.

CHANDLER POND, BRIGHTON.

President HEFFERNAN offered the following:

Ordered, That the City Planning Board be requested, through his Honor the Mayor, to investigate and report to the City Council the advisability of the City of Boston taking over Chandler pond, Brighton, for park purposes.

Passed under suspension of the rule.

METROPOLITAN DISTRICT MEETING.

President HEFFERNAN offered the following: Ordered, That the Committee on Greater Boston of the Boston City Council be requested to conduct a meeting, to which shall be invited three delegates from each city and town within the metropolitan district, for the purpose of discussing the problems incident to, and of devising ways and means for creating a new governing body to govern said metropolitan district on all metropolitan questions.

Coun. HEFFERNAN—Mr. Chairman, I offer this order for the simple reason that, although I think most of us believe in a greater Boston, as far as I can see in the last few years there has been a good deal of talk and no definite action. We have a committee of this Council known as the Committee on Greater Boston. I do not believe that in the last year the committee has functioned to any great extent, but it strikes me that here is a wonderful opportunity for the City Council through its committee to hold out the open hand to the cities and towns throughout the metropolitan district, having each of them send in three delegates to a convention meeting for the purpose of discussing ways and means of creating a new greater Boston, not in the sense that individual cities and towns will lose their identity, because I do not believe the municipalities around Boston should lose their individuality so far as dealing with their local interests is concerned. But we all know that with the great growth of Boston of late years the questions of widening and extending highways, of transportation, of different problems interesting Brookline, Newton and the other cities just as much as Boston, have been very greatly in evidence. In the past we have been governed to a great extent by commissions in metropolitan matters. The Legislature has seen fit to create a metropolitan sewer board, a metropolitan park department, a metropolitan water board. We have had board after board created involving what is really a greater Boston proposition, such matters having been handled by commissions appointed at the State House. I think if this Council sees fit to invite in representatives of these cities and towns, the meeting that we have may be of a great deal of importance and value. The representatives of these municipalities will have ideas of their own, on which we will be willing to go part way at least, the same as we will have ideas of our own in which they can help. I think we should take steps to bring them in here and start something in the line of a method of dealing with Greater Boston, municipal Boston activities, on matters of metropolitan importance alone and, therefore, I hope the order will be passed under suspension of the rule.

The order was passed under suspension of the rule.

President HEFFERNAN in the chair.

INDORSEMENT OF HOUSE BILL NO. 836.

Coun. ENGLERT for Coun. Freely offered the following:

Resolved, That the City Council of Boston favors the passage by the General Court of Massachusetts of "An Act providing for the Apportionment of the Charges and Expenses of the County of Suffolk among the Cities of Boston, Chelsea and Revere and the Town of Winthrop," known as House No. 836.

Referred, on motion of Coun. GUILD, to the Committee on Legislative Matters.

COMMITTEE APPOINTMENT AND CHANGES.

President HEFFERNAN—The Chair wishes to announce as the new committee appointed under the order introduced by Coun. Wilson, in reference to the Shawmut Branch, Coun. Wilson, Gildoby, Ruby, McMahon and McGrath. The Chair also wishes to announce that Coun. Ruby is to be appointed in place of Coun. Dowd on the Committee on Inspection of Prisons, and Coun. Dowd is to be appointed in place of Coun. Ruby on the Commit-

tee on Jitneys. The Chair also wishes to announce that Coun. Dowd is to replace Coun. Ward as chairman of the Committee on Parks and Playgrounds.

GENERAL RECONSIDERATION.

On motion of Coun. DOWLING, the Council refused a general reconsideration of all action taken today.

Adjourned, on motion of Coun. PARKMAN, at 4.17 p. m., to meet on Monday, February 28, at 2 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issu-

ance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

CITY WOOD DISTRIBUTION.

Mayor Nichols announced on March 3 that following instructions issued to Chairman Long of the Park Department that department had sawed and split about six hundred loads of wood which came from trees that had been taken down through the Park System. The Mayor further instructed Chairman Long to have this wood delivered to the Overseers of Public Welfare for distribution by them. The wood is all sawed and split by the department's own saw mill.

PLANS FOR WAR MEMORIAL, COPLEY SQUARE.

Mayor Nichols on March 3 made public a study of Copley square and the disposition of the triangle in front of the Public Library and the small park in front of Trinity Church as one which would conform suitably to the erection of the proposed war memorial to which the city would dedicate this area.

The area would, of course, remain as at present under the jurisdiction of the Park Department and would be a part of the city park system. This study was arranged for by direction of the Mayor several months ago after a conference between the Mayor and the Board of Park Commissioners and provides for an attractive surrounding for the Memorial to be erected in Copley square.

The plans were prepared by Arthur A. Shurtleff for the Park Department. They may be described as providing for the construction of a square instead of the present triangle. This is done by taking on a small plot in front of Trinity Church, leaving the trolley car tracks where they are or until other transportation can be arranged either by bus travel or by re-routing the tracks on Dartmouth street.

Provision is made for the planting of trees and ornamental lighting effects. The whole plan is arranged in such a manner as to set forth a memorial in the most attractive way possible and they do not conflict in any way with the architectural effects of the surroundings.

STREET REPAIR WORK BEGINS.

Mayor Nichols conferred with Public Works Commissioner Sullivan on March 2 upon starting the spring work, and the earliest start in the history of the city has been made. The district foremen have already started work on the repairing of streets with tar and asphalt patch where the street conditions are dry enough to permit this repair work to be done. This is in preparation of the permanent work to be started as soon as the weather is warmer.

One of the first streets to be given attention is Stuart street, which the winter weather has left in very bad condition, owing to the action of water on the asphalt binder.

The work of cleaning up for Evacuation Day Parade on March 17 has been started. There are in South Boston working on the streets between fifteen and twenty trucks, and two snow loaders. Broadway is already pretty well cleaned, and the snow loaders are at work on the side streets, notably at Fifth street, Fourth street and Farragut road at City Point.

The balance of the city trucks are making a new spring drive on the collection of ashes and garbage.

LAND-TAKING IN DORCHESTER.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly Dorchester, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Wilder road, bounded:

Southeasterly by Normandy street, six and 2-100 feet; southwestly by another part of Wilder road, three hundred and three feet; northwestly by the same, six feet; and northeasterly by the same, three hundred two and 46-100 feet; containing eighteen hundred and sixteen square feet, more or less.

The sewerage works to be constructed are as follows: 294 linear feet of 10-inch pipe sanitary sewer in the above de-

scribed premises, being part of the private way known as Wilder road, leading northwesterly from Normandy street for a distance of approximately three hundred and three feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered. That this Board estimates that the lots of abutting land on both sides of Wilder road, for a distance of approximately three hundred and sixteen feet northwesterly from Normandy street, excluding the lot at the northerly corner of Normandy street and Wilder road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 736, Sewerage Works, Wilder Road, Dorchester, February 5, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

STREET REPAIR WORK BEGINS.*(Continued from page 241.)*

It is interesting to note how the work of the city has progressed during the period of the year from the reports of the Public Works Department, which show that the complaints for the collection of ashes for February, 1926, as compared with February, 1927, were reduced from 119 to 28 complaints, and on garbage, from 154 complaints to 63 complaints. This shows that the total number of complaints in February, 1926, as compared with February, 1927, dropped from 273 to 91.

Mayor Nichols regards this reduction of two thirds in the number of complaints as a great achievement of the Public Works Department in the prosecution of its winter work, and paid a high compliment to Commissioner Sullivan for the fine showing which has been made.

POLICE DEPARTMENT ORDERS.

General Order No. 1042.

A trial board consisting of Captains McConnell, McDevitt and Campbell, having heard by reference a complaint against Patrolman Joseph T. Connelly of Division 11, charging him with conduct unbecoming an officer, has reported to the commissioner a finding of guilty as charged. In accordance with which, it is hereby ordered that the said Patrolman Joseph T. Connelly be reprimanded in General Orders.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1043.

A trial board consisting of Captains McConnell, McDevitt and Campbell, having heard by reference a complaint against Patrolman Daniel Broderick of Division 11, charging him with conduct unbecoming an officer, has reported to the commissioner a finding of guilty as charged. In accordance with which, it is hereby ordered that the said Patrolman Daniel Broderick be reprimanded in General Orders.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1044.

Mary E. Smith, chief matron of the House of Detention, having performed faithful service in the Police Department for twenty and one twelfth years, and having requested to be retired from active service under the provisions of chapter 214 of the Special Acts of 1917, it is hereby Ordered, His Honor the Mayor having approved the same, that the said Mary E. Smith be retired from active service and that her name be placed upon the department pension roll with pay at the rate of eight hundred and fifty (\$50) dollars per annum, said sum being one half of the amount of compensation received by her in the office from which she is retired; to take effect as of Wednesday, March 2, 1927, at 5.45 o'clock p. m.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

CLAIMS ALLOWED.

The Mayor upon recommendation of the Corporation Counsel has approved the following claims:

Harry B. Crowley, 239 Highland street, Roxbury, in the sum of \$6, as compensation for damage to rubber boots in returning lost property to Ladder No. 2 House, Boston Fire Department, December 7, 1926.

Carmine Chiacchiarotte, 93 Cottage street, East Boston, in the sum of \$200, as compensation for personal injuries received September 15, 1926, in helping Police Officer William Hanson of Station 7 in elevating manhole cover on Orient avenue, East Boston.

STREETS RENAMED.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the name of the public way known as Buckminster street, Brighton district, Commonwealth avenue to Gordon street, be changed to and that it be hereafter known as Gordon street.

Voted, That the name of the public way known as Idlewild street, Brighton district, Commonwealth avenue to Brainerd road, be changed to and that it be hereafter known as Royce road.

STREET WIDENING WORK.

Mayor Nichols announced on March 2 that following instructions to the Board of Street Commissioners to speed up the work for the widening of Oakland and Ashland streets, that Board has advised him that its engineering force has made such progress on the plans that it was prepared to advertise the widening in accordance with the law this coming week.

It is proposed to start work on this important improvement as soon as the frost is out of the ground. The amount of money available by appropriation is \$550,000.

GRANOLITHIC WALKS FOR FRANKLIN PARK.

It appears that the number of people visiting the Zoo on Sundays runs to about 20,000 people. This time of the year, particularly by reason of the lack of granolithic walks, walking has been difficult and dirty and the Mayor has instructed the Park Department to make provision for necessary granolithic walks from the Bird House to the Blue Hill avenue entrance. These walks will cost in the vicinity of \$15,000 and the expense will be provided from the income of the Parkman Fund.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announce examinations for desirable positions open in the Boston and Metropolitan districts as follows:

STOREKEEPER, DEPARTMENT OF ADMINISTRATION AND FINANCE, MARCH 10, 1927.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT (Bridge Service).

Upon March 1 the Mayor approved a contract with the Boston Bridge Works, Inc., for straightening out counterweight link and chain, etc., of Chelsea draw span. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, February 26, 1927.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract, without advertising, to the Boston Bridge Works, Inc., for straightening out counterweight link and pin on down stream southerly leaf of draw span of Chelsea South Bridge and adjusting shear locks, etc., at an estimated cost of \$1,500.

This work is occasioned by an interference developing in the draw span, which prevented the operation of the draw and badly twisted counterweight link pin and damaged gusset plates. The work is of an emergency nature, as boats have been delayed in getting through the draw span.

The Boston Bridge Works, Inc., built the bridge originally and are familiar

with the work, and for this reason can in my judgment, in this particular instance, do better work than any other concern.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon February 28 the Mayor approved a contract with A. H. Rice for the construction of artificial stone sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, February 23, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to A. H. Rice, 998 Washington street, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon February 28 the Mayor approved a contract with the Chandler Motor Car Company for one four-passenger coupe. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, February 24, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract to the Chandler Motor Car Company, without publicly advertising for same, for furnishing to the Park Department one Chandler four-passenger coupe at a price of \$1,865; less discount, \$434; total, \$1,431; less allowance for one 1923 Bay State roadster offered in exchange, \$200; net total, \$1,231.

APPEALS TO MAYOR FOR EVACUATION DAY ADJUSTMENT.

Mayor Nichols announced on February 26 that he had received the following communication from Edward G. Lennon, Secretary of the Evacuation Day Committee.

EVACUATION DAY COMMITTEE,
SOUTH BOSTON, February 24, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR MR. MAYOR,—As secretary of the Evacuation Day Committee of the South Boston Citizens' Association, I have been directed to communicate with you and to inform you that it is the unanimous desire of the committee which includes every member of the South Boston Citizens' Association, that there be an immediate adjustment of the financial situation regarding the National Guard troops which participated in the parade of March 17, 1926.

At the present time South Boston is standing the brunt of the burden and the district is being hurt by the situation at the attitude of those concerned and the district is in no way responsible for the situation.

It has been requested that you assist in the matter and to have a conference with Governor Fuller to have the matter adjusted.

In order to help out an immediate adjustment a special committee of five members of the committee has been appointed to have a conference with you and also with Governor Fuller at your very earliest convenience.

To insure the success of this celebration and future celebrations this settlement should be made and to that end the special committee will assist in every possible way.

Very truly yours,

EDWARD G. LENNON, Secretary.
Post Office Box 15,
South Boston, Mass.

The Mayor stated that it is his desire to have this matter adjusted without further delay, and he is prepared to offer every assistance. The Mayor feels very strongly about this balance remaining unpaid and owing to the National Guard and will be very glad to submit all correspondence on file with the representatives of the Commonwealth to the South Boston Evacuation Day Committee of 1926 and Lieut. Joseph F. Daly, Chief Marshal, last year. Mr. Daly was in full charge of all arrangements for the parade and executed all budget awards. After the committee has had an opportunity to examine these records the Mayor will be glad promptly to receive its recommendations.

BUILDINGS VACATED AND RAZED.

The Mayor has received the following communications from the Building Commissioner:

BOSTON March 2, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—On November 17, 1926, the owners of the building at 3 and 5 North street and 62 North Market street were notified of the unsafe and dangerous condition of the party wall owing to the taking down of the adjoining building.

The owners took no action, and on December 16, 1926, we requested your permission to secure the wall, which permission was granted on December 18.

On further examination we find that the first floor of the building, which has been heavily loaded, is in an unsafe condition, and the remaining floors are in doubtful condition. This also has been explained to the owner and nothing has been done.

Your permission is respectfully requested to have the building vacated in accordance with the provisions of section 4, chapter 550, Acts of 1907 as amended.

Respectfully yours,

LOUIS K. ROURKE,
Building Commissioner.

BOSTON, March 2, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—In spite of the number of notices and complaints given below, Alexander Bannwart of 478 Commonwealth avenue, owner of the buildings at 2 and 4 Prospect avenue, Ward 2, has done nothing to relieve the unsafe conditions, and your permission is respectfully requested to take down the buildings in accordance with sections 4 and 5, chapter 550, Acts of 1907 as amended:

December 4, 1925. Wall collapsed; buildings 2 and 4 Prospect avenue shored and remainder of retaining wall at a cost of \$536.63.

December 8, 1925. Written orders given to Isaac Blair & Co. for shoring which had been done on day of collapse.

January 5, 1926. Frederick L. Haynes and Allen Gray *et al.*, owners of record, were notified that buildings and retaining walls were in an unsafe condition.

February 17, 1926. Frederick L. Haynes and Allen Gray *et al.* were notified that building was becoming more unsafe as the frozen soil was thawing.

February 18, 1926. New complaints served on Alexander Bannwart calling his attention to the unsafe condition of the buildings. Mr. Bannwart admitted ownership.

February 25, 1926. Orders given to Isaac Blair & Co. for additional shoring, which was done at a cost of \$270 with the assumption that the material would remain in place not over a month. Material has since remained in place and we have paid \$20 a month for use of material.

March 3, 1926. Permission for above shoring requested from Mayor.

March 4, 1926. Permission granted.

The above expenses were charged against Alexander Bannwart of 478 Commonwealth avenue.

June 15, 1926. A request was made from Law Department to transfer the first charge of \$536.63 from Alexander Bannwart to Elizabeth C. Giblin. Mr. Mc Morrow, City Collector, was notified. Subsequent bills for shoring have been charged to Mr. Bannwart.

September 7, 1926. Notified Alexander Bannwart that chimney, foundation wall, retaining wall and metal covering on side of building at 4 Prospect avenue were unsafe.

September 9, 1926. Notified Mr. Bannwart of defective condition of roof leaders and conductors.

February 9, 1927. Mr. Bannwart notified that building had become further unsafe. He called at this office on February 10; same day visited premises with Mr. Blair of Isaac Blair & Co., and supervisor of construction; was informed of what the necessary shoring would be to make building safe, and that if it was not done immediately this department would

order it done. Subsequently, Mr. Bannwart telephoned supervisor of construction he would have shoring done as ordered.

February 11, 1927. Complaint made that the foundation and retaining wall were very unsafe.

February 24, 1927. The owner was reminded of orders of February 10 and his attention was called to the fact that nothing had been done to relieve unsafe condition, and he was ordered to start work immediately to relieve this unsafe condition by the introduction of shores as ordered by this department.

The accompanying photographs will show, first, the shoring that had to be done at the above-mentioned costs; secondly, the unsafe condition of the retaining wall which supports building at No. 4; thirdly, the unsafe condition of the stone foundation and brick underpinning; and fourthly, the unsafe condition of metal covering on side of building.

Respectfully yours,

L. K. ROURKE,
Building Commissioner.

REPORT TO SCHOOL COMMITTEE.

The School Committee has received the following report from Arthur W. Kallom, First Assistant Director of Educational Investigation and Measurement, on his recent visit to Rochester and Detroit, on January 12, 13 and 14, 1927.

ROCHESTER, N. Y.

The school system of Rochester, N. Y., is carried on under a semiannual promotion basis. It is divided into three types of schools, elementary, junior high and senior high. On account of the lack of accommodations, this division is gradually breaking down and it will not be long before the elementary school will have to take over Grade VII and it may be that the junior high school in some cases will take in Grades VIII, IX and X. In other cases, only Grades VIII and IX will be included in the junior high school. Rochester is growing so rapidly that it is becoming impossible to build buildings fast enough to take care of the children under these three types of schools without making the above adjustments. The administration authorities are, of course, loath to make these changes but there seems to be no other solution.

I reached Rochester on Wednesday morning, January 12, at about 9.45. I went directly to the Department of Public Instruction and was with Assistant Superintendent O'Hern or someone assigned by him until about 6.30 p. m. We spent about two hours in the morning in a rapid survey of the schools of the city, visiting the West High School and the Washington Junior High School. We passed many of the older buildings and saw most of the newer buildings. I took lunch with the principal of the

West High School and two of his teachers who have charge of the testing in languages and social science. The afternoon was taken up in a brief visit to the new six-grade high school and a conference with Miss Martin who has charge of the nine psychologists handling the intelligence testing program.

Testing in General. The tests given in Rochester divide themselves into three different types:

1. Achievement tests in elementary, junior high and senior high schools. These tests are organized, given and corrected by the teachers, and no report is sent to the central office.

2. Survey tests are given by trained examiners, who are teachers relieved from duty and corrected by clerks. General averages are worked out under the direction of Assistant Superintendent O'Hern. These tests are usually commercial tests.

3. Intelligence tests are given by a corps of nine psychologists. These psychologists do not give any achievement tests.

Achievement Tests.—The tests used in the grades and in the high schools are organized by various committees working under the direction of Mr. O'Hern, or under a supervisor of the subject in which the test is to be given. When the junior high school was organized, certain teachers in senior high schools were assigned to teach their particular subject in the junior high school. These teachers have since become supervisors in their particular subject. There are four of these supervisors: one in mathematics, one in science, one in language, modern and ancient, and one in social science. The work of these supervisors is in general to co-ordinate the work in the junior high

school and the senior high school. As a means of co-ordinating the work, these supervisors become chairmen of committees whose purpose is to work out tests in various subjects suitable to the various grades in the junior and senior high schools. They organize the tests, instruct the teachers in giving the tests, and supervise their correction and tabulation. These teachers who correct and tabulate the results are given time for this purpose. Each supervisor is given a clerk to prepare the tests in mimeograph form and to type and distribute the reports of the tests.

These tests are given on a voluntary basis and may be given in a supervisor's own school where he still does some teaching, or they may be used city wide. This testing program has been in force for three years and is gradually extending itself throughout the city.

These tests, therefore, become a means of indicating to the supervisor where his help may be most needed. Efforts are made through this supervision to give individual corrective work where possible.

Survey Tests.—A type of achievement test is given once a year, generally in the spring, under the direction of Mr. O'Hern. These tests are given by a group of examiners, teachers specially trained, and are corrected by a group of clerks specially trained for this purpose. The tabulations and averages are worked out by the regular office clerks connected with Mr. O'Hern's office.

The purpose of these tests is to systematize the work in a particular subject throughout the city, to make it possible to compare the work of different grades, and to compare the results in Rochester with the results in other sections of the United States.

Intelligence Tests.—All intelligence tests are given by nine psychologists, under the direction of Miss Helen Martin. The city is divided into four sections and two psychologists are assigned to each section.

The tests are given at the beginning of Grade I and at the end of Grades IV, VI, and VIII. It is partially on the basis of this testing that the X, Y and Z classes are organized below the junior high school. The organization of these classes is voluntary and have been established in twenty-eight out of forty-three districts.

When group tests are given, they are corrected by a group of clerical girls who are engaged for this service. The tests used in Grade I are the Detroit first grade test, Pitner Cunningham test, and the Rochester test. The results are given in the form of letters, A, B, C, etc. This rating by the test is given half credit. The other half credit is the result of the teacher's judgment, the teacher giving a rating of A, B, C, etc. On the basis of this combination, the X, Y and Z classes are organized. Children in Grade I who are not able to meet the requirements of the Z class and are too old to continue in the kindergarten are placed in the pre-primary class. This class is a combination of kindergarten and Grade I.

In Grades III, VI and VIII the National test and Rochester test are used for re-classification of children in the X, Y and Z groups. They are also used as a basis of classification in the junior and senior high schools.

The psychologists also take care of the special classes which, in Boston, are under the direction of a separate department. They may also assign over-age children to certain centers where they are given a large amount of manual training. These children are children too old to place in a

special class and have not the mental ability to keep up with their regular grade work. Most of these children leave school at sixteen years of age but must go to continuation school until eighteen years of age.

DETROIT, MICHIGAN.

I traveled from Rochester to Detroit during the night and arrived in Detroit early on Thursday morning, January 13. At the administrative offices I was placed in charge of Mr. Paul Rankin of the Department of Research.

Detroit school system is organized on 6-3-3 plan with supervisors in charge of various major subjects, reading, arithmetic, history, besides drawing, music, and writing. There are twenty-five supervisory districts and a little over 200 buildings. The central office deals directly with the supervising principal.

Detroit has divided its classes in all grades on an X, Y, Z basis, the Z group being the low group. I visited two of these groups in the lower grades on January 14. In the Z group I found children enrolled in Grade IV but reading in primers, first readers and second readers, because that was the type of reading they were able to do. They will be promoted into Grade V at the end of the year but will continue in the work of a much lower grade. They appeared happy and contented because they were being successful in their work.

The question of testing is divided between two departments as in Rochester, the department handling achievement tests consisting of a head of department, two assistants and three clerks; and the department handling intelligence tests consisting of a head of department, twenty assistants and five persons on a per diem basis who do all the correcting and who are constantly employed. There are also six stenographers and typists.

Achievement Testing.—The achievement tests comprise two types; namely, the local and survey tests.

Local Tests.—Local tests are tests which are organized by various individuals who are generally supervisors of subjects or by committees taken from the grade in which the test is to be given. These individuals or committees work under the direction of the supervisor or head of the research department.

Local Tests in High Schools.—The tests in the high schools have been organized only about two years. This was first brought about by having the high school principals authorize the giving of these tests in their respective schools by majority vote. After this authorization was given, a committee of teachers selected from the different high schools, together with the head of the research department, prepared a test in the various subjects. These tests were given and corrected by the teachers on a voluntary basis. No tests were sent back to the office but the department co-operated with the teachers in making the distributions and finding the averages. These tests were given in June. The results in 1924 were so good that the number of high schools taking the tests increased in 1925 and the committee selected to organize the test was proportionately increased. The increasing of the size of the committee tended to cause a poor test although in another way it brought a wider viewpoint which tended to make the test much better. In 1927 it is expected by Mr. Rankin, the head of the department, that practically all the senior high schools will be included in this testing program.

Local Tests in Elementary and Junior High Schools.—In the elementary and junior high schools the tests are organized sometimes by committees and sometimes in the office itself. All of these tests are given under the direction of the research department and are packed and shipped by the supply department. The giving of these tests is voluntary although for a number of years all elementary schools have given them. The test is organized in such a way that each grade may have its own separate test. The teachers give and correct the tests and send the final score sheet to the central office where all the tabulations for the city are made. These tests are given four times a year, at the beginning and close of each semester. In 1926 and 1927 the teachers of Grades I to VIII will use over a million tests in reading alone. The purpose of this testing is purely to guide teachers in their teaching. The test points out the individuals who are poor and to some extent indicates where these children need help. There is no attempt to make comparisons between grades or between the same grade in different buildings. The extent to which these tests are used indicates very well the fact that the teachers do find such testing of use. All of these tests are organized in Detroit under the direction of the head of the department.

Survey Tests.—To understand how these survey tests are given in Detroit, it is necessary to understand a little in regard to the organization of the system.

Detroit is organized on a semiannual promotion basis. At the end of each semester a week is taken to reorganize the classes so that for two and one half days of the week children are not attending school. This gives the teachers time to assist in the reorganization. To help in this reorganization, all the students at the Detroit Teachers College are released for two weeks, the last week of the old semester and the first week of the new semester. These students are assigned to the different buildings so that about three students assist in each building.

A survey test is made at the end of each semester. At the end of the semester on January 21 of this year, a survey is to be made in handwriting in Grades III to XII, and in composition in Grades IX to XII. The handwriting test will be given to about 130,000 children and the composition test will be given to about 30,000 children.

In order to carry on this program, the 700 students at the Teachers College have been trained to give the handwriting test. As part of their work they will give the test in the schools, to which they have been assigned on January 18, 1927. English composition tests will be given in Grades IX to XII by the English teachers in the high schools. These composition papers will be studied for two purposes, first, the quality of the composition, and second, the quality of the handwriting. The pupils in Grades IX to XII do not know that the composition papers will be rated for their handwriting. On Wednesday, January 19, all these tests will be collected from the district buildings, twenty-five in all, by two automobiles from the research department and two others hired for the purpose, and will be carried to a central building. On Thursday and Friday, January 20 and 21, the handwriting papers will be judged by 200 teachers specially trained to judge handwriting, and the composition papers will be judged by seventy high school teachers

who have had a good deal of experience in judging composition papers. All this is organized in such a way that teachers will not correct papers from their own district and each individual class will be divided into three parts and judged by three different people to prevent any effect resulting from the correcting by any individual teacher. On Friday, Saturday and Monday, January 21, 22 and 24, tabulations will be made by thirty of the students from the Teachers College assigned for that particular purpose. This work will be done under the direction of the members of the research department. On the completion of the tabulation a report will be written by the members of the department of research on Tuesday and Wednesday, January 25 and 26. This report will then be passed to four special clerks who will mimeograph the report on Thursday and Friday, January 27 and 28. This makes it possible to send a final report to the principals on January 31.

This description of the way the present survey is being handled gives one an idea of how Detroit can make a city-wide survey in any subject and get its report back to the schools within a comparatively few days. Details vary each time the test is given but it is possible to work it out through some such scheme as outlined above.

Intelligence Testing.

Group Tests.—Intelligence testing in Detroit is entirely separate from the achievement testing.

In the kindergarten the Detroit kindergarten test is used and is given by 138 kindergarten teachers trained for the purpose. The testing is done in September, January and June. During the period of testing these teachers are relieved from their regular kindergarten work and special assistants are assigned to handle the work of the class.

In giving the group test in Grades I to XII the city is divided into four quarters. One group tester is assigned to each quarter of the city and carries through the following program:

1. Grade IIB (the entering class) is tested at the beginning of the semester.
2. Grade IIIA is tested each semester for reclassification.
3. Grade VIA is tested each semester for intermediate classification and for elementary reclassification.
4. Grade VIIIA in the elementary schools is tested for high school classification or for elementary reclassification.
5. Grade IXA in intermediate schools is tested for high school classification or intermediate reclassification.
6. All unclassified and unexamined pupils below Grade VII are tested for classification purposes.
7. All over-age pupils in any grade are tested for reclassification purposes.
8. All backward pupils and those who are problems in any respect mentally or physically, etc., are tested.
9. All pupils for whom individual tests are desired are tested.

(Pupils who were tested the preceding semester are not retested, but a form is filled out asking for and giving reasons for the request for individual test.)

Individual Tests.—The individual tests are divided into several groups.

1. Four psychologists test in the elementary school and each is accompanied by a social worker.
2. One psychologist tests in the intermediate school and is not accompanied by a social worker.

3. One psychologist tests in the high school and is not accompanied by a social worker.

4. One psychologist tests in special classes, including those for mentally defective children, deaf children, cripples, etc.

5. One psychologist spends her time at the central office handling mentally low cases (institutional cases). This psychologist is assisted by a social worker.

6. One psychologist handles all disciplinary cases.

Also assisting this department are two examining physicians who, at the discretion of the director of the department, spend half their time giving thorough examinations to individuals about whom they wish to know more than is recorded on the card that contains the results of the physical examination.

This makes a total of twenty-one who handle the work of intelligence testing. It is on the basis of these tests that the X, Y and Z classes are organized, although the supervising principal may use his discretion in regard to placing a pupil in the division recommended by the department of testing. There is, however, splendid co-operation and the placing of a child in a class contrary to the recommendation of the testing department would be due to administrative difficulties.

Two impressions resulted from the conferences which I had with various people relative to the organization of a system on a semiannual promotion basis and to the organization of the X, Y, Z classes. It seemed to be the opinion of most of the people that such an organization does not work out in accordance with the theoretical ideas. They all agreed that it required about double the amount of clerical work in connection with promotion and there was little or no indication that such a system tended to decrease the number of years which any particular individual might spend in school. Relative to X, Y, Z classes, they agreed that it worked out exceedingly well up to the end of the sixth year. On account of the differentiation of classes into the various grades beginning with the seventh, the X, Y, Z plan breaks down because of the lack of numbers and if the X, Y, Z plan were continued the cost of carrying on the class becomes extreme on account of size of classes.

An interesting feature of the testing program, which has been carried on in Detroit for a number of years and has just been started in Rochester, is a conference held once a year and lasts for two afternoons. At this conference the teachers who have been doing special work along any line may have an opportunity to present the results of such work to the principals and supervisors. It has tended toward a pride in the completion of a fine piece of work not only on the part of the one presenting the paper but on the rest of the teaching force of the school who are proud of the fact that one of their number should be selected for such a presentation.

FIRE DEPARTMENT ORDERS.

General Order No. 12.

I. ANNUAL BALL.

The commissioner desires to congratulate the department upon its annual ball, held Wednesday night. Those particularly who had charge of the arrangements are to be commended for the manner in which the arrangements were made, and the successful manner in which they were carried out. Other members who attended, by their courteous and gentlemanly behavior, made the whole affair a credit to the department.

II. BOXES REPORTED NOT WORKING.

Occasionally reports are received that persons sound alarms of fire and the apparatus did not respond, or that it was necessary to sound the alarm a second time at the box.

When such cases are brought to the attention of officers at fires they will examine the persons making such statements and bring them to the fire-alarm box and have them demonstrate just what they did. Reports of such cases will be forwarded to the Fire Commissioner on Form 5.

III. DEMOTION.

At his own request, Assistant Engineer John J. Gleason of Engine Company 33 is demoted to the grade of hoseman.

By order of Fire Commissioner E. C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

General Order No. 13.

I. CONDUCT ON STREET CARS.

The Fire Commissioner is in receipt of the following letter from the vice-president of the Eastern Massachusetts Railway Company:

Mr. E. C. HULTMAN, *Fire Commissioner*,
60 Bristol Street, Boston, Mass.

DEAR MR. HULTMAN,—In connection with our operation between Chelsea and Boston, I am receiving numerous reports of firemen boarding our cars in Charlestown and riding on the front platform through to Scollay square and engaging in almost unbroken conversation with the operators of our cars. Our employees have no desire to break our rules but when these conversations are forced upon them, it is next to impossible for them to remain silent.

This morning I witnessed one of these conversations myself between North Station and Scollay square, during which one of your uniformed men talked incessantly to our operator.

Firemen ride free on our cars. We are perfectly willing that they should continue to do so. It does seem to me, though, that they should be willing to go inside the car upon boarding it and if there is a vacant seat to occupy it. Conversations of this nature while cars are in motion, are one of our greatest accident hazards.

Throughout our system, fire chiefs have warned their men against this. I feel sure that you will have the same attitude toward the matter.

Very truly yours,

FRED A. CUMMINGS,
Vice-President and Assistant to Chairman.

Members of the department are instructed to comply with the request contained in the foregoing letter.

II. COMMENDATION.

The Fire Commissioner is pleased to publish the following letter received from the commanding officer of the U.S.S. "Utah":

To the Fire Commissioner, City of Boston,
60 Bristol Street, Boston, Mass.

MY DEAR MR. COMMISSIONER,—As commanding officer of the U.S.S. "Utah," I desire to express to you, and through you to the members of the Boston Fire Department, my appreciation and thanks for the prompt and efficient manner in which they responded to the call of fire on board the U.S.S. "Utah" in the Navy Yard at about 12.30 a. m., on Thursday, February 24, 1927.

Although the fire was of minor importance and did practically no damage, the smoke was bad and the encumbered narrow passageways on board ship made access difficult. The knowledge and experience of your force in combating the smoke was especially valuable.

Of still greater importance to my mind, however, are the contacts that result from such incidents. They incite that unmatched admiration and respect which men bear one another when associated in dangerous enterprises, and I can assure you that last night's performance by your force has but added to the comradeship, friendship and trust that we of the "Utah" feel for you and for them.

With sincere personal regards, I am,

Yours respectfully,

W. L. LITTLEFIELD,
Captain, U. S. Navy,
Commanding, U.S.S. "Utah."

By order of Fire Commissioner E. C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

PROCEEDINGS OF CITY COUNCIL.

Monday, February 28, 1927.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President HEFFERNAN in the chair and all the members present.

APPOINTMENTS BY THE MAYOR.

Subject to approval by the Council his Honor the Mayor submitted appointments for the term ending April 30, 1927, as follows:

Weights of Goods: David Wright, 38 Illinois avenue, Somerville, Youlden, Smith & Hopkins; J. J. Sweeney, 1826 Columbia road, South Boston, for his own business.

Weights of Coal: Helen M. Hamilton, 51 Sawyer avenue, Dorchester, for New England Ice Company.

Constables: William J. Weyand, 7 Leonard street, Dorchester; Leo Bass, 363 Walnut avenue, Roxbury.

Severally laid over for a week under the law.

SECTION 102, CHAPTER 272.

The following was received:

City of Boston,
Office of the Mayor, February 28, 1927.
To the City Council.

Gentlemen,—I return herewith, without my approval, the order passed by your honorable body for legislation to strike out section 102 of chapter 272 of the General Laws of 1921, as I am advised by the Corporation Counsel that there is sufficient legislation to take care of the situation presented by this order.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

Placed on file.

VETOES BY THE MAYOR.

The following was received:

City of Boston,
Office of the Mayor, February 17, 1927.
To the City Council.

Gentlemen,—Referring to the following resolutions:

1. Favoring legislation authorizing the City of Boston to borrow money for improvement of playground situated at Medford and Chelsea streets in the Charlestown district.

2. Favoring legislation authorizing the City of Boston to borrow money for purchase of site and erection of municipal building in the Charlestown district.

I would refer to Joint Rule 7B of the Legislature which requires the specific approval of the Mayor and the City Council and I am unwilling to approve these matters and hereby return them without my signature.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

Placed on file.

VETO OF LEAVE OF ABSENCE.

The following was received:

City of Boston,
Office of the Mayor, February 18, 1927.
To the City Council.

Gentlemen,—I return herewith, without my approval, an order of your honorable body which authorizes the granting of leave of absence without loss of pay for thirty days to veterans of the World War.

This order confers no additional grant of power upon the Mayor. Nevertheless, by providing for an unprecedented number of cases, it raises a question which heretofore has not been raised, the power of the public to grant leave of absence without loss of pay. This power has not been questioned until now.

Carrying out this order, moreover, would seriously interfere with the public service. In the Fire Department, for instance, out of 1,600 men, 500 would be entitled to the privileges contemplated by the order. The order really causes injury to the present custom of granting leaves of absence, and adversely affects the public service.

For these reasons, I am unable to extend to it my approval.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

Coun. DOWD.—Mr. President, I simply want to have that message from the Mayor, refusing a thirty-day period of leave of absence to World War veterans, referred to the Executive Committee, and I would suggest to his Honor the Mayor that it was only last week that Governor Fuller saw fit to give to all state employees who were World War veterans this same length of time to attend the convention in Paris. I believe that the City of Boston should be just as big as the State of Massachusetts in treatment of its veterans, and I see no reason why, when the Governor of Massachusetts has seen fit to grant the thirty days' leave of absence to state employees to attend this convention, the Mayor of Boston should

refuse that privilege to veterans who are in the employ of the City of Boston. I move reference of the matter to the Executive Committee.

The matter was referred to the Executive Committee.

SALE OF JUNK, FIRE DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, February 25, 1927.
To the City Council.

Gentlemen,—I am herewith transmitting a communication from the Fire Commissioner relative to the sale of a quantity of junk, the property of the Fire Department, and I recommend the passage of the accompanying order.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Fire Department, February 23, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—This department has on hand approximately four tons of old lead cable and approximately one ton of old iron in the Fire Alarm Shop.

As this old material is worth more than five hundred dollars, I request that permission be obtained from the City Council to sell it.

Yours very truly,
E. C. HULTMAN,
Fire Commissioner.

Ordered, That the Fire Commissioner be and hereby is authorized to sell, after public advertisement, a quantity of junk belonging to the Fire Department, comprising old lead cable and old iron, valued at over five hundred dollars.

Referred to the Executive Committee.

CONTRACTS OF SUPPLY DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, February 17, 1927.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Law Department in reply to your order of January 24, 1927, relative to Article 10 in contracts of Supply Department.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Law Department, February 12, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—The City Council has requested, through your Honor, to be advised by this department whether

"Article 10 of the provisions of contract of the Supply Department of the City of Boston which specifies that no contract can be made with any individual who is not a citizen of the United States, or any corporation or legal association wherein the controlling interest is not held by citizens of the United States, would allow an individual, corporation or association who met with these requirements, upon receiving an award of contract to sublet it to some other individual who or corporation or association which did not comply with Article 10 of the specifications."

I assume that the Council refers to the provisions of sections 13 and 19 inclusive of chapter 40, Revised Ordinances of 1925. I cannot confine myself to Article 10 of the Supply Department contracts in view of the fact that there are so many different types of contracts issued by the Supply Department, the articles in which are numbered differently in various contracts.

Section 13, chapter 40, Revised Ordinances of 1925, provides

"No contract shall be made by the city except with,

(a) individual citizens of the United States;
(b) corporations or other legal associations wherein the controlling interest to the extent of at least over one-half thereof is owned by a citizen or citizens of the United States."

Section 14 of this chapter provides:
"No person other than a citizen of the United States shall be employed on any public work being done by,

(a) the city of Boston;
(b) any contractor with the city of Boston;
(c) any subcontractor with such contractor; except that persons not such citizens may be employed in the manner and under the conditions set forth in the following section."

If, therefore, when the contract for the purchase of supplies is entered into between the city and the contractor, the latter is a citizen or if the contractor is a corporation, and clause (b) of section 13 has been complied with, the ordinance has been complied with. The fact that the contractor secures the supplies in question from another individual who is not a citizen of the United States does not violate section 13 which makes no reference to such a situation.

Section 14 is not applicable to supply contracts. It merely restricts the city contractor and his or its subcontractors to the employment of citizens when engaged in performing any public work, such as constructing a street or a building, laying

of water or sewer pipes, etc. There is nothing in section 14 that has any application to the purchasing of supplies by the city.

I find no provision in any of the sections 13 to 19, inclusive, which requires a contractor who is a citizen of the United States and who has made a contract with the Supply Department of the City of Boston to purchase any of the supplies necessary to complete his contract from only citizens of the United States. Section 13 has been complied with when the city makes a contract with a contractor who is a citizen or with a corporation wherein the controlling interest to the extent of at least one half thereof is owned by a citizen or citizens of the United States.

Yours very truly,
FRANK S. DELAND,
Corporation Counsel.

LEGISLATION RELATIVE TO CITY.

The following was received:

City of Boston,
Office of the Mayor, February 18, 1927.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Law Department in reply to your order of February 7, 1927, relative to forwarding to the City Council copies of bills and resolutions relating to the City of Boston filed with the Massachusetts Legislature of 1927.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Law Department, February 16, 1927.
Hon. Malcolm E. Nichols, Mayor of Boston.

Dear Sir,—I am in receipt of the order of the City Council, passed February 7, 1927, in which the Council asks, through your Honor, that the Corporation Counsel comply with a previous order of the Council dated November 29, 1926, wherein the Council sought, through this office, copies of all bills and resolutions relating to the City of Boston filed with the Massachusetts Legislature of 1927.

I desire to inform the Council that this office is eager to accommodate it and extend it every courtesy by complying with its requests for information when sought from this office. I have not forwarded copies of the bills filed which relate to the City of Boston because of the fact that many of them have not as yet been printed by the Legislature, and upon my receipt from the Legislative Counsel for the City of Boston of printed copies I will be glad to forward them to the City Council. The City Council no doubt appreciates that there are probably several hundred bills filed by various interests which affect the City of Boston, including those filed by this office on behalf of the city government. Whether bills filed affect the city government cannot be determined until they have been carefully examined after having been printed.

Very truly yours,
FRANK S. DELAND,
Corporation Counsel.

UNEMPLOYMENT CONDITIONS.

The following was received:
City of Boston,
Office of the Mayor, February 28, 1927.
To the City Council.

Gentlemen,—On Friday of last week a committee of your honorable body, introduced to me as the "Committee on Unemployment," did me the honor of paying me an official visit upon the subject of finding work for the unemployed.

I recognize the problem of unemployment as a public question of extreme importance, although your committee appears to be appointed with such informality as to give it no legal status as a committee of the City Council. The Council had already passed an order requesting the Mayor to inform the Council if there was any public work upon which the unemployed could be given employment, and my communication to you consequently deals not only with the conference with your committee, but with the order and its beneficial purpose.

The recent severe snow storm presented the need of public work by which the unemployed could be assisted, and I therefore instructed the Commissioner of Public Works to give work to as large a force as could conveniently be handled consistent with public economy, and this was done.

You will bear in mind that the labor service of the Public Works Department has been fully maintained on account of the importance of street work. It is also a fact that there has been opportunity this year to give a great deal of temporary work.

I told your committee that my record on the unemployment situation had always been sympathetic; that while chairman of the Transit Commission, upon my suggestion, the Maverick Square Terminal had been started upon the understanding that day labor and not contract labor was to be hired. As a result of this foresight it was possible to give employment to over 2,000 men.

If it were possible to proceed by day labor with the construction of the Governor Square Subway, provision could be made for nearly 2,000 men. The Park Department of the city has various projects coming along which will provide for 750 men.

In a limited way a great deal is being done to relieve the unemployment situation. It does not seem to me that a committee of the City Council either has any power or is especially well adapted to the purpose of relieving unemployment, even if its efforts were well directed, which is not the present case.

The Municipal Employment Bureau records shows that since January 1, 1926, almost, 10,000 jobs have been secured.

I have been informed that an effort is to be made to cut the pending city budget on the ground that many employees should be discharged. The discharge of faithful and efficient city employees solely on the ground of reducing the cost of pay rolls not only is false economy, but is unworthy of decent government, and in addition, no relief to your employment situation.

During the conference with your committee I began to wonder if its functions had not been directed in such a manner as to raise a doubt whether its activity really had much to do with the subject of unemployment. Afterwards I obtained from your Clerk of Committees the names of persons and firms called upon to appear before it, and found that the committee had, with but two exceptions, turned its attention to city contractors. One exception was the New England Telephone and Telegraph Company, charged by a member of your committee with wire tapping and eavesdropping.

The other exception was that of my brother whose invitation had so little to do with the subject of unemployment that it would be ludicrous were it not for the cowardly, contemptible and vicious attack made upon him by the same member of your committee.

The mildest comment that could be made upon this procedure would be to call it a waste of time. City contractors are bound by the terms of their agreements with the city, hire all the men that they need for the purpose of the city work which they must do, and cannot be forced to expand their activities to an extent that would meet the requirements of a public question of such far-reaching importance as unemployment.

Your committee has to a very considerable extent devoted its attention to city contractors, and the employment of their men. These are matters which are outside the scope of the authority of your body. They come dangerously being within the restrictions of the city charter which reads in section 8 as follows:

"Neither the City Council, nor any member or committee, officer, or employee thereof shall, except as otherwise provided in this act, directly or indirectly on behalf of the City or of the County of Suffolk take part in the employment of labor, the making of contracts, the purchase of materials, supplies or real estate; nor in the construction, alteration, or repair of any public works, buildings, or other property; nor in the care, custody and management of the same; nor in the conduct of the executive or administrative business of the city or county; nor in the appointment or removal of any municipal or county employee; nor in the expenditure of public money except such as may be necessary for the contingent and incidental expenses of the city council. The provisions of this section shall not affect the powers or duties of the city council as the successor of the present board of aldermen relative to state or military aid and soldiers relief."

"A violation of any provision of this section shall render the contract in respect to which such violation occurs voidable at the option of the city or county. Any person violating the provisions of this section shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year or both. Chapter five hundred and twenty-two of the acts of the year nineteen hundred and eight is hereby repealed."

By the foregoing provisions of law you will see that with the making of city contracts and the enforcement of them, and with the employment of labor, you have nothing to do, as it is an executive function.

Therefore, any committee acting under the authority of your honorable body ought to exercise due care not to pass beyond the bounds of your authority.

Never in the history of the city has there been performed more effective municipal services upon the streets, and during the difficult months of the winter, upon the removal of snow and of ashes and garbage. These are services which I promised to your constituents. I have tried my best to keep this promise, and I want you to help me do so. In awarding contracts, heads of departments have invariably been told by the Mayor to recommend the best contractor at the most reasonable price and to follow the charter which indicates the lowest responsible bidder. It is my opinion that the procedure instituted by your committee is wholly illegal, and I therefore earnestly request your honorable body to have its committee on unemployment undertake no activity which might tend toward interference with the executive work of the city.

Please be assured that this communication is addressed to you only in a spirit of good will and co-operation which has heretofore existed between the two branches and which I have no reason to doubt will continue.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

TRAFFIC OFFICER AT WASHINGTON AND PARK STREETS.

The following was received:

City of Boston,
Police Department, February 18, 1927.
W. J. Doyle,
Assistant City Clerk.

Dear Sir,—In connection with the order of the City Council relative to placing a traffic officer at the intersection of Washington and Park streets, Dorchester, at opening and closing school hours, for the safety of school children, including pupils attending the Lucy Stone School for backward or mentally deficient children, I beg to forward herewith copy of report of the commanding officer of Division 11.

Yours respectfully,
HERBERT A. WILSON,
Police Commissioner.

City of Boston,
Police Department, February 17, 1927.
Michael H. Crowley,
Superintendent of Police.

Sir,—With reference to the inclosed communication regarding the placing of an officer at the crossing at Park and Washington streets, Dorchester, I respectfully report that for a long time there has been an officer on the above crossing four times a day.

The children who attend the Lucy Stone School get out at 2.30 p. m. and there has been no officer on the crossing at this time, but arrangements have been made to have an officer there at this time to take care of the children when they are leaving the school. The officer has been on this crossing to care for children coming and going from the Florence Nightingale School on West Park street, which is in Division 19, and has cared for children going to the Lucy Stone School at 8.30 a. m. but not at 2.30 p. m.

Respectfully submitted,
MATTHEW J. DAILEY,
Captain, Division 11.

ALIENS IN CITY DEPARTMENTS.

Coun. DOWD offered the following:

Ordered, That the Committee on Residences of City Employees be instructed to confer with the heads of the various departments having authority over the penal and hospital institutions of the City of Boston, and advise them that it is the wish of the City Council that they comply with sections 2, 3 and 4 of chapter 9 of the Ordinances of 1921, and discharge all aliens now employed in said institutions within the next two months, and fill their places with citizens.

Coun. DOWD—Mr. President, just about one year ago I introduced an order requesting his Honor the Mayor to confer with the department heads in regard to this matter. I had in mind particularly the City Hospital. But up to date conditions have not been bettered; in fact, they are worse. At a meeting of the committee appointed to investigate this matter, in connection with which the workings of the Employment Bureau were considered, we found that the director of that bureau, Mr. Seaver, told the committee that when he hires men or women to work for the City Hospital he does not take time to look up the question of whether they are citizens or not. We have frequent complaints from our citizens that they cannot get work in the City Hospital. That happens to be in the district I represent, and there is not a day in the week when there are not from six to ten people requesting employment in the City Hospital, citizens of Boston, who cannot obtain employment there, although aliens can. We have at the present time two committees, one on residence and the other on unemployment conditions, investigating these matters. I say to you, Mr. President, that if city officials, the heads of city institutions, are not going to live up to the ordinances of the City of Boston relative to aliens being employed, how can we expect that contractors are going to be forced to do so? I believe it is about time that we had a showdown in this matter, certainly in regard to the City Hospital. I believe that employees, men and women, who are not citizens of Boston, should be discharged and their places filled by people who are citizens, people who are only too anxious to procure employment there.

On motion of Coun. GULLD the order was referred to the Committee on Residences of City Employees.

COST OF SIDEWALK CONSTRUCTION.

Communications, with accompanying orders, were received from the Commissioner of Public Works submitting cost of constructing sidewalks and showing amounts to be assessed on owners, as follows:

Maple street, Ward 18, half cost, \$15.
Hamilton street, Ward 15, half cost, \$157.28.
Harvard avenue, Ward 21, half cost, \$283.68.
Foster street, Ward 22, half cost, \$60.96.
Evans street, Ward 17, half cost, \$397.08.
Pine street, Ward 18, half cost, \$45.
Tremont street, Ward 22, half cost, \$3,693.99.
Adams street, Ward 16, half cost, \$1,689.85.
Bullard street, Ward 14, half cost, \$107.06.
The orders were severally passed.

PUBLICITY FOR PORT OF BOSTON.

Coun. DONOVAN offered the following:

Ordered, That his Honor the Mayor be requested to include in the budget for the current year a sum sufficient to provide for widespread advertising and publicity for the splendid facilities of the Port of Boston for the handling of shipping in both foreign and domestic commerce.

Passed under suspension of the rule.

CONFERENCE IN RE PORT OF BOSTON.

Coun. DONOVAN offered the following:

Ordered, That the Committee on the Port of Boston be instructed to arrange a conference with the officials of the Chamber of Commerce, and with the director of the Commercial, Industrial, and Publicity Bureau of the City of Boston, with a view to mapping out a constructive program of cooperation in restoring the Port of Boston to its former high standing among the maritime centers of the world.

Passed under suspension of the rule.

SIDEWALK, WEST TREMLETT STREET.

Coun. WILSON offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along West Tremlett street, both sides, from Washington street to Whitfield street, Ward 17, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

COST OF ELECTRICITY IN METROPOLITAN DISTRICT.

Coun. McGRATH offered the following:

Ordered, That the President of the Boston City Council appoint a committee of five members of the Council to act in conjunction with his Honor the Mayor, to investigate and report upon the advisability of seeking a reduction of the maximum price now being charged to domestic and commercial consumers of electricity in the cities and towns comprising the metropolitan district. Said committee shall report its findings, together with such recommendations as it may deem advisable, to the City Council in order that the matter may be brought to the attention of the Department of Public Utilities.

Coun. McGRATH—Mr. President, I think everyone in the state appreciates the splendid fight that Governor Fuller is making to reduce the prices charged by the different electric light companies throughout the Commonwealth to their customers. Now, sir, the Edison Electric Illuminating Company of Boston is by far the biggest electric company in the Commonwealth and, although their plants are located in Boston, their nearest big plant outside of Boston being in the town of Weymouth, they give service to a great part of this state. Their territory, running from Boston, goes up as far as Burlington, Carlisle, Hopkinton, and even down to Bellingham, up to the Rhode Island State line; and they charge 8½ cents per kilowatt hour to the customers of Boston and metropolitan Boston, the same as they charge to those people living away out in Burlington. It is the consensus of people who know something about electric rates that if this service was confined to the metropolitan area the price could be reduced to 5 or 6 cents per kilowatt hour, which would make a substantial difference in the monthly bill to consumers. Up to approximately 1910 the chief field for the sale of electrical energy was for lighting purposes only and practically all revenue was derived from this class of customers. During the past few years, however, approximately two thirds of the total sales of the Edison Company have been to power

users at very low rates, although 95 per cent of its total customers are domestic and commercial consumers. Although the individual bill of a domestic customer is comparatively small in amount as compared with a power customer's bill, when it is considered that there are approximately 135,000 of such customers connected with the Edison system it will be readily seen that the total amount collected from these small users at the maximum rates produces a very substantial proportion of the company's total income.

Furthermore, the extensive use of radios by householders who burn their lights late into the night has tremendously increased the average use of current sold under the maximum or domestic rate. The increased use of current to charge radio batteries or to operate the sets direct from the light sockets will still further tend to increase the consumption of current by this class of customer. This has all come about since the last reduction of rates and has given to the company large amounts in the way of additional revenue not anticipated without any of the benefits being passed on to the customer. In the neighboring city of Cambridge—which, I think, is the only city in the metropolitan area that has its own electric light company, regardless of the fact that most of the power in Cambridge is purchased from the Edison Company, they are going to get quite a substantial reduction over there because of action recently taken by the Mayor and City Council. By my order I simply want to help the Governor, who must have his hands full in the splendid fight he is waging, by calling here into this hall the representatives of this company, and letting them show what their pro rated charge is for each city. If they give you the honest figures, they will show you that it costs them 5 cents per kilowatt hour for the people of Boston, but the reason why we are paying 8½ cents per kilowatt hour here in Boston is because we have to pay the freight for these far-off towns I have named. It is simply another instance of Boston paying the freight. We pay it also on the roads and bridges of the entire state, as well as on other activities. We pay more than our proper proportion on the roads and bridges of metropolitan Boston; and in this case, instead of getting our light for 5 cents per kilowatt hour, we are paying 8½ cents so that some of these other towns may live off Boston. This order, Mr. President, is in keeping with the metropolitan Boston idea, in connection with which you have introduced a resolution, and that is the reason that I have now put in this order, in the interest of metropolitan Boston as against the entire territory now covered by this company. I hope the order will pass.

Coun. ARNOLD—Mr. President, if there is no objection, I would move reference of the order to the Committee on Greater Boston.

Coun. McGRATH—Mr. President, my order calls for the appointment of a committee of five, but I have no objection whatever to its being referred to that committee on Greater Boston.

The order was referred to the Committee on Greater Boston.

IMPROVEMENTS ON TEMPLETON STREET, WARD 16.

Coun. GILBODY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to reset curbstones, install granolithic sidewalks and install a smooth paving on Templeton street, Ward 16, Dorchester.

Passed under suspension of the rule.

ARC LAMP, WARD 16.

Coun. GILBODY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc lamp in front of the premises 1840 Dorchester avenue, Ward 16.

Passed under suspension of the rule.

REPAVING EAST COTTAGE STREET.

Coun. LYNCH offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving East Cottage street, from Norfolk avenue to Columbia road, Ward 7.

Passed under suspension of the rule.

RESURFACING OF BROADWAY, SOUTH BOSTON.

Coun. MAHONEY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Broadway, South Boston, from Dorchester avenue to Farragut road, and to include said street in the list of those to be resurfaced during the present year.

Passed under suspension of the rule.

BURIAL PERMIT HOURS.

Pres. HEFFERNAN offered the following:

An Ordinance Concerning the Health Department. Be it ordained by the City Council of Boston, as follows:

Section ten of chapter three of the Revised Ordinances of 1925 is hereby amended by striking out after the word "bodies" in the ninth line of said section the words "from ten o'clock in the forenoon until twelve o'clock noon on every day in the year," and inserting in place thereof the following:

"on week days, except Saturdays, from 9 a. m. to 10 p. m., on Saturdays from 9 a. m. to 5 p. m. and from 6 p. m. to 10 p. m., on Sundays and holidays, except Thanksgiving, Christmas and New Year's, from 10 a. m. to 5 p. m. and from 6 p. m. to 10 p. m., and on Thanksgiving, Christmas and New Year's from 10 a. m. to 12 noon."

Referred to the Committee on Ordinances.

RECESS.

On motion of Coun. KEENE the Council voted at 2.38 p. m. to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President HEFFERNAN at 3.55 p. m.

BURIAL PERMIT HOURS.

Coun. DOWLING, for the Committee on Ordinances, submitted a report on the ordinance (referred today) amending the burial permit hours of the Boston Health Department,—that the same ought to pass.

Coun. DOWLING—Mr. President, I don't want to be the only dissenting member on the committee, and I am not dissenting from the report of the committee, but, in view of the fact that the proposed ordinance was offered here only today, and there has been a hearing of only one side, the Health Commissioner not having been heard in the matter because he is out of town, I move that the report be laid on the table for one week.

Coun. GUILD—Mr. President, I fail to see what salutary effect it would have to lay this report on the table. If the chairman of the Committee on Ordinances expects to file or to have filed a different report, it seems to me that the matter should then be referred back to the Committee on Ordinances. But if this report is to stand in the form in which it is, in any event, it seems to me we might as well dispose of it today as a week from today.

Coun. DOWLING—Mr. President, the changes suggested in this proposed amendment to the ordinances affect a situation which apparently has been going on since 1925. I realize that it is quite possible that the undertakers and funeral directors have been more or less affected by the adoption of rules by the Health Commissioner which impose an unusual hardship on them. For the past two years, since 1925, the funeral directors have been conforming with the hours established by the Health Commissioner and therefore, at least, they did not impress me with the fact that it was urgent that these changes should go into effect immediately. Certainly I do not feel like voting in favor of the change until I hear from the Health Commissioner who established these rules some reason for them, because he may have some very good reasons for the rules or orders established by him in this connection. I think, in fairness to the Health Commissioner and to the undertakers, that the matter should be heard thoroughly, and I don't see how it can be heard thoroughly by hearing only one side. Therefore, I press my motion that the matter be laid on the table for a week until we hear from the Health Commissioner, who is out of town and will not be back in the city for a week.

Coun. WARD—Mr. President, I sat in that Committee on Ordinances and heard the funeral directors present their story. This is a matter that I feel I know something about.

Coun. DOWD—Mr. President, I rise to a point of order, that the motion to lay on the table is not debatable.

President HEFFERNAN—The Chair will rule that the motion to lay on the table for one week is in effect a motion to assign and is, therefore, subject to debate.

Coun. WARD—Mr. President, as I have stated, I sat in the Committee on Ordinances and heard the members of the Undertakers' Association who came in there make their statements. I have been familiar with the position of the Health Commissioner in this matter, and I feel sure that the Undertakers' Association has a grievance against the Health Commissioner. When he establishes rules that are really a handicap to the undertakers, I don't believe we should wait until the Health Commissioner comes back from Bermuda to hear his side of the story. I am opposed to laying the order over for a week.

Coun. KEENE—Mr. President, as I understand the procedure, under the present rule, where a person dies late on Saturday the body cannot be moved until Monday. If I am in error in that respect, I hope I will be corrected by members of the committee. It seems to me that is a condition that ought not to exist. If we have rules and regulations that make a thing of that

sort possible, we should remove them, and remove them at once, because I don't think anything is more sacred than the care of the body of a deceased person. I, for one, am opposed to laying the order on the table for any length of time.

Coun. GILBODY—Mr. President, I simply want to bring up a brief point in regard to this matter. The delegation from the Funeral Directors' Association brought up the fact that prior to October 16, 1926, the practice had been in perfect working order for ten or twelve months. Now, this is not a matter for the association alone, to my mind. It is a matter that concerns the poor relatives of the deceased person. That is the main consideration. The relative of the deceased is supposed to be allowed by law to take the body when he wants it, regardless of any arbitrary rulings of the Health Department—if they are arbitrary, and I want to say that I am voting on this proposition in behalf of the relatives of any person who might die in this city, and where it is important and desirable that they should have the right expeditiously to take charge of the remains.

Coun. McMAHON—Mr. President, I was at that hearing, and I was talking with one of the undertakers, in regard to a matter that did not come up in the hearing. Take the case of the City Hospital. If you have any relative who dies there, they have to keep that body for five hours. If he happens to die after a certain time they cannot remove him until the following morning. If this place was open until ten o'clock, a permit to remove the body could be obtained before the next morning, instead of having to wait. If we can put this through today, I think we should put it through, and I think the other members of the Council feel the same way about it.

The motion to assign to the next meeting was declared lost.

The report was accepted and the ordinance was passed, Coun. DOWD asking for a roll call, yeas 22, nays 0.

EXECUTIVE COMMITTEE REPORTS.

Coun. GILBODY, for the Executive Committee, submitted the following:

1. Report on petitions (referred today).

Petitions for children under fifteen years of age to appear at places of public amusement, that leave be granted, viz.:

Mrs. N. A. Grenier, Grover Cleveland School, February 28.

D. A. MacQuarrie, St. Mary's Hall, February 28—March 1.

Report accepted; said permits granted under usual conditions.

2. Report on resolutions (referred February 7) approving the policies of the trustees of the Boston Public Library and expressing appreciation for service rendered by the trustees—recommending reference of the same to the Committee on Branch Libraries.

Report accepted; said reference ordered.

3. Report on message of the Mayor (referred today) vetoing order authorizing the grant of leave of absence without loss of pay for thirty days to veterans of the World War—that the same be placed on file.

Report accepted; said message placed on file.

4. Report on order (transmitted by the Mayor and referred today) authorizing the Fire Commissioner to sell after public advertisement a quantity of junk belonging to the Fire Department—that same ought to pass.

Report accepted; said order passed.

OPINION OF CORPORATION COUNSEL
IN RE NEW ENGLAND TELEGRAPH
COMPANY.

Coun. McGRATH offered the following:

Ordered, That his Honor the Mayor be requested to furnish the City Council with a copy of the opinion of the Corporation Counsel referred to in his message vetoing the resolution of the City Council for legislation to amend chapter 272 of the General Laws.

Coun. McGRATH—Mr. President, on account of the great importance of the order that I introduced here a short while ago, that had the unanimous action of this body of twenty-two members, it does seem to me that his Honor the Mayor should give a little more consideration to the order than he has done. If our Corporation Counsel has rendered an opinion, such opinions are usually appended to vetoes, when they have a bearing upon them, and in this case, dealing with such an important matter, it seems to me the Mayor should not treat it lightly but should give to the body which unanimously acted upon that matter the opportunity to personally read the Corporation Counsel's opinion. I hope that the Mayor will send it to us at our next meeting.

Coun. KEENE—Mr. President, may I ask, through the Chair, a question of Coun. McGRATH,—whether or not at the meeting held where a representative of the Department of Public Utilities

was present the question was asked whether or not that department did have authority under the statute to correct that situation?

Coun. McGRATH—The question was never asked of them whether they had the authority, but a letter was sent by the Committee on Unemployment to the Department of Public Utilities and was answered by Mr. O'Brien, in which he said that the New England Telephone Company was specifically exempt from that statute. Because of that answer of Mr. O'Brien, we felt that it was important to try to put them on the same footing as every other individual in Massachusetts.

The order was passed under suspension of the rule.

PAYMENT OF SEVENTEENTH OF MARCH
CELEBRATION.

Coun. LYNCH offered the following:

Ordered, That the City Auditor be requested, through his Honor the Mayor, to approve for payment the following bills incurred by the city on the occasion of the March 17th celebration, 1926: 101st Infantry, \$1,800; 110th Cavalry, \$877.50; 101st Field Artillery, Battery A, \$100.

Coun. LYNCH—Mr. President, these bills were contracted on last March 17 in connection with the public celebration. There has been some argument as to whether the state should pay or whether the city should pay. These are legitimate expenses incurred for transportation and other things that go with a celebration of that kind, and unless they are paid immediately the City of Boston will have no parade on March 17 next, as these units in connection with which these legitimate expenses were incurred formed the greater part of the parade.

Coun. GUILD—Mr. President, I rise to a point of order. This order, if I understand it correctly, amounts to the initiation of an appropriation of money by the City Council, which seems to me to be beyond the powers of the Council, and therefore out of order.

President HEFFERNAN—The Chair will rule the point of order not well taken, inasmuch as this is merely a request on the City Auditor, in its present form.

Coun. KEENE—Mr. President, may I inquire of Coun. Lynch whether or not the question has finally been determined as to whether the city or the state is responsible? My understanding of the situation was that there seemed to be some conflict of opinion as to whether the state or the city should pay the bills. If there are bills outstanding for which the city should assume the responsibility, I should be quite in accord with the order. On the other hand, if the question is not determined, and the expense might properly fall on the state, it might seem wise to hold it in abeyance until the question had been determined.

Coun. LYNCH—Mr. President, on the question of whether the city or the state owes this money, I will say that the city for years has made this appropriation. The chief marshal, acting with Mr. George Johnson, chairman of public celebrations, assumed this responsibility until the state passed an appropriation. Then they in turn passed the duty to the state. The city refused to accept the whole responsibility, as they usually or always pay something like \$1,200 to these units. I might say that the Mayor has invited the committee of the South Boston Citizens Association in to confer with Mr. Johnson in regard to who is responsible, the city or the state. I have just conferred with a delegation from the 101st Infantry, and they tell me that if we delay or if the Mayor delays later than today they will not have time to notify their companies and their men. I move, Mr. President, a suspension of the rule and the passage of the order.

The order was passed under suspension of the rule.

LEAVE TO ATTEND CONVENTION IN
PARIS.

Coun. DOWD offered the following:

Ordered, That the heads of departments be authorized, through his Honor the Mayor, to allow all employees of the City of Boston and County of Suffolk who served in the armed forces of the United States during the World War, and who desire to attend the convention of the American Legion in Paris, France, in September, 1927, a leave of absence for thirty days without loss of pay for the purpose of attending this convention; and that his Honor the Mayor appoint a committee to verify the war service of those employees who apply for such leave of absence.

Coun. DOWD—Mr. President, this order was originally introduced by myself two months ago and the answer to the same was received by the Council today in that illuminating veto message that the Mayor sent to us. I feel the same now as when I introduced the order, only more so. In his letter the Mayor states that it would be doing an injustice to the public of this city to allow the veterans to go away, as proposed, because it would impair the city service. I wonder how he feels about allowing a man who has been employed by the City of Boston only ten months, and who lived in Quincy until a short time ago, to go away for a vacation, Fire Commissioner Hultman, a man who is allowed, although he is head of the Fire Department of this city, to go away on leave of absence for thirty days; a man who is receiving a

salary of \$7,500 from the city; or also how he feels about the absence of the same sort of another highly paid head of a department, who is sojourning in Bermuda for a month, without loss of pay? I feel, as I have always felt, that the veterans are entitled to any reasonable treatment they can receive from the City of Boston, and I am, therefore again submitting this order, and will ask a suspension of the rule that it may be put upon its passage.

Coun. GUILD—Mr. President, this is a matter which came before the Executive Committee this afternoon and has come before them on other occasions. In view of the fact that this veto message has been sent in, it seems to me it would be better to give it further consideration, not suspending the rule and passing it at this meeting. I would move, therefore, that it be referred to the Executive Committee.

Coun. DOWD—Mr. President, I feel that this order has already been thoroughly threshed out in the Executive Committee at several meetings, and that we have there gone on record as indorsing the order. I feel that we should do it now, particularly in view of the fact that the state employees who were veterans are having granted to them a thirty days' leave of absence, as suggested here. I therefore press my motion to suspend the rule and pass the order at this time, and I ask for a roll call.

Coun. GUILD—Mr. President, I am unchanged in my attitude by the assertion of the previous speaker that the state employees have been given a thirty days' leave of absence. I am informed that such is not the fact, and that only adds weight to what I have already said. I believe, therefore, that we should not pass the order under suspension of the rule at this meeting, but that it should be referred to the Executive Committee, where it has already been considered on several occasions. I therefore press my motion that it be referred to the Executive Committee.

Coun. Guild's motion to refer to the Executive Committee was declared carried. Coun. DOWD doubted the vote and asked for the yeas and nays.

The motion to refer to the Executive Committee was lost, yeas 5, nays 16:

Yeas—Coun. Arnold, Bush, Dowling, Guild, Parkman.—5.

Nays—Coun. Donovan, Dowd, Englert, Fitzgerald, Freeley, Gilbody, Green, Heffernan, Keene, Lynch, Mahoney, McGrath, McMahon, Ruby, Ward, Wragg.—16.

The question came on suspending the rule.

Coun. DOWLING—Mr. President, I am not going to allow a roll call to scare me into doing something that I know I ought not to do. I have as much regard for the veterans of the World War as any man in the Council, and I have gone as far as any man in the Council in offering my services to the Government when they were needed. I believe that the reason offered by the Mayor in his veto here is one that was laudable and justifiable. If the Mayor says there are 500 members of the Fire Department who would be eligible for this trip to Europe—which I wish every World War veteran could enjoy and which I wish I could enjoy myself—that is sufficient reason for not voting for this order again. I think nothing could be much more absurd. I know the gentleman on the other side (Coun. Dowd) will say that the 500 or 600 firemen will not avail themselves of the opportunity to go to this convention; but nothing could be more absurd, in my opinion, than an order that would allow 500 or 600 members of the Fire Department, the Police Department or the Health Department or any other department, to vacate their offices in any such way. As I say, I am not going to allow a roll call to scare me into what I know is wrong. Therefore, when the question comes on passage, I am going to vote against the order.

Coun. DOWD—Mr. President, in calling for a roll call I am simply using my prerogative as a member of this body, and am not trying to scare the Council into voting one way or the other. When the gentleman talks about 500 members of the Fire Department going to this convention in Paris, quoting the Mayor, I will simply say that nobody here can have the slightest idea that 500 members of that department will attend the convention. In my opinion, if twenty-five to forty of the firemen are able to attend that convention, it will be as many as could ever be expected.

Coun. GUILD—Mr. President, I feel very much in accord with Coun. Dowling in what he has said. It occurs to me that whatever political advantage may inure to members of the Council from their attitude towards the veterans who fought in the World War, in connection with this proposed action, has already inured. We have gone on record as expressing our opinion in the previous order that was passed. The Mayor has given that order his consideration and has vetoed it, and it seems to me nothing but futile to football the thing back and forth, so that the Mayor may do the same thing with the same order again, without any reasonable expectation that he is going to do anything different than what he has already done. The key to the situation is in the hands of the Mayor, and he has indicated his opinion. Nothing has occurred since the veto message came in, to my knowledge, which would lead me to believe that the Mayor is going to do anything different from what he has already done. So far as any political advantage to members of the Council is concerned, as I say, any benefit to be derived by members through their action on this

matter has already been derived. If there is any political advantage to Mayor Nichols in vetoing such an order, that has been gained. Nothing can now be gained by repeating the process and, as I say, by repeating it we are simply making futile gestures, something to which I am opposed. I introduced an order myself allowing the veterans to have vacations, under an arrangement that would permit them to go to Paris, and, therefore, you can see that I have sympathy with the order introduced by Coun. Dowd. My own opinion is that veterans should have a vacation on this occasion. But I cannot see anything to be gained by going through the motions we have already gone through once, and therefore I am opposed to repeating the order at this time.

Coun. KEENE—Mr. President, I would like to ask the City Clerk, through the Chair, for a ruling as to whether or not in his opinion we have a right to give civil service employees a vacation without pay for a longer term than that specified in the Civil Service rules and regulations.

President HEFFERNAN—The City Clerk, through the Chair, says that it is hardly proper for him to give an opinion on a matter of this kind, that it is a matter to be handled by the Law Department.

Coun. KEENE—Then, Mr. President, I suggest that it might be wise at this time, if the councilor is not insistent upon immediate action, that the matter be continued or laid over for such period as will give sufficient length of time to examine into it. I would make that suggestion, if it meets with the approval of the councilor who introduced the order.

Coun. DOWD—Mr. President, it would meet with the approval of the councilor and he would be only too glad to do so, provided the same position were to be taken with Mr. Hultman and Mr. Mahoney with reference to their leaves of absence. I think that the same rule should govern. If one matter is to be referred to the Law Department, the other matters should be referred there, also.

The question came on suspension of the rule for the passage of the order. The roll was called, and the Council voted to suspend the rule, yeas 14, nays 7:

Yeas—Coun. Donovan, Dowd, Englert, Fitzgerald, Freeley, Gilbody, Green, Heffernan, Lynch, Mahoney, McGrath, McMahon, Ruby, Ward.—14.

Nays—Arnold, Bush, Dowling, Guild, Keene, Parkman, Wragg.—7.

The order was passed.

REPAVING WASHINGTON STREET, WARD 11.

Coun. ENGLERT offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Washington street, from Egleston square to Forest Hills, Ward 11.

Passed under suspension of the rule.

REPAVING MARCELLA STREET, WARD 11.

Coun. ENGLERT offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Marcella street, Ward 11.

Passed under suspension of the rule.

MEMBERSHIP OF COMMITTEE ON PUBLIC LANDS.

Coun. LYNCH offered the following—That the Committee on Public Lands be increased from five members to seven.

Referred to the Committee on Rules.

GENERAL RECONSIDERATION.

On motion of Coun. KEENE a general reconsideration of all action taken today was refused.

Adjourned on motion of Coun. DOWD, at 4.27 p. m., to meet on Monday, March 7, at 2 p. m.

SITUATION OF BOSTON.

Latitude, North, 42° 21 minutes 29.596 seconds, Longitude, West, 71° 3 minutes 51.040 seconds (exact situation of apex of State House dome, according to United States Coast and Geodetic Survey). Boston's latitude is similar to that of Detroit and the southern boundary of Oregon, also Rome (Italy), Sofia (Bulgaria) and Mukden (Manchuria); longitude nearly that of Quebec (Canada), Bogota (Colombia) and Santiago (Chile).

BOSTON PARK DEPARTMENT.

Number of large parks, 24; separate playgrounds, 50, with total of 354.82 acres, also 13 playgrounds in parks with area of 156 acres; small parks and squares, 69.72 acres; total area, 2,647.68 acres. Cost of Main Park System, *i. e.*, 1,389.40 acres (incl. Common and Public Garden, 72.65 acres) land and construction (since 1877 when begun) \$12,781,042; of Marine Park System, *i. e.*, 457.9 acres (since 1883), \$5,509,388; of all other parks, playgrounds, etc., \$7,647,051. Total cost, \$25,937,481, of which \$10,192,754 is for land and \$15,744,727 for construction.

The leading attraction of the main park system is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, also 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1925 being \$4,935,920. There are also within the City limits 964 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury and Hyde Park districts, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; indoor gymnasias, 11; summer beach baths, 9.

Park Department maintenance for 1924 (including Cemetery Div., \$163,908) \$1,646,541 or \$9,661 less than in 1923. Outlay for playground improvements, \$374,246; for park improvements, \$429,743, of which \$233,902 was from Parkman Fund income.

Gross debt for parks, public grounds, etc., outstanding Feb. 1, 1925, \$6,190,800; for playgrounds, \$2,653,500; total \$8,844,300 or \$1,902,000 less than in 1924.

Including the State assessments of \$1,020,907 for Metropolitan parks, boulevards, etc., and \$230,088 for Charles River Basin, also the City's outlay for permanent park and playground improvements, or \$803,989, the total expended for public recreation purposes in 1924 was \$3,537,616.

AREA OF BOSTON TO WARD LINES.

Total, 30,598 acres (*i. e.*, 47.81 square miles), 2,944 acres being filled land, 1,143 acres water area and 1,436 acres flats, land area only, 28,019 acres (*i. e.*, 43.78 square miles). Included in the latter are 160 acres of filled flats recently added to the land area of South Boston and 175 acres to that of East Boston.

Original Boston contained about 780 acres of land. Of the twelve leading American cities, eight are larger in land area than Boston, viz., Los Angeles (364 sq. miles), New York (318), Chicago (199.4), Philadelphia (129), Baltimore (91.9), Detroit (80), Cleveland (56.6), and St. Louis (61.25). The only city in Massachusetts with larger land area is Taunton (50 sq. mi.).

If Boston should expand by annexations as New York, Chicago, Philadelphia, Los Angeles and others have expanded, its total area, in case of including the 39 cities and towns within the 15-mile radius, would exceed the largest, viz., Los Angeles, the present land area of "Greater Boston" being 409.3 square miles.

NATIVES AND CITIZENS OF BOSTON AND VICINITY HONORED IN HALL OF FAME.

In the American Hall of Fame, New York City, dedicated in 1901, are inscribed, on bronze tablets the names of 56 eminent men and 7 distinguished women deemed worthy of the highest honor on account of their services and attainments. Of the 63 individuals thus selected (up to 1920 inclusive) by an electorate of 100 leading Americans, 27 were natives or for some time citizens of Boston or vicinity. The names of the latter are as follows:

Chosen in 1900—John Adams, Benjamin Franklin, William Ellery Channing, Ralph Waldo Emerson, Daniel Webster, Henry Wadsworth Longfellow, Horace Mann, Nathaniel Hawthorne, George Peabody, Samuel Finley Breese Morse, Joseph Story, Asa Gray, Gilbert Stuart—total, 13.

Chosen in 1905—John Quincy Adams, James Russell Lowell, John Greenleaf Whittier—total, 3.

Chosen in 1910—Edgar Allan Poe, Oliver Wendell Holmes, George Bancroft, John Lothrop Motley, Phillips Brooks—total, 5.

Chosen in 1915—Louis Agassiz, Francis Parkman, Rufus Choate, Charlotte Cushman—total 4.

Chosen in 1920—William Thomas Green Morton, Alice Freeman Palmer. Five additional names every fifth year are to be selected and inscribed until the year 2000, when the 150 tablets in the colonnade will be complete.

If those who were natives or residents elsewhere in the State are added to the list, the following 7 names increase the total to 34 for Massachusetts or more than half the whole number, viz.: William Cullen Bryant, Jonathan Edwards, Mark Hopkins, Elias Howe, Eli Whitney, Maria Mitchell, Mary Lyon.

If all New England is included, 4 more names will bring up the total to 38 or 60.3 per cent of whole number chosen, these being Roger Williams, Henry Ward Beecher, Harriet Beecher Stowe, Emma Willard.

TRANSIT DEPARTMENT.

PROPOSALS FOR BUILDING SAVIN HILL STATION ENTRANCE-EXIT BUILDING AND ADJUNCTS, SECTION ONE, DORCHESTER RAPID TRANSIT.

The Transit Department of the City of Boston, 1 Beacon street, seventh floor, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for building Savin Hill Station Entrance-Exit Building and Adjuncts, Dorchester Rapid Transit. The work consists of the construction of a brick entrance and exit building on the sidewalk level of the bridge at Savin Hill Station of the Dorchester Rapid Transit. It also includes the construction of toilet rooms, covered stairway, concrete platform canopies, granolithic floors and platform waiting room. A bond of an approved surety company will be required for the faithful performance of the contract in a sum of 45 per cent of the total bid price. Proposals should be filled out and signed by the bidder on forms to be obtained at this office, enclosed in a sealed envelope endorsed "Proposals for Building Savin Hill Station Entrance-Exit Building and Adjuncts, Dorchester Rapid Transit," and delivered to the department or to its secretary before 12 o'clock noon on Tuesday, March 22, 1927, at which time and place they will be publicly opened and read. A properly certified check in the sum of five thousand (5,000) dollars, payable to the city, must accompany the proposal. This check shall become the property of the city if the contract is not executed by the bidder within the time prescribed after the date of the notification by the department of the acceptance of the proposal and the readiness of the contract for signature. Proposals must be made in duplicate. The sealed duplicate, without check, is to be deposited by the bidder with the City Auditor, Room 20, City Hall, previous to the time named for opening the proposals. Plans, proposals, specifications and forms of contract can be obtained at this office. A deposit of \$5 in cash or by certified check will be required for a set of plans and two sets of the specifications. Mutation of them will be deemed sufficient cause for the forfeiture of said deposit.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING AND RELAYING WATER PIPES IN DOCK SQUARE, FANEUIL HALL SQUARE AND MERCHANTS ROW, CITY PROPER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying and relaying about 600 feet of 8-inch and 12-inch water pipe in Dock square, Faneuil Hall square and Merchants row, city proper. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of eight hundred (\$800) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying and Relaying Water Pipes, Dock square, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, March 14, 1927, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

AWARDS FOR STREET WORK.

The following awards recommended by the Corporation Counsel and forwarded to the Mayor by the Street Commissioners for the widening and relocation of Cambridge street were approved by him:

To Constant S. Lissner and others, amounting to \$8,000.

To Joseph P. Manning, amounting to \$3,000, in addition to a *pro tanto* award of \$16,376 which was made under date of August 20, 1924.

To Ira W. Shapira, trustee, amounting to \$14,000.

FINANCE COMMISSION REPORT ON BIGGS CASE.

The Mayor has received the following communication from the Finance Commission:

Boston, March 10, 1927.

HON. MALCOLM E. NICHOLS, Mayor.

SIR,—On February 25, 1927, at a hearing before the Committee on Unemployment Conditions of the City Council of Boston, according to the stenographic report, Councilor Joseph McGrath made charges to the effect that D. M. Biggs & Co., the contractor for the removal of ashes and garbage in the Dorchester district, was obtaining protection by sharing the profits of the contract with your honor's brother, Nathaniel F. P. Nichols. The complete statement of Mr. McGrath was as follows:

"After sending for Mr. Biggs the third time, your chairman and, I think, one other member of the Council, but not a member of the committee, was told that Mr. Biggs did not have to come in before the City Council or a committee of the City Council, that he could absolutely ignore the five members of this committee of the City Council together with the rest of the twenty-two members of the Council, because the man who had secured the contract for him and was sharing in the profits therein—Mr. Nathaniel F. P. Nichols of 30 Underhill street, Winthrop, a brother of the present Mayor—said that he could protect him against all the City Council and that he could openly refuse to recognize the members of the City Council and continue to do whatever he felt like doing, and just as long as Mr. Nichols shared in the profits of the company he would protect him against an investigation of any sort. I want to charge before this committee that the reason that Mr. Biggs is saving \$8,736 a year by taking it out of the laborers who are working for him and the families of those laborers, is because he is protected by sharing the profits of that contract with Nathaniel F. P. Nichols, the brother of the Mayor."

After the publication of these charges, your Honor requested the Finance Commission to investigate them. Charges of so serious a nature, made by a person holding a responsible position in the city government, could not be ignored by the commission.

Other charges made as to the use of dumps and the employment and payment of labor by the contractor are not considered in this preliminary report.

The Finance Commission called before it and examined Councilor McGrath, Councilor Gilbody, Nathaniel F. P. Nichols and Commissioner of Public Works Sullivan. It also examined the contractor, John W. Biggs, who does business under the name of D. M. Biggs & Co., and inspected his books and bank records. It called before it such other persons as the evidence showed might have any information on the subject, and also gave a hearing to your Honor.

FINANCE COMMISSION.

(Continued from page 269.)

Councilor McGrath testified that he had no evidence to substantiate his charges and that he could not furnish to the commission the names of any persons having information on the subject under investigation. He admitted that his charges were based on rumors, but he could not even furnish to the commission the names of witnesses by whom these rumors could be verified. No other witness gave any testimony implicating either your Honor or your Honor's brother.

The commission makes the following findings:

1. There is no evidence to substantiate the charges of Councilor McGrath.
2. Councilor McGrath made his charges recklessly, knowing that he had no evidence to substantiate them.
3. On all the evidence the commission finds that the charges are untrue.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

GREETING TO E. M. STATLER.

Mayor Nichols in accepting the invitation to attend the formal dinner to mark the opening of the new Statler Hotel on Thursday evening, March 10, said:

It is a genuine pleasure to extend the greetings of the City of Boston, as well as my own, to Mr. Statler in recognition of his contribution to the hotel life of our city, the new Statler Hotel. Boston feels justly proud of his achievement.

A few years ago a number of our citizens representative of practically every line of industry invited him to come here, and in deciding to do so he gave further evidence of the soundness of his business judgment and of his progressiveness.

We rejoice that he came. We all realize that his magnificent enterprise marks a most important step in the development and beauty of our city.

We appreciate his personal effort, and on Thursday evening next we shall take the opportunity to demonstrate our pride in the possession of such an institution.

We bid him welcome, and we wish him every success.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That in the matter of Constant S. Lissner and others, petitioners for damages occasioned their estate by the taking of 302 square feet of land for the widening and relocation of Cambridge street under the order for said improvement dated August 20, 1924, after consultation with the Law Department, and on its advice, the board assesses the petitioners' damages in the sum of \$8,000, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

Voted, That in the matter of Ira W. Shapira, trustee, petitioner for damages caused his estate by the taking of an easement for highway purposes in 1,557 square feet of land (taken in the name of Max Uroff, City of Boston T. T.) for the widening and relocation of Cambridge street, after consultation with the Law Department, and on its advice, the board assesses the petitioner's damages in the sum of fourteen thousand (14,000) dollars flat; and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

CHANGES IN CONTRACTS.

PARK DEPARTMENT.

Low & Robins Company have been directed to make the following changes in the contract for new piping for fresh water system at the Aquarium, South Boston, signed January 4, 1927: (1.) Furnish and install complete new brass piping to replace existing galvanized-iron piping between the water main as it enters the building at the basement wall and the salt water filters. The new piping shall be of two (2) inch inside diameter iron size brass pipe. Make all connections with this new line to all other galvanized-iron pipe lines that are not to be replaced. Furnish and install complete ½-inch brass valve, two 1½-inch brass valves and one 1-inch brass valve; all as specified in the contract for brass valves. Remove and dispose of existing galvanized-iron piping and covering. Cover all new brass piping, fittings, unions and valves with ¾-inch wool felt sectional covering having an inner lining of tarred paper ½ inch thick and canvassed with seven (7) ounce thirty-seven (37) inch wide canvas. For all this work on furnishing and installing new brass piping complete from water main at basement wall to the salt water filters, the sum of two hundred seventy-seven and 67-100 dollars (\$277.67) will be added to contract price. (2.) Furnish and install complete new brass piping to replace the existing galvanized-iron piping between the filtered fresh water pipe line on first floor and the roof tanks for cooled water. The new piping shall be two (2) inches inside diameter iron size brass pipe. Make all connections with the filtered fresh water pipe line and with the roof tanks for cooled water. Furnish and install complete two (2) one and one half (1½) inch brass valves; all as specified in the contract for brass valves. Remove and dispose of existing galvanized-iron piping and covering where brass piping is to be installed. Cover new brass piping, fittings, unions and valves with ¾-inch wool felt sectional covering having an inner lining of tarred paper ½ inch thick and canvassed with seven (7) ounce thirty-seven (37) inch wide canvas. For all this work on furnishing and instal-

ling new brass piping complete from filtered fresh water pipe line on first floor to the roof tanks for cooled water, the sum of one hundred eighty-one and 50-100 dollars (\$181.50) will be added to contract price. Additions: 1. Brass piping, water main to salt water filters, \$277.67; 2. Brass piping filtered fresh water pipe line to roof tanks for cooled water, \$181.50; total, \$458.17. Contract price, \$4,800; addition as per this order, \$458.17; contract as standing, \$5,258.17.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC BUILDINGS DEPARTMENT.

Upon March 7 the Mayor approved a contract with the Portland Elevator Company for installing two passenger elevators in City Hall building. A communication from John P. Englert of the Public Buildings Department was as follows:

BOSTON, February 14, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—On February 2, 1927, the Public Buildings Department publicly opened and read bids for installing two electric passenger elevators in the City Hall building. The number of bids received were three, namely,

Portland Elevator Company, \$28,777; A. B. See Elevator Company, \$32,375; Otis Elevator Company, \$32,411.

The specifications requested that bidders submit a unit price allowance for elevator fronts and doors. Both the Otis and A. B. See companies submitted same, but the Portland did not, but have since sent same in the form of a letter. All three concerns also submitted a figure for furnishing what they term "Tyler fronts" if same are required.

The following is a statement showing a comparison of one bid with another and from an examination of same it appears that the Portland Elevator Company are the lowest bidders in every respect:

Portland Elevator Company.—Bid received, \$28,777. Elevator fronts and doors, unit price, \$5,870. If Tyler fronts are used add \$2,836. Total, \$31,613.

A. B. See Elevator Company.—Bid received, \$32,375. Unit price elevator fronts and doors, \$5,125. If Tyler fronts are used add \$3,425. Total, \$35,800.

Otis Elevator Company.—Bid received, \$32,411. Unit price elevator fronts and doors, \$8,022. If Tyler fronts are used add \$887. Total, \$33,298.

I have since presented all these facts to the Law Department, asking them to advise me as to the legality of one of the bids submitted and am inclosing to you a copy of their communication. You will observe from this communication that they suggest, in order that the city may not be a loser, that I reject all bids and request permission to award a contract with the Mayor's approval, without advertising, to the Portland Elevator Company for the price submitted in their original bid.

I have also conferred with the Building Department as far as the elevator fronts and doors are concerned and they suggest that same be in conformity with other quarters of the building and not as elegant as the so-called Tyler fronts would be.

I therefore respectfully request permission to award a contract to the Portland Elevator Company for the installation of two electric passenger elevators in City Hall building, without the usual form of advertising, in the sum of twenty-eight thousand seven hundred seventy-seven (28,777) dollars (the sum of five thousand eight hundred seventy (5,870) dollars to be included in this item as an allowance for elevator fronts and doors).

In making this request, I believe the best interests of the city will be conserved thereby.

Respectfully yours,

JOHN P. ENGLERT,
Superintendent of Public Buildings.

Upon March 7 the Mayor approved a contract for electric work for the offices of the Police Headquarters building. A communication from John P. Englert of the Public Buildings Department was as follows:

BOSTON, February 18, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—On October 20, 1926, the Public Buildings Department accepted the new Police Headquarters building and at that time there was one feature that could not be provided until such time as the Police Department were located therein because of the fact that the Police Commissioner did not know

exactly the allocation of the various divisions in the building, and until such divisions were finally placed and the desks, cabinets, etc., put in their proper positions, the various electric outlets to supply light for the desks could not be established.

As early as August of last year I had a conference with the Police Commissioner and the architect and it was deemed advisable not to proceed with this work until such time as the divisions had been located. I then authorized the Police Commissioner to have this work done and charged to the construction account, as it was clearly an obligation against this account. At the time this work was ordered it was thought that possibly it would be less than \$1,000, or at the greatest figure, a few hundred dollars in excess of same, but the Anderson-Coffey Company, who were the contractors on the building, were engaged to do this work and have now presented a bill in the aggregate of \$2,671.32, which is far in excess of the amount of work to be performed without publicly advertising same.

There is no possibility of clarifying the situation without permission to do this work in excess of \$1,000 and I therefore respectfully request permission to do the work of establishing these various outlets throughout the Police Headquarters building, in a sum not to exceed \$2,700, without the usual form of advertising.

Respectfully yours,

JOHN P. ENGLERT,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon March 7 the Mayor approved a contract with the B. & B. Contracting Company for the construction of artificial stone walks. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, March 4, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the B. & B. Contracting Company, 3829 Washington street, Roxbury, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon March 7 the Mayor approved a contract with Guiseppi Lopreste for the construction of artificial sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, February 28, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Guiseppi Lopreste, 94 Warren street, Brighton, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city

and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon March 7 the Mayor approved a contract with A. Rossano for the construction of artificial stone sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, March 4, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to A. Rossano, 579 Bennington street, East Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon March 10 the Mayor approved a contract with Andrew Carey for the construction of artificial sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, March 7, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Andrew Carey, 2 Dunford street, Roxbury, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon March 10 the Mayor approved a contract with James J. Conway for the construction of a sewer in Goodale road, West Roxbury. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, March 7, 1927.

To the Mayor of Boston.

Your approval is respectfully requested to the award of a contract, without advertising, to James J. Conway for the construction of a sewer in Goodale road, West Roxbury, at an estimated cost of \$819.

Mr. Conway is working on a sewer in Goodale road at the present time, and as the intention is simply to extend this sewer a distance of 133 feet, the city feels that no advantage could be obtained by advertising for proposals for this extension, inasmuch as the prices to be paid are the same as those in the existing contract and are probably less than prices which would be obtained by advertising for proposals.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

SCHOOLHOUSE DEPARTMENT.

Upon March 7 the Mayor approved a contract with Paul Caputo for finishing the science room in the first addition to the Washington Irving School. A communication from Charles P. Norton of the Schoolhouse Department was as follows:

BOSTON, March 3, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—The Board of Schoolhouse Commissioners respectfully requests the approval of your Honor, under the provisions of chapter 486, section 30, of the Acts of 1909, to awarding of a contract, without advertising, in the sum of \$1,470.04, to Paul Caputo, 43 Tremont street.

This amount is necessary to finish the science room of the first addition to the Washington Irving School. The above-named contractor has the contract for the erection and completion of the second addition to this building; and the Board is of the opinion that it will be for the best interests of the city to allow him to do this work, as he is now on the premises finishing up the second addition. The request for this work has come from the School Committee, and the price has been checked and found to be reasonable.

We hope that this request will meet with your Honor's approval.

Respectfully yours,

CHARLES P. NORTON,
Acting Chairman.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Ferry Service).

An addition, amounting to \$1,000, on contract with the Atlantic Works for repairing hull, etc., of ferryboat "Noddle Island," on account of removing tail shaft; repairing lead sleeve and replacing at agreed prices, including lay day charges; repairing two planks in hull; removing such yellow metal as directed; calking seams and butts, etc., as directed. Original contract, \$5,637; total addition, \$1,000; contract as standing, \$6,637.

An addition, amounting to \$278.50, on contract with Joseph A. Singarella for remodeling canopy, North Ferry, Boston, on account of constructing artificial stone sidewalk, concrete curb, granite block paving on concrete base, and concreting below grade (including excavation). Original contract, \$1,620; total addition, \$278.50; contract as standing, \$1,898.50.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$20, on contract with the Rendle Corporation for dump stick on sea wall, Dorchester avenue, city proper, on account of beveling back of dump stick as directed. Original contract, \$910; total addition, \$20; contract as standing, \$930.

SCHOOLHOUSE DEPARTMENT.

Phandor Company have been allowed an addition to the contract for the Bennet District School for trench work and open blasting in order that catch-basins could be connected to surface sewer, per architect's letter of March 1, 1927, and the amount of \$1,698.05 will be added therefor, making the account as follows: Contract price, \$101,000; total additions, \$17,077.32; total deductions, \$900; amount of contract, \$117,177.32.

FIRE DEPARTMENT ORDERS.

General Order No. 6.

I. HEARING.

A hearing was held January 20, 1927, on a charge preferred by Captain Edward Connors of Engine Company 2 against Hoseman John J. Lombard of that company.

Charge: Violation of Rule 374, section j. Specification: That Hoseman Lombard reported for platoon tour of duty at 6 p. m., January 12, 1927, under the influence of liquor or drugs.

Plea: Guilty.

Sentence: Hoseman Lombard is suspended from duty for two weeks, beginning at 12 m., January 14, 1927. Leniency is shown in this sentence on account of Hoseman Lombard's long service and good record. A repetition of this offence will result in his discharge.

A hearing was held January 20, 1927, on a charge preferred by Captain Charles A. Wolfe of Engine Company 22 against Ladderman Patrick F. O'Neil of Ladder Company 13.

Charge: Violation of Rule 374, section c.

Specification: Ladderman O'Neil, assigned to house patrol from 2 to 4 a. m., January 12, 1927, failed to sound the house gong on receipt of alarm from box 2344 at 2.16 a. m., thereby causing Engine Company 22 a delay of approximately four minutes in responding, box 2344 being a first alarm assignment for Engine Company 22.

Plea: Guilty.

Sentence: Ladderman O'Neil is suspended from duty for four days beginning at 8 a. m., Saturday, January 22, 1927. Leniency is shown in this case because of Ladderman O'Neil's good record in this department. Lack of knowledge of house patrol duties and failure to exercise due vigilance will receive more drastic punishment hereafter.

II. RESIGNATION.

The resignation of George E. Adams, Engine Company 24, has been accepted by the Fire Commissioner to take effect at 12 m., Friday, January 21, 1927, Rule 305 having been waived.

III. REINSTATEMENT.

The following reinstatement and assignment is hereby announced to take effect at 8 a. m., Friday, January 21, 1927:

William J. Barrett, to Engine 24.

IV. TELEPHONE RECEIVERS.

Members of the department are requested to be exceptionally careful relative to the replacing of telephone receivers on hooks when conversations are ended. Several times, recently, it has been impossible to call companies because receivers have been left off the hooks. Occasionally, where there are desk telephones, it has been found that a book or other object has raised the receiver so that proper connections could not be made.

V. FIRE ALARM BOX DOORS.

The attention of the department is called to the fact that fire alarm box doors should not be greased or oiled to facilitate operation. When a door is found defective, as is already provided, prompt report to the fire alarm office should be made and that branch will assume the responsibility to repair the reported defect.

By order of the Fire Commissioner,
E. C. Hultman.

DANIEL F. SENNOTT,
Chief of Department.

FUNDS FOR PORT DIFFERENTIALS FIGHT.

Mayor Nichols announced on March 7 that he had sent to the City Council the following communication and order providing for the appropriation for a sum not in excess of \$5,000 to be expended under the direction of the Mayor in the matter of port differentials.

To the City Council.

GENTLEMEN,—The question of the abolition of port differentials on export and import traffic is and has been for the past six years the most important proposition confronting New England. The City of Boston has not been unmindful of this fact, and during the past five years has made available a total of \$13,000 for the purpose of combating the system of unfair and discriminatory differentials placed in operation by the Interstate Commerce Commission. As a consequence of this opposition, certain measures of relief have been secured primarily in connection with our import trade. Our foreign export trade, however, has been seriously handicapped and it is absolutely necessary that our opposition to the present differential rates be continued until such time as the Port of Boston shall receive the necessary measures of relief to which it is entitled.

The recent allocation to Boston of the ships of the American Republics Line may be said to be indirectly the result of our differential campaign. To bring these ships to Boston it was necessary to overcome the opposition of the same cities who have been leading the fight against us in the matter of port differentials. The transfer of these ships to Boston will result in the annual expenditure of millions of dollars within our city for labor, materials and supplies.

The city of Baltimore has raised a fund of \$50,000 to contest our efforts in the removal of port differentials. Philadelphia has also appropriated funds for this purpose, and, in addition, we must combat the powerful opposition of the Baltimore & Ohio and Pennsylvania Railroads. Approximately two years ago the city made a contribution of \$5,000 as its share towards the expenses of the campaign. This contribution is now exhausted and if the necessary and important campaign is to be continued additional funds will be required. Boston has a very vital interest in the continuance of this campaign, hence, I submit for your approval an order providing for the appropriation on the part of the city of the sum of \$5,000 to be expended in the continuance of an aggressive campaign for the removal of port differentials.

I respectfully recommend adoption of this order by your honorable body.

Respectfully,

MALCOLM E. NICHOLS, Mayor.

CLAIMS ALLOWED.

The Mayor upon recommendation of the Corporation Counsel has approved the following claims:

Margaret A. Sullivan in the sum of \$350, in an action to recover for personal injuries caused by hole in sidewalk at 848 East Fifth street, South Boston, October 24, 1925.

Helen A. Donovan, in the sum of \$1,350, in an action to recover for personal injuries caused by defective highway at 1542 Tremont street, May 21, 1925.

Alexander Visnick, 233 and 235 Oakland street, Ward 18, 2,000 gallons of gasoline.

ORDERS OF ADDITION.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved the issuing of the following orders of addition:

The issuance of an order of addition, in the sum of \$1,698.05, to the contract of Phandor Company for erection and completion of the Bennett District School.

This amount is required to cover the cost of trench and open blasting, in order to build catch-basins and run the soil pipes for basins to the surface sewer.

The issuance of an order of addition, in the sum of \$2,285.98, to the contract of M. S. Kelliher Company for the erection and completion of the Minot District School.

This amount is required to cover the cost of new foundations and concrete underpinning for ash hoist; for furnishing and installing extra iron doors and frames under stairs, in order to have access to steam pipes; and for making provision for the installation of the future second floor.

The issuance of an order of addition, in the sum of \$4,107, to the contract of Paul Caputo for the erection and completion of the second addition to the Washington Irving School, Roslindale.

This amount is required to cover the cost of cutting out the common brick in the stairway of the first addition and laying up a salt-glazed brick veneer, in order that all the stairways might correspond; also carrying the foundations down more deeply in certain sections, in order to obtain good bearing soil. This latter involved extra excavation and extra foundation.

DAMAGES ASSESSED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Whereas, An award of \$16,376 for the taking of an easement for highway purposes in 196 square feet of land from Joseph P. Manning, for the widening and relocation of Cambridge and Court streets, was made to said Manning under the order for said improvement, dated August 20, 1924; and

Whereas, Said sum (\$16,376) was accepted by said Manning not in full satisfaction of all damages so sustained but as payment *pro tanto* without prejudice to any right to have the remainder of said damages, if any, assessed by the appropriate tribunal; and

Whereas, Said Manning petitioned the Superior Court for a jury to determine said damages in excess of the amount (\$16,376) so awarded, accepted and paid; now, therefore, it is

•Voted, After consultation with the Law Department and on its advice, that additional damages in the amount of \$3,000 be and the same hereby is awarded to Joseph P. Manning, and it is further ordered that the Corporation Counsel agree to judgment in said case on the terms herein stated.

PETITIONS APPROVED.

The Mayor has approved the following petitions received from the Board of Street Commissioners:

Strand Battery Service Station, 527 Columbia road, Ward 13, oxygen.

Leonard J. Malone, 1049 Dorchester avenue, Ward 13, oxygen.

Max Gladstone, 226 Main street, Ward 2, 1,000 gallons of gasoline.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Ferndale road, bounded:

Southeasterly by easement taken by the City of Boston for sewerage purposes September 24, 1924, ten and 84-100 feet; southwesterly by another part of Ferndale road, seven hundred ninety-six and 15-100 feet; northwesterly by the same, ten and

13-100 feet; and northeasterly by the same, seven hundred ninety-eight and 70-100 feet; containing seventy-nine hundred and seventy-four square feet, more or less.

The sewerage works to be constructed are as follows: 804 linear feet of 10-inch pipe sanitary sewer and 800 linear feet of 20-inch and 12-inch pipe surface drain, in the above described premises, being part of the private way known as Ferndale road, beginning at a point approximately one hundred feet easterly from Washington street and extending easterly to easement taken by the City of Boston for sewerage purposes September 24, 1924.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Ferndale road, excluding the lots at the northeasterly and southerly corners of Washington street and Ferndale road, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 737, Sewerage Works, Ferndale Road, West Roxbury, February

3, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

The Mayor has approved the order of
the Board of Street Commissioners for
the taking of land for sewerage works
to be constructed as follows:

The right and easement is taken to lay
and maintain sewerage works in the fol-
lowing described lands, exclusive of any
interest in trees, buildings or other struc-
tures standing thereon, reserving to the
owners thereof the right to use the lands
for any purpose except such as may injure
or obstruct said works, and except for
placing or maintaining any structure on
said lands not authorized in writing by
the Mayor of said city; trees, buildings
or other structures standing upon or
affixed to the land in which an easement
is hereby taken are to be removed there-
from within sixty days following a notice
of the city's intention to enter upon said
taking for the purpose of constructing
said sewerage works. Said lands are in
that part of Boston formerly West Rox-
bury and are bounded as follows:

A parcel of land, owners unknown,
being part of the private way known as
Cedar street, bounded:

Northwesterly by Washington street,
ten and 5-100 feet; northeasterly by
another part of Cedar street, six hundred
and twenty feet; southeasterly by the
same, ten feet; and southwesterly by the
same, six hundred nineteen and 66-100
feet, containing sixty-one hundred and
ninety-eight square feet, more or less.

The sewerage works to be constructed
are as follows: 600 linear feet of 10-inch
pipe sanitary sewer and 609 linear feet
of 10-inch pipe surface drain, in the above
described premises, being part of the
private way known as Cedar street, lead-
ing southeasterly from Washington street

for a distance of approximately six hun-
dred and twenty feet.

This Board determines that no person
sustains damages in his estate by the
taking of the aforesaid easement and
construction of said sewerage works and
awards no damages therefor.

Betterments are to be assessed for the
making of the aforesaid improvement.

Ordered, That this Board estimates
that the lots of abutting land on both
sides of Cedar street, excluding the lots
at the easterly and southerly corners of
Washington and Cedar streets, will re-
ceive benefit or advantage, beyond the
general advantage to all real estate in
said city, from the improvement herein
ordered, each of said lots to the amount
hereinafter respectively set against it;
said lots and the supposed owners thereof
being shown on a plan marked "City of

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston, formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Maynard street, bounded:

Southwesterly by Dale street, ten and 48-100 feet; northwesterly by another part of Maynard street, by two measurements, one hundred forty and 78-100 feet; and one hundred sixty-three and 83-100 feet; northeasterly by another part of Maynard street, ten feet; and southeasterly by another part of Maynard street, by two measurements, one hundred and sixty-five feet and one hundred thirty-eight and 83-100 feet, containing thirty hundred and forty-two square feet, more or less.

The sewerage works to be constructed are as follows: 300 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Maynard street, leading north-easterly from Dale street for a distance of approximately three hundred and four feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Maynard street, leading northeasterly from Dale street for a distance of approximately three hundred and four feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 735, Sewerage Works, Maynard Street, West Roxbury, February 4, 1927, William J. LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Hayes street, bounded: Northwesterly by Birch street, ten feet; northeasterly by another part of Hayes street, three hundred and twenty-five feet; south-easterly by the same, ten feet; and southwesterly by the same, three hundred and twenty-five feet, containing thirty-two hundred and fifty square feet, more or less.

The sewerage works to be constructed are as follows: 332 linear feet of 10-inch pipe sanitary sewer and 333 linear feet of 10-inch pipe surface drain, in the above described premises, being part of the private way known as Hayes street, leading southeasterly from Birch street for a distance of approximately three hundred and twenty-five feet.

Betterments are to be assessed for the making of the aforesaid improvements.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Ordered, That this Board estimates that the lots of abutting land on both sides of Hayes street, for a distance of approximately 352 feet southeasterly from Birch street, excluding the lots at the easterly and southerly corners of Birch and Hayes streets, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectfully set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 731, Sewerage Works, Hayes Street, West Roxbury, January 29, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

SEMAPHORE AT FAY SQUARE.

The following was received:

City of Boston,
Office of the Mayor, March 4, 1927.

To the City Council.

Gentlemen,—I transmit herewith a communication from the Police Department in reply to your

order of February 14, 1927, in relation to placing semaphore at Fay square, Charlestown.

Yours respectfully,

MALCOLM E. NICHOLS, Mayor.

City of Boston,

Police Department, March 2, 1927.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Mayor Nichols,—Replying to a communication under date of February 16, together with an order of the City Council, requesting that a semaphore be placed in Fay square, Charlestown, I wish to state that after an investigation of this location by the officers in charge of traffic in this department, it appears that there is no type of traffic signal needed at the present time at this location.

The traffic in Main street, near this square, is heavy at times, while the traffic in Bunker Hill and Medford streets is light and apparently not much cross traffic and not many pedestrians.

If it develops that a traffic signal should be necessary owing to changed weather conditions, I shall be glad to take the matter again under consideration.

Yours respectfully,

HERBERT A. WILSON,
Police Commissioner.

Placed on file.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments for the term ending April 30, 1927:

Constables: Julius Ansel, 49 Thetford avenue, Dorchester; Abraham I. Weiss, 133 Harold street, Roxbury.

Laid over for a week under the law.

APPROPRIATION FOR PORT DIFFERENTIALS.

The following was received:

City of Boston,

Office of the Mayor, March 7, 1927.

To the City Council.
Gentlemen,—The question of the abolition of port differentials on export and import traffic is and has been for the past six years the most important proposition confronting New England. The City of Boston has not been unmindful of this fact, and during the past five years has made available a total of \$13,000 for the purpose of combating the system of unfair and discriminatory differentials placed in operation by the Interstate Commerce Commission. As a consequence of this opposition, certain measures of relief have been secured primarily in connection with our import trade. Our foreign export trade, however, has been seriously handicapped and it is absolutely necessary that our opposition to the present differential rates be continued until such time as the port of Boston shall receive the necessary measures of relief to which it is entitled.

The recent allocation to Boston of the ships of the American Republics Line may be said to be indirectly the result of our differential campaign. To bring these ships to Boston it was necessary to overcome the opposition of the same cities who have been leading the fight against us in the matter of port differentials. The transfer of these ships to Boston will result in the annual expenditure of millions of dollars within our city for labor, materials and supplies.

The City of Baltimore has raised a fund of \$50,000, to contest our efforts in the removal of port differentials. Philadelphia has also appropriated funds for this purpose, and, in addition we must combat the powerful opposition of the Baltimore & Ohio and Pennsylvania Railroads. Approximately two years ago the city made a contribution of \$5,000, as its share towards the expenses of the campaign. This contribution is now exhausted and if the necessary and important campaign is to be continued additional funds will be required. Boston has a very vital interest in the continuance of this campaign, hence I submit for your approval an order providing for the appropriation on the part of the city of the sum of \$5,000, to be expended in the continuance of an aggressive campaign for the removal of port differentials.

I respectfully recommend adoption of this order by your honorable body.

Respectfully,

MALCOLM E. NICHOLS, Mayor.

Ordered, That a sum not in excess of \$5,000 be and hereby is appropriated to be expended under the direction of the Mayor in the matter of Boston port differentials, said sum to be charged to the Reserve Fund, when made.

Referred to the Executive Committee.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President HEFFERNAN, under unfinished business, called up Nos. 1 and 2 on the calendar, viz.:

Action on appointments submitted by the Mayor February 28, 1927, viz.:

1. William J. Weyand and Leo Bass, to be constables.

2. David Wright and J. J. Sweeney, to be weighers of goods, and Helen M. Hamilton, to be a weigher of coal.

The question came on confirmation. Committee, Coun. Keene and Green. Whole number of ballots 13, yeas 13, nays 0, and the appointments were confirmed.

President HEFFERNAN in the chair.

ACCEPTANCE OF MANNING STREET.

Coun. WRAGG offered the following—That the Street Commissioners be requested, through his Honor the Mayor, to lay out and accept Manning street, from Berry street to Gilman street, Ward 18, as a public highway.

Passed under suspension of the rule.

ACCEPTANCE OF GILMAN STREET.

Coun. WRAGG offered the following—That the Street Commissioners be requested, through his Honor the Mayor, to lay out and accept Gilman street, from Canterbury street to Sutton street, Ward 18, as a public highway.

Passed under suspension of the rule.

PAVING ABBOTSFORD STREET.

Coun. BUSH offered the following: Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to pave with smooth paving Abbotford street, Ward 12.

Passed under suspension of the rule.

RESURFACING HYDE PARK AVENUE.

Coun. GUILD offered the following: Ordered, That the Commissioner of Public Works, through his Honor the Mayor, be requested to resurface with smooth paving Hyde Park avenue between Walk Hill street and Metropolitan avenue.

Passed under suspension of the rule.

ROADWAY OVER SHAWMUT BRANCH EXTENSION.

Coun. WILSON offered the following: Ordered, That his Honor the Mayor be and he hereby is respectfully requested to advise the City Council the result, if any, of his investigation of the expense of construction of a roadway or street for pleasure vehicles over the tunnel or araway of the Shawmut Branch of the Cambridge Tunnel, such investigation having been respectfully requested by order of the City Council, passed November 29, 1926.

Coun. WILSON—Mr. President, I move a suspension of the rule and a passage of the order.

Coun. GILBODY—Mr. President, I would like to have the order referred to the Executive Committee, if the gentleman has no objection.

Coun. WILSON—Mr. President, I have no objection, but would say that this is simply a polite reminder to the chief executive to send us, if possible, the results of the investigation that he was asked to make two months ago on this particular matter. Apparently, judging from results, if there was an investigation and a report was made, it was thrown into the waste basket. But I have no objection to this order going to the Executive Committee.

The order was referred to the Executive Committee.

CONTRACTORS BIDDING ON SHAWMUT BRANCH EXTENSION.

Coun. WILSON offered the following: Ordered, That his Honor the Mayor, through the City Auditor, be and he hereby is respectfully requested to furnish the City Council forthwith with the name and address of each contractor who made any bid or bids for the construction of the so-called Shawmut Branch extension, which includes the tunnel or araway between Park street and Peabody square, Dorchester.

Referred to the Executive Committee.

RADICAL PUBLICATIONS AMONG SCHOOL CHILDREN.

Coun. WILSON offered the following: Ordered, That the Police Commissioner and the Corporation Counsel of the City of Boston, through his Honor the Mayor, be requested and urged forthwith to confer and co-operate with the District Attorney for Suffolk County, relative to any continued dissemination of radical publications among young school children in the City of Boston.

Coun. WILSON—Mr. President, presumably every member of the City Council has read in the newspapers recently concerning the organized circulation of radical so-called "literature" among the young school children of the City of Boston, especially in the Roxbury and Dorchester districts. I realize, of course, that there is such a thing as freedom of the press, but, on the other hand, I feel very strongly that any attempt to undermine the morale or patriotism of the young children in our primary and grammar schools is something that should be stamped out at the start. There is an attempt particularly to attack such patriotic organizations as the Girl Scouts and Boy Scouts of America, which organizations are especially strong in my district, for which reason presumably this attack has been started in the Dorchester ward. I thoroughly agree with the often expressed sentiment of Coun. McGrath that this body should not memorialize any other governing body, and for that reason I purposely, before putting the order in to the Council, wrote to the Governor of the Commonwealth today asking for his assistance, and urging him to utilize the secret service branch of the Commonwealth in ferreting out this matter. I am convinced, from following up and reading the articles, that the purpose of those spreading them is not to circulate the sheets as such, but that they are being used as a come-on to encourage the increased circulation of a vicious socialist paper called "The Young Comrade," and other such papers published in the city of Chicago. I accordingly urge the passage of the order at this time.

Coun. GUILD—Mr. President, at the risk of seeming to defend radicals and Reds and other people of that ilk, I rise to oppose Coun. Wilson's motion. It seems to me the best way to focus the

attention of the public upon such pernicious activities as those to which he has referred is for bodies such as the Boston City Council to take notice of them. We all know the effect of censorship of the drama. The plays which are branded are the ones where the houses are crowded. As soon as a body like the Boston City Council begins to take cognizance of the activities of such people, attention is focused upon them, which is the one thing they want above all others. They want public attention, they want resolutions passed by bodies like the Boston City Council, because that is their bread and drink. I, therefore, am heartily opposed to the City Council recognizing the activities, pernicious as they are, of these radicals and Reds, and I hope that the motion will not prevail.

The rule was suspended, and the order was read a second time and passed.

RENTAL OF BOULEVARD ELECTRIC LIGHT POLES.

Coun. WILSON offered the following: Ordered, That the Greater Boston Committee of the City Council—preferably in conjunction with his Honor the Mayor—investigate and report, first, with reference to the reported rental by the City of Boston of approximately 6,000 boulevard electric light poles, costing approximately \$110 each, at an annual rental of \$36 per year per pole, and secondly, with reference to the advisability of substituting for the present incandescent lamps a diffusing nonfocusing reflector system.

Coun. WILSON—Mr. President, last Monday the members of this body listened with interest to Coun. McGrath's remarks suggesting a possible reduction of electric light rates from 8½ cents to 5 or 6 cents per kilowatt hour. As an interesting coincidence, each member of this body likewise received last Monday a communication from Mr. Allan G. Lamson on the same general subject, but from another angle, viz., a reduction of electric light costs to the City of Boston. I personally was much interested in the suggestion that the City of Boston pays over a period of each three years a rental on thousands of poles sufficient in amount to have purchased the poles outright. I was also interested in the suggestion that one third of our present number of poles differently, but just as economically equipped, will furnish twice the present visibility while using less than one third the present current. I was sufficiently interested to talk with Mr. Lamson personally and while I myself do not attempt for a moment to qualify as an expert, I was told that Police Commissioner Wilson has already equipped one third of the police poles in the City of Boston with the suggested reflector system, on receiving favorable reports by individual members of the police force. I understand that this equipment reduces the cost of operation from 8½ cents to 3½ cents per kilowatt hour, that there is an increased visibility even with reduced consumption of light current, and that the change is easily effected, not necessarily through any replacement of poles, but merely by installation of the new bulb and reflector. Nothing can be lost and much can be gained by serious consideration of this problem. The Cambridge City Council, I am informed, is already taking up the matter with Mr. Lamson. I feel that proper investigation by the members of this body in conference with Mr. Lamson, Commissioner Sullivan, Mr. Atwood, and the representatives of the Edison Light and other companies may well mean improved lighting and substantial economy for the City of Boston.

The order was passed under suspension of the rule.

HALF HOLIDAY FOR WOMEN CLEANERS, CITY HOSPITAL.

Coun. DOWLING, for Coun. Ward, offered the following:

Ordered, That the Trustees of the Boston City Hospital, through his Honor the Mayor, be requested to establish a half holiday each week for women employed as cleaners at the Boston City Hospital.

Coun. DOWLING—Mr. President, if Coun. Ward, for whom I introduced this order, were here, he would tell you, prayerfully and tearfully and much more eloquently than I could possibly do that the cleaners employed in the Boston City Hospital are compelled to put in a seven-day week, with no time off. I ask a suspension of the rule that the order may pass at this time.

The order was passed under suspension of the rule.

ANNUITY TO WIDOW OF GEORGE DRISCOLL.

Coun. McGRATH for Coun. McMahon offered the following:

Ordered, That an annuity of six hundred dollars be allowed and paid to the widow of George Driscoll, late member of the Fire Department, who died from injuries received in the performance of his duty, such annuity to continue so long as said widow remains unmarried and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Referred to Executive Committee.

LEASE TO DORCHESTER POST NO. 498.

Coun. GILBODY offered the following:
Ordered, That his Honor the Mayor be and he hereby is authorized in the name and behalf of the City of Boston, and in form satisfactory to the Law Department, to execute a lease to Dorchester Post No. 498, Veterans of Foreign Wars, of one room in the city building situated at the corner of Washington and Norfolk streets, in that part of Boston formerly called Dorchester, for a term not exceeding five years beginning with the passage of this order, at a rental of one dollar per annum.

Referred to Committee on Public Lands.

ARC LIGHT, WARD 16.

Coun. GILBODY offered the following:
Ordered, That his Honor the Mayor request the Public Works Commissioner to install an arc light at corner of Train street and Victory road, Ward 16.
Passed under suspension of the rule.

RECESS.

The Council voted, on motion of Coun. DONOVAN, at 3:02 p. m., to take a recess subject to the call of the President.

The members reassembled in the Council Chamber and were called to order by President HEFFERNAN at 3:55 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GILBODY, for the Executive Committee, submitted the following:

1. Report on order (referred February 14) requesting information from Law Department relative to Harvard College branch library, recommending passage of order in following new draft, viz.:

Ordered, That the Corporation Counsel at his earliest convenience, through his Honor the Mayor, be requested to answer for the information of the Council, the following questions relating to the agreement referred to by him in his opinion dated February 4, 1927, regarding the transfer of certain books from the Boston Public Library to Harvard College.

1. Is it your opinion that Harvard University is a school or institution of learning, whether under public control or otherwise, wherein any denominational doctrine is inculcated?

2. Is it your opinion that Harvard University is a school, college, institution, or educational undertaking, which is not publicly owned and under the exclusive control, order and superintendence of public officers or public agents authorized by the Commonwealth or Federal authority or both?

Report accepted; order passed.

2. Report on order (referred today) on result of investigation for use of roadway over Shawmut Branch extension for pleasure vehicles—that same ought to pass.

Report accepted; order passed.

3. Report on order (referred today) that his Honor the Mayor furnish the Council with name and address of each contractor bidding on the Shawmut Branch extension—that same ought to pass.

Report accepted; said order passed.

4. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, that leave be granted under usual conditions, as follows:

Marion Thayer Hiltz, Dudley St. Municipal Building, May 19.

Maria Paparello, Jordan Hall, April 27.

Report accepted; permits granted on usual conditions.

5. Report on message from Mayor and order (referred today) appropriating a sum not in excess of \$5,000 to be expended under direction of Mayor in matter of Boston port differentials—that the same ought to pass.

Report accepted; and the order was given its first reading and passage, yeas 16, nays 0.

6. Report on message of Mayor (referred February 28) relative to proceedings of the Committee on Unemployment—that the same be placed on file.

Coun. McGRATH—Mr. President, the letter from his Honor the Mayor was so lengthy that it is almost impossible to answer it in every detail but, because there are a few statements contained therein that are of special interest to me, I am going to attempt to answer it as briefly as I can. Whether there is a necessity for an Unemployment Committee being appointed at this time or not, is not for me to decide finally, perhaps, but I would refer to the testimony before our committee of Mr. Harry Jennings, the business agent of the Boston Central Labor Union, on last Friday, in which he told us that there are between 60,000 and 65,000 men unemployed in Boston at the present time. Wholesale discharges of employees by corporations and by individual firms have resulted in that state of affairs, and this body has, therefore, appointed a committee of five members on the question of unemployment. I think his Honor the Mayor was supposed to have a representative on the committee, but he failed to send one there. However, his failure to do so did not hamper the committee's

work, and they have proceeded to take stock of the situation so far as they could, and get some idea of the number who are really unemployed. The first ones we called in were the officials of the Telephone Company, who came here, and we found that over a thousand men and women had been discharged from that company. Whatever happened subsequent to that was because of the Telephone Company's endeavor to listen in and to hear what was being said by those who were interested in those meetings, and it was the Telephone Company that took the initiative in bringing about a situation that then confronted us. We were confronted with a situation that we were told existed in connection with contracts entered into by the City of Boston, and a great many said to us, "There is no object in continuing your meetings until you have first cleaned your own house. There are several contractors in Boston who are employing alien labor instead of citizen help, resulting in a good deal of unemployment of citizens." So we invited about forty-five of these contractors in, and forty-four of them came, and one failed to come, although for a month we sent an invitation to him to appear, and the last invitation notified him that unless he came before our committee the committee would be forced to pay attention to the rumors about him and drastic action would be taken. He again failed to appear, however. So, whatever has happened or may happen in that instance, is again the contractor's fault, and is not to be placed on the shoulders of the committee or any member of the committee. Gentlemen, we all know something about the unemployment situation in Boston. We were all surprised two weeks ago today on entering this hall to find these rooms crowded with men who were unemployed. Many of them were young men, men fairly well dressed, and yet they were here prepared to do whatever laborious work might offer, shoveling snow for the city, or anything else. You know, Mr. President and members of the Council, that a number of them were lying on the floor, they were so weakened through tramping the streets and not having proper food. So when his Honor the Mayor says that there is no unemployment in Boston, he would merely have to come upstairs here two flights to find an appalling condition. We hear a great deal about a crime wave. Let me suggest that if there were not so many young men unemployed, walking the streets of Boston out of work, there would be no crime wave. It is idle, of course, for me or anybody else to criticize the present situation, unless there is something constructive stated, some means of correcting it. I do feel that there are things that can be done. There is already appropriated \$650,000 for a pumping station in East Boston, and half a million dollars for the widening of Ashland street. Why not start on this work today? Six weeks from today the contractors of Boston will be bidding against each other for these men who are idle, but six weeks is a long time to wait when men are hungry, penniless and cold. I know in my ward men who are fathers of families who are in very desperate straits. One man is the father of six children, and he had been employed in a neighboring department store, and he came to me asking for city aid for the first time in his life. There has never been a time in the history of this city since 1914 when there were so many men looking for an honest day's work, walking the streets of the city begging for an opportunity to work. Perhaps we cannot solve the problem, but we cannot treat it lightly, we cannot make a joke of it, and any man in elective office who says it is no concern of his is making a serious mistake, so far as his elective position is concerned. Those contracts can be started. It is an open winter. There is no question but what this work could be started in East Boston, and also work on Ashland street. Many works of that kind could be gotten under way, and it would help to relieve the present very serious situation in this city. Let us all realize the seriousness of the situation, when there are so many deserving married men, men with families, willing to do almost anything if they can get a good week's work. It is all very well for his Honor to say that there are certain acts in connection with the running of a city that are executive, and that he assumes full responsibility for such acts, and he alone is held responsible in that connection for what takes place. But it would be just as wide of the mark for the president of a bank to feel that the board of directors of the institution were not to be held responsible for the action of the president as for his Honor the Mayor to take the position that this Council is not responsible for what may be done by the city. We are responsible to the citizens, just as he is. His Honor the Mayor may claim that it is no concern of the Council, that we have nothing to do with the expenditure of money. In that connection he referred to section 8 of the charter and warns me that I could be arrested and imprisoned for a year and have a fine of a thousand dollars imposed upon me for violating section 8 of the charter, because of attempting to get men employment. If that is the case, so be it. But I, Mr. Chairman, do not take that view of our rights or responsibilities here. I am not in this matter, Mr. President, looking for some cheap notoriety. I take the position I do on this matter because this is something of vital importance to us all. There is, perhaps, a difference of opinion. I will say this. When we have appropriated money, when we have voted for a specific sum—like a million dollars for Long Island almshouse or a quarter of a million for the removal of ashes and garbage in Dorchester, I

agree that in the making of the contract we have no authority. And that is very fortunately so. But when that contract has been made and it comes to the spending of the money, I differ with the opinion of any Corporation Counsel who says that we have no right and no responsibility in that matter. I say that we are directly responsible, and whether I am a member of this body for six months or for six years, I will watch the expenditure of every dollar that I have passed upon, sir. I will especially watch those whom I feel are lax in their duty. As I see my duty to the people, those who sent me here are going to hold me to account for the method of expenditure of every dollar that I have passed upon. I regard the opinion of his Honor the Mayor or the opinion of the Corporation Counsel, against my opinion, as, after all, only the opinions of men. In the opinion I have given to you as to the rights of the Council and as to the standing of the Council as a body in these matters I am backed up by some of the best legal men in Boston, with whom I have talked. But, even beyond that, sir, there is a law on the state books that gives the Council a power that they have never exercised. It is a power beyond any power held by his Honor the Mayor himself. He would convey to you, as Coun. Wilson says, the opinion that when a man is elected to this body he loses some of the prerogatives that he would have as a private citizen. As a private citizen he can intercede for a man and try to get work for him, but his Honor the Mayor would claim that the moment he becomes a member of this Council he loses that right, and that he has less power than an outside individual. Gentlemen, let me quote to you sections 8 to 11, inclusive, of chapter 233 of the General Laws of Massachusetts.

"Section 8. Witnesses may be summoned to attend and testify and to produce books and papers at a hearing before a city council, or either branch thereof, or before a board of selectmen, or before a board of police commissioners, or before a fire commissioner or a board of fire commissioners or a commissioner of public safety, or before a school board, or before a licensing board or licensing authorities for the granting of licenses for certain non-intoxicating beverages, as defined in section one of chapter one hundred and thirty-eight, or before a board of registrars of voters, or before the police commissioner or election commissioners of Boston, or before the metropolitan district commission, at any hearing before them, as to matters within their authority; and such witnesses shall be summoned in the same manner, be paid the same fees and be subject to the same penalties for default, as witnesses before district courts. The presiding officer of such council, or of either branch thereof, or a member of any such committee, board or commission, or any such commissioner, may administer oaths to witnesses who appear before such council, branch thereof, committee, board, commission or commissioner, respectively.

"Section 9. If a witness who has been so summoned and paid or tendered the proper fees fails to attend in pursuance thereof, the presiding officer of such city council, or of either branch thereof, or the chairman of such committee, board or commission, or any such commissioner, may issue a warrant to bring such witness before them, to testify in the case in which he was summoned.

"Section 10. A justice of the supreme judicial or the superior court, upon application of a tribunal authorized to summon but not to compel the attendance of witnesses and the giving of testimony before it, may, in his discretion, compel the attendance of such witnesses and the giving of testimony before any such tribunal, in the same manner and to the same extent as before said courts.

"Section 11. A justice of the supreme judicial or the superior court, upon the application of a magistrate or tribunal authorized to summon and compel the attendance of witnesses may, in his discretion, compel the giving of testimony by them before such magistrate or tribunal, in the same manner and to the same extent as before said courts."

That is the law. It is not my opinion. That is not my opinion; it is not the opinion of his Honor; it is not the opinion of any Corporation Counsel. It is bigger than that. It is the law of this Commonwealth, sir, and no man is bigger than the law. And so I would call that to the attention of his Honor the Mayor and the Corporation Counsel. Let me simply say in closing that I hope we will never have to put this into effect, but let those who have received the benefits of political preference, let those contractors who are the first to belittle men in this and other bodies that make possible their living, let those who feed at the public crib and then are foremost in criticizing and belittling others, beware lest they feel the lash. And let me say in closing, that when the Mayor speaks of our cowardly, contemptible and vicious attitude, and says that his letter is sent in a spirit of good will and co-operation, I hope I may not be a member of this body when he sends a letter to us when he is mad. (Applause from the galleries.)

Coun. GUILD—Mr. President, I would have been much more impressed by the eloquence of Coun. McGrath if he had cited that part of the Mayor's letter in which he says, "I recognize the problem of unemployment as a public question of extreme importance," instead of putting into the Mayor's mouth the words that the problem was of no concern to him and that there is no unemployment. Those words are not in the

Mayor's letter in any way, shape or manner, and it is not fair or square to anybody to put words in his mouth in any such way when he has not said them, but has said the direct opposite. It is not fair to do that in order to give a certain tinge to the situation. Coun. McGrath's remarks would have been much more impressive if he had discussed that sentence of the Mayor's letter in which the Mayor speaks about the manner of appointment of the committee. I am not entirely cognizant of the circumstances under which the committee was appointed, but it is my impression that it was duly appointed in the regular way in which all committees of this Council are appointed, and that the Mayor in his letter, while he says at the outset that he recognizes the importance of the unemployment situation, has taken the wrong slant by assuming that a committee of the City Council, of which Coun. McGrath is a member, and an active member, has been irregularly appointed. The whole difficulty and misunderstanding which has arisen between this Council and his Honor the Mayor, I believe, has arisen on account of the attitude he has taken that the committee is irregular. If I am misinformed as to the regularity with which that committee was appointed, I certainly hope steps will be taken immediately to make the committee as regular and duly authorized a committee as it is possible for any committee of this body to be.

Coun. McGRATH.—Mr. President, just one word in answer to what Coun. Guild has said. We appointed here a committee on the subject of unemployment, with a request that his Honor the Mayor furnish to that committee one of his representatives, which he failed to do. In his failure to recognize a committee with such an important duty to perform, I say he was so lax that he does not even recognize the seriousness of the unemployment situation.

The report was accepted, and the message was placed on file.

MUNICIPAL BUILDING IN WARD 14.

Coun. GREEN, for the Committee on Finance, submitted a report on order (referred February 7) that \$500,000 be appropriated, to be expended by the Superintendent of Public Buildings, for a municipal building in Ward 14—that the same ought to pass.

Report accepted; said order passed, yeas 15, nays, Coun. Dowling, 1.

INCREASED SALARY FOR BUILDING COMMISSIONER.

Coun. DOWLING, for the Committee on Ordinances submitted a report on the ordinance transmitted by the Mayor (referred January 31) amending section 5 of chapter 3 of the Revised Ordinances of 1925 so as to establish the salary of the Building Commissioner at \$7,500 instead of \$6,000—that the same ought to pass.

Report accepted; ordinance assigned to the next meeting on motion of Coun. McGRATH.

OUTSIDE EMPLOYMENT OF CITY EMPLOYEES.

Coun. FITZGERALD offered the following:

Ordered, That his Honor the Mayor be requested to have all heads of departments obtain answers to the following questions, said questions to be submitted in writing to each and every employee employed by the City of Boston:

Name?

Age?

Residence?

Married or single?

How long employed by the City of Boston?

Are you employed by any other firm, city, state, county, or the United States Government, and if so, for how long?

This statement to be signed and sworn to before a justice of the peace or notary public.

Coun. FITZGERALD.—Mr. President, my purpose in introducing that order is because of the large number of people who are unemployed in this city at the present time. If I am correctly informed,—and I have no proof except what has been stated to me by certain people—there are a large number of persons employed by the City of Boston who are also drawing salaries from outside firms, who are also working for the county, for the post office, working at different occupations besides working for the city, while men are walking the streets seeking employment. The City of Boston is a pretty good paymaster, one who never fails to come, who is always on time, and the city gives steady employment. While men working for outside employers are perhaps loafing four or five months in the year, those working for the city keep busy all the time. An outside plumber may get pretty good pay, but he does not have steady work, and it is the same with a carpenter or a plasterer, or a man in any other trade or business. In every other occupation there are dull seasons and men are laid off. The present situation in our city, because of unemployment, is deplorable. We see a large number of young men, young men with good educations and who should have reasonable hope for the future, with nothing to do; young men recently

married, who find themselves with a family and out of employment. Thousands are being dropped by the telephone and other corporations. The City of Boston ought to clean house. I have no fear, if this order is passed, and these people must go before a justice of the peace or a notary public and swear to their statements, that they will tell the truth, and if they are working for outside concerns, if they are working for the county, working for the post office, we will know it. One job is enough for them. We all know how hard these people fight for their positions with the city. They get on the civil service list and they are around after you night and day, making thousands of promises of what they will do if they can get employment from the city, and assuring you that if they can do so they will be content. In addition to their regular employment and pay, they also enjoy a pension system. The man outside, who drives a coal team, who digs a ditch, who climbs a pole, who is a painter, enjoys no such conditions as are enjoyed by those who work for the City of Boston and the County of Suffolk. Let us get at the root of this matter and settle it once and for all. I am told of one case where one person draws three distinct salaries; and another thing that is deplorable and nauseating to every decent individual, anybody who has the least bit of pride, is the fact that these married women, whose husbands are working for the city and whose husbands are drawing fat salaries, take the places that belong to men who are walking the streets. To me that situation is nauseating. I don't know how the other members of the body feel about it. Personally, I believe this taking of such positions by married women should stop at once. They have no right to do that sort of thing. I don't doubt, when we come to look over the lists in my ward or in your wards, we will find hundreds of such cases. I represent a ward with a population of 80,000, and I don't think there are 200 people in the entire ward employed by the city and state. Men who work hard, laboriously, comprise the great population of the district, and you will find a similar situation probably in every other district. Such people are in the majority. I have no fear as to whom this order will hit. I know at the moment nobody whom it will hit, and if it does hit anybody I know I will have no apology to offer, because I don't think it is fair that they should do as they do. I can remember a time when it was not tolerated in this city, when we had men in control who had the nerve to stand up and refuse to allow these people to be so employed, who would under circumstances such as are confronting our people today clean them out and give the unemployed a chance to get positions. Let them choose between the jobs they have with the city and their outside jobs. There are men working for the post office, and also no doubt for departments of this city, who are practicing law. A while ago there was a photograph in one of the papers showing a picture of a man enjoying one of the fattest jobs in City Hall, defending a man on trial for his life. Why, it is getting deplorable. They get admitted to the bar and then refuse to give up their positions, but continue in their jobs and also practice law, drawing right along their salaries from the city or county. In the days of Collins, of Matthews, yes, of Quincy, they would have been cleaned out, but they say now, "They are good fellows, don't touch them," and when the time for a political campaign comes around they are so-called leaders and want to dictate to members of the Council and everybody else. The time was when we had mayors in this city with backbone and courage, who would not stand for that sort of thing for one moment, and there are men in this chamber who know that what I say is true, who know what men of that type would have done under the circumstances. They would have cleaned out such employees in no time. But now we have to submit to this sort of thing because they are so-called "good fellows." You find them in these different places today, crowding into employment where they should not be, receiving salaries that should belong to those who are now unemployed. I sincerely hope there will be no objection to the order, but that it will go through. (Applause from the galleries.)

Coun. GUILD.—Mr. President, supplementing the remarks of Coun. Fitzgerald, let me say that there would seem to be considerable information that may be produced through his order that would be of special value to the Committee on Residences of Municipal Employees. I would, therefore, greatly appreciate it if the order could be so framed that the information it asks for would be put into the hands of that special Committee on Residences of Municipal Employees. It is not alone the question of unemployment that is an important one today in the City of Boston. There are thousands of unemployed and there are thousands who are not residents of Boston, who are doing work for the City of Boston. That condition should be changed, as well as dealing merely with the question of unemployment as is here proposed. (Applause from the galleries.) I feel that the special committee of the Council on Residences of Municipal Employees could very well use the information which Coun. Fitzgerald's order calls for, and if I may have leave to do so orally, I move that the order be so amended that the information shall be imparted to the Committee on Residences of Municipal Employees.

Coun. FITZGERALD.—Mr. President, I am perfectly agreeable to that.

Coun. BUSH.—Mr. President, having in mind Coun. Guild's proposed amendment, I would merely suggest that, as the order is now framed, it requests the Mayor, either directly or through the department heads, to furnish this information and that when the information is obtained it can be furnished by the Council to the Committee on Residences of City Employees.

Coun. GUILD.—Mr. President, that will be satisfactory to me.
The order was passed under suspension of the rule.

REPAVING OF LEXINGTON STREET.

Coun. DONOVAN offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving Lexington street, Ward 1.

Passed under suspension of the rule.

TRAFFIC OFFICER, EGGLESTON SQUARE.

Coun. ENGLERT offered the following:
Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to assign a traffic officer to permanent duty at Eggleston square, Ward 11.

Passed under suspension of the rule.

WESTMINSTER ROAD, WARD 11.

Coun. ENGLERT offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to lay out and accept Westminster road, Ward 11.

Passed under suspension of the rule.

ACCEPTANCE OF BACK STREET.

Coun. GILBODY offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept Back street, between Arlington street and Massachusetts avenue, to widen and improve said street, and to name the same Memorial Drive in honor of the men from Boston who lost their lives in the World War.

Referred to Committee on Public Lands.

SIDEWALK ON CORNELL STREET.

Coun. WRAGG offered the following:
Ordered, That the Commissioner of Public Works make a sidewalk along Cornell street, both sides, between Washington and Kittredge streets, Ward 18, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

FRAWLEY STREET, WARD 10.

Coun. FREELEY offered the following:
Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Frawley street, Ward 10.

Passed under suspension of the rule.

ARC LIGHT, WARD 11.

Coun. FREELEY offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc light at the corner of Cherokee and Pontiac streets, Ward 11.

Passed under suspension of the rule.

GENERAL RECONSIDERATION.

On motion of Coun. GUILD a general reconsideration of all action taken today was refused.

Adjourned, on motion of Coun. McGRATH, at 4.35 p. m. to meet on Monday, March 14, at 2 p. m.

RECEIPTS OF MILK IN BOSTON, 1925, BY RAIL.

Total, 198,132,118 quarts, or 151,036,648 by Boston & Maine R. R.; 39,287,886 by New York, New Haven & Hartford R. R.; 7,807,584 by Boston & Albany R. R. The said total exceeds that of 1924 by 6,959,444 quarts and is the largest on record.

CITY CHARTER CHANGES.

In 1854, 1885, 1909 and 1924 important changes in the original City Charter of 1821 were effected for the purpose of improving the methods and efficiency of the City Government. The revision of 1854 (Chapter 448, Statute 1854) referred to the voters for acceptance, gave the Mayor a qualified veto over the action of the City Council, also the power of removal of appointed officials, besides providing for his election by a plurality instead of a majority vote. The amendments of 1885 (Chapter 266, Statute 1885) were not submitted to the voters for approval. They transferred all the executive powers to the Mayor prohibiting the City Council from interference with the executive and administrative business of the City. This was done in order to end the inefficiency resulting from an excessive number of joint committees, a municipal development conforming to the traditions of the outgrown town government.

The amendments of 1909 (Chapter 486, Statute 1909) cut down the number and powers of the legislative branch of the government to a minimum, the Board of Aldermen (13 members) and the Common Council (75 members) being abolished. For these was substituted a single City Council of nine members to be elected at large for 3-year term. The Mayor's position was further strengthened by giving him a 4-year term, subject to recall at end of two years, but requiring a majority of the registered voters to make the recall effective. The Mayors power over appointments was no longer subject to check by aldermen but by a State board, the Civil Service Commission, and City elections were removed from all connection with national and State politics, no primaries nor caucuses being permitted, all candidates for office to be selected by means of nomination papers. The only question in this Act of 1909 which was submitted to the voters was contained in section 35, *i. e.*, whether Plan 1 or Plan 2 should be adopted, the first providing for a term of two years for Mayor and a City Council of 36 members to be chosen in primaries. Plan 2, providing for City Council of 9 members, was adopted by a majority of 3,894.

Charter of 1909 amended later as follows: (1) By Chapter 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in section 26. (2) Chapter 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in section 32; changing the requirement as to signatures on nomination papers to 3,000 for Mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in section 53, also limiting the number of nomination papers issued to 300 for a candidate for Mayor and 200 for other candidates, referring to section 54. (3) Chapter 37, Special Acts of 1918, annulling the jurat at end of nomination papers. (4) Chapter 94, Special Acts of 1918, abolishing recall of Mayor, and making him ineligible for re-election, *i. e.*, establishing a single term of four years, but not prohibiting the election of any Mayor for other than consecutive terms. (5) Chapter 288, Acts of 1921, fixing date of the annual municipal

election on the first Tuesday after the second Monday in December, also making slight changes as to nominations. (6) Chapter 133, Acts of 1922, changing publication of list of City officials and employees to every second year from 1923. (7) Chapter 479, Acts of 1924, providing for biennial City elections (dating from November 3, 1925); for borough or ward representation in City Council; for a fiscal year dating from January 1 to December 31, beginning in 1926, also a municipal year dating from the first Monday in January, to begin in 1926; for election of the five members of School Committee in 1925, the candidates receiving the two largest votes to hold office four years, the other three for two years and at the election in 1927 and thereafter the term for all to be four years. (8) Chapter 136, Acts of 1925, increasing the number of signatures of registered voters required to nominate a candidate for election to the City Council. (9) Chapter 105, Acts of 1926, relative to nominations for municipal elective offices.

The only amendment of 1924 subject to a referendum was the alternative of Plan 1 or Plan 2 as to the City Council. At the State election on November 4 Plan 2 was adopted, providing for the election by each ward in 1925 and every second year thereafter of one councillor for 2-year term.

MAYORS OF BOSTON.

In its 103 years of existence as a city Boston has had 36 elected Mayors and five *ex-officio* Acting Mayors. Of the 36 men who have held the office for one year or more, six were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Curley, who served 4 years ending February, 1918 and 3 years and 11 months, ending 1925. Next in length of service was Mayor Lincoln, serving 3 years ending 1860 and 4 years ending 1866. The first Mayor Quincy had the distinction of serving through six successive one-year terms ending 1828, and Mayor Fitzgerald also served 6 years but in two separated terms. Those who served 4 years were Mayors Prince, O'Brien, Matthews (third), Quincy, Hart and Peters. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second), Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairman (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, Representative in Congress also Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in

the lower house of Congress, Mayor Peters having also served as assistant secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years but his service was terminated by his death in 1922. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Document, *Municipal Register*, for full list of Mayors from 1822 to 1925, with place and date of birth, years of service and date of death.)

AREA AND POPULATION OF GREATER BOSTON.

Area of Northern Division, 150.8 square miles and population in 1920, 699,685, or a density of 4,619 per square miles; Southern Division, 214.8 square miles and 211,191 population, or density of only 983 per square miles; in the whole Metropolitan District, 4,051 per square miles. In percentages Boston shows 10.5 per cent of District's area and 45.09 per cent of population; Northern Division, 36.2 of area and 42.18 of population; Southern Division, 53.3 of area and 12.73 of population. In the period 1915-1920, increase of population 34,798 larger in Northern than in Southern Division.

Total land area of District, 409.5 square miles; population by census of 1920, 1,713,744 (as corrected) or 7.52 per cent increase over that of 1915. Of the total population of the State in 1920 "Greater Boston" had 43.86 per cent.

In 1925, as ordered by the new census law (Chap. 453, Acts of 1924) each municipality of the District undertook its own enumeration, the total population counted being 1,808,845 as of March 31. Boston's proportion of said total was 43.10 per cent. By the more reliable State Census of 1915 that proportion was 46.77 per cent.

PROPOSALS FOR FURNISHING MANUAL ARTS SUPPLIES FOR THE BOSTON PUBLIC SCHOOLS.

ADMINISTRATION BUILDING, 15 BEACON STREET, OFFICE OF THE BUSINESS MANAGER.

The School Committee of the City of Boston invites bids for furnishing and delivering at the several schools, manual arts supplies as per schedule. Only proposals obtained at the office of the Business Manager of the School Committee, 15 Beacon street, signed by the bidder and left before 12 o'clock m. on Wednesday, March 23, 1927, at said office, with a certified check for \$100, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. Envelopes containing proposals must be plainly marked "Proposal for Manual Arts Supplies." The bid must be in duplicate, the one with the check to be sent as above, the other to be filed with the City Auditor, City Hall, previous to the time named for opening bids. The successful bidder will be required to deposit a surety bond or a certified check for not less than 25 per cent of the contract, payable to the City of Boston, which check shall become the property of the city unless the bidder carries out his agreements in accordance with the specifications. The School Committee reserves the right to reject any or all bids, and to accept such as may be deemed best for the interests of the city.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(March 12.)

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR CLEANING CATCH-BASINS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States for taking out and removing about 23,500 cubic yards of material from about 7,200 catch-basins in Districts 1, 2, 3 and 4; all work to be completed by December 31, 1927, and giving bond therefor of a surety company approved by the Commissioner in the sum of 50 per cent of the total amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal, accompanied by a statement, clearly setting forth the equipment of which the bidder is possessed for the proper and speedy carrying out of such contract (such equipment to be considered as an essential consideration in the awarding of the contract), should be inclosed in an envelope, sealed, marked "Proposal for Cleaning Catch-basins," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Thursday, March 24, 1927, with a certified check for 5 per cent of the total amount of the contract, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price bid on any district appears to the Commissioner to be abnormally high or low it may lead to the rejection of the proposal for said district. The undersigned reserves the right to reject any or all proposals or to accept any proposal should he deem it to be for the best interest of the city so to do.

6,282 CITIZENS SELECTED FOR JURY DUTY AFTER INTERVIEWS.

Mayor Nichols announced on March 14 that the Board of Election Commissioners had completed the examination of jurors for the year 1927. This is the first time that the Board has made a complete investigation of prospective jurors in the way of personal examinations.

The commissioners, under the old system of obtaining jurors, selected approximately 10,000 names. Police cards were then written up by the assistant registrars of those so selected, such cards then being turned over to the police for investigation. After the police had completed their investigation, the cards were returned to the Board of Election Commissioners, who rejected at this time the names of some men as a result of information obtained by the police. The assistant registrars in this office then went to the Probation Office, Bureau of Criminal Investigation, and district courts, where they independently made an investigation of the men selected, relative to them ever having committed any crime.

Under the old system there never was a personal appearance before the Board of Election Commissioners of prospective jurors. In many instances the police, having no power to insist upon the truth, did not get all the information they should have obtained. Members of the Bar Association and judges of the courts stated that, in their opinion, this was inadequate.

This year the Board of Election Commissioners operated under the new law, which required that they send a summons to each and every prospective juror requesting his appearance in person at this office. At such appearance he was given a questionnaire to fill out, relative to his fitness and qualifications to serve as a juror, and then was given oath by one of the commissioners as to the truth of his statements. In this way the juror came in personal contact, face to face, with the commissioners, which certainly proved valuable to the commissioners, enabling them to eliminate some very undesirable types of men.

This year there were some 10,686 cards written up by the assistant registrars of prospective jurors, who had been previously selected by the Board of Election Commissioners. These cards were then sent to the police for investigation. As a result of police investigation, the Board rejected some 2,868 names of men because of removals from the city, physical disability, age, crimes and unfitness, city, state and government employees.

This left the names of 7,818 men who had been selected by the commissioners to send summonses to. Summonses were then written to these men to appear before the Board of Election Commissioners for examination, such summonses being served by the police.

As a result of these examinations, the Board rejected some 1,335 men because of unfitness, business reasons, physical

TRUCK OWNERS ADDRESS MAYOR ON SNOW REMOVAL.

Mayor Nichols announced on March 15 that he had received the following communication from the Team and Truck Owners' Association of Boston through Secretary J. J. Shaughnessy, relative to the work of snow removal:

BOSTON, March 14, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR MR. MAYOR,—The Team and Truck Owners' Association of Boston, comprising thirty odd concerns engaged in the transportation of freight and merchandise for hire at a recent meeting held at the Hotel Brunswick, Boston, went on record in commending you as well as State Commissioner Williams for the way the snow removal was accomplished this winter.

Never before in the history of the city and state was the snow removed as promptly and efficiently as was the case the past winter. Not only were the streets of Boston cleaned up in quick order, but the main thoroughfares and principal highways radiating from Boston, were also made passable in short order after each storm. In view of the extremely severe winters that we experienced, you may take just pride and satisfaction in this accomplishment. It was the consensus of opinion of all the members present that never before had such good work been accomplished in this direction, and the writer who has the honor of being secretary of this body was instructed to advise you of our action.

With best personal wishes for your continued health and prosperity, I am,

Very truly yours,

J. J. SHAUGHNESSY,
Secretary.

JURORS SELECTED.

(Continued from page 293.)

disability, exemptness from serving, etc., so that the final number of men selected by the Board for jury service amounted to 6,282.

This work required twenty nights on the part of the members of the Board, as well as the assistant registrars, the reason for night hearings being that the Board wished to inconvenience these men as little as possible, and did not wish them to lose any part of their day's pay.

The names selected this year will not go into the jury box until after July 1. When a man is drawn for service there is a still further check-up to see that he has committed no crime from the time he was selected and the time he was drawn to serve. This is a double check-up, and should within two years' time bring a higher type of man to serve as a juror.

To bring this down to one simple proposition, the Board under the present system will see and examine each man whose name has been placed upon the jury list. Heretofore, the Board dealt only in the names of men and never saw the individual.

The Mayor announced that much of the success of the work was due to the splendid spirit of co-operation from the Police Department in the matter of issuing summonses.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings, or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city, trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Littledale street, bounded:

Southwesterly by Dale street, ten and 22-100 feet; northwesterly by another part of Littledale street, three hundred feet; northeasterly by the same, ten feet; and southeasterly by the same, three hundred two and 13-100 feet, containing thirty hundred and eleven square feet, more or less.

The sewerage works to be constructed are as follows: 200 linear feet of 10-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Littledale street, leading northeasterly from Dale street for a distance of approximately three hundred feet.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Littledale street, leading northeasterly from Dale street for a distance of approximately three hundred and ten feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 734, Sewerage Works,

Littledale Street, West Roxbury, February 4, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

CONFERENCES ON HEALTH MATTERS.

Mayor Nichols on March 14 discussed with President Heffernan and members of the Committee on Ordinances the transfer of the powers of the Boston Sanatorium to the Boston City Hospital Trustees, and the transfer of the functions of the Sanatorium to the Out-Patient Department of the Sanatorium to the Health Commissioner. A question had been raised as to the supervision of the Out-Patient Department by the Health Commissioner.

The Mayor stated that the ordinance followed strictly the recommendations of Dr. Haven Emerson.

Mr. Dreyfus of the City Hospital Department said that the City Hospital Trustees would be willing to assume their new duties and work with the Health Commissioner.

The Mayor at the conclusion of the conference made the statement that in his opinion the new ordinance provided for the best administration of hospitalization of tuberculosis that could be proposed and expressed the hope that the ordinance would pass.

After the conference the Mayor conferred with President Heffernan and the Committee on Finance upon the loan of \$1,000,000 to Long Island now pending in the Committee on Finance. Commissioner Kinney of the Institutions Department was present and outlined the need of the additions to the Long Island Hospital.

There were present at the first conference, Doctor Minot, Doctor Bartol, Mr. Dreyfus of the City Hospital Trustees, Doctor Mahoney and Councilors Ruby and Wragg.

There were present at the second conference, Councilors Gilbody, Guild, Lynch, Dowd, Keene and Parkman, and Doctor Bartol, Doctor Beggs, Doctor Mahoney and Commissioner Kinney.

OFFICE HOURS.

City offices are required to be open for business from 9 a. m. until 5 p. m. on every day except Saturdays, Sundays and legal holidays, and Bunker Hill Day. Department offices are required to be closed on Saturdays at 12 noon throughout the year. The City Treasurer and the City Collector are not required to disburse or receive money after 2 p. m. on any day.

The office of the Health Department is open daily from 9 a. m. to 10 p. m. (except Saturdays, when the hours are from 9 a. m. to 1 p. m. and from 5 to 10 p. m.); on Sundays and holidays from 10 a. m. to 12 m. and 5 to 10 p. m. for the reporting of cases of communicable diseases, issuing of burial permits, distribution of antitoxins and vaccines and receiving of cultures, etc.

MAYOR AGAIN ASKS COUNCIL TO ACT ON LOAN FOR LONG ISLAND.

Mayor Nichols on March 14 sent the following letter to the City Council relative to the new loan order appropriating for improvements at the Long Island Hospital the sum of \$1,000,000:

BOSTON, March 14, 1927.

Boston City Council.

GENTLEMEN,—I transmit to you herewith a new loan order appropriating for improvements at the Long Island Hospital the sum of \$1,000,000. This order is identical with the loan order for \$1,000,000 for the same purpose which failed of passage in your honorable body at its session this afternoon by a vote of twelve in favor thereof and ten against. The vote indicated that a substantial majority of the Council favored the order but lacked three votes necessary to make up the two-thirds majority required by the provisions of the City Charter. As I told your Committee on Finance this morning, at a conference with the Committee and the Institutions Commissioner, I deem the improvements called for of vital importance.

These improvements may be enumerated as follows:

The enlargement of the men's dormitories to provide for 200 additional beds.

The addition of new wards in the men's hospital.

The construction of a suitable children's hospital building. And an additional story and new roof on the Nurses' Home.

The necessity for the men's dormitory is well shown by the fact that while its normal bed capacity is 325, at the present time it is accommodating 505. In the men's hospital the normal bed capacity is 125 and at present there are crowded into it 180 beds. The building at present used as a children's hospital was formerly used for tubercular male patients and its open wards permit of no opportunity to isolate a child infected with contagious disease and is in no way suited to child occupancy. A new building with adequate facilities for the care of children should be erected.

The Nurses' Home has had a defective roof since its original construction and constant leaks are rapidly injuring the whole structure, requiring a new roof and, while this is being done, it is imperative that an additional story be added to make provision for additional nurses whose services are already required but for whom no housing facilities are available.

Somewhat over ten years ago there was considerable discussion tending toward keeping up the plant at Long Island, but during the years of the war and thereafter the demands recognized earlier were not met and have not been met. In my opinion it is time to meet them for the health, safety, and convenience of the needy and sick for whom suitable provision should be made. No other practical measures have been suggested except those embodied in the accompanying loan order. Whatever the future need of an additional chronic hospital on the mainland may develop, is no answer to the immediate urgent necessities of the inmates of Long Island. Therefore, I trust that your honorable body will give the accompanying order favorable consideration.

Respectfully yours,

MALCOLM E. NICHOLS,
Mayor.

McGovern, forty and 68-100 feet; and southwesterly by Morton street, fifty-four and 24-100 feet, containing sixteen hundred and twenty-seven square feet, more or less.

A parcel of land, situated on the northeasterly side of Morton street, between Druid street and Oakridge street, supposed to belong to Edward J. McGovern and John B. McGovern, bounded:

Westerly by land hereinafter described as taken from owners unknown (Druid street), forty and 68-100 feet; northeasterly by land supposed to belong to said McGovern *et al.*, two hundred forty-eight and 51-100 feet; northerly by the same, twenty-three and 12-100 feet, on a curve of ten feet radius; easterly by

Oakridge street, forty and 69-100 feet; southeasterly by the same, twenty-three and 12-100 feet, on a curved line; and southwesterly by Morton street, two hundred forty-eight and 51-100 feet, containing eighty-one hundred and thirty-seven square feet, more or less.

A parcel of land, situated at the northeasterly corner of Oakridge and Morton streets, supposed to belong to Edward J. McGovern and John B. McGovern, bounded:

Westerly by Oakridge street, by two measurements, fifteen and 75-100 feet on a curved line and forty and 69-100 feet; northeasterly by other land supposed to belong to said McGovern *et al.*, by two measurements, fifteen and 75-100 feet on a curve eighteen and 99-100 feet radius and one hundred forty-one and 10-100 feet; easterly by land hereinafter described as taken from Nathaniel Dane *et al.*, trustees of the Codman Park Trust, forty and 69-100 feet; and southwesterly by Morton street, one hundred forty-one and 10-100 feet, containing forty-four hundred and eighty-four square feet, more or less.

A parcel of land, situated on the northeasterly side of Morton street, supposed to belong to Nathaniel Dane *et al.*, trustees of the Codman Park Trust, bounded:

Westerly by land hereinafter described as taken from McGovern *et al.*, forty and 69-100 feet; northeasterly by other land supposed to belong to said trustees, by two measurements, seventeen and 60-100 feet and four hundred fifty-four and 38-100 feet; southerly by land hereinafter described as taken from Edith M. Safford, trustee (passageway), fifty-five and 26-100 feet, and southwesterly by Morton street, four hundred five and 19-100 feet, containing fifteen thousand five hundred and ninety-nine square feet, more or less.

A parcel of land, being part of a passageway leading easterly from Morton street,

supposed to belong to Edith M. Safford, trustee, bounded:

Northerly by land hereinafter described as taken from Dane *et al.*, trustees, fifty-five and 26-100 feet; northeasterly by other land supposed to belong to said Safford, trustee, thirty-seven and 54-100 feet; southerly by land hereinafter described as taken from Andrew W. Wallace, sixty-two and 7-100 feet; westerly by Morton street, six and 11-100 feet; and southwesterly by the same, twenty-eight and 7-100 feet, containing sixteen hundred and fifty-one square feet, more or less.

A parcel of land, situated on the easterly side of Morton street, supposed to belong to Andrew W. Wallace, bounded:

Northerly by land hereinafter described as taken from Edith M. Safford, trustee (passageway), sixty-two and 7-100 feet; northeasterly by other land supposed to belong to said Wallace, fifty-two and 44-100 feet; southerly by other land hereinafter described as taken from said Wallace, ninety-five and 1-100 feet; and westerly by Morton street, thirty-nine and 67-100 feet, containing thirty-one hundred and fifty-one square feet, more or less.

REALTY MEN APPEAL TO MAYOR.

Mayor Nichols announced on March 12 that he was in receipt of the following communication from the Boston Real Estate Exchange inclosing a letter from the directors of the Exchange to the Boston Finance Commission as follows:

BOSTON FINANCE COMMISSION, 11 Beacon Street.

GENTLEMEN,—At a meeting of the directors of the Boston Real Estate Exchange held on March 11, a quorum being present and participating, it was voted, that

"Whereas, The tax rate of the City of Boston for 1926 was \$31.80 per \$1,000 of valuation, of which rate \$27.34 was for city expenses and \$4.46 for county and state expenses, and of the \$27.34 applicable for city expenses \$10.43, or 38 per cent was for public school purposes; it was

Voted, That the directors of the Boston Real Estate Exchange ask the Boston Finance Commission to make a comprehensive study of the Boston schools, showing the subjects taught in each of the grades and in all extension, evening or other courses, or instruction of any sort given at the public expense, including athletic and playground instruction and supervision, and showing the number of pupils or other persons receiving instruction of every sort at the public expense, classified as precisely as may be; and showing all expenditures and estimates for the above services and for all other outgo, including cost of land, equipment, construction and maintenance of buildings and grounds, loss of taxes and water rates in municipally owned property used for the above purposes, supplies, salaries of teachers and others and showing in as much detail as may be the services rendered and hours of employment of each class of teachers, instructors or other persons employed. Also to make comparison between the services and expenditures so rendered and incurred with the services and expenditures of school departments in the other leading cities of the country."

That a copy of this vote be sent to his Honor the Mayor with the suggestion that if he approves of such a survey he should introduce an order into the City Council for an adequate appropriation to meet the expense of making it.

Yours respectfully,

CHARLES E. LEE,
Executive Secretary.

The Mayor gave out the following reply to the foregoing communication:

CHARLES E. LEE, Executive Secretary,
Boston Real Estate Exchange, 7 Water Street.

DEAR MR. LEE,—I beg to acknowledge the receipt of your letter containing a communication addressed by the directors of the Boston Real Estate Exchange to the Boston Finance Commission, and note that it is the desire of the directors of the Exchange to have a comprehensive study made of the Boston schools, with particular reference to expenditures and estimates for school services.

The suggestion is made in the same communication that if I approve this study or survey, I introduce an order into the City Council for an adequate appropriation covering the cost.

The Real Estate Exchange had already spoken to me about this matter in conferences which we have held relating to the determination of the tax rate, which I am happy to say will be lower this year than it was last year.

I shall confer with the Finance Commission upon this matter as soon as possible, and will communicate with you further about it thereafter.

Sincerely yours,

MALCOLM E. NICHOLS, Mayor.

LEAVE OF ABSENCE EXTENSION.

BOSTON SANATORIUM.

Charles E. Shay, laryngologist at \$1,200 a year, has been granted an extension of leave of absence with pay for two months, dating from April 1, 1927.

CITY PROBLEMS AND TAX LIMIT DISCUSSED BY RADIO.

Mayor Nichols has delivered the following in the series of six addresses planned for discussion of municipal problems by radio. The talks are from Station WEEI and are on financial matters pertaining to the City of Boston. The first of the series was on the subject of the tax limit which is now before the Legislature. The second was delivered on Tuesday, March 15, and the dates for the remaining lectures are Friday, March 18, Tuesday, March 22, Tuesday, March 29, and Friday, April 1.

The first and second lectures were as follows:

The City of Boston spends about \$71,000,000 a year. Most of this sum goes toward state, county, metropolitan and school expenses. Only about 40 per cent of it, or \$31,300,000, is set aside this year for city departments.

It is about this \$31,300,000 that I am to speak to you tonight, as it has been subject to a great deal of misunderstanding and the possibility of serious difficulties. This \$31,300,000 comprises what is known as the municipal budget. The Boston municipal budget is one of the most discussed instruments in the transaction of our public business. The discussion frequently overlooks the fact that it is a small part of what the city is called upon to spend. The budget, however, represents the doings of a municipal administration. The amount of the budget is authorized by the Legislature through a device known as the tax limit, and the tax limit asked for this year is \$13.50, a figure which, taken with certain credits and multiplied by the average city valuation for three years, gives the amount called for in the budget, that is, \$31,300,000. If the Legislature should refuse to authorize this tax limit of \$13.50, the city would have no legal power to raise this \$31,300,000 in its 1927 tax levy.

The city budget has been prepared. It wisely provides, in the opinion of the administration, for our department needs in 1927. It calls for this tax limit of \$13.50 and produces the sum of \$31,300,000, a sum amounting to about 40 per cent of all the money the city will be required to spend.

There is a good deal of misunderstanding about this tax limit. Many people confuse it with the tax rate, and there is all the difference in the world between the two terms. I have already told you that the tax limit is used merely as a device to produce a certain sum of money. The tax rate, however, will not be known until all of the requirements are before the city with all the revenue from all sources applicable to the determination of such a rate. While I can tell you now that the tax rate will be in the neighborhood of \$30.80, thus \$1 lower than the present tax rate, I cannot tell you with finality until perhaps next August. The tax rate of the city, therefore, may be said to represent the cost per \$1,000 of valuation for meeting the total expenses of the city for one year, that is, for meeting the whole of the \$71,000,000. In short, the tax rate covers the entire financial program of the city, whereas the tax limit is merely a device for determining the amount of money which may be appropriated for the city departments, excluding schools.

The Legislature to fix the tax rate, I cut nearly 10 per cent from the rates submitted last year.

\$31,300,000, and a tax limit required of \$13.50. With my financial officers, the most competent in the country, I took this budget to the Legislature and invited the criticisms of the Legislative Committee on Municipal Finance, a committee of able men. I feel that the Legislature should examine every item of our budget if its members so desire. They questioned us closely about it. We were prepared to meet every question. Members of the committee praised our work and said our case was admirably presented. No suggestions have been offered toward a further reduction of the items which I had already reduced by nearly \$2,000,000 to the present total of \$31,300,000, supporting my request for a tax limit of \$13.50.

Instead of criticising the budget those who opposed the tax limit of \$13.50 presented new systems of financing. One proposal was that the tax limit could be reduced if back taxes were figured into the Mayor's estimate of income. So it could, but this would merely create a deficit at the end of the year for the liquidation of which temporary loans would have to be issued. I called this proposal dangerous and revolutionary, changing the financial policy of the city in effect for generations and I am not aware that a single member of the Legislature differs with me.

Another proposal was that estimated revenues from the state income tax be utilized to decrease the tax limit of \$13.50 requested. This proposal is ridiculous, as it ignores the provisions of the Municipal Finance Act which provides that our revenue from income taxes cannot be used to cover appropriations.

Another new proposal was that the poll taxes be used to decrease the tax limit of \$13.50, but this proposal in addition to being open to the objections of strange and novel procedure, involves a sum of money so small as to be negligible in the determination of a tax limit.

None of the three proposals have any practical value and none bear upon the tax limit. They are fantastic. However, all of the revenue referred to by them when finally disclosed to the Board of Assessors will, of course, be applied to reductions against the tax rate.

There has not been raised a valid objection to our budget of \$31,300,000 and to our resulting request for a tax limit of \$13.50, without which there can be no budget, but there has been such confusion concerning tax limit and tax rate that there is danger of grave complications if the causes of misunderstanding are not removed. I have sought, therefore, to distinguish here between tax rate and tax limit and to indicate how faithfully the city has labored to present its story fairly and completely. On complex matters such as these it is not easy to make the story clear, but I am greatly indebted to Station WEEI for its courtesy in helping me to do so, and it will be my privilege again to address you upon another topic in municipal administration and finance tomorrow evening over this station at 7.50 o'clock.

Ladies and gentlemen of the radio audience, I thank you for your kind attention, and I bid you good evening.

In the second talk the Mayor said:

My purpose in addressing you by radio on municipal administration and finance is to place before taxpayers reliable information about the management of their affairs in the gigantic city of Boston of which I have the honor to be Mayor.

Public business

seems like a wilderness. Yet it is your business. I want you to know about it. It is hard to get facts and estimate them at their true value. If it were otherwise, the City of Boston would not suffer from so much misunderstanding, particularly at the Legislature, where many of our questions await decision. At this moment there is no more important question before the Legislature than the tax limit which I discussed before you last night. If this tax limit is cut below \$13.50, the municipal budget must somehow be cut. Yet I have already cut the budget by nearly two millions, and I cannot give you the service I promised you and have been giving you if I cut it more deeply.

You want waste removed promptly. The city this year has done the best work removing ashes and garbage ever known. You don't want that work slackened up.

You want snow removed and streets cleaned quickly. We have this winter beat all known records doing this—no doubt of it. Of course, you want health, fire and police service equal to the best. You want streets fixed, sidewalks built, hospitals kept at a high standard of excellence, the library and its branches made as useful as possible, the parks, playgrounds, municipal buildings, gymnasiums, all carried on as they should be; in fact, you want everything right and you are willing to pay a reasonable price for it. A tax limit of \$13.50 will produce a city budget that will do things that you want done this year. That is what the city budget is for. It means maintenance and service, the kind of service I promised and have been giving.

The Finance Commission says cut the budget by discharging city employees. This would be foolish, because it would demoralize service and produce no saving.

Nobody really thinks this budget can be cut much, although the City Council may practice on it a little,—I predict a very little.

Yet the budget cannot stand if the Legislature fails to authorize the tax limit which determines the amount of the budget. The city has no authority to make maintenance appropriations adequate for her needs unless the Legislature shall act.

The Legislative Committee on Municipal Finance meets tomorrow morning and will probably take final action upon the request of the city for a tax limit of \$13.50. We cut it 50 cents from the \$14 tax limit last year.

Gentlemen of the committee, you said I was the first Mayor who ever submitted to you a municipal budget. You said it was a good budget. You commended me for my candor and willingness to have you review it. You said Boston had admirably presented its case. I think you intend to be fair to Boston. I expect you to be fair. On the other hand, those who spoke in opposition made a pitiable showing. Nevertheless, opposition developed after the hearings. Naturally it was hard to meet, and it flourished by confusing the tax limit now to be fixed by the Legislature with the tax rate to be fixed next August by the Board of Assessors. The tax limit is used to compute the size of the city budget. The tax rate is used to raise the tax levy which comprises the budget and all other municipal obligations.

I wouldn't care so much if our critics did fall into confusion. But they want the tax limit cut by saying that the city can base appropriations upon income tax cuts, although this is a plain violation of section 30, chapter 44, of the

The Finance Commission is at its worst in talking finances. Following the well-known remedy of the man who sat on the end of a limb and sawed himself off, they would saw off the limit and let the city crash into a deficit. This is the effect of using back taxes in computing credits. It would reduce the tax limit one year, but it never was and never will be employed, because it leads to deficits, great temporary loans and an indefensible abandonment of the pay-as-you-go policy to which the City of Boston firmly adheres.

I shall have something further to say about maintenance appropriations at my address, Friday evening next at 9.30. Later I shall talk upon capital expenditures which constitute one of our great problems, as in every American city.

Boston should spend many millions upon capital improvements, but she can afford to wait this year. Meanwhile she should receive at the hands of the Legislature the cordial co-operation she has earned and be given a tax limit of \$13.50 adequate for the municipal needs of upkeep and service.

Boston spends over \$71,000,000 a year, of which only 40 per cent is for her budget for upkeep and service.

We have met the demand of this year by the smallest increase in maintenance costs since 1921, and by an actual cut of 50 cents in the tax limit requested. We shall declare a tax rate five months from now about a dollar lower than last year. We have laid our case before the world. We merit good treatment and such courtesy as should of right be extended to the capital city of Massachusetts, the metropolis of New England and Eastern Canada, one of the most prosperous and progressive cities in the world.

DESIGNATIONS OF TEACHERS.

A communication was received from the Superintendent, under date of Jan. 24, 1927, reporting that, subject to the approval of the Board, he has made the following designations of teachers to serve in the positions indicated until such time as they shall be filled otherwise in accordance with the rules and regulations, to take effect on the dates stated:

Henry L. Higginson District—Anastasia O. Hynes, assistant, kindergarten, as acting first assistant, kindergarten, Jan. 3, 1927.

Longfellow District—Josephine McCarthy assistant, kindergarten, as acting first assistant, kindergarten (vice Sara Cotter, absent on leave), Nov. 4, 1926.

Placed on file.

EMPLOYMENT OF JOHN J. IGEOE IN BOSTON TRADE SCHOOL, EVENING CLASSES.

On motion of the Superintendent, it was

ORDERED, That the employment of John J. Igoe, as substitute assistant in the Boston Trade School, Evening Classes, is hereby authorized for one evening, Jan. 13, 1927, compensation for such service to be at the rate of five dollars (\$5) per evening.

CLOSING OF EVENING SCHOOL TERM.

The Superintendent offered the following:

ORDERED, That the current term of the evening commercial high schools, the Mechanic Arts Evening High School and the evening elementary schools shall close on Tuesday evening, April 12, 1927.

Passed under a suspension of the rules.

ATTENDANCE AT CONVENTION.

The Superintendent offered the following:

ORDERED, That the Superintendent is hereby authorized to designate one assistant superintendent to attend the annual meeting of the Department of Superintendence of the National Education Association, to be held at Dallas, Texas, during the week beginning Feb. 27, 1927, at a total expense of not to exceed three hundred twenty-five dollars (\$325.)

Mr. O'Hare: I wish to be recorded as voting "NO" on this order. I do this because I have no sympathy with one of the major tenets of the National Education Association, namely, federal centralization or control of education in this country. Because of this fact, and this fact only, I must take a stand against spending money to send someone designated by the Superintendent to attend such Convention. In other words, my theory is that the best way to let the National Education Association know how Boston feels, or how an individual of the Boston School Committee feels, as regards one of its tenets is to stand aloof from that organization. Consequently, I vote "NO," and I do this with no feeling against the good that might come to Boston by way of contact with the men from other cities, but rather because one of the Association's motives is to centralize education in Washington, and I am absolutely opposed to that.

Mr. Sullivan: I agree with Mr. O'Hare's attitude. I think that Boston might, and I say might with all its significance, receive some benefit from this proposed visit to the Convention of the N. E. A., but I feel a great evil would be involved in that it might appear as an official sanction by this School Committee of the tenet in the N. E. A. program and platform, namely, that of centralization of education or educational control in Washington or the establishment of an educational bureaucracy, and for that reason I vote "NO."

Dr. Bogan: Like Mr. O'Hare and Mr. Sullivan, I have no sympathy with the Smith-Townner bill, or its successor, the Phipps-Towner bill, which advocates centralizing education in Washington, federalizing it, having a cabinet officer as director of federal education—I do not believe in the principle. It is a state's right, it has always been a state's right. Nevertheless, I believe that a delegate to this convention will get much out of it. I believe that it will be better to send a delegate to the convention and have him on the floor of the convention to speak forcibly against these principles. For that reason I am voting for the delegate.

Mr. Sullivan: May I offer as an amendment to the Superintendent's order that the delegate so selected shall be instructed by the Superintendent to argue on the convention floor and also in committee caucuses against any and all measures that involve centralization or control of education in Washington.

Mr. Gray: I feel very much as do the members who have expressed themselves tonight on federal centralization of education. I do not believe though that sending a delegate to this convention would in any way involve us as endorsing any policies that that convention might advocate or has adopted. I feel with the Chairman that it will be a good thing to have representation there. I should be opposed to sending a delegate instructed to take any definite action. Speaking for myself personally, I do not know enough about the question to wish to instruct a delegate to definitely take a stand for this Committee.

Mrs. Barron: Personally, I think it would be extremely unwise to send a delegate so instructed. A delegate should be free to go and listen to discussions. Regardless of our opinion, I think it would be a great mistake to establish a precedent in refusing to send a delegate to a convention of an association with the standing of the N. E. A. because some member or members of this Committee may differ on one particular principle of such association. I therefore would be in favor of sending a delegate selected by the Superintendent.

Mr. O'Hare: I did not second Mr. Sullivan's amendment because I do not believe in attendance at all. Last year the President of the Boston Elementary Teachers Club went to Washington and opposed this bill or its successor. To my mind, if we do not believe in the principle, and it is one of their leading ideals of control today—to establish federal control of education—it is up to Boston, supposedly the seat of culture and education, to take a stand.

Mr. Sullivan: Particularly at this time when the President of the United States who has spent some time in the city of Boston, has gone on record in his message to Congress in favor of this bureaucracy of education, I think it would be unwise for this Committee to send a delegate.

A roll call being requested, the order passed by the following vote:

YEAS—Mrs. Barron, Messrs. Bogan and Gray—3.

NAYS—Messrs. O'Hare and Sullivan—2.

ACCEPTANCE OF PROPOSAL TO AUDIT BOOKS AND ACCOUNTS.

On motion, it was

ORDERED, That the proposal of P. J. Moynihan & Co., dated January 4, 1927, to audit the books and accounts of the Business Manager, the Secretary, the Treasurer of the School Committee, and the principals of the Boston Trade School, the Trade School for Girls, and the Continuation School, once every three

months during the financial year ending Dec. 31, 1927, and to report their findings after each quarterly examination and to render a detailed report for the entire fiscal year at an expense of seven hundred twenty-five dollars (\$725), is hereby accepted, and said accountants are hereby authorized to undertake such audit in accordance with the terms of their proposal.

AMENDMENT TO RULES.

A communication was received from the Board of Superintendents, under date of Jan. 13, 1927, recommending that the rules be amended to provide that for the certificate of qualification XI. Special: Assistant in Music, three years' supervisory experience in teaching music shall be required, instead of two years as now demanded.

Placed on file.

The following was offered:

ORDERED, That the rules be amended as follows:

Section 80, paragraph XI. Special: Music. In the paragraph which describes the eligibility requirements for assistants in music, in the fourth line, strike out the word—two—and substitute in place thereof the word "three," so that the paragraph will read as follows:

For assistants in music: Graduation from a high school approved by the board of superintendents, or evidence of an equivalent academic education; and evidence of three years' successful supervisory experience* in teaching music.

*The direction and inspection of the work of teachers.

Laid over.

GRANTING OF IV. HIGH SCHOOL CERTIFICATE TO ELIZABETH M. DOUGLAS.

A communication was received from the Board of Superintendents, under date of Jan. 24, 1927, recommending that it be authorized to grant to Elizabeth M. Douglas certificate IV. High School, as of December, 1924, in view of the report of the Board of Examiners that Miss Douglas in December, 1924, qualified by examination for certificate XI. Special: Industrial Instructor in Household Science, through error. At the time of examination, she met the eligibility requirements for the certificate IV. High School and should have applied for that certificate, the examinations for both certificates being identical.

Placed on file and the Board of Superintendents authorized to issue certificate IV. High School to Elizabeth M. Douglas, said certificate to carry the date of examination, December, 1924.

TRANSFER OF A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of Jan. 24, 1927, recommending that Thomas A. Riordan, custodian, the only applicant in the service desiring transfer to the custodianship of the Frederick A. Whitney School-house, be appointed to the position, to take effect Jan. 21, 1927.

Placed on file and the transfer of Thomas A. Riordan approved, to take effect on the date stated.

APPOINTMENT OF A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of Jan. 24, 1927, recommending, in view of the fact that Washington Street Portables Nos. 121, 137, 167 and 204, have been replaced by the Harriet A. Baldwin School, that Thomas F. Maguire, custodian of these portables, be appointed custodian of the Harriet A. Baldwin School-house, at a salary of \$32 per week until such time as the areas are certified by the Board of Schoolhouse Commissioners, such appointment to take effect Jan. 21, 1927.

Placed on file and the appointment approved, to take effect on the date stated.

CHARGES PREFERRED AGAINST CUSTODIANS.

A communication was received from the Schoolhouse Custodian, under date of Jan. 24, 1927, reporting an injury to a boiler in one of the schools which necessitated the dismissal of school on Jan. 24, 1927, and recommending that the matter be referred to the Trial Board.

Referred to the Trial Board for investigation and report.

A communication was received from the Schoolhouse Custodian, under date of Jan. 24, 1927, reporting a custodian for general inefficiency, that is, failure to properly heat and clean the premises under his charge.

Referred to the Trial Board for investigation and report.

CHARLESTOWN FREE SCHOOL FUND.

A statement of the receipts and expenditures for the year ending Dec. 31, 1926, as submitted by the Treasurer of the Corporation, William G. O'Hare, was presented, the balance to new account being \$10,078.31.

Placed on file, and the Chairman authorized to approve the same and to verify the sums and securities belonging to said fund and in the possession of the Treasurer.

TRANSFER OF BONDS AND BANK BOOKS TO NEW TREASURER.

On motion, it was

ORDERED, That the Chairman of this Board, as President of the Corporation, is hereby authorized to certify to the transfer of the custody of the several bonds, bank books and cash belonging to the Charlestown Free School Fund, amounting to \$10,078.31, from the former Treasurer, William G. O'Hare, to the present Treasurer, Jennie Loitman Barron.

On motion, it was

ORDERED, That Jennie Loitman Barron, Treasurer of the School Committee of the City of Boston, shall have the right of access to Safe (No. 6238) in the vaults of the Security Safe Deposit Company, standing in the name of The School Committee of the City of Boston.

CERTIFICATION AND APPOINTMENT OF ATTENDANCE OFFICERS.

A communication was received from the Secretary, under date of Jan. 24, 1927, reporting that, pursuant to the action of the Board at its meeting on Jan. 10, 1927, the Division of Civil Service has certified the following-named persons as eligible to fill three positions as attendance officers:

Irving T. Howe, Daniel J. Sullivan, Michael H. Sheedy, Michael H. Duffy, Frederick T. Thornton, Arlita D. Parker, Mary Burkhardt, Agnes C. Lavery, Rose H. Cooper, Katherine C. Halnan.

Placed on file.

Dr. Bogan: At the meeting of the Committee held on Jan. 10, 1927, the Committee instructed the Secretary to request the Division of Civil Service for the names of candidates (men and women) eligible to fill three positions as attendance officers. The Chief Attendance Officer believes that it is essential that he shall have three additional officers.

In answer to question from the chair, the Board approved the appointment of three additional attendance officers at this time.

On request, the Secretary read the names of candidates certified by the Division of Civil Service as eligible for appointment as attendance officer with the respective ratings.

At Mrs. Barron's request, the Secretary read various communications from organizations and individuals urging the appointment of a Yiddish-speaking attendance officer.

Discussion ensued substantially as follows:

Mrs. Barron: Before the roll is called I wish to urge two things—first, that the Committee appoint at least two women tonight, and, second, in accordance with the petitions just read by the Secretary of the School Committee, that one of the members appointed, in addition to every other qualification required for attendance officer, shall have the further asset of a speaking knowledge of the Yiddish language. I have been looking into the subject for some time and I find that in our Attendance Department we now have thirty officers. Unless a person is appointed who in addition to every other qualification shall speak the Yiddish language, we will not have a single officer in the entire Department, thirty-three in number, who can speak the Yiddish language, with a school population of 130,000, (and I understand that approximately 21 per cent. of the children are of Jewish parentage). In the Department today we have four persons who speak the Italian language, and I am told that in the North End the attendance officer uses the language and has found it beneficial. Leading educators feel that if the work of the Attendance Department is to be carried on most efficiently, the attendance officer must be given the tools with which to work, and the best way to Americanize our people, is to teach them through the medium which they understand. If it were not for the fact that the ratio of absence among Jewish children is so small, I probably would have urged the creation of the rank of special attendance officer who can speak Yiddish.

Fortunately, however, the attendance among the Jewish children carries a high per cent., and it will be in the interest not only of efficiency but of economy without the creation of a special position, to appoint now one who in addition to every other qualification, has the knowledge of the Yiddish language. That one person I find is Mrs. Rose H. Cooper. On the other hand, in case any members of the Committee feel there is any question of her speaking knowledge of the language, I am not urging the election of a particular person, I am asking for the adoption of a principle. Some years ago the Civil Service was asked by a former School Board to certify someone who could speak Italian and at that time an examination was given in Italian. I believe we have districts in which the predominating language of the parents is Yiddish, and I think we ought to have at least one person in the Attendance Department who can speak the language. Mr. Hobbs has said that the knowledge of the language would be very helpful and, in answer to a question as to the number, by nationalities, of illiterate minors attending evening school, states that the number ranges from 1 to 329; there are 320 from Italy, the next largest from the United States, and of course they do not require the need of a foreign-speaking attendance officer; the third largest number—240—come from Russia.

The attendance officers, who serve as ambassadors from the schools to the families, hold key positions. They often are the most effective agents for administration in our community. An attendance officer who understands the language of the parents with whom he is dealing often facilitates the process of Americanization and advances the cause of good citizenship. He also brings about a better understanding and greater co-operation between the schools and the parents.

As the Boston Globe has properly said: "Because the father of the family is usually out working, or at least looking for work, the mother must confront the representative of the school system. In fourteen out of fifteen instances she, a woman, must deal with a man. If she is unable to use English clearly she must do her best in a foreign tongue to explain to a man who does not comprehend her language."

If the attendance officer does not understand the language of the parents of the truant, or if they do not understand him, the parents must guess, rather than understand, his motives and his meaning.

Mr. Joseph W. Hobbs, Chief Attendance Officer, has said that the attendance officers' districts are "arranged according to area, population, nationality, and economic conditions of the residents"; showing the importance attached to the nationality of the parents of truants.

The Boston Post has aptly said: "A man or woman truant officer who cannot talk to the mothers or fathers of all the other groups in the city cannot get their co-operation in the matter of their children's attendance at school. The parents are apt to be confused, frightened and wholly unresponsive, when, if they knew just what was being urged upon them, they would help instead of hinder. It is a proposition that needs little argument. It is simply so, and that is all there is to it."

The importance of attendance officers with a language qualification is not only great in the day school, but also in the evening schools. There were 2727 illiterate minors obliged to attend school. Of this number only 1218 attended and 1509 did not. These are the figures for 1923-1924. The necessity of a language qualification is further shown by the fact that non-attendance warnings issued by the School Department are printed not only in English, but also in French, Italian and Yiddish, acknowledging the necessity of reaching many through a language other than English. In a number of schools the vast percentage of children are of foreign-born parents, many of whom do not understand English well, such as the Lewis School, the Phillips Brooks School, the Sarah Greenwood School, William Lloyd Garrison School, Robert Treat Paine and Roger Wolcott Schools (Percentage is 85 to 98 per cent.).

Considering that children of Yiddish-speaking parents aggregate 25 to 33 per cent. of all the children attending the Boston schools, thus numbering about 30,000, the necessity of one attendance officer speaking the Yiddish language is self-evident.

(Mrs. Barron then read a list of prominent men and women who have gone on record as heartily in favor of the principle of linguistic qualification for attendance officer, and also reviewed, for the information of the Board, the procedure which resulted in the legislation which now provides for the appointment of women attendance officers.)

Continuing, Mrs. Barron said: If we appoint two women tonight, we then will have but four women in the group of 33 officers. To sum up in just one line, because I have taken so much time, I would urge from the point of view of economy as well as efficiency, that we now appoint one person who can speak Yiddish in order to meet the demands of certain districts.

Mr. Sullivan: I want to ask a question. Will the Secretary kindly distinguish the candidates as to their veteran affiliation.

Secretary: All of the men are starred as veterans; no women are so starred.

Mr. Gray: This is rather an unusual situation, and therefore I want to state the conclusions which I have reached.

Mr. Gray: After having given this whole question most earnest consideration for several weeks and after having made certain inquiries on my own part, as well as having listened to the views and arguments of many persons who are interested in the matter, I have reached the conclusion that for the best interests of the school system the Attendance Department should have two more women attendance officers. If two more women and one man are appointed at this time there will be four women and 29 men, or a total of 33 attendance officers.

I shall, therefore, vote for the appointment of two women and one man.

Owing to the long standing policy of the school committee not to appoint a married woman whose husband is able to support her in whole or in part, my choice for the appointment of two women attendance officers will be Miss Burkhardt and Miss Lavery, Nos. 2 and 3 on the women's list. If, however, there is

no likelihood of Miss Lavery being appointed, believing as I do that we should have two women at this time, I am prepared to vote for Mrs. Cooper. I do so doing she may thus receive the necessary number of votes, but not because of her linguistic ability, since I am not in favor of any such qualifications in our schools.

Mr. O'Hare—In the appointment of attendance officers tonight we are faced with problems concerning which we must determine policies:

(1) The question of men and women as attendance officers.

I believe the time has now come for a decision as to the numerical ratio of men and women appointees to positions as attendance officers.

For my part, because of the greater volume of boy delinquency and truancy in school attendance as compared with girl delinquency and truancy in school attendance, I believe that the chief attendance officers should be allowed to stabilize now the number of men and women in the field of attendance work.

To give an idea as to how I feel on this matter, may I state here that I should like to see established at once a department of forty field-workers, thirty-three or thirty-four men and six or seven women. In such an organization I should have the men do the greater volume of the work of investigation of non-attendance. I believe approximately 60,000 such investigations are made each year. The men officers under this plan would investigate all cases, except such cases of girls in intermediate and high schools as hereinafter provided.

The men officers, under such a system, would report to the chief attendance officer cases of girl delinquency or truancy in the intermediate and high schools that came to their attention. The chief attendance officer would assign a woman officer at once to each of these cases. If the case should be one of non-attendance because of illness or other like conditions, the attendance officer should at once report the case to the school principal, who, at his discretion, should assign the school nurse to the case for follow-up and report.

Under such a system the attendance officers, the principals of school districts, and the school nurses would all work for the good of the individual child.

May I add that for boys also, whose non-attendances are due to illness, I should recommend the same system of check-up as I recommended for the girls.

The women officers, in addition to the "case" work outlined above, would also do the investigation of the girls who go to work between the ages of fourteen and sixteen years and who must attend Continuation School. They would also follow up the girls and young women who are illiterate minors, and who must, under the law, attend evening schools.

I hold the attendance officers of Boston in highest esteem. They are adjusters between school and home. They are humanitarians of the highest order. With the growth of school population we have need of an increased force so that the individual case may be more thoroughly investigated.

I am ready to enlarge the attendance force now—not a year from now.

The ratio of boy delinquency or truancy as to girl truancy or delinquency is about ten to one.

(2) The question of linguistic ability as a determining qualification for the position of attendance officer, regardless of position on the list.

This is an American city, typical of our northern cities. We have here the Christian and the Hebrew, the colored and the white, the Democrat and the Republican, the foreign-born and the native-born.

Never will I vote for a person because of his racial origin, his religious belief, his color, or his political party affiliation. Conversely, I shall not vote against a candidate because of any of these characteristics.

To my mind, language knowledge is an asset, but not an asset such as to warrant me in changing the order of appointment from a rated list.

The School Committee prior to this present body, and three are members now, held an open public meeting on this question, listened to all sides of the question and then determined unanimously that the linguistic ability of any candidate did not warrant appointment unless the candidate was in the appointable position on the established merit list.

Therefore, tonight, I shall vote for No. 1—man, No. 2—man and No. 2—woman.

Mr. Sullivan: This is an old, old story. It dates back to May 12, 1924, when we had a very interesting evening in this chamber, at which hearing there appeared all the groups interested in this attendance officer question whose names have been mentioned here. Sometimes it is quite difficult in the face of great pressure—I am not speaking specifically or personally, but generally—in the face of great pressure to meet an issue squarely, but I think with such a situation as is present tonight, each one of us should present the situation as it presents itself to him without self-conviction or quibbling. At that time I took the stand that by decree of the General Court, to whose wisdom we all bow, this position was primarily for a veteran and a position in which veteran's preference should prevail, and that our dual list or double list system, a men's list and a women's list, was a self-conviction on our part or a subterfuge on our part to defeat the intent of the Legislature, namely, preference to veterans. I feel so now.

After that hearing there came the question of appointing women as attendance officers and I voted against the young woman who was appointed by a majority of this Board, although I knew the young woman, a very splendid and high type woman, who has proved an excellent attendance officer. But I voted against her because I believed we were violating at least the spirit of the law in appointing anyone who was not a veteran. We cannot all be right, either Mrs. Barron and these illustrious folks who have signed certain resolutions favoring the appointment of Mrs. Cooper—no one denies that that was the purport and the reason and the purpose of these missives—either Mrs. Barron and all these who are allied with her and with the cause of which she is the standard-bearer, are right, or Mr. O'Hare and the principles and ideals so eloquently discussed by him are right. You may be right, Mrs. Barron, I may be 100 per cent.

wrong, but we ought to discuss these things freely.

How is it that an issue championed and espoused by newspaper editorial writers and by persons high in the civic activities, and by members of this Committee, how is it that such an issue so sponsored cannot be responded to here by each and every member of the Committee? Even editorial writers are human and they may err and they may write editorials with only a partial understanding of a situation, but at any rate, this Committee, as Mr. O'Hare said, after the May 12, 1924 hearing,—and Mr. O'Hare was a member of that Board, Dr. Bogan was a member, and I was a member, went on record unanimously against the inclusion as a special qualification for attendance officer of the linguistic asset or ability. I think I may have stumbled on a point material to this issue and this discussion, that perhaps was overlooked by all of you. I attribute my stumble to the fact that I listened and learned, and it is this.

We have a system of Civil Service examination and rating. We ought to follow that system as closely as possible. We should never depart from that by way of exercise of our discretionary powers until and unless it is for such reason and for such element as could not possibly be present in the examination and determination of the civil service rating. It has been argued that we should include here—that we should vote for Mrs. Cooper because she possesses in addition to every other qualification linguistic abilities. There is I believe in every civil service examination for every position within the jurisdiction of civil service a questionnaire that contains the question "Can you speak a foreign language? If so, what and how many?" I assume that it was included in this examination because I think it is present in almost all civil service examinations, and that therefore it was taken into consideration in marking the respective candidates. If I am right, then the Civil Service Commission determined the value of that linguistic ability, and we have no moral right to do other than take the candidates as they appear according to their rating.

Mrs. Barron apparently does not like the poor men, she laments there are so many men and so few women in our attendance department. I want to say for the down-trodden men that they have done a very wonderful piece of work. So effective have the men been as attendance officers that truancy, or as it was called in the old-fashioned days "hooking-jack," has become almost a lost art. I would like to ask this committee for at least one moment of silence in tribute to the men attendance officers. . . . I feel, as everyone here feels, that our public schools do not constitute an agency for giving persons jobs, and jobs should not be decided on blood tests, racial or religious bases—of course linguistic ability is an incidental to racial aspect. I also agree with Mr. O'Hare that to positively Americanize is to Americanize through the agencies we have established at great expense to the city.

I want to say in conclusion, there can be absolutely no question in my mind about any racial aspect, and I want to pay a tribute to that race of which Mrs. Barron and others here are members. In the Disciplinary Day School, where our habitual truants, are housed, from September 14, 1926 to January 17, 1927, out of a total enrolment of

141 habitual truants, only 3 were Jewish. Only 2 are now at present enrolled there in that big number—141. The Jewish boy and the Jewish girl do not stay away from school and never did. They run to the school, not from the school, and I say it is a splendid tribute to the race, to the pupils and to the parents. If other nationalities had the same ambition and desire for learning and the same aptitude and love for work and ambition to succeed as the Jewish pupil, we should be better off in this community. I am voting for Mr. Howe and Mr. Sullivan, and under the overwhelming pressure of everybody present I am going to join hands and vote for a woman, and that woman is No. 2 on the list, and I understand that this candidate, No. 2 on the women's list, has acted as an interpreter in cases involving Jewish children and she is of that race.

Mrs. Barron: I just want to add a word to clarify the situation and the motives for which I am urging the appointment of a person who in addition to every other qualification, has the linguistic qualification. In answer to Mr. O'Hare, I want to specifically say I do not urge the appointment of anybody. I urge the appointment of a person who in addition to meeting the qualifications demanded, speaks the Yiddish language. It would not make any difference to me what the person's race or religion, and if such person did not appear in regular order on the civil service list I would ask that the Civil Service be requested to certify such a person to the School Committee. I spoke of Mrs. Cooper because she comes to us under the rules. I want to unequivocally say that I do not intend, in any way, by any action of mine, to depart from civil service rating, but according to civil service rules we are specifically given latitude to appoint any two persons out of four, and because of an antiquated ruling that exists in our department that prohibits married women, I do not want to vote for No. 1.

In the past in our appointment of bookbinder for the School Committee, in the appointment of Chief Attendance Officer, No. 2 was voted for and not No. 1. I say it is a very wise rule of civil service to allow a certain choice, one of the three highest. I am voting for Miss Burkhardt, who is excellently qualified, who is a teacher in our schools. I do not vote for Mrs. Parker because my vote would be wasted. I vote for Mrs. Cooper because she is within civil service rules; she has been a teacher, she is a widow with a daughter to support, she has done Red Cross work, although she could not fight in the trenches. So far as Americanization is concerned, I want to add, because I am an American citizen and this is America, and because I believe in the highest type of American citizenry, that I urge the inclusion of the linguistic qualifications in order that we may convey direct to the parent who unfortunately cannot discuss the so-called truant problem of the young, the message we wish to give. True, Mr. O'Hare has taught a class of Jewish children, but the children in the schools speak English. I want to add, too, that the Federation of Jewish Charities are conducting Americanization classes every day.

Regardless of what we think of the Jewish race, we must admit that there are some truants, otherwise

we would not have Attendance Officers in our Jewish districts. I do like the men, but this is a mixed world. There are women in the world as well as men, and although the larger per cent. of truants are boys, the contact of the Attendance Officer is with the mother, not with the father, and certainly I do not think we are urging too many women when we urge four out of a total of thirty-three. We do not wish to supplant the men, we want to supplement them.

Mr. O'Hare: My statement was made independently, as you can tell from its reading. Subsequently, I cast no aspersions on the member as to her method of voting. Please remember that in this question we know we have the right of exercise of prerogative. In the appointment of Chief Attendance Officer a few years ago my four colleagues voted for the present incumbent. The position then went to Civil Service for rating. The present incumbent was No. 2 on the list. I voted for No. 1, but they voted for No. 2, for whom they had previously balloted.

On the question of permanently appointing married women, we have expressed ourselves frequently as against the practice where there is a working husband. Here is the story of the appointment of the bookbinder. When we came to elect a bookbinder, we found that the position of bookbinder was a sporadic employment; in other words, a bookbinder might work for a year and be idle for six months. Mr. Gray voted for No. 1; Dr. Bogan No. 2, Mrs. Barron No. 3. There was nothing unusual about it, and I voted for No. 2 because No. 1 had an economically supporting position as a bookbinder in the Public Library, and I did not want to take a man out of a permanent position. Mr. Sullivan voted also for No. 2. Thus two individuals were in permanent positions.

Please remember this, no matter what anyone may say, this is an American city. If they follow the principle tonight of appointing a person because of linguistic ability, I shall look up the racial extraction of every school child in Boston and I shall find out why a person who can speak each language is not appointed. If the principle is right, we have got to carry it out 100 per cent. Numbers cannot negative principle.

Mrs. Barron: Mr. O'Hare spoke of deciding the vote on the bookbinder because a certain person was in an economically-supporting position and, therefore, in addition to everything else, he wanted to take the sociological aspect into mind. May I add that one person on the list who is a widow is supporting a daughter from an economically-supporting position? Mr. O'Hare says that if this linguistic ability is adopted as a qualification in addition to other assets, he will bring in an order urging that Attendance Officers speaking other languages be appointed. Of course, if there was a preponderance like 25 per cent. in the entire school system of say Syrians, I think it would be an excellent thing to have someone appointed, not because of linguistic qualifications, but to have someone who could speak the language; but we have no such situation. We have the Italians as a predominating foreign element and we have the Jewish people as a predominating foreign element, and that is why I urge the principle.

A roll call being requested, the members, as their names were called, respectively stated that they voted as follows to fill the first vacancy:

For MARY BURKHARDT—Mrs. Barron, Messrs. Gray, O'Hare and Sullivan—4.

For IRVING T. HOWE—Dr. Bogan—1.

Mr. Sullivan questioned the procedure, in view of the fact that three attendance officers were to be appointed, and at his request the results of the ballot were disregarded by unanimous consent.

Another roll call being ordered, the members, as their names were called, respectively stated that they voted as follows to fill the first vacancy:

For IRVING T. HOWE—Mrs. Barron, Messrs. Bogan, Gray, O'Hare and Sullivan—5.

The chairman declared Irving T. Howe duly appointed attendance officer, to take effect February 1, 1927.

The members, as their names were called, respectively stated that they voted as follows to fill the second vacancy:

For MARY BURKHARDT—Mrs. Barron, Messrs. Gray, O'Hare and Sullivan—4.

For DANIEL J. SULLIVAN—Dr. Bogan—1.

Mr. O'Hare and Mr. Sullivan asked for the privilege of changing their votes.

The privilege being allowed, Mr. O'Hare and Mr. Sullivan were recorded as voting for Daniel J. Sullivan.

The chairman declared Daniel J. Sullivan duly appointed attendance officer, to take effect February 1, 1927.

Mrs. Barron asked if she might be privileged to ask the committee request the Division of Civil Service to certify candidates who, in addition to other qualifications for attendance officer, possess a speaking knowledge of the Yiddish language.

The chairman ruled the request out of order and the board proceeded to fill the third vacancy.

The members, as their names were called, respectively stated that they voted as follows:

For MARY BURKHARDT—Mrs. Barron, Messrs. Bogan, Gray, O'Hare and Sullivan—5.

The chairman declared Mary Burkhardt duly appointed attendance officer, to take effect February 1, 1927.

UNFINISHED BUSINESS

The order laid over at the meeting of Jan. 10, 1927, authorizing the Superintendent to invite the National Association of School Superintendents to meet in this city in 1928, was taken up and passed—Messrs. O'Hare and Sullivan voting in the negative.

REPORT OF TRIAL BOARD.

A communication was received from the Trial Board, under date of Feb. 7, 1927, to whom was referred at the meeting of Jan. 24, 1927, a communication from the Schoolhouse Custodian reporting an injury to the boiler in the Trescott School-house, stating that a hearing was held on Saturday, Jan. 29, 1927, which was attended by the three members of the Trial Board, the Schoolhouse Custodian; Oliver L. Fortin, the custodian concerned; and Thomas E. Kelley, principal, Elihu Greenwood District.

On the evidence submitted, the Trial Board cannot find that the damage to the boiler was caused by any negligence on the part of the custodian.

The principal of the district testified that Mr. Fortin is one of the best custodians that he has ever seen; that he is careful, competent, thorough in the discharge of his duties, courteous in his dealings with teachers, and understanding of children. The Schoolhouse Custodian has testified to the same effect.

FINDING—That the accident was due to some cause not yet determined, but not to carelessness or neglect on the part of the custodian.

RECOMMENDATION—That the custodian be advised that he is exonerated in this instance, but that he is to take even greater precautions in the future to safeguard school property.

Placed on file and the recommendation adopted.

APPROPRIATIONS AND EXPENDITURES FOR 1926.

A communication was received from the Business Manager, under date of Dec. 31, 1926, submitting a statement on the cost of maintenance of the public schools for the

financial year 1926, showing the appropriations, the expenditures and the balances for the financial year 1926, the expenditures for the financial year 1925 and the increases and decreases in the several items. A summary of the statement showing the various items of current expenses is as follows:

Appropriations for 1926.....	\$15,786,728.91
Expenditures for 1926.....	15,118,502.40
Expenditures for 1925.....	12,709,323.05
Increases 1926 over 1925.....	2,349,179.35
Balances unexpended 1926.....	668,226.51

The Business Manager pointed out that the extraordinary increase in expenditures in 1926 over 1925 is due mainly to (a) an eleven-month period instead of usual twelve-month period; (b) practically the full effect of the general salary increase allowed teachers and others on September 1, 1925.

The total expenditures for lands, plans and construction of school buildings for the financial year 1926 amounted to \$4,655,749.21, as compared to \$4,317,824.77 for the preceding year.

Placed on file.

LEAVES OF ABSENCE TO CUSTODIANS.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, recommending that leaves of absence on one-half net compensation be granted the following-named custodians for the periods specified because of personal illness:

Jeremiah J. White, custodian, Samuel W. Mason School-house, Jan. 12 to 27, 1927, inclusive.

Francis A. MacCambridge, custodian, Thomas Dwight School-house, Jan. 25 and 26, 1927.

Thomas J. Foley, custodian, Harbor View Street School-house, Jan. 16 to 21, 1927, inclusive.

Placed on file and leaves of absence on one-half net compensation granted for the periods specified.

APPOINTMENT OF CUSTODIANS

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, reporting that he has considered the candidates certified by the Division of Civil Service as eligible for appointment as custodian of the Chestnut Avenue School-house and Portable No. 9, and recommends that Frank J. Christie, who stands second on the list, be appointed to the position, to take effect Feb. 4, 1927, the candidate standing highest on the list having already been appointed in the department.

Placed on file and the appointment approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, recommending that John P. Barry, custodian, Benjamin Cushing School-house, be appointed custodian of Portable No. 4, located in the yard of that school, to take effect Feb. 4, 1927.

Placed on file and the appointment approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, recommending that Bartholomew J. Dooley, custodian, Thomas Gardner

School-house, be also appointed custodian of the Thomas Gardner Annex, to take effect Feb. 4, 1927.

Placed on file and the appointment approved, to take effect on the date stated.

TRANSFER OF CUSTODIANS.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, recommending that Warren E. Carney, custodian, Albert Palmer School-house, the only candidate in the service desiring transfer to the custodianship of the Williams School-house, be appointed to the position, to take effect Feb. 4, 1927.

Placed on file and the transfer of Warren E. Carney approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, recommending that Alexander Nelson, custodian, B. F. Tweed School-house, the only candidate in the service desiring transfer to the custodianship of the Florence Street School-house, be appointed to the position, to take effect Feb. 4, 1927.

Placed on file and the transfer of Alexander Nelson approved, to take effect on the date stated.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, transmitting a list of applicants desiring transfer to the custodianship of the John Cheverus School-house, and recommending that Leo T. Young, custodian, Harvard School-house, who stands at the head of the list, be appointed to the position, to take effect Feb. 6, 1927.

Placed on file and the transfer of Leo T. Young approved, to take effect on the date stated.

ADDITIONAL COMPENSATION TO CUSTODIANS.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, recommending that, in view of the fact that several of the rooms in the East Boston High School are being used for manual training purposes which have to be swept daily, additional compensation be allowed the custodian, to take effect Jan. 1, 1927.

Placed on file.

On motion, it was

ORDERED, That because of extra sweeping of certain rooms used for manual training purposes, the custodian of the East Boston High School be allowed and paid additional compensation at the rate of five dollars and eighty-two cents (\$5.82) per week, in addition to his regular compensation, to take effect Jan. 1, 1927.

A communication was received from the Schoolhouse Custodian, under date of Feb. 7, 1927, recommending that because of the necessity of daily sweeping of rooms used as nutrition and rest rooms, additional compensation be allowed the custodian of the Ulysses S. Grant School-house, upon certification to the Business Manager by the Schoolhouse Custodian, to take effect Jan. 1, 1927.

Placed on file.

On motion, it was ORDERED, That, because of extra sweeping of certain rooms used as nutrition and rest rooms, the custodian of the Ulysses S. Grant Schoolhouse be allowed and paid additional compensation at the rate of one dollar and eighty cents (\$1.80) per week, to take effect Jan. 1, 1927.

UNFINISHED BUSINESS.

A communication was received from the Director of School Hygiene, under date of Jan. 21, 1927, in response to the request of this Board at the meeting of Jan. 10, 1927 (see p. 9), that the Director report his opinion as to the necessity for taking in the interests of the health of the school children, the property referred to in the order passed by the City Council on Nov. 29, 1926, said property being located at the corner of Charles Street, Charles Street Place and School House Court, Charlestown, reporting that in his opinion this is not a health problem affecting the school children; that, if anything, the factory located on said land is a nuisance, and that if it is a public health nuisance, the only department that can function in the abatement of such nuisance is the local health department.

The report was accepted and the communication from the Superintendent submitted at the meeting of Jan. 10, 1927 (see p. 9), reporting that he concurs in the opinion of the Board of Apportionment that it is inadvisable to recommend the purchase of this property since there are other more urgent needs, since there has recently been acquired for pupils in the Bunker Hill and Thomas Starr King Schools additional playground area amounting to 9,863 square feet, and since the School Committee contemplates in the near future the erection of a large central intermediate school in Charlestown was accepted and ordered transmitted to the City Council as the Committee's reply to the order passed by the City Council on Nov. 29, 1926.

Mrs. Barron, for the committee appointed at the meeting of Jan. 10, 1927, to consider and report the advisability of employing counsel for the School Committee in the case of John M. Sullivan vs. City of Boston (see p. 16), reported that Judge Michael H. Sullivan has agreed to act in this capacity.

The report was accepted.

The Board adjourned.

PROCEEDINGS OF CITY COUNCIL.

Monday, March 14, 1927.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m.; President HEFFERNAN in the chair, and all the members present.

COMMUNICATION FROM BUDGET COMMISSIONER.

The following was received:

City of Boston,
Office of the Mayor, March 14, 1927.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Budget Commissioner in reply to your order of February 7, 1927, relative to convenience station at Codman square, Dorchester, and matter of construction of Washington street section of the so-called Morton street improvement.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Budget Department, February 25, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—The erection of convenience stations throughout the city is under the control of the Health Department, consequently, the first step leading toward the construction of a new station should naturally be a recommendation by the Health Commissioner in the budget estimates of his department that an appropriation sufficient to meet the construction costs of such a station be allowed. The budget estimates of the Health Department for 1927, now on file in this office, contain no such recommendation.

An appropriation for the laying out, widening and construction of the Washington street section of the so-called Morton street improvement should properly be made the subject of a loan, since the life of the proposed improvement will extend over a long period of years. Loan appropriations are not included directly in the tax levy but are reflected in the appropriations made for interest and serial loan requirements.

Respectfully,
CHARLES J. FOX,
Budget Commissioner.

EXPENSE OF ROADWAY OVER SHAWMUT BRANCH.

The following was received:

City of Boston,
Office of the Mayor, March 14, 1927.
To the City Council.

Gentlemen,—In reply to your order under date of March 7 relative to the expense of construction of a roadway or street for pleasure vehicles over the tunnel or arway of the Shawmut Branch of the Cambridge Tunnel, I am advised by the Street Laying-Out Department that an informal investigation warrants the Board in saying that the expense of same would be in the neighborhood of \$1,250,000.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

Later in the session COUN. WILSON said:
Mr. President, I would like to say just a word with reference to the letter from the Mayor's office in response to the order passed by the City Council on March 7, at which time—with COUN. GUILD's corrections—I asked the Mayor the result, if any, of the investigation made by the proper departments as to the expense of construction of a roadway or street over the tunnel or arway of the Shawmut Branch extension. I think it might be readily understood that our order suggested something more in the way of investigation, for instance, than would be implied in a request from a man running a City Hall elevator, or from some one else who would not naturally be expected to have intimate knowledge of the matter in question. But this is what the Mayor says:

"In reply to your order under date of March 7 relative to the expense of construction of a roadway or street for pleasure vehicles over the tunnel or arway of the Shawmut Branch of the Cambridge Tunnel, I am advised by the Street Laying-Out Department that an informal investigation"—whatever that is—"warrants the Board in saying that the expense of same would be in the neighborhood"—whatever that is—"of \$1,250,000."

In the first place, I cannot see what the Street Department has to do with this work now being carried on by the Transit Commission; and I also feel that when this body—including the other members as well as myself as an individual—asks for an investigation in regard to a matter of this sort, it is entitled to something more than "an informal investigation," whatever that may be.

RADICAL PUBLICATIONS AMONG SCHOOL CHILDREN.

The following was received:

City of Boston,
Office of the Mayor, March 14, 1927.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Police Department in reply to your order of March 7, 1927, in relation to dissemination of radical publications among young school children in the City of Boston. I shall be pleased to submit any further information, from time to time, which may be available.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Police Department, March 11, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Mayor Nichols,—I am in receipt of your letter of the 10th instant, relative to order of the City Council, requesting me to co-operate with the District Attorney as to continued dissemination of radical publications among young school children in the City of Boston.

I wish to state that I presume this communication refers to the publication called the "Spark." An officer of this department made a complaint against Alter Rosenberg, publisher of the "Spark" and Judge Joseph N. Palmer of the Roxbury Municipal Court refused to grant a warrant on the grounds that there was nothing in the publication in violation of the statutes.

Yours respectfully,
HERBERT A. WILSON,
Police Commissioner.

OPINION OF CORPORATION COUNSEL IN RE CHAPTER 272.

The following was received:

City of Boston,
Office of the Mayor, March 14, 1927.
To the City Council.

Gentlemen,—In accordance with request of your honorable body of February 28, 1927, I am transmitting herewith copy of opinion of the Corporation Counsel relative to reasons for vetoing the resolution of the City Council for legislation to amend chapter 272 of the General Laws.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Law Department, February 24, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I have before me for my consideration the following order of the City Council:

"Ordered, That his Honor the Mayor be authorized, in the name and on behalf of the City of Boston, to petition the Massachusetts Legislature during its present term, for legislation to strike out section 102 of chapter 272 of the General Laws of 1921, which reads 'the three preceding sections (99, 100, and 101) shall not apply to a corporation subject to the jurisdiction of the department of public utilities of the commonwealth or to the jurisdiction of the interstate commerce commission, or to the employees of any such corporation while engaged in the conduct of its business.'"

I would advise your Honor that it would not be wise at this time to file the petition suggested by this order, first, because I do not believe the Legislature would admit it at this time; secondly, because I believe there is sufficient legislation to take care of the situation presented by this order. The order is undoubtedly aimed at the New England Telephone and Telegraph Company and seeks to prevent alleged tapping of telephone wires. The New England Telephone and Telegraph Company is a common carrier, engaged in the transmission of intelligence by electricity, as prescribed by section 12, chapter 159, General Laws, and is under the jurisdiction of the Department of Public Utilities.

Section 13, chapter 159, General Laws, provides: "The department may inquire into the rates, charges, regulations, practices equipment and services of common carriers in this commonwealth, and elsewhere, rendering any service of a kind subject to its jurisdiction."

Under this section if the Department of Public Utilities finds that the Telephone Company is using its equipment for the purpose of eavesdropping and in order to secure information in violation of the spirit of sections 99 to 100, inclusive, of chapter 272, it may, by its order, require the company to refrain from so doing. The legislation contained in chapter 272, which is the subject matter of the order of the Council, was enacted for the purpose of preventing the securing of information by means of the dictagraph or dictaphone. It was not intended to apply to a public utility like the Telephone Company which might find it convenient or necessary to make certain tests in order to render better service or to correct defects in its equipment. If the Telephone Company is indulging in the practice of eavesdropping and for the purpose of securing information improperly against individuals or public officials, this matter should be brought to the attention of the Department of Public Utilities and if the complaint is sustained, the department has sufficient authority,

in my opinion, to compel the company to desist from such practices. (See Western Union Telegraph Co. v. Foster, 224 Mass. 365.)

I advise your Honor, therefore, to withhold your approval of this order and to veto the same for the reasons given hereinbefore.

Yours very truly,
FRANK S. DELAND,
Corporation Counsel.

CONTRACTORS BIDDING ON SHAWMUT BRANCH EXTENSION.

The following was received:

City of Boston,
Office of the Mayor, March 14, 1927.
To the City Council.

Gentlemen,—I transmit herewith a communication from the City Auditor in reply to your order of March 7, 1927, relative to names of contractors who bid on the construction of so-called Shawmut Branch extension.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Auditing Department, March 14, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Sir,—In compliance with an order of the City Council, approved March 7, 1927, requesting the name and address of each contractor who made any bid or bids for the construction of the so-called Shawmut Branch extension, the inclosed list is respectfully submitted.

APPROPRIATION FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, March 14, 1927.
To the City Council.

Gentlemen,—I am in receipt of a communication from the chairman of the Park Commissioners in which it is requested that an appropriation of \$15,000 be made available from the income of the Parkman Fund for the construction of additional concrete walks at the "Greeting" in Franklin Park. In the opinion of the chairman of the Park Department the immediate construction of these walks is absolutely necessary in order to accommodate the large crowds that visit the bird house and the elephant house in the park. I submit herewith an order covering the appropriation of the desired amount and respectfully recommend its adoption by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

Ordered, That the sum of \$15,000 be and the same hereby is appropriated from the income of the Parkman Fund, to be expended under the direction of the Park Commission, for the maintenance and improvement of the Common and parks in existence on January 12, 1887, as follows: Franklin Park, Improvements, \$15,000.

Referred to the Committee on Parkman Fund.

SHOWER BATHS, ETC., IN SCHOOLS.

The following was received:

City of Boston,
School Committee, March 9, 1927.
Mr. James Donovan, City Clerk.

Dear Sir,—I inclose herewith copy of a report of the superintendent, to whom was referred at the meeting of the School Committee held on October 25, 1926, order passed by the City Council on October 4, 1926, relative to the installation of shower baths and gymnasium equipment in certain schools throughout the city.

This report was duly presented to the School Committee at its meeting held on Monday, March 7, 1927. The report was accepted and a copy ordered transmitted to the City Council.

Very truly yours,
ELLEN M. CRONIN, Secretary.

City of Boston,
School Committee, March 7, 1927.
To the School Committee.

Under date of October 4, 1926, the City Council passed the following order:

Ordered, That the Boston School Committee be requested, through his Honor the Mayor, to consider the advisability of installing shower baths and gymnasium equipment in all the old schools throughout the city that are not so equipped at the present time.

At the meeting of the School Committee held on October 25, 1926, the order of the City Council was presented and was referred to the superintendent for consideration and report.

In accordance therewith, the superintendent submits the following statement, with the suggestion that the same be forwarded to the City Council of Boston:

At the present time showers are provided in The Teachers College, in thirteen of the sixteen high schools, in the Boston Trade School (for boys), in the Boston Clerical School, in three intermediate school buildings, and in one elementary school building.

There are gymnasias in The Teachers College, in fifteen of the sixteen high schools, in the Boston Clerical School, in the Boston Trade School, in three intermediate and one elementary school buildings.

Under date of November 6, 1923, the Director of Physical Education, in reply to a request from the superintendent, stated that the showers were not used in the Girls' High School, the Girls' Latin School, the Dorchester High School for Girls, the High School of Practical Arts, and the Roxbury High School; and that the showers were not used by girls at the Jamaica Plain High School. The director at that time approved the request of the head master of the Girls' High School that the showers there be removed to give more locker space. At the time this statement was made by the Director of Physical Education, the only showers in use by girls were those in The Teachers College. Showers were used by boys throughout the year in the Public Latin School, Dorchester High School for Boys, East Boston High School, South Boston High School, and the Boston Trade School. They were used by boys throughout the track season at Brighton High School, and Charles-town High School, English High School, and High School of Commerce, and were used on rare occasions by boys at the Jamaica Plain High School. It was evident from the study of the director that showers were not at all popular with the girls, and were not used as extensively as they might be by boys, except in connection with athletics.

As a result of this report it was decided that no further provision for installing shower baths in any school building should be made until the superintendent or the Board of Apportionment should determine the need.

It is possible that the City Council did not fully realize the scope of the expression—"all the old

schools throughout the city"—as the expense involved in installing shower baths in all these schools would be enormous. Only a careful survey under the direction of the School Committee or the Schoolhouse Department could designate buildings in which suitable space could be found for showers; and no less careful consideration would be necessary in the selection of districts in which the use made of such accommodations would be sufficient to warrant the expense involved.

Since a general installation of showers is entirely beyond the present financial resources of the School Committee, the only thing possible is to investigate and report upon the conditions obtaining in the particular buildings that the Council may see fit to designate.

Respectfully submitted,
JEREMIAH E. BURKE,
Superintendent of Public Schools.

STORAGE AND SALE OF GASOLENE.

A communication was received from the Street Laying-Out Department of the Board of Street Commissioners stating that hearings will be given on Monday, March 28, 1927, on the following petitions for storage and sale of gasoline:

City Land Company, 33-39 Allerton street, Ward 8, 4,000 gallons.
Benjamin Langillo, 19 Lawrence street, Ward 2, 1,000 gallons.

Referred to the Executive Committee.

EMPLOYMENT OF RESIDENTS.

Coun. GUILD offered the following:
Ordered, That section 12 of chapter 3 of the Revised Ordinances of 1925 be and the same hereby is amended by striking out the words in the second sentence, "but citizens, and, if male subordinates," and by inserting at the end of the first sentence the words, "but may employ minors who are otherwise properly qualified, whose legal domicile is in the City of Boston," so that said first sentence shall read:

"Section 12. Every officer in charge of a department shall employ, fix the compensation of, and may discharge for such cause as he shall deem sufficient and cause to be recorded in the records of the department, all subordinates in his department, but shall employ none but legal voters of Boston, in any capacity; but may employ minors who are otherwise properly qualified, whose legal domicile is in the City of Boston."

Referred to the Committee on Ordinances.

ACTION OF SCHOOL COMMITTEE IN RE "RED" PROPAGANDA.

The following was received:

City of Boston,
School Committee, March 12, 1927.

Mr. James Donovan, City Clerk.

Dear Sir,—At last Monday's meeting of the School Committee, Mr. Sullivan referred to an article which he had read in the afternoon edition of one of the daily papers concerning the action of the City Council of that date demanding an investigation concerning the recent distribution of the so-called "Red" propaganda in the vicinity of some of the school buildings of the city.

Mr. Sullivan spoke in terms of appreciation of the purpose of the City Council to stamp out the attempt on the part of some unknown persons to circulate offensive and harmful material among school children, and asked that the City Council be assured of the committee's appreciation of the Council's attitude.

Mr. Sullivan asked further that the Council be informed that this matter came to the attention of the superintendent several weeks ago, at the time the first pamphlet was distributed. The superintendent immediately began an investigation and satisfied himself that the principal of the district in which section the material was distributed had acted promptly and effectively.

Mr. Sullivan feels that the members of the Council appreciate that the Superintendent of Schools, Dr. Jeremiah E. Burke, is in every way competent and sufficiently determined to lead whatever campaign may be necessary in this drive against the distribution of "Red" propaganda in the vicinity of our schools, and for the committee assures the members of the Council that the superintendent does and will continue to appreciate the co-operation of all of our governmental agencies. The superintendent will not hesitate to call upon these agencies for assistance whenever action shall warrant, feeling sure that the assistance will be generously given.

In the meantime the superintendent, in pursuance of his determination to control the situation, has addressed the principals of schools and districts on the subject and a copy of this statement is inclosed for the information of the Council and in order that the members may be fully informed of the superintendent's attitude and efforts in the matter.

Following Mr. Sullivan's discussion at the meeting, Mr. O'Hare asked that the superintendent, in continuing his investigation, ask principals to instruct teachers in charge of buildings to be especially vigilant in guarding the school children

and preventing distribution of any further material of this nature, any questionable literature or material of any kind to be immediately forwarded to the superintendent.

Very truly yours,
ELLEN M. CROBIN, Secretary.

REMARKS BY THE SUPERINTENDENT BEFORE PRINCIPALS AND DIRECTORS, MARCH 11, 1927.

A school principal recently notified the superintendent that some person or persons wholly distinct and dissociated from our school system was circulating defamatory printed material in the neighborhood of certain school buildings. The superintendent immediately called one of the schools in question and was gratified to learn that the principal of this school already had assembled his pupils, had called their attention to the unpatriotic publication and had enlisted the pupils' co-operation in nullifying the evil effects thereof.

I cite this merely as illustrative of the solicitude and alertness exercised by all our school principals in detecting and in resenting slanderous assaults upon the institutions of our country, and upon the lives of its patriots and benefactors. From the very outset the common schools have stood conspicuously as the bulwarks of American liberties. All these schools, public and private alike, have taught love for country and loyalty to the flag. More particularly during the past few years teachers of Boston have been building up a far-reaching and constructive program in character and citizenship training. Our entire staff has been diligently engaged in accumulating and organizing a wealth of material for instructional purposes. A period of every day's program in all public schools of the city is set aside for definite and approved instruction, the object of which is the cultivation of personal and civic virtues. There is no doubt about the importance or the success of this undertaking. Its effectiveness is attested by the spontaneous repudiation by pupils themselves of this recent cowardly attack upon the ideals they have learned to cherish.

School men and women have full faith in our boys and girls. You and I know that our youths will not be led astray by false alarms. Nevertheless, we cannot disregard such incidents as the dissemination of poisonous propaganda in the vicinity of school buildings. Eternal vigilance is the price of liberty. Let us continue to be eternally on our guard. If poisonous seeds are sown let us indignantly uproot them; and in their place cultivate respect for law and order, fidelity to principle, and devotion to all that the term "American civilization" connotes.

So persevere! Detect and overthrow the wrong! And, worthy master-craftsmen that you are, incorporate into these immortal structures you are rearing convictions of the right!

Placed on file.

CONSTRUCTION OF ORANGE STREET.

Coun. KEENE offered the following:

Ordered, That the Board of Street Commissioners be requested to accept and construct as a public street Orange street, Ward 20, from Cornell street to the West Roxbury Parkway.

Passed under suspension of the rule.

CITY BUILDINGS, RUTHERFORD AVENUE

Coun. GREEN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to take immediate steps to demolish the dilapidated and unsightly buildings located in the city yards on Rutherford avenue, in the Charlestown district, which constitute a health menace and fire hazard to the residents of said district, and that provision be made to replace the same by the erection of a modern, fireproof building to house the Sewer, Street Cleaning, Sanitary and Paving Services of said district.

Passed under suspension of the rule.

PHYSICAL EXAMINATION OF FIREMEN.

Coun. DOWD offered the following:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to rescind his rule that men eligible for promotion are compelled to submit to a physical examination.

Referred to the Executive Committee.

HIRING OF CITIZENS AS CHECKERS.

Coun. DOWD offered the following:

Ordered, That the Board of Traffic Survey be requested, through his Honor the Mayor, to hire as checkers on the work of the Board, citizens of Boston only.

Coun. DOWD—Mr. President, recently this Council passed an appropriation order for \$25,000 for a traffic survey in Boston. It has recently been called to my attention that Professor McClintock of Harvard has decided that the only men whom he can use as checkers are Harvard boys during the summer time. I believe that if the

City of Boston is spending \$25,000 for checkers in connection with a traffic survey in this city, the least that Professor McClintock and the Mayor can do, in the interest of our citizens, is to hire Boston boys for this work, and not boys from the Gold Coast of Harvard College.

Coun. GUILD—Mr. President, I observed that the learned counselor who has just taken his seat did not state definitely that Professor McClintock had said he was going to hire Harvard boys, but said that some such matter had been called to his attention; perhaps the counselor can inform us definitely whether or not any of this money is going to be spent in that way.

Coun. DOWD—Mr. President, I believe Professor McClintock at one of our executive meetings said he would have to hire thirty, forty or fifty checkers in various parts of the City of Boston, and it has just come to my attention that he intends to hire Harvard boys at \$7 a day.

Coun. WILSON—Mr. President, may I inquire of the counselor where the Gold Coast is? (Laughter.)

Coun. DOWD—Mr. President, I believe if the counselor ever attended Harvard—which I did not have the privilege of doing—he probably can answer the question better than I can. (Laughter.)

The order was passed under suspension of the rule.

SAVIN HILL BEACH.

Coun. McGRATH offered the following:

Ordered, That the Park Department be requested, through his Honor the Mayor, to take whatever steps may be necessary to make Savin Hill Beach available for recreation and bathing purposes for the coming summer season.

Passed under suspension of the rule.

COULTERS BEACH.

Coun. GILBODY offered the following:

Ordered, That his Honor the Mayor request the Park Commissioners to take whatever steps may be necessary to make Coulter's Beach available for recreation and bathing purposes for the coming summer season.

Passed under suspension of the rule.

MUNICIPAL RADIO BROADCASTING STATION.

Coun. WARD offered the following:

Ordered, That his Honor the Mayor be requested to appoint an unpaid committee of public-spirited citizens to investigate and report on the advisability of establishing a municipal radio broadcasting station in the City of Boston, with an estimate of the expense of installation and operation, and a tentative statement of the possible revenue to be derived therefrom.

Referred to the Executive Committee.

PAVING OF WEST THIRD AND E STREETS.

Coun. MAHONEY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave West Third street, from B street to Dorchester street, and E street, from West First street to Fourth street, South Boston, with smooth pavement.

Passed under suspension of the rule.

HOLIDAY ON EVACUATION DAY.

Coun. MAHONEY offered the following:

Ordered, That his Honor the Mayor be authorized and requested to grant a holiday, without loss of pay, to all city employees who participate in the parade on Evacuation Day.

Passed under suspension of the rule.

ANNUITY TO WIDOW OF JAMES J. QUINN.

Coun. FREELEY offered the following:

Ordered, That an annuity of \$600 be allowed and paid to the widow of James J. Quinn, late member of the Boston Fire Department, who died from injuries received in the performance of his duty, such annuity to continue so long as said widow remains unmarried and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Referred to the Executive Committee.

LAYING OUT OF IROQUOIS STREET.

Coun. FREELEY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Iroquois street, Ward 10.

Passed under suspension of the rule.

SIGNAL SYSTEM, CITY HALL ELEVATORS.

Coun. DOWLING offered the following:
Ordered, That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to have the electric signal system of the elevators in the City Hall Annex repaired at once.

Coun. DOWLING—Mr. President, I wish to say simply a word on this order, emphasizing the apparent indifference of the Public Buildings Department to this matter. Every member of this Council has occasion to visit the Annex several times a day, probably, and understands what the situation is. Councilors and thousands of other people have business to transact there with the Collection Department and various other departments of the city, and all who do so have occasion to realize that the electric signal system in connection with the elevators there amounts to almost nothing at all. If time means anything in money—and I think we must all realize that it does, because the city laborer is guaranteed at least 65 cents an hour—there must be thousands of dollars lost in this way every day. I hope for the sake of people doing business in the Annex that the Mayor will send to the Public Buildings Department an order that this matter be given immediate attention.

The order was passed under suspension of the rule.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President HEFFERNAN called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor March 7, 1927, of Julius Ansel and Abraham I. Weiss, to be Constables.

The question came on confirmation. Committee, Coun. Wilson and Dowd. Whole number of ballots 18, yeas 18, and the appointments were confirmed.

RECESS.

On motion of Coun. BUSH, the Council voted at 2.39 p. m. to take a recess subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President HEFFERNAN at 3.14 p. m.

REPORT OF COMMITTEE ON JITNEY LICENSES.

Coun. WARD for the Committee on Nitney Licenses submitted report on petition of the Boston Elevated Railway (referred January 24) for a change in the ordinance relative to passengers carried on jitneys—that the committee believe that some change of the nature indicated by the petition of the railway company is advisable, and accordingly recommend reference of the petition to the Committee on Ordinances.

Report accepted; said reference ordered.

EXECUTIVE COMMITTEE REPORTS.

Coun. GILBODY, for the Executive Committee, submitted reports as follows:

1. Report on petitions (referred today) for children under fifteen years of age to appear at places of public amusement, recommending that leave be granted, as follows:

Mrs. Raymond Gilbert, Municipal Building, Roslindale, March 17.

Rev. William H. McDonough, St. Mary's Hall, March 17.

Lilla Frances Viles, Current Events Club-house, May 7.

Reports accepted; permits granted on usual conditions.

ORDINANCE REPORT.

Coun. DOWLING, for the Committee on Ordinances, submitted the following:

1. Report on ordinance submitted by the Mayor (referred February 7) for the transfer of certain powers and duties of the trustees of the Boston Sanatorium to the Health Commissioner, and the control and management of the Boston Sanatorium at Mattapan to the trustees of the Boston City Hospital,—that the same ought to pass.

Report accepted; said ordinance adopted.

2. Report on ordinance (referred last year) transferring Boston Sanatorium Department to Hospital Department,—that no further action is necessary.

Report accepted.

3. Report on ordinance (referred from last year) to abolish the Boston Sanatorium Department,—that no further action is necessary.

Report accepted.

SOLDIERS' RELIEF.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of March, 1927 (under

the provisions of chapter 115 of the General Laws and acts in amendment thereof or in addition thereto).

Report accepted; said order passed.

FINANCE REPORTS.

Coun. GREEN, for the Committee on Finance, submitted the following:

1. Report on the report of the Finance Commission (referred February 7) with regard to the proposed loan of \$1,000,000 for Long Island buildings—recommending that the same be placed on file.

Report accepted; said communication placed on file.

2. Report on order submitted by the Mayor (referred January 31) for a loan of \$1,000,000 for new buildings and additions to existing buildings at Long Island, as well as for equipment and furniture for such new buildings and additions, all for Institutions Department purposes,—that the same ought to pass.

The question came on acceptance of the report and passage of the order.

Coun. DOWD—Mr. President, such a loan order as this will no doubt bring forth considerable discussion by the members of this Council, and I sincerely trust that each and every member will have an opportunity to thoroughly consider whether he should vote "yes" or "no" on the project. The loan presented to the body is not only important by reason of the huge amount of money involved, but is particularly important to my mind because of the great principle at stake. The question which each and every individual must answer, by his vote at the present time, and also to his constituents next November is, whether or not he desires to exile on a barren island in Boston Harbor some 950 poor unfortunates who no doubt have seen better times and who are now waiting only for death to call them. Personally, I am of the opinion that in the declining years of their lives every comfort, every joy and every bit of happiness that you and I enjoy should be given to them. There they are, isolated, hearing only the sound of the waves as they roll ceaselessly in on the beach. Their main enjoyment is provided through organizations which occasionally endeavor to afford them a little comfort and happiness, by means of entertainment of one kind and another. On the other hand, the treatment of the chronic sick is a very, very important matter. We all know, and know only too well, that medical men, whether they be on the staff or not, are seriously hampered by the difficulty they experience in getting to and from the island, and the records will show that men on the staff at Long Island have not visited that hospital for the last four years. The best medical and surgical men in Boston will not go to Long Island on account of the length of time it takes them to go back and forth. For fifteen or twenty years, as we all know, there has been continued discussion of the mooted question of having the institutions on Long Island or on the mainland; but no action was taken until in the last administration a proposition, entailing an expenditure of some six million dollars under a six-year program for the proper handling of the situation at Parker Hill, was formulated by former Mayor Curley. After some \$350,000 of the taxpayers' money was expended in preliminary work, this administration decided to abandon the project. I do not agree with the policies and recommendations of the Finance Commission in most respects, but I do really believe it is about time that some action was taken to move to the mainland those poor unfortunates who are down there now. Who can tell but what you and I may some day reach the age of 65, which American statistics show is such an uncertain one from the standpoint of financial dependence, and may become public charges; and would you or I like to be down on that bleak, barren, desolate island? I don't think we would. The next question is, Where can we place them? This Council has inspected thoroughly the Veterans' Hospital at West Roxbury, and while it is not the ideal location for such a place, I believe, as a haven for the sick and poor, it compares with Long Island as heaven does with hell. We all know the opinion of such a physician as Doctor Washburn in regard to this matter, and I certainly fail to agree with those who do not give, as I think, the proper importance to his opinion. I am willing to abide by the judgment of Doctor Washburn when he says the chronic sick should be placed in a center where medical assistance can be reached immediately. He offers a place within the confines of the Boston City Hospital, and we are advised that sufficient land can be secured within the limits of the City Hospital property for the erection of a chronic hospital. But your committee waited on his Honor last Friday and again this morning at eleven o'clock, and he tells us definitely that while he is Mayor of Boston no attempt will be made to build a chronic hospital on the mainland. I will agree with those members of the Council who desire to appropriate sufficient money for the immediate needs of the poor at Long Island, but, so far as I am concerned, I hardly believe it is fair to ask the Council to spend \$1,000,000 in the furtherance of a policy which will cover undoubtedly ten years at Long Island, at least, when this whole question is so unsettled and when the next administration can come in and say, "We will move the chronic sick and poor of Boston to the mainland." If that should be done, this Council will

have been in the position of voting to spend \$1,000,000 of the taxpayers' money unnecessarily and wastefully, and will be compelled to answer to their constituents within a very short period of time for their action. I, as a City Councilor, am not willing, personally, by my vote or position, to favor any course which would seem like entering upon an indefinite continuance of the almshouse and hospital at Long Island. Let me point out just one item in this million-dollar loan that Mr. Kinney has brought to our attention. He speaks of the present nurses' home there, built in 1917, accommodating some seventy-four nurses. He says that the building is in fairly decent shape outside but that the roof is leaking badly and that that plaster in the rooms is falling off. It will now accommodate seventy-four nurses, and next year they are probably going to have twenty or thirty more nurses, bringing the force up to over one hundred nurses. Can any councilor justify his action in voting for \$1,000,000 to fix a leaky roof and make accommodations for thirty nurses? I don't think he can. In questioning Mr. Kinney in the committee room, he admitted that that figure was a trifle high. I agree with him that it is not only a trifle high but that that item has been padded good and proper, and if one item in this million has been padded, I say to you, gentlemen, that the other three are padded, also. What about the figures of the personnel at Long Island for the last twelve years? Let us see. In 1915, there were 1,289 inmates there. From 1915 to 1920 there were decreases and increases. In 1926 there were 950; at the present time there are 951. From 1915 to the present day there has been a decrease of 138 people; and, mark you, gentlemen, many of the same people who were there in 1915 are there at the present time. I say to his Honor the Mayor, then why the million dollars? I can hardly agree with Mr. Kinney in the remark he made at a committee meeting, when he said that the former Mayor of Boston, through his political oratory, misinformed the public and brought tears to their eyes. I want to say for Commissioner Kinney's information that if it were not for the former Mayor of Boston, James M. Curley, the poor of Boston would be sleeping in double-deck beds, as they were when he took office; and, thanks to the same James M. Curley, because of his interest in the poor of Boston, this chronic hospital is in first-class shape. That is due to the past administration, and not to the present one. However, I am well aware, know only too well, that Mayor Nichols' term has two and one-half more years to run. I am desirous of giving everything possible to the poor of Boston. They are entitled to it. We who understand the human heart and human pulse realize that for a time certain conditions may have to continue. But I say to you, gentlemen, in view of the fact that the next administration, whoever it may be, can and probably will come into this hall and say, "We will bring to the mainland the almshouse and the chronic sick," let us not place ourselves in the position of helping along a policy of spending \$1,000,000 down there on Long Island in the way proposed, when \$300,000 is sufficient. Therefore I, together with other members of the committee who waited upon his Honor the Mayor, wished to have him recall the order from this Council this afternoon. But he absolutely refused to do so. He said, "There is the order. Take it or leave it." I say to you, gentlemen, it is up to you to decide here. This is a great question, and there will be some very serious questions for us to answer next November. If you believe, and think that the people of Boston wish, that the chronic sick and the poor should be kept down on that island for the next eight years, by all means vote for \$1,000,000. But if you believe that this Council should take a different stand, let us be big enough to take that stand, a stand which I believe we should take here today. We all realize, know, that no hospital on the mainland can be built within six years. When Commissioner Kinney told us this morning that it would cost \$15,000,000 to build a hospital on the mainland, he was talking childishly. That is bunk, pure and simple, and he knows it. In closing, I again want to call the attention of the Council to this one fact. A million dollars is a lot of money. I say that you or I, if we owned Long Island, would not be satisfied, under present conditions and with the uncertainty as to the future, to go down there and spend more than \$300,000 to put it in proper shape to take care of the inmates, especially in view of the fact that there is at present a decrease of 20 per cent as compared with past years, and in the last ten years it has shown no increase whatever. I sincerely trust that each and every member of the Council will not consider the money but will consider the poor, unfortunate souls staying at Long Island.

The report was accepted, and the question came on the passage of the order.

Coun. GUILD—Mr. Guild, the previous speaker has undertaken to impress upon the City Council the idea that this is a question of whether the chronic hospital shall be continued at Long Island or shall be transferred to the mainland. I take it that no such question as that is really involved in this loan order. There are at the Long Island Hospital today a certain number of crying, pressing needs which must be taken care of at once if the several members of this Council are going before their constituents next November with anything but a shamed face. Those pressing needs have been retailed to us by Institutions Commissioner Kinney, and we have been told by him that his

estimate for taking care of those immediate and pressing needs is \$1,000,000. Nothing whatever can be done towards bringing the chronic hospital to the mainland in short of eighteen months, and probably, in view of the statement by his Honor the Mayor that he would not countenance the removal of the chronic hospital to the mainland in his administration, in no time short of two and one half years, at least. The only place that has been suggested to which the chronic sick at Long Island can now be transferred is a place in West Roxbury which has been determined to be of second-class construction at best, and unavailable for a period of eighteen months. Were his Honor the Mayor to change his mind and agree that the chronic hospital might be transferred to the mainland, eighteen months is probably the earliest time that any place of any sort could be made ready for them. His Honor the Mayor has indicated to us, however, that he has made up his mind otherwise, so it is more probable that it will be at least two and one half years before anything can be done about transferring these people to the mainland. That being so, to what extent should we stand in the way of taking care of the immediate and pressing needs of the inmates of the hospital at Long Island? The previous speaker has stated to us far more eloquently than I can what the situation of these people now is. He has said that they are unfortunate, infirm, aged and altogether entitled to our sympathy, and I would add to that that they are the last people in the city who should be made the victims of political machinations of any sort. I feel that they should not be subjected for another year and a half at least to what they have been suffering for the past few years. I think we should take immediate steps to remedy that situation. The previous speaker stated that \$1,000,000 represents a considerable padding. I should have been much more impressed by that statement of his had he produced any evidence of that fact before the Committee on Finance, to which this matter was referred and before whom it has been pending for the last thirty days, at least. There were questions asked of the commissioner regarding the items in his estimate, and the commissioner stated, as the previous speaker said, that there was a probability that the item for the nurses' home could be reduced, but he added that there was also a further probability that the estimates on the other items were considerably below what the actual cost would be. The previous speaker has suggested a figure of \$300,000 as the amount necessary for doing the work which he has said should be done there, yet he does not produce, either before the committee or anybody else, so far as I know, any knowledge which may serve as a basis for that estimate. I cannot see myself how it is possible to construct additional men's dormitories to take care of another two hundred men, to construct additional wings on the men's hospital, to enlarge the children's building and to enlarge and re-roof the nurses' home, for any such figure as \$300,000. If he had discussed the matter in dollars and cents, accurately, instead of in round figures and generally, his argument in regard to the actual cost would have been much more impressive to me, and I believe it would have been more impressive to the members of the Council. I am willing, in the absence of any other evidence than the previous speaker's say-so, and on Commissioner Kinney's statement, to accept Commissioner Kinney's estimate as more accurate, because I believe the commissioner has been in a position where he could make, and probably has made, a more detailed and thorough investigation of the costs of building on Long Island than has the previous speaker. I hardly need to say that the cost of doing this work on Long Island is going to be a more expensive proposition than it would be to do the same work on the mainland. The contractor who undertakes this work has to figure on the transportation of his men back and forth and giving them one meal a day down there, and has to figure on the transportation of his material. So whatever notions we may have about the cost of building on the mainland must needs be modified by the fact that this undertaking is proposed for Long Island. The previous speaker has said that, thanks to a previous administration, the inmates on Long Island are not forced to sleep in double-decked beds. We have been shown by the Commissioner of Institutions that since 1921 the average daily population at Long Island has been on the increase until it has now reached a point which is about the same as it was in 1915; and I wonder whether or not the previous speaker feels that the people will thank him if he makes it necessary, by cutting the amount down to such an extent as he has suggested, for the inmates to sleep in double beds this coming winter? There is nothing that would injure the members of the City Council more, politically, as it will injure him, than to get in the way of relief, so far as immediate needs are concerned, of the people down at Long Island. I believe if this order is not passed that the Mayor will send it back to us again. That, however, is nothing but a guess on my part. He may decide that he wants to put upon the Boston City Council the odium of defeating his proposal for the relief of those people. We are certainly playing with fire if we are taking a chance on the order coming back again for us to have a second whack at it. It seems to me, therefore, that the best thing the City Council can do is to grant this request. It is not a question of Long Island against the mainland but the fact is that they need \$1,000,000 there to take care of the immediate and pressing needs of the situation, as set forth in Commissioner Kinney's tempered statement. I certainly trust that we will

be able to go before our constituents next November with a clean conscience.

Coun. BUSH—Mr. President, I am surprised at the suggestion of the councilor that we allow our vote here to be coerced, that we can reasonably be expected to vote for an extraordinary sum for repairs on the Long Island Hospital simply because otherwise the order may be sent back to us, and because the Mayor may be stubborn about reducing the appropriation to take care of the needs down there. It is universally conceded by all interested in the Long Island Hospital that it was originally a mistake to place that almshouse and hospital on Long Island. It has meant the sending of those poor unfortunates virtually into exile, as has been mentioned. I see no reason at the present time for passing an appropriation in the extraordinary sum of \$1,000,000 for the perpetuation of that same mistake. While it is true that, if we do not pass this appropriation, we may not succeed in having that hospital and almshouse removed to the mainland immediately or for a period of some years, that does not mean that we must pass an appropriation of \$1,000,000 to perpetuate the original mistake and make it still more difficult to move the hospital over to the mainland in the future. I recall when it was intended to build the new Beth Israel Hospital, the present site on Townsend street, Roxbury, was considered. Doctor Washburn, a member of the advisory staff at that hospital as well of the advisory staff of other hospitals, was asked whether that would be a suitable place for the hospital, and said, "No. No hospital can be better than its visiting staff. In order to have the right kind of a hospital you must have a proper visiting staff, a visiting staff of the highest medical caliber obtainable." Therefore, he advised that that hospital, upon which it was proposed to spend \$3,000,000 be built in the Longwood avenue section of Boston. Why? Because that is the medical center; because he felt that the hospital could not offer the proper kind of service to the community unless it could obtain medical men of the proper caliber to visit it. Those men are extremely busy. There are comparatively few medical men of extraordinary caliber, and those few are kept busy constantly. They cannot take time to travel long distances. And you cannot obtain men of that caliber if you have your hospital a long distance from the medical center. The same thing holds true of this hospital. I don't say that the West Roxbury proposition would be entirely the best thing. I was on the tour of inspection there. I do not say that at the present time, and in its present condition, the West Roxbury hospital would be suitable for this particular purpose. But I do know, as mentioned by the councilor from Jamaica Plain and Roslindale, that \$1,000,000 will go much farther in a place of that kind than it will on Long Island, where there probably would be triple or quadruple the cost for transportation of men and materials, so that your money would not go more than half as far in the construction of buildings as it would at West Roxbury. Furthermore, the only person here favoring the construction of further buildings on Long Island seems to be the Commissioner of Institutions. I have no quarrel with him, or with his ability. For aught I know he may be the most capable commissioner of institutions in the country. But I certainly feel that more weight should be given to the medical men in this city in a matter of this kind than to the Commissioner of Institutions who, I understand, is not a medical man. Furthermore, in the point of appropriations for repairs on Long Island, there is no question that at the present time they are going beyond capacity. There are beds in the corridors. They must have some appropriation to take care of the overflow. The roofs on some of the buildings are leaking and should be attended to. But it violates my sense of proportion to say that it will take \$1,000,000 to provide accommodations in the way of two hundred or three hundred more beds and to fix up a few roofs there. Therefore, I am not in favor of this appropriation as it stands. I will be in favor of an appropriation commensurate with the use of the institutions on Long Island—which I believe would be far short of \$1,000,000.

Coun. McGRATH—Mr. President, I think the first argument that should be straightened out in the minds of the councilors here is as to the immediate need of granting this \$1,000,000. On Long Island there are a good many men, this year and for many years past, who belong to the unfortunate poor, who have made it their winter home. But with another week of this sort of weather, there will be a general departure of men from there, men who are the unfortunate poor but who yet are willing to get a day's work now and again in the summer months. The proof of that is that fifteen or twelve years ago there were just as many people on the island as there are now. They go there at the hard times. They go there, sir, at a time when there is unemployment—and there is more unemployment now than there has been for a dozen years back. This is not a fair year to judge Long Island. But, sir, to say that in November we will be perhaps defeated because of our attitude here is ridiculous. I saw a contest for Mayor won in this city, as Coun. Dowd has said, by one who was a practical man and who talked sincerely upon this matter. We are now asked to appropriate \$1,000,000, and we are told that the policy of this present administration is, definitely, to keep those inmates down on Long Island, and that the administration will not yield.

But twenty-three men were elected in this administration, and if a majority of those twenty-three men feel that there is some weight to the arguments that have been advanced on the other side, instead of being swayed entirely by the fact that the Mayor says he will refuse to yield, then I say, from an administration point of view, there is another side to this matter, an important side, and that those favoring the passage of this million-dollar order should get a stronger argument than that. Why, Mr. President, at the very start of this administration, more than a quarter of a million dollars was thrown into the sewer, when it was decided to abandon the Parker Hill proposition. That is the way that the city's money has been wasted. Now we are asked for another million. That will mean \$1,250,000 acted on during our term, one way or the other, with no definite program. The man who follows the present Mayor, in the next administration, may wipe out this million, and then the only ones who will have derived any benefit from the expenditure of \$1,250,000 of the city's money will be the contractors and architects. Mr. President, the second day we met in this body I introduced an order to bring the institutions on Long Island to the mainland. That has been my hobby for ten years. I know Long Island as well as any man in the body. I think you will all agree with me in that statement. I have visited it more times than any man here; and I say, until some general plan is worked out which can be expected to be carried along through more than one administration, any such expenditure of money as is here proposed will mean absolute waste and extravagance. We have in the care of the city, prisoners, persons who are sick and mentally sick, the poor, the abandoned children. The prisoners are divided, those well and sick. The sick are divided into those chronically and temporarily sick, many of them being taken care of out on River street, Mattapan. The mentally sick fortunately are taken care of by the state. The poor are under the Public Welfare Department at Long Island. The abandoned children are on Long Island and under the care of the Placing-out Bureau of our city. Now, Mr. President, until such time as this Board of Directors or the City of Boston, which we are, elected by the people, are considered in matters of this sort—until such time as we know what the city is really doing and planning—we will never work out any problem of this kind. There is nobody in the Hall so intimate with the desires of the different wards as the men elected here by the people. But every year there is a constant move to take away more and more the powers of this body. The people who framed the charter and placed twenty-two men here did it in order that there might be a more intimate touch with the people in the matter of the control of public affairs. The office of Mayor was not changed. There is not a man in the Council who knows his ward well who does not know the needs of the poor, of the sick and other unfortunate people, in his district. Those people always come to us for advice, for assistance. We are the only ones they know. We are the ones who know exactly what they want, and, I say, until such time as we work this out along the lines of a general policy, we will arrive nowhere. Today the present administration realizes the stigma attached to Long Island, because they of their own volition changed the name from "almshouse" to "hospital." They changed it because there was a stigma attached to the word "almshouse." But, no matter what change you make in the name, you cannot change the character of the institution. What are you going to call an institution of the sort on that island, sir, that has in it the unfortunate poor, the sick, the chronic sick, the criminals who have been sent over from Deer Island, and the abandoned children? What is that institution other than a dumping ground? The only other island that it reminds me of is Penikese Island, where they send the lepers. We sentence prisoners to State Prison for life, and we also send these poor unfortunates to Long Island for life, because they have grown poor when they have grown old. There they are, derelicts of the sea and derelicts of the land, abandoned on Long Island. They are there for all time, for life and eternity, because right at their windows they put a graveyard. I have walked in that graveyard more than once, have seen those graves marked with wooden crosses, containing a number but no name, and have spoken about the matter without avail, until a year ago when the Kearsarge veterans went down there and erected a big concrete cross in memory of the Civil War veterans who died abandoned on the island. I say when you sentence them to Long Island, you sentence them for life and for eternity. The question comes up for medical assistance. Are we dealing merely with dollars and cents, or are we dealing with human lives, with human souls? Are we giving to the people who are our charges, our wards, the consideration to which they are humanly entitled? Are we talking about those poor devils who are abandoned down there, hopeless and discouraged, or are we talking about concrete and brick? I say this: Any plan that is to be worked out should be a general one, having in mind all the necessities of the situation; and, if you will allow me to digress for a moment, let me say just a word about another phase of this situation. In Charlestown there is a state prison that covers ten acres of the most available land in our city, with rail facilities that are unexcelled, having the natural advantages that would make it one of the finest commercial sites in this section of the country,

fitting in with the business development in the neighborhood of our North Station where they are asking us to spend a large amount of money in connection with crossing the river. That land could be taken and used in connection with big-business development, at the same time reducing the blight on the homes of the decent, God-fearing people of Charlestown, who for years have had to bear the burden of proximity to that institution. Governor Fuller realized the importance of the question and appointed a commission to look into the matter of abandoning that State Prison at once. There is not proper sanitation there today; not a thing that will tend to help those men who are confined, some of them for life. That institution can be moved to Deer Island, and we can sell Deer Island to the state. They can go to Deer Island and erect there modern buildings. We can move the Deer Island prisoners to Long Island, where there are 110 acres of land capable of producing not only the vegetables that they would need, but more; in addition to which there would be the benefit to the prisoners down there of roaming at large out in the air and sunshine. The present institutions at Long Island could be moved in their entirety to the mainland, bringing the chronic sick up in the neighborhood of the City Hospital and taking the other inmates, for instance, to West Roxbury. But some people don't want those old souls taken over to the mainland, because they are poor. What man can stand up in this body and say that that may not be his position as the years go by? We now say to those inmates on Long Island, "We abandon you forever; you are lepers." In the storm that we had three weeks ago it was reported in the Boston newspapers that the boat could not go to the island with fifty cans of milk. If that happened once and on that boat was a surgeon upon whom a life at the island depended, and that life was lost in consequence, we would be directly responsible for the loss of that human life. This is not a question of dollars and cents, Mr. President and gentlemen. Why have these poor people on an island which at times the boats cannot reach? Why remove them from medical care when the real things that are in the balance are human lives and souls? Why turn your face away from them because they are poor? Why refuse to give them the human consideration to which they are entitled because they are poor? I say, Mr. President, that unless we are very careful in this matter, in the future we will regret our action. We can place our chronic sick in the City Hospital, where they belong, where there is plenty of land, on Northampton and Albany streets, to build the accommodations for them. Then we can move the poor out to West Roxbury. We are told by some that they don't want them there, because they are poor; they don't want them around, because they are thereby reminded that they are city charges, and they want to get away from them. If they are moved out to West Roxbury, there are people in this city who may be unpleasantly reminded of the fact that their fathers and mothers, those whom they should take care of, are there. There are those in this city who might thereby have that fact brought to their minds, and who want these poor people kept out of sight. I know more about Long Island than some of the men who are being paid a salary for taking care of it. And when I say that I also want to add that it is being kept in better shape than ever before. John Lyons is a splendid manager. But unless you have the institution in a place where it can be inspected at short notice, day or night, and also where it can be readily visited by physicians at any time, you are not doing your duty as councilors. We all know that at times when visits have been made down there, from the very nature of things, plenty of notice was given and things would be found in good shape. If the place was convenient, so that it could be visited at an hour's notice, so that any of us could walk right in, there could be nothing of that sort. And have a place where you will have no trouble in getting nurses or doctors. Bring the poor out to West Roxbury, where the old souls, instead of listening to the constant roar of the sea and watching forever that graveyard right under their eye, wondering how long it will be before they go there, may be surrounded by the pines on the shores of the beautiful Charles river. Take them back again into society, back from their exile, back where they can look through the fence and see the passing autoists, see something of what is going on in the world, and where they can be readily visited by their friends and by those who are interested in them. Give their old neighbors a chance to see them, and let them enjoy the human touch. I say this seriously.

Coun. FITZGERALD—Mr. President, I desire to offer the following substitute:

Ordered, That the sum of \$800,000 be and the same is hereby appropriated for new buildings and additions to existing buildings at Long Island, as well as for equipment and furniture for such new buildings and additions, all for Institutions Department purposes, and that to meet said appropriations the City Treasurer be and hereby is authorized to issue, from time to time upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

The question came on the adoption of the substitute order.

Coun. FITZGERALD—Mr. President, my order calls for the appropriation of \$800,000, instead of \$1,000,000, in order to meet the objection of some of the councilors that \$1,000,000 is too large an amount, and in order that the proposition to

remove the sick and infirm to the mainland may be carried out as easily as possible. I think this amount of money will be sufficient to provide temporary relief and to really meet all the requirements of the situation, including replacing the roof that is badly leaking on the building. Everybody agrees that the place is in a deplorable condition. The adoption of this substitute order will save \$200,000, which can be used toward placing the institution on the mainland. I don't think anybody can object to the proposition to spend \$800,000 which will, in my opinion, give the necessary relief.

Coun. RUBY—Mr. President, sometimes when we sit here and listen to arguments advanced on questions, regardless of what our opinions may be, we are swayed in our judgment. We have heard several good arguments this afternoon with reference to the recommendation of his Honor the Mayor. If it were simply a question today of abolishing the almshouse and chronic hospital at Long Island and moving those institutions to the mainland, I might have one opinion. My vote on that matter would very likely be that the almshouse and chronic hospital should be removed to what we may term God's civilized country. But, in my opinion, the question we have before us today is not the transfer of the chronic hospital to West Roxbury, when the veterans abandon that hospital and go to Bedford—which will not occur for fifteen months or more, as we were told at the West Roxbury hospital less than two weeks ago, or whether we will remove the almshouse from Long Island to some point on the mainland. Nor am I at all apprehensive of what may happen next November because of the attitude we may take upon this particular question today. That, to my mind, is all tommyrot. I don't believe any member of the Council—and I say this in all seriousness—need be apprehensive so far as his possible return to the Council for two more years is concerned, or that any feeling he may have in that respect need sway his action on this matter today, because I am satisfied, with all due deference to previous councilors in Boston, that we as councilors have done as well as, if not better than other councilors in the performance of our duties, have certainly done it as well as it has ever been performed by any like body in Boston, and for that reason need have no apprehension. Let me say also that I have been to Long Island probably eight or nine times in the past year, and that I visited the West Roxbury hospital when the City Council were invited to inspect that institution with a possible view to transferring the almshouse and chronic hospital to West Roxbury. To my mind, the West Roxbury site is absolutely unfitted for that purpose at the present time. Doctor Washburn admitted that less than two weeks ago, when I asked the question whether, in his opinion, he would be justified in having one chronic sick person admitted to that institution in its present condition. He said, "no." He said there would surely need to be some improvement before one such person should be sent there. In my opinion, Mr. President, the place is a fire trap. It has no fire extinguishers, nothing to prevent a fire. The staircases are narrow, so that two people can hardly pass each other; and in my opinion the subways that were built in the institution by the government are the only decent part of it. So the West Roxbury site in its present condition would not be a suitable place to which to transfer the chronic sick or the inmates of the almshouse, according to the statement by Doctor Washburn himself. He said at that time that West Roxbury was his second choice, not his first, even with regard to the chronic sick. He felt that the chronic sick ought to be brought down somewhere in the vicinity of the Boston City Hospital. Nothing has been mentioned with reference to the almshouse either by Doctor Washburn or the Finance Commission in their report to this Council advising the rejection of this million-dollar loan order. The Finance Commission say that they advise West Roxbury for the sick and the continuance of the almshouse at Long Island in its present form, but spending no amount of money down there. How inconsistent from a commission of that kind, who no doubt have greater and better chances to form judgment with reference to these institutions than I. If the chairman, as well as the rest of the commission, would make one visit to Long Island and examine into the situation as I have done, it seems to me the report would be very different. One part of the nurses' home has not been used for over a year, and when we have gone down there we have found that it was because of a leaky roof in a certain section, that part of the building from the ground floor to the roof not being used. Some say, "Why hasn't it been repaired?" That is a question in my mind. When we were there on the last visit, we found a disgraceful condition of affairs—one hundred or more beds in the cellar basement of that institution, next to the boiler room. I want to say, Mr. President, that if any of my own were ever so unfortunate as to be obliged to go there, I would almost rather see them sent to their graves than compelled to live in a basement, a cellar, without any sunlight, and next to a boiler room. I say if any of this money is going to alleviate that condition, we ought not to play politics in the chamber this afternoon, but should grant the amount of money that may be necessary in order to give immediate relief to the unfortunate poor. So far as the almshouse is concerned, I understand that that is left to shift for itself. I would also be in favor of bringing the

almshouse, as well as the chronic hospital, to the mainland. It ought to be done. But we are told that the present administration will not, during its time, bring it up to the mainland; and, as we are told that we cannot get into the West Roxbury hospital inside of eighteen months, anyway, what are we going to do? Are we going to shut our eyes to those unfortunates who are there now and say that we cannot spend money to improve conditions for them, because in two, three or four years from now they will be brought on to the mainland? I don't think that is the real feeling or intention of any man in this room, I think if the amount of money which it is proposed to appropriate here is too large it ought to be decreased, but there should be something allowed for immediate improvement, so that the condition of the unfortunate poor and sick can be remedied. So I cannot see that by entirely defeating this measure we will accomplish what we sincerely hope to accomplish, the benefit of the unfortunate poor. It is unfortunate, as stated here, that there should be that proximity to the graveyard; it is unfortunate that any person should be buried on that island. That is something that I believe can be remedied, apart from the question at issue. But to my mind it is important that an immediate sum of money be spent, whatever amount is necessary, for the immediate relief and assistance of those unfortunates who are at present housed at the Long Island institution.

Coun. BUSH—Mr. President, I have no quarrel with any of the arguments presented by the previous speaker, except that I do not think the amount to be expended in connection with the hospital at Long Island should be any more than sufficient to take care of the immediate needs, and in my opinion that can be done for less than \$500,000. There is certainly, to my mind, no need of spending \$1,000,000 there, which will take care of the situation for the next ten years and perpetuate the mistake made originally, thus making the solution of the problem still more distant than it appears to be at present.

Coun. GREEN—Mr. President, as chairman of the Committee on Finance, which reported this order, I think I owe it to my constituents to get up and defend myself and my vote. I voted that the order ought to pass. As far back as 1913 a comprehensive study was made of the conditions at Long Island, and the actual work was started on the island in 1915. In 1915, Mr. President, the same conditions that exist in our city today with respect to the unemployment situation existed. I probably know as much about conditions on Long Island as any member of this body, because I have had occasion hundreds of times to visit my poor unfortunate neighbors on that island. And I will admit, Mr. President, that probably as many people leave my humble town, Charlestown, to go to Long Island, as go there from any section of this city. The poor people of my district always come first with me. If I thought my voice and my vote would be used to hurt any of those poor unfortunates at Long Island one iota I would be up here talking mainland today. But, Mr. President, something has got to be done. I certainly do not think that our committee, visiting Long Island, questioned the honesty and integrity of the Commissioner of Institutions, or that he had anything planned for our committee when we arrived there. The conditions, Mr. President, were intolerable; and I want everybody within hearing of my voice to hear the next remark I have to make. Herded like a lot of sheep in the cellar down there were men, men of yesterday, some of the men who were prominent citizens in my community at one time, one man who held the position in this honorable body that I hold this afternoon. I asked him how he liked the place. He said, "Here we are herded together like a lot of sheep. We cannot get out, sir, and enjoy God's free air. If there is anything that you can do as a member of the Boston City Council to alleviate conditions down here, I want you to go there and stand up and, by your voice and vote, give us some immediate relief." Now, I am going to ask my friend the councilor from Dorchester a fair question. I was very much surprised at his remarks this afternoon. Nobody can question the honesty or sincerity of the man from Dorchester. If you will bear with me, Mr. President, I will mention the councilor's name, Coun. McGrath. I feel that at the present time, Mr. President—and I am getting away from the subject temporarily—he may be taking it on the chin. I sympathize with him, but I agree with a lot of things that he has said. On this Long Island situation, however, I must disagree with the councilor from Dorchester, and I am going to ask him one question. Is it true, councilor, that if we go to the mainland with this proposition, we will abandon the nurses' home, the chapel, the mortuary, the burying ground, the store buildings, the almshouses for both men and women, and the chronic hospital?

Coun. McGRATH—Mr. President, I say that that is absolutely true, and I say, further, that I have never reckoned this question from the standpoint of dollars and cents. I am thinking of the hearts and souls of those on that island. No cost is too much.

Coun. GREEN—I knew that he was, Mr. President, and I know he feels, as every member of the Council feels, that it is not a question of dollars and cents. It is a question of diversity of opinion. Some of the members of the body think that the institutions ought to come to the mainland. Other members of the body think that they ought to stay at Long Island. I know the Commissioner

of Institutions, Mr. President, and feel that I can quote him correctly on the question of what he feels that he can do, having in mind the work that was left uncompleted by previous administrations. I said to him, "How much will it cost to complete that work that the previous administration left undone?" He said, "We haven't got any data; we don't know how much it will cost. But they did at one time agree that if the Long Island Hospital were transferred to the mainland, they would have to scrap \$5,000,000 of city property. The previous Mayor suggested at one time that that property possibly could be sold for \$1,000,000. We will have to scrap the property if we go to the mainland, but we might possibly be able to unload for \$1,000,000." Now, my friends, I do not intend to take up so much of your valuable time but I simply wanted to explain my position and my vote on this matter as chairman of the committee. We interviewed the Mayor, we interviewed the commissioner, and we sought and received as much information as we possibly could. Some of the members thought they would like to have a little more time to consider this situation, before it was brought before our honorable body and voted upon. The Mayor said, "I have made a request for \$1,000,000. The Commissioner of Institutions claims that it will cost \$1,000,000 to make the necessary repairs and improvements needed at Long Island. I appointed the commissioner of that institution, and when he says that he needs \$1,000,000 to complete the work I am not going to question that man's honesty and integrity." I have known the Commissioner of Institutions over a period of fifteen years, and I don't think it is the intent of any member of this body to question his motives. There was a remark made this afternoon to the effect that somebody might be interested in this or in that. I don't think that is so. I know I am not. I don't think it is a question of who the architect is or who the builder is. I don't think that enters the mind of any member of this body. We are voting on a problem this afternoon and, as I have said before, there is a diversity of opinion. Some of the members like the mainland for the Long Island Hospital, and others are in favor of leaving it on the island. But I don't think, Mr. President, in all due fairness to any member of this body, that any one here should reflect on the feeling of any other member toward the inmates of that institution, because all our hearts beat for those poor people down there, and we would all be glad to do anything that can be done to relieve their suffering. That is what we are trying to do. Whatever diversity of opinion we may have, that is our desire in this matter.

Coun. KEENE—Mr. President, with all due respect to the opinion of my colleagues, I cannot help thinking it would be a mistake to consider West Roxbury as a proper place for an institution of this kind. In the first place, we are rather limited there in land area. The land is low. It borders on Charles river, which has ever had a reputation for being a breeding place for mosquitoes. Within a distance of 300 feet of that boundary we have three canoe houses and one large dance house known as Moseley's, known to many people from different parts of the state. Within 100 feet we have a prosperous merry-go-round. I don't believe that a place of that nature is either adequate or suitable. Personally, I don't consider myself sufficiently informed to say whether or not the institution at Long Island should be upon the mainland or should remain where it is at this time, but when I find reports of investigations disclosing that in dormitories with sufficient room to provide for 325 beds there are 505 inmates, and when no later than half past eleven this morning two reputable physicians said they were there Saturday and found old men sleeping on beds in the basement, on a cement floor, and reading the newspaper by artificial light, something is wrong. We have there a hospital with a bed capacity of 150, in which there are 180 inmates, and the physicians who made the investigation said that there were 108 cases in the men's dormitories that should be occupying beds in a hospital. We have there a children's building sufficiently large to accommodate eighty-six children. It is the old tuberculosis ward. We are told by the Health Commissioner of this city that there are several hundred children in the City of Boston who should be there, because of the advantages that would be derived from the fresh air and sunshine. We have a nurses' home built some years ago, and we have been advised this morning that the roof has leaked ever since it was constructed. It houses seventy-four nurses. The nurses sleep two and three in a bed. They are at this time twenty nurses short. With additional dormitories, accommodations could be provided for thirty or forty more nurses. I am interested in only one question, and that is this. For twenty-seven years this thing has been a bone of contention; for several years old men and women have been herded in those buildings as we herd cattle and children have been swarming in their quarters like bees. An institution of that kind, to be of material benefit to those who go there, should be a haven of rest. If there have been twenty-seven years of that sort of thing and are liable to be twenty-seven years more, I say, gentlemen, that the duty rests upon your shoulders and my shoulders to say whether those poor unfortunates must continue to suffer while the executive branch of this city and the members of various bodies fight as to where they will eventually be placed.

Coun. McMAHON—Mr. President, I have sat

here this afternoon and listened to the remarks of the orators who have arisen and spoken their minds. But I remember a year ago this time that I had the pleasure of taking a trip to Long Island. I don't think there is anybody in this Council who has a deeper feeling for the poor unfortunates there, as I call them, than I have. But I will simply say, in view of what we have heard here this afternoon about the terrible conditions existing there now, that a year ago this time I went through the Long Island Hospital, and we didn't find any beds in the basement. Everybody seemed to be happy, as I found them. I didn't make this trip the last time that they tell about, when there were men sleeping in the basement, near the boiler room. I think, personally, they have plenty of room there without putting them into basements. We have been talking about the sick and the poor unfortunates in the hospital. There was an investigation made in regard to River street. I happened to be on a committee that sat in and listened to different experts, to whom we gave our good money, and who told us what was the trouble. All we could find out was that the only way to run the River street hospital was to get it under the control of the trustees of the City Hospital, and if they did that they could arrange to take care of the unfortunates a lot better. I thought as I sat here this afternoon, if they feel that way about the River street hospital, why don't they feel the same about the chronic and sick cases at Long Island? Why not put a building for them up at the City Hospital? I think that is the greatest institution we have, and when they get up here and tell us of the unfortunate sick at Long Island, I say let us place them at the City Hospital, where they can have the required attention, where they will have the greatest medical men in the world to take care of them. And you know as well as I do, all the councilors know, that those men will not go down to Long Island and take care of those cases. I went down a year or two ago several times. Everything looked sweet and rosy to me. I can never forget the day when I saw the graduating nurses there. But we have heard what a tough thing it is even to get nurses down there, that they have had to raise the pay and give them more money at Long Island than they get at the Boston City Hospital. If it is as tough as that at Long Island, and if it is so hard to get good professional doctors to go down there where they are needed, then it is time that the institutions were put on the mainland. Of course, we could sit here the whole week and argue pro and con. They tell us about a leaky roof. Why didn't they put that in the budget? If we had a leaky roof over our heads here, anywhere, the Superintendent of Public Buildings would put an item for it in the budget. So I don't see why there should be so much talk about a leaky roof, when there is plenty of opportunity at Long Island to put on a roof that does not leak. Only a week or two ago they opened up a beautiful building in connection with the Boston City Hospital. They tell you about the unfortunates at Long Island, who have difficulty in getting treatment. There is no reason why they should not be taken care of at the City Hospital. If I had my way no commissioner could come in here and tell us that it takes \$1,000,000 to put the buildings down there in shape. If it were simply a case here of voting to take care of the poor unfortunates, I would vote for that. But that is not the case. It is a case of putting \$1,000,000 into buildings down there, and then keeping the poor old souls there, never having them leave the island. If there is any councilor here who has ever enjoyed the trip up and down in the boat and has seen the place, he knows how it affects him. They tell you what a beautiful place it is. I know that I wouldn't want to stay down there for a month, myself, looking at nothing but the water around, as those poor old souls have had to do for years; and the sooner the councilors stand up here in their boots, not being afraid to vote because next fall they are going to run for election and it might be passed up to them, the better. I don't feel the way that some seem to feel in regard to that. I will vote as quickly to help those poor folks down there as anybody, but I don't feel that \$1,000,000, that large sum, should be spent down there. I feel that a much less sum would take care of immediate wants, would give them sufficient beds so that they will not have to park them down in the basement.

Coun. DOWD—Mr. President, I now move that we proceed to ballot.

Coun. FREELEY—I second that motion, Mr. President.

Coun. ARNOLD—Mr. President, I would not inject myself into the debate this afternoon, with the condition my voice is in, were it not for the fact that as a physician I know something about the care of the sick. We have listened at some length to references to the isolation of this island and of the institutions it harbors. I believe, sir, it is not isolation that concerns us this afternoon; it is really the care of those who become chronically sick. We have heard considerable about the profession of medicine and how busy the members of that profession who are really competent are. With those statements I do not disagree in any iota, sir, but I want most emphatically to impress upon you, Mr. President and the Council, that the hardest thing which the medical profession today has to contend with is the care of those who become chronically ill. I would like to show you a picture,

of an acute case of appendicitis anywhere within the environments of Greater Boston. Where such a case occurs, I venture to say that there will be one, two, three, and possibly four or five ambulances racing to get that case into a hospital for operation. That is the situation with reference to acute diseases, but it does not prevail, I am sorry to say, with reference to the chronic conditions which affect mankind. We are only too glad to do everything that is possible in a professional way for those who become chronically sick, but it is not a question of professional care; it is not a question so much of the doctor as it is of a place where they can be comfortably housed, well nursed, and their moderate wants taken care of. This is the class of cases, I repeat, that are really the hardest for the medical profession to cope with. I was somewhat amazed by the statement of one of our members that Long Island would be a good place for the prisoners, who would there enjoy the benefit of fresh air, sunshine and ocean breezes, but that it was not a good place for those who were chronically ill. I cannot quite see the logic in that statement. If it is good for prisoners, it is also good for those who are ill. I can imagine, on a muggy afternoon like this, that any one of us might enjoy the open-air freedom which is enjoyed by persons upon that island. I do not consider it, sir, in any sense a barren and desolate spot. I do not believe that any of those inmates are lonesome, with a family there of upwards of a thousand. It is natural for people when they become aged, particularly if they are ill, to seek, of their own volition, some sort of isolation, and I believe that this institution on an island in our beautiful harbor is adapted to that. I believe, sir, if some of our inland cities had the advantage of that island, they would expend almost unestimable treasure in order to avail themselves of such a proposition as we have here at our very door. And I am not, sir, one of those who subscribe to the idea that has been advanced here that the medical profession is in any way backward in responding to the calls that come to them from those who are critically and seriously ill. The proposition at Long Island, sir, is a proposition of taking care of those who will be sick for a long time. I could enumerate the diseases that prevail there to the greatest extent, but I don't think it is necessary to do so. The acute cases that occur there are very few indeed, and they can be at the present time adequately handled, in my opinion. You will in any event, sir, provide for a hospital at Long Island as long as you have an almshouse there. The inmates of the almshouse are always potential candidates for a hospital, and you cannot very well separate an almshouse and a hospital of some kind. My position this afternoon, sir, is that I favor providing, in some such way as is available to us at this present moment, all the facilities possible for the care of the chronic sick of our city.

Coun. FITZGERALD's proposed substitute was rejected, yeas 7, nays 15:

Yeas—Coun. Englert, Fitzgerald, Heffernan, Keene, Parkman, Ruby, Wragg—7.

Nays—Coun. Arnold, Bush, Donovan, Dowd, Dowling, Freeley, Gilbody, Green, Guild, Lynch, Mahoney, McGrath, McMahon, Ward, Wilson—15.

Coun. DOWD—Mr. President, I now move that we proceed to a ballot on the original order.

The roll was called, and the order failed of passage (a two-thirds vote being necessary for same), yeas 12, nays 10.

Yeas—Coun. Arnold, Donovan, Englert, Fitzgerald, Gilbody, Green, Guild, Heffernan, Keene, Parkman, Ruby, Wragg—12.

Nays—Coun. Bush, Dowd, Dowling, Freeley, Lynch, Mahoney, McGrath, McMahon, Ward, Wilson—10.

President HEFFERNAN—The order is rejected, not having received the two-thirds vote necessary for passage.

Coun. GREEN—Mr. President, I would move reconsideration, and I trust that the matter may then be assigned to the next meeting.

The motion to reconsider was declared lost. Coun. GUILD doubted the vote and asked for the yeas and nays.

Reconsideration was lost, yeas 10, nays 11.

Yeas—Coun. Arnold, Donovan, Englert, Gilbody, Green, Guild, Keene, Parkman, Ruby, Wragg—10.

Nays—Coun. Bush, Dowd, Dowling, Freeley, Heffernan, Lynch, Mahoney, McGrath, McMahon, Ward, Wilson—11.

Later in the session Coun. FITZGERALD announced that if he had been in the chamber at the time of the vote on reconsideration, he would have voted "Yes."

3. Report that the proposed loan of \$500,000 for municipal building in Ward 11 ought to pass—report accepted, said order passed under suspension of the rule, yeas 20, nays 2.

Yeas—Coun. Arnold, Bush, Donovan, Dowd, Englert, Fitzgerald, Freeley, Gilbody, Green, Guild, Heffernan, Keene, Mahoney, McGrath, McMahon, Ruby, Ward, Wilson, Wragg—20.

Nays—Coun. Dowling, Parkman—2.

PROPOSED LOAN TO WIDEN DUDLEY STREET.

Coun. McGRATH, for the Committee on Legislative Matters, submitted a report on resolve

(referred February 14) that the City Council approves the enactment of legislation to authorize the City of Boston to borrow money outside the debt limit for the widening of Dudley street in the Roxbury district of the city—that the same ought to pass.

Report accepted; said resolution passed.

SALARY OF BUILDING COMMISSIONER.

On motion of Coun. BUSH the Council took up assignment, viz.:

2. An Ordinance concerning the salary of the Building Commissioner.

Be it ordained by the City Council of Boston, as follows:

Section 5, of chapter 3, of the Revised Ordinances of 1925 is hereby amended in the clause establishing the salary of the Building Commissioner by striking out the words "six thousand" and inserting in place thereof the words "seventy-five hundred."

Coun. BUSH—Mr. President, I have not the slightest doubt in the world that our Building Commissioner is one of the best building commissioners procurable, and that he is worth a salary far in excess of that which he is receiving at present. But it does violence to my sense of justice to give an increase to a man receiving \$6,000, amounting to \$1,500 in one lump sum, while there are men working for the city for such sums as \$1,300, \$1,500 and \$1,700, who are denied \$100 and \$200 increases. Therefore, although the commissioner may be worth the \$7,500, or may be worth \$10,000 or even more per year, I cannot see my way clear to vote to give him an increase of \$1,500 at one time while those poor fellows, who are doing their work to the best of their ability for a mere pittance, just barely enough to live, cannot get an increase of \$100 or \$200.

Coun. GUILD—Mr. President, thousands of years ago a man by the name of Aesop wrote a story of a dog who lay in a manger where there were oats and prevented a horse from coming in and eating the oats, even though he could not eat them himself. I would direct the attention of the councilor to that ancient fable, in view of the argument he has advanced here that, because X, Y and Z cannot get an increase in pay, A shall not do so, although in the case of A, it is also much deserved.

Coun. McGRATH—Mr. President, I never ate any oats (laughter), so I don't know about the force of the argument, but I do know that when this gentleman took the position, he knew when he took it that the salary was \$6,000. The difference between \$6,000 and \$7,500 represents a lot of money—and that becomes more apparent to us when we consider that the difference between \$2,000 and \$2,200 or \$2,500, in the case of lesser paid employees may mean the difference between living reasonably well, perhaps, and living in misery. However, I know that the man whose case we are considering in this particular instance is going to get the increase. He is a splendid type of man in any position. Mr. Rourke, to my mind, is as fine an executive as we have in the city. But I would move that the matter be laid on the table for the present, because every councilor in this chamber knows of hundreds of men in his ward who are getting only, say, \$1,800 or \$2,000 a year, and it is a serious problem with them to keep ahead of the rent man. That is the story here. I think it might be well to postpone action for a few weeks, until we find out whether the men who are receiving smaller pay and who are deserving of \$100 or \$200 increase are to be slapped in the face. I think the whole complexion of the situation with which we are dealing will have been changed, or will be made clear to us, within two or three weeks. Therefore, I would favor not acting upon this matter at this time, until we find out what happens to the little fellow who is entitled to a \$100 or \$200 increase.

On motion of Coun. WILSON the ordinance was laid on the table.

GENERAL RECONSIDERATION.

On motion of Coun. DOWLING, the Council refused a general reconsideration of all action taken today.

Adjourned, on motion of Coun. McGRATH, at 4.53 p. m., to meet on Monday, March 21, at 2 p. m.

OWNED AND RENTED HOMES, 1920.

Total owned, 30,132 or 19,609 mortgaged, 9,998 free, 525 unknown; total rented, 132,658; tenure unknown, 1,995. Largest number of rented houses in Ward 5, or 11,611 and only 574 owned. Smallest number of rented homes in Ward 23 (West Roxbury) or 2,773, this ward showing the largest number of owned homes, or 3,207, the only ward with more owned than rented.

TRUST FUNDS AND BEQUESTS.

Number of permanent funds and bequests held by the City, January 1, 1926, for various purposes, 153, representing a total value of \$20,769,952. The earliest dates back to 1674, viz., Gibson School Fund. The largest fund is the bequest of the late George F. Parkman, consisting of various parcels of real estate now sold and reinvested in bonds, all valued at \$5,455,653, the income from which is used for the upkeep and improvement of the older parks.

Nearly as large a bequest is that of the late George Robert White, consisting of first-class realty valued at \$1,922,400, also an invested fund amounting to \$330,000. Revenue in 1925 from White bequest, \$401,574, of which \$155,248 was expended for new Health Unit building in East Boston and \$68,000 towards new Health Unit in South Boston. (3) 3 Boston Retirement System funds, \$4,145,064; (4) 10 Cemetery funds, \$1,041,818; (5) 18 funds in charge of Public Welfare Overseers, amounting to \$1,022,756; (6) Public School Teachers' Retirement, \$938,328; (7) 3 Franklin and Franklin Union, \$839,710; (8) 49 Public Library funds, \$719,694; (9) Permanent School Pension, \$677,218; (10) Police Charitable, \$207,550; (11) 23 School funds, \$172,481; (12) 24 City Hospital funds, \$126,742; 18 others, \$170,538. Average annual income from all invested funds, nearly 4 per cent.

PORT OF BOSTON.

Boston Harbor comprises an area of about 47 square miles, (exclusive of the islands) including all the expanse of tidewater within a straight line from Point Allerton to Point Shirley and extending therefrom to the mainland. It is the best of natural harbors, near open sea, sheltered and spacious for anchorage; main ship channel 35 feet in depth at mean low water, increasing to 40 feet from President Roads to open sea; new dredging operations in charge of U. S. engineers are under way for increasing depth of said main channel to 40 feet; waterfront (i.e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water.

Commonwealth Pier No. 5, South Boston 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space, total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston, (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. Commonwealth Pier, No. 1, East Boston, 900 feet long, costing State \$764,600 for site and \$426,674 for construction. New dry dock at South Boston, (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing \$3,169,651 and taken by U. S. Government at total cost.

Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 143, of which 8 are owned by the City.

There are 32 foreign steamship lines with regular sailings to and from Boston and 18 coastwise lines (5 to Pacific ports).

In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, will be filled in and used for extensive commercial developments under State control. About 175 acres of flats have recently been filled in and added to the land area of East Boston and 160 acres to that of South Boston.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, soon followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was \$26,000,000.

Total expenditures by State for improvement of Boston Harbor \$22,160,342, from 1859 to 1925, inclusive; in the same period, there was expended additionally \$843,676 on small channels; total Federal expenditure from 1790 to June 30, 1925, \$13,046,044 (corrected figure).

EXPORTS AND IMPORTS, 1925.

For Mass. Customs District (Boston and eight minor ports) in calendar year, 1925, the total value of exports was \$47,473,803 or \$9,881,843 less than in 1924; of imports, \$321,563,908 or \$67,712,375 more than in 1924; total foreign trade, \$369,037,711 or \$57,830,532 more than in 1924. Boston's total foreign trade for year 1925 ranked sixth among American ports, New York, Galveston, New Orleans, Seattle and San Francisco exceeding the former in value. As to imports alone, Boston ranked second, Seattle taking third place, and as to exports alone, 18th (the unusual decline in exports due largely to discrimination against Boston in through railroad freight rates). Tonnage of vessels in foreign trade in year 1925, entered 3,896,383; cleared, 2,457,605; number of vessels entered, 1,540; number cleared 1,082.

For the fiscal year ending June 30, 1926, the total imports at Boston reached \$327,860,000 in value.

VALUATION AND TAX RATES OF GREATER BOSTON.

Total valuation of taxable property in District on April 1, 1925, \$3,430,298,752 or an increase of \$167,103,259 (5.12 per cent) over the 1924 total. Of said 1925 valuation 54.30 per cent applied to property in Boston and 45.70 per cent to that in the 13 cities and 26 towns outside.

The 13 cities in the Metropolitan District outside of Boston all had higher tax rates than Boston's (\$26.70) in 1925. The highest of these was Revere's, \$48.80; (2) Chelsea's, \$38.80; (3) Lynn's, \$35.80; (4) Medford's, \$33.20; (5) Woburn's, \$33.20; (6) Cambridge's, \$32.50; (7) Everett's, \$32.20; (8) Malden's, \$32.20; (9) Melrose's, \$32.20; (10) Waltham's, \$31.40; (11) Newton's, \$27.40; (12) Somerville's, \$27.40; (13) Quincy's, \$27.00. Average tax rate of the 13 cities of Metropolitan District other than Boston, \$33.24 or \$6.54 more than Boston's rate. Said average tax rate was \$1.99 more than in 1924.

CITY AND COUNTY OFFICIALS AND EMPLOYEES.

Total number (receiving pay) on June 1, 1926, 18,729 (about 5,800 being women), or 302 more than in 1925, of which increase 143 were for the schools. Of the 40 departments, the largest is the Dept. of School Committee, 5,884; (2) Public Works Dept., 3,237; (3) Police Dept., 2,202; (4) Fire Dept., 1,667; (5) Hospital Dept., 1,123; (6) County of Suffolk, 954; (7) Park Dept., 867; (8) Library Dept., 628; (9) Institutions Dept., 267; (10) Boston Sanatorium, 267; (11) Health Dept., 267; (12) Public Buildings Dept., 218; (13) Assessing Dept., 130; (14) Transit Dept., 122; (15) Building Dept., 114; (16) Printing Dept., 108; 24 other departments (each under 100) 674.

Notable changes since 1920:—Increase of 1,269 in Dept. of School Committee; 282 in Police Dept.; 60 in Public Works Dept.; 294 in Fire Dept.; 325 in Hospital Dept.; 47 in Boston Sanatorium; 82 in Health Dept.; 52 in Transit Dept.; 16 in Election Dept.; 42 in Institutions Dept.; 192 in County of Suffolk; 24 in Public Buildings Dept.; 19 in Collecting Dept.; 16 in Soldiers' Relief Dept.; 14 in Assessing Dept.; 21 in Building Dept.; 21 in Schoolhouse Dept.; 66 in Library Dept.; 16 in Park Dept. Decrease of 2 in City Clerk Dept. Total net increase 1920 to 1926 was 2,955, of which 1,766 were in departments not under Mayors' control.

Total payroll disbursements in fiscal year 1925 (11 months), were \$30,779,903.

Per cent of salaries and pensions to total maintenance cost in Police Dept. in 1925 was 89.23; Park Dept., 70.95; Hospital Dept., 51.14. In addition to those mentioned above there were \$2 officials who served on various municipal boards and commissions without pay.

Total paid for pensions to retired employees, etc., in year 1925 was \$1,069,181 (\$84,302 less than in 1924) or \$246,035 by Fire Dept.; \$180,224 by Police Dept.; \$134,360 by School Committee; \$364,330 by Boston Retirement Board (third year of this new system); \$75,875 by Public Works Dept.; \$39,605 by Suffolk County; \$28,752 by other departments.

Total number of pensioners, December 1, 1926, 1,878, divided as follows: Teachers, etc., 301; firemen, 360; various, under new retirement system, 702; police, 247; laborers, 147; war veterans, 75; county officers, etc., 45; others, 1. Of the laborers 115 were from the Public Works Dept. and 32 from the Park and several other departments.

STREET LAYING-OUT DEPARTMENT.

NOTICE OF LAND-TAKING.

IN BOARD OF STREET COMMISSIONERS OF THE CITY OF BOSTON, MARCH 17, 1927.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of land on the northwesterly side of Centre street, West Roxbury district, adjoining and running southeasterly from Pershing road for a distance of about 315 feet, for school purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and that it appoints 12 o'clock m. of April 6, 1927, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:
(March 19-26.) JOSEPH F. SULLIVAN,
Secretary.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRING BITUMINOUS PAVEMENT.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing bituminous pavement on any street in Boston not under guaranty, when ordered to do so by the Commissioner between April 1, 1927, and December 31, 1927, and giving bond therefor of a surety company approved by the Commissioner in the sum of fifty thousand dollars (\$50,000), to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each bidder must give the location of the plant which it is intended to operate and the capacity of the same. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Repairing Bituminous Pavement," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Tuesday, March 29, 1927, with a certified check for five thousand dollars (\$5,000), payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

JAMES H. SULLIVAN,
(March 19.) Commissioner of Public Works.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING GRANITE EDGESTONES.

The Supply Department of the City of Boston invites proposals for furnishing to the Public Works Department, as required:

- 50,000 lineal feet, more or less, straight edgestone.
- 4,000 lineal feet, more or less, circular edgestone.
- 450, more or less, small corners.
- 50, more or less, large corners.
- 200 lineal feet, more or less, special edgestone.

The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex, and the successful bidder must furnish a bond for one quarter the total amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Bid, with a certified check for \$300, must be left at the above office before Friday, April 1, 1927, at 12 m., at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

HERBERT S. FROST,
(March 19.) Superintendent of Supplies.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING CRUSHED STONE.

The Supply Department of the City of Boston invites proposals for furnishing crushed stone to the various city departments until December 31, 1927, deliveries to be made as required. The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex, and the successful bidder must furnish a bond for \$2,000 with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. Bids, with a certified check for \$500, payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the above office before Friday, March 25, 1927, at 12 m., at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent of Supplies reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING AND RELAYING WATER PIPES IN UNION STREET, BETWEEN HANOVER STREET AND DOCK SQUARE, AND IN DOCK SQUARE, CITY PROPER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying and relaying about 800 feet of 24-inch water pipe in Union street, between Hanover street and Dock square, and in Dock square, city proper. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of fifteen hundred (1,500) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying and Relaying Water Pipes, Union street, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, March 28, 1927, with a certified check for two hundred (200) dollars payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

JAMES H. SULLIVAN,
(March 19.) Commissioner of Public Works.

SCHOOLHOUSE DEPARTMENT.

TO THEATER EQUIPMENT CONTRACTORS.

The Schoolhouse Commissioners of the City of Boston invite sealed proposals to furnish and install stage equipment, etc., in the new East Boston High School, White and Brooks streets, East Boston, Mass., giving bond of a surety company approved by the Commissioners in the sum of 45 per cent of the entire contract price. Only proposals obtained at the office of the Commissioners, Room 1009, City Hall Annex, signed by the bidder and left before 12 o'clock m. of Thursday, March 24, 1927, at said office, with a certified check for \$200, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, and the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Commissioners reserve the right to reject any or all proposals. A deposit of \$5 in cash or by certified check will be required for a complete set of specifications, said sum to be refunded on return of specifications. Mutilation of the specifications will be deemed sufficient cause for the forfeiture of the said deposit.

THE SCHOOL YEAR.

The school year begins on September 1 in each year and closes on August 31 next ensuing.

The sessions of the regular day schools begin on the second Tuesday following the first Monday in September and continue 42 weeks, including three weeks of vacation, one each in December, February and April. Sessions are suspended on Saturdays, Sundays, legal holidays; from 12 o'clock (noon) on day before Thanksgiving Day until the following Monday; from 12 o'clock (noon) on the second calendar day next preceding Christmas to and including New Year's Day; the week in which February 22 falls; Good Friday; the week which includes April 19 (Patriots' Day), also June 17 (Bunker Hill Day). Whenever a holiday falls upon Sunday the schools are closed on the following Monday.

The evening schools open on the last Monday in September and continue to the April vacation. The sessions of the high and industrial are on Monday, Tuesday and Thursday evenings from 7.30 to 9.30; of the elementary on same evenings beginning at 7.15.

The school centers are open from the first Wednesday in October to the last day of June, some on three evenings and one afternoon each week, others on two evenings only.

The summer review schools are in session for 40 consecutive days from the Monday following the close of the day schools in June, Sundays and holidays excepted.

The summer term of the day industrial schools extends from July 5 to the last Friday in August.

The sessions of the regular day schools closed for the year on Thursday, June 24, 1926, and resumed on Tuesday, September 14. In 1927 the closing date will be June 28.

WEALTH AND TAXATION OF MASSACHUSETTS, 1925.

Total assessed valuation of real estate on April 1, 1925, in the 39 cities and 316 towns of Massachusetts, \$5,560,636,090 (\$311,007,183 more than in 1924) of which 61.64 per cent applied to buildings and 38.36 per cent to land; of personalty, \$1,072,119,187; aggregate valuation, \$6,632,755,277 (5.35 per cent increase over 1924) on which the total tax levy was \$189,246,767, showing an average tax rate of \$28.53 per \$1,000. Boston's valuation (\$1,862,799,900) equal to 40 per cent of all other valuations in the State.

Massachusetts ranks fifth in amount of Federal income tax paid, this total being \$99,444,237 in year ended June 30, 1925. N. Y., Penn., Ill. and Mich. rank first, second, third and fourth.

Total taxes assessed by Mass. (exclusive of \$12,000,000 State Tax on municipalities) in year 1925, \$45,064,532, divided thus: Income tax, \$16,742,791; business tax on domestic corporations, \$10,315,057; same on foreign corporations, \$3,049,507; inheritance tax, \$6,064,517; franchise tax on 247 out of 374 public-service companies making returns, \$3,184,641; on insurance premiums, etc., \$2,653,564; on savings bank deposits (incl. Trust Co. Savings Depts.) \$2,041,823; on national banks, \$597,525; all other, \$385,107. Total share value of all domestic corporations, \$2,821,888,435.

Number of Mass. income tax returns received in 1925, \$353,750; of which 221,-

473 were found taxable. Total taxable income reported in these for 1924 and assessed in 1925, \$509,155,307, divided thus: Business income, \$281,016,419; interest and dividends, \$172,918,977; gains, \$53,426,633; annuities, \$1,793,278.

Total distribution of income tax to Mass. cities and towns in 1925, \$15,701,802 (\$1,729,380 more than in 1924) of which Boston's share was \$3,970,047; distribution of business, public-service, etc., taxes, \$12,907,822 of which Boston received \$2,995,629. Number of business corporations taxed, 22,672 of which 2,461 were foreign.

Total property in State exempted from taxation in 1925, \$1,188,768,668 (mostly real estate) divided thus: Public property of cities and towns, \$492,969,770; of literary and scientific institutions, \$216,661,100; of United States, \$143,809,609; of churches, \$118,580,281; of charitable and benevolent institutions, etc., \$89,374,110; of State, \$94,731,549; of counties, \$15,904,098; cemeteries, etc., \$8,716,509, all other, \$8,021,642. In Boston, the total exempt property in 1925 was \$374,601,292 or 31.51 per cent of all in Mass.

The total wealth in the United States on Jan. 1, 1923 as ascertained by the Federal Census Bureau, was \$320,803,862,000 or \$2,918 per capita. This is an apparent increase of 72.2 per cent in the 10 years since 1913. The value of real estate, with improvements, amounted to \$155,908,625,000, not including public, ecclesiastical and institutional property exempt from taxation, which amounted to \$20,505,819,000.

The increase in money value of other classes of property is largely due to the price inflation of recent years and should not be represented as a permanent increase in the quantity of wealth.

In Massachusetts the total wealth increased 106.7 per cent or from \$6,279,266,000 in 1913 to \$12,980,839,000 in 1923, the latter averaging \$3,243 per capita.

On June 30, 1925 the 8,072 national banks in U. S. had aggregate capital of \$1,369,435,000; deposits, \$19,909,669,000; total resources, \$24,350,863,000.

BOSTON YEAR BOOK, 1924-25 (2nd YEAR).

This is the most comprehensive book thus far issued relating to the public interests and activities of today in New England's metropolis. Special articles and statistics on metropolitan Boston follow the extensive and varied output devoted to municipal Boston, illustrations and diagrams being an attractive feature. Compiled and edited by Statistics Department, 73-76 City Hall.

AREA TO WARD LINES.

Total, 30,598 acres (i. e., 47.81 square miles), 2,944 acres being filled land, 1,143 acres water area and 1,436 acres flats. Land area only, 28,019 acres (i. e., 43.78 square miles). Included in the latter are 160 acres of filled flats recently added to the land area of South Boston and 175 acres to that of East Boston.

Original Boston contained about 780 acres of land. Of the twelve leading American cities, eight are larger in land area than Boston, viz., Los Angeles (364 square miles), New York (318), Chicago (199.4), Philadelphia (129), Baltimore (91.9), Detroit (80), Cleveland (56.6) and St. Louis (61.25). The only city in Massachusetts with larger land area is Taunton (50 square miles).

If Boston should expand by annexation as New York, Chicago, Philadelphia, Los Angeles and others have expanded, its total area, in case of including the 39 cities and towns within the 15-mile radius, would exceed the largest, viz., Los Angeles, the present land area of "Greater Boston" being 409.5 square miles.

MANUFACTURES OF BOSTON IN YEAR 1925.

Number of establishments conducted under so-called factory system, having annual product valued at \$500 or over, 2,655; value of year's product, \$602,332,668, or \$47,927,870 increase over the 1924 product; average number of wage earners, 78,093; total wages paid in year, \$104,845,860; value of materials used, \$303,175,079; value added by manufacture, \$299,157,589; value of leading products ranked from largest amount:

- (1) Printing and publishing, 375 establishments, with \$72,184,131 products;
- (2) Boots and shoes, including cut stock and findings, 76 establishments, with \$49,167,414;
- (3) Clothing, men's and women's, 326 with \$46,616,269;
- (4) Confectionery, 61 with \$36,469,163;
- (5) Foundry and machine-shop products, 112 with \$24,170,259;
- (6) Bread and other bakery products, 231 with \$22,057,080;
- (7) Coffee and spice, roasting and grinding, 16 with \$19,681,455;
- (8) Electrical machinery, apparatus and supplies, 37 with \$15,712,040;
- (9) Druggists' supplies and patent medicines, 41 with \$11,465,809;
- (10) House furnishing goods, not elsewhere classified, 31 with \$10,330,811;
- (11) Furniture, 77 with \$10,116,538;
- (12) Musical instruments and parts, 7 with \$7,551,783;
- (13) Steam fittings and heating apparatus, 12 with \$7,003,481;
- (14) Tobacco, cigars, etc., 23 with \$6,517,171;
- (15) Food preparations, not elsewhere classified, 22 with \$6,009,994;
- (16) Slaughtering and meat packing, wholesale, 11 with \$5,194,207;
- (17) Copper, tin and sheet-iron work, 41 with \$5,143,343.

The above-named industries are all that show a product value of \$5,000,000 or more.

Largest number of establishments (i. e., 375) also highest product value in printing and publishing industry. (From Mass. Dept. of Labor and Industries, Division of Statistics.)

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin

Field, Commonwealth avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mt. Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. TO Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

TO AWARD MAYOR'S CUP FOR BASKETBALL PROWESS.

Mayor Nichols announced on March 22 that the season for the Intercommunity Basketball League will close on Saturday, March 26, 1927. During the month of January, 1927, the Mayor instructed the chairman of the Park Commission to arrange for an Intercommunity Basketball League. He suggested that arrangements be made with the Community Service, the Citywide Boys' Working Conference, of which Joseph Lee is president, the Rotary Club and the Kiwanis Club. The league was organized when the season opened on January 15. It was organized with sixty-five teams, representing 520 young men. Two hundred and ten games were played in ten municipal buildings. Three prizes were offered, one silver cup by his Honor the Mayor, one by the New England A. A. A., and one by Spaulding's Sporting Goods House.

MAYOR NICHOLS COMMENTS ON GARBAGE COLLECTION REPORT.

The Mayor, on March 21, issued the following comment on the report of the Finance Commission relative to garbage collection.

The report of the Finance Commission on the removal of refuse and garbage is interesting chiefly for what it fails to state, that is, that never before in the history of the city has there been such effective work done on the removal of ashes and garbage as through these winter months. I feel that the report of the Finance Commission should have emphasized the creditable work done by these contractors rather than to have devoted six closely-typewritten pages to technical matters which the city was already in process of correcting.

The principal difficulty found is the employment of thirteen aliens on contracts involving the employment of about three hundred men and aggregating a total of nearly one half million dollars. One contractor whose employment of aliens was called to the attention of the Public Works Commissioner has been ordered to discontinue their employment. Two other contractors whose employment of aliens is cited in the Finance Commission report will also be ordered to discontinue their employment.

In the Finance Commission report on the question of wages it is said that three contractors pay less than contract prices. A clause in the proposal of each contract provides that for wages of laborers experienced in the class of work to be done the contractor agrees to pay not less than 65 cents per hour. The mere payment of less than 65 cents per hour, standing alone, is not a violation of the terms of the contract. The violation consists in paying less than 65 cents an hour to a man experienced in this class of work and I am advised by the Law Department that I am not justified in arbitrarily determining that because of the non-payment of 65 cents per hour there has been any violation of the terms of the proposal.

In my opinion these contractors have performed their work well with an effort to give the very best service to the city and they have been successful to a marked degree.

The clause relating to wages is the same as that which has appeared in contracts for years past and has always been construed as stated above. While the report is regrettably short on praise, it happily contains no criticism upon the work performed.

The Mayor received the following report from the Finance Commission:

BOSTON, March 21, 1927.

HON. MALCOM E. NICHOLS,
Mayor of Boston.

SIR,—The Finance Commission presents its final report on the refuse and

W. A. Snow Iron Works, Inc., have been granted an extension of time until June 1, 1927, for the completion of contract for repairs to fence around the Public Gardens.

P. J. Dinn & Co. have been granted an extension of time until June 1, 1927, for the completion of contract for erecting iron fence along Boylston street on Boston Common.

GARBAGE COLLECTION REPORT.

(Continued from page 329.)

garbage contract of the City of Boston with D. M. Biggs & Co. for the Dorchester district.

Inasmuch as the charges of Councilman McGrath that aliens were being employed and that the wages paid were less than the contract price of 65 cents an hour covered not only the D. M. Biggs & Co. contract in Dorchester, but also other refuse collecting contracts, the commission decided to examine all the other contractors collecting refuse, namely, in East Boston, Brighton, Hyde Park and West Roxbury. The rest of the city is taken care of by the city's own forces.

The commission finds not only that D. M. Biggs has employed aliens on the work and has paid employees less than the contract price, but finds also that John J. Moore and Francis P. Donovan, subcontractor of Joseph P. McCabe, employ aliens and that John J. Moore and John J. Ward and Frank P. Neelon,* subcontractor of Ward, pay less than the contract price.

Thus other contractors beside D. M. Biggs have been operating in violation of the terms of the contracts.

The contracts for collecting refuse and garbage in the above-named districts of the city contain provisions to the effect that no person other than a citizen of the United States shall be employed on any public work being done by any contractor or subcontractor dealing with the city, but specifies certain conditions under which in case of necessity others may be so employed. These conditions briefly are:

1. A sworn statement from the contractor or subcontractor.

2. A public hearing before the Commissioner of Public Works.

3. The written authorization by the Public Works Commissioner for the employment of other than citizens, with the written approval of the Mayor.

The contracts also contain a provision that the contractor shall dismiss any employee engaged in the work when so requested by the commissioner and shall not re-employ the discharged employee.

These provisions are important in considering the question at issue and give to the Commissioner of Public Works absolute authority over the contractor to require the terms of the contract to be carried out literally.

In addition to John W. Biggs, the owner of the firm of D. M. Biggs & Co., the commission examined the following contractors and subcontractors:

John J. Moore, West Roxbury district.
Joseph P. McCabe, Brighton district.
Francis P. Donovan, subcontractor on garbage, Brighton district.

John J. Ward, East Boston district.
Frank P. Neelon, subcontractor on garbage, East Boston district.

Thomas E. Bryan, Hyde Park district.
Peter Wurell, subcontractor on garbage, Hyde Park district.

The commission recommends:

1. That the Commissioner of Public Works require the contractors to pay the contract rate of wages.

2. That, if the need of employing aliens exists, the contractors be required to establish their right to employ them in the way provided in the contract.

3. That dumping at the Victory road land be discontinued and Contractor

Biggs be required to provide whatever other dumps are necessary, to see that they are properly licensed, and that the terms of the licenses are followed.

4. That if thereafter any contractor refuses to comply with the contract provisions, the Commissioner of Public

Works exercise his right to terminate the contract with the delinquent contractor.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

Additional copies may be had on application to the Fire Alarm Office.

IV. COMMENDATION.

The Fire Commissioner is in receipt of the following letter from the rector, wardens and vestrymen of St. Margaret's Church, Brighton, which is published for the information of the department.

March 9, 1927.

Mr. EUGENE C. HULTMAN,
Fire Commissioner.

DEAR SIR,—At a meeting February 2, 1927, of the rector, wardens and vestrymen of St. Margaret's Church, Brighton, the following resolution was offered and unanimously adopted:

"That the sincere and grateful thanks of the entire parish of St. Margaret's Church be extended to the officers and men of the Boston Fire Department for the remarkable "stop" they made at the fire December 23, 1926, which threatened the destruction of the entire church edifice.

And especially do we appreciate and commend the care and effort of each and every member of the department to prevent as far as possible all property loss in extinguishing the fire."

Sincerely yours,

THE RECTOR, WARDENS AND VESTRYMEN
OF ST. MARGARET'S CHURCH.

Attest: ALBERT J. HUTCHINGS,
Clerk.

DANIEL F. SENNOTT,
Chief of Department.

DOCKAGE CHARGE PROPOSAL HEARING.

Mayor Nichols announced on March 24 that he had instructed Corporation Counsel Frank S. Deland to appear at a hearing to be conducted by Commissioner Williams with respect to wharfage charges and the dockage to be imposed against using the Commonwealth Piers.

Commissioner Williams proposed to charge vessels using Commonwealth Piers 2 cents per net registered ton per day, whereas heretofore no such dockage charge has been assessed against vessels using any of the piers at Boston.

He also proposed to substitute for the so-called Howard wharfage tariff, which has been applied at all the piers in Boston for many years and which is applicable only to freight handled by truck or other vehicle to and from the piers, a flat wharfage charge of 25 per cent gross ton and apply it to freight handled both by truck and rail.

The steamship lines claim this dockage charge will force to other ports many of the steamers now serving Boston.

The commercial organizations, such as the Boston Chamber of Commerce and the Associated Industries, and firms such as the Plymouth Cordage Company, the American Woolen Company, the Fiske Rubber Company, and Chase & Sanborn, have stated that if they are obliged to pay the wharfage charges which Commissioner Williams proposes to put in force at the Commonwealth Pier it will force their traffic through New York and other ports competitive to Boston.

Boston, strongly supported by the Maritime Association of the Boston Chamber of Commerce, has been most active in its endeavors to increase the business through the Boston Port, and has recently been successful in its efforts to increase shipping facilities, as, for instance, the allocation of the twelve ships of the American Republics Line to Boston.

Shipping leaves behind hundreds of thousands of dollars a year, most of which goes to labor in Boston. If the steamers and the cargoes are driven away from the Port of Boston by the charges which Commissioner Williams proposes, labor will be one of the chief sufferers.

There is nothing of more vital interest today to the progress of Boston than this proposition, and the Mayor has instructed Corporation Counsel Deland to vigorously oppose any such proposition.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

* Awarded contract.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PARK DEPARTMENT.

Upon March 13 the Mayor approved a contract with the Edison Electric Illuminating Company for the installation of underground cables, conduits, etc., along Audubon road, the Fenway. A communication from Daniel J. Byrne of the Park Department was as follows:

BOSTON, March 15, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—The Board of Park Commissioners respectfully asks your authority to award a contract, without advertising, to the Edison Electric Illuminating Company for furnishing and installing underground conduits, cables, manholes, and handholes to supply electric service to existing arc lamps at new locations along Audubon road in the Fenway, between Aggasiz road and Fens Bridge.

The cost of the work to be paid for by the city will be figured on the basis of the cost of same to the Edison Company plus 10 per cent for underground construction and 15 per cent for overhead construction. The estimated cost of this work to the city is \$2,934.

The reason for requesting that this contract be awarded to the Edison Company is that this work, which consists of relocating seven arc lights at the city's expense, is in conjunction with work of the Edison Company to install thirteen new additional arc lights with the necessary conduits, cables, etc., within this area at no cost to the city.

The cost of the work is to be charged to the special loan appropriation, "Fens Improvements."

Very truly yours,

DANIEL J. BYRNE,
Secretary.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon March 23 the Mayor approved a contract with Hugh Nawn, Inc., for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, March 22, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Hugh Nawn, Inc., 295 Columbia road, Dorchester, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon March 13 the Mayor approved a contract with Mark H. Lynch, Jr., for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, March 16, 1927.

To the Mayor of Boston:

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Mark H. Lynch, Jr., 106 School street, Roxbury, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and the abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Upon March 23 the Mayor approved a contract with the Gow Company, Incorporated, for the restoration of three water tube boilers at Calf Pasture pumping station. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, March 19, 1927.

To the Mayor of Boston.

Permission is respectfully requested to award a contract, without advertising, to the Gow Company, Inc., Park Square Building, Boston, to restore the three water tube boilers at the Calf Pasture pumping station to their original positions for the sum of \$9,200. The work calls for installing fifteen caissons under the boilers, including the jacking up of the settings to their original elevations.

This settlement has made necessary changes in the steam pipe and uptaking system, to keep the boilers in commission, and a condition has now arrived which is not only attracting the attention of the state boiler inspectors, but may cause serious trouble at the pumping station.

Yours respectfully,

J. H. SULLIVAN,
Commissioner of Public Works.

CLAIMS DISAPPROVED.

The Law Department has disapproved eighty-five claims against the city, aggregating \$12,535.46, and they are classified as follows:

Against the Fire Department, five, amounting to \$1,000.50; against the Health Department, one, amounting to \$500; against the Park Department, five, amounting to \$616.94; against the Police Department, four, amounting to \$186.15; against the Public Buildings Department, one, amounting to \$250; against the Public Works Department, sixty-seven, amounting to \$9,794.34; against the Schoolhouse Department, one, amounting to \$100; against the Board of Street Commissioners, one, amounting to \$87.53.

AUTHORITY TO DO WORK.

The Mayor has granted the request of the Public Works Department for authority to reset edgestone, lay artificial stone sidewalks and lay 6-inch concrete base in Tremont street, west side, from Boston & Albany Railroad Bridge about 100 feet northerly, with division force, without advertising, the estimated cost for labor and material being \$1,500.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claim:

George Kinehan, 31 Oak View terrace, Jamaica Plain, in the sum of \$100, as compensation for personal injuries received by being thrown from sleigh when in collision with broken silent policeman at corner of Amory and Boylston streets, Jamaica Plain, February 10, 1926.

MAYOR DELIVERS THIRD RADIO TALK.

Mayor Nichols delivered the third of a series of radio talks from Station WEEI on financial and administrative matters relative to the City of Boston at 9.30 p. m., Friday, March 18, and said:

Before asking the Legislature for a tax limit of \$13.50 upon which to base our appropriations for the year 1927 I had cut from the department estimates nearly two million dollars, or what would be the equivalent to over \$1 on the tax limit. The tax limit of \$13 now before the Legislature represents a cut of 50 cents or a further reduction of \$1,000,000 in the 1927 appropriations. It was a serious thing for me to cut \$2,000,000 from the department estimates. It is much more serious to cut \$1,000,000 more. How can such a cut be made? It must come from one or all of our municipal activities. I cannot discuss them all with you tonight, but I can speak of one whose importance is so great that we all must give it full recognition.

For instance, can we cut the hospitals and public health? Let me talk to you about these activities. For hospitals and health maintenance the City of Boston this year ought to spend about \$4,000,000 which would account for over \$2 of this \$13 tax limit now before the Legislature.

Boston is acknowledged by medical and surgical experts as being unsurpassed in its health and hospitalization by any other metropolitan city in the United States. We ought never to lower that standard. Last year we treated at the City Hospital about twenty-five thousand patients. It is one of the best managed institutions of its kind in the country. The demands made upon it far exceed the amount of appropriations available, and yet I feel that this year every demand is reasonably taken care of in the budget, upon which the request for a \$13.50 tax limit was based. I do not see how any part of this million cut made necessary by the 50 cents reduction in the tax limit can be taken from the present appropriation for the Boston City Hospital. I do not see how it is possible to cut down the maintenance cost of our Relief Station in Haymarket square without a serious curtailment of service to unfortunates who need emergency aid.

The City of Boston maintains a hospital for the care of tuberculosis cases at Mattapan; this is called the Boston Sanatorium. I instituted a searching and impartial survey of the Sanatorium under Dr. Haven Emerson, of Columbia University, one of the leading authorities on tuberculosis in this country, and have been successful in adapting our administrative machinery to the needs of that institution by placing it under the direction of the City Hospital Trustees. The Health Department, under the amended ordinances, will use the Out-Patient Department of the Boston Sanatorium as a clinic, and in conjunction with its health units will afford increased facilities throughout the city for the examination of cases.

There will be many places for examination, with a total force of more than one hundred nurses in follow-up work for the prevention and control of this disease. In this way hospitalization will be centralized as well as the work of prevention. There is no problem facing the city so insistent as that concerned with the treatment of tuberculosis, and I am sure that it would be a grave mistake to reduce the maintenance of the Boston Sanatorium. I hope at a later date to present a

plan for more beds for the care of tuberculosis patients. The care of such patients, especially women and children, is a problem in every great city of tremendous responsibility. I do not feel that a dollar ought to be taken away from this activity, no matter how severe may be the pressure.

There is no health department in the United States more efficient than our own. Our record for the past year is admirable, particularly in the reduction of the number of communicable diseases. Establishment of the first three health units under the George Robert White Fund is an important function of preventive medicine during the past year. This year more babies and young children have attended the weekly conferences in twenty-three stations than ever before. Our work in child hygiene is notable. This last year about sixty thousand children have been brought to these conferences. Our health nurses have made, in the course of a year, about 175,000 home visits. There isn't a city in the world that gives more careful attention to the public health than Boston, or with better results. I could say emphatically that the Health Department ought not to be asked to bear a further cut in its 1927 appropriations.

The Long Island Hospital is an institution worthy of careful consideration. In it are housed the needy and aged poor, most of whom require constant hospital service. In my opinion the Long Island Hospital has not been given the consideration that it merits. No members of this community are deserving of a deeper sympathy than those who must pass the declining years of a useful life in poverty and sickness. I do not agree with the false doctrines of economy which would ignore the necessity of providing for their comforts. I feel that it is a moral obligation which the city owes, that the Long Island Hospital should be given adequate support. It is the last place that I would advocate a cut at this time.

Let me say something in this connection concerning the loan order for \$1,000,000 which last Monday failed of passage in the City Council, but which I have again sent to the Council for its consideration. It takes fifteen of the twenty-two votes to pass a loan order in the Council. Twelve men voted for the Long Island Hospital loan and ten against it. While the vote indicates that the majority of the Council favors the order, it will require three additional votes to secure its passage.

I cannot understand how opposition can be justified to the Long Island improvements. Men, women and children are being cared for in cramped conditions which makes the best care difficult, and I will say to you now that the small minority in the City Council opposed to this important administrative project will in no way lessen my efforts to secure the necessary money for the building improvements recognized by all who have been called upon to express an opinion concerning them. The issue should not be made one of petty politics, as it affects the welfare of many hundreds of persons living within the shadow of adversity, many men, many women, many children.

Fifty years ago it was held that the civic purity of a city could be judged by the care given its unfortunate sick and dying. The same thought prevails today with the wholesome further thought that a city ought to make its best efforts to maintain health among its people. In

the appropriations for the year 1927 recognition has been given to this high standard and no matter how difficult may be the situation confronting the city in its appropriations I shall do my best to maintain the policy which I have laid down.

In conclusion, let me thank Station WEEI for its courtesy in permitting me to address you, and to say that it will be my privilege to discuss from this station another topic in municipal administration and finance on next Tuesday evening, at 7.50.

Ladies and gentlemen of the radio audience, I bid you good evening.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer and surface drain of 10-inch earthen pipe in Goodale road, between a point 231 feet southeast of Wellington Hill street, and a point about 133 feet northwesterly in the Dorchester district, at an estimated cost of \$1,350.

THE METROPOLITAN DISTRICT.

With its 40 Municipalities.

Consists in the most inclusive sense of 40 municipalities, including Boston, or 14 cities and 26 towns, all within 15 miles of the State House but not yet consolidated in one complete governmental system. The 7 cities in the first zone, *i. e.*, adjacent to Boston, are these, viz., Cambridge, Chelsea, Everett, Newton, Quincy, Revere and Somerville; the 6 cities in the second zone, not adjacent, are Lynn, Malden, Medford, Melrose, Waltham and Woburn. The 6 adjacent towns are Brookline, Dedham, Milton, Needham, Watertown and Winthrop; the 20 other towns are Arlington, Belmont, Braintree, Canton, Cohasset, Dover, Hingham, Hull, Lexington, Nahant, Reading, Saugus, Stoneham, Swampscott, Wakefield, Wellesley, Weston, Westwood, Weymouth and Winchester. North and northwest of Boston are situated 11 of the cities and 12 of the towns; south and southwest, 2 cities and 14 towns.

POLICE DEPARTMENT ORDERS.

General Order No. 1050.

A trial board consisting of Captains McConnell, McDevitt and Campbell, having heard by reference a complaint against Patrolman John F. Bray of Division 12, charging him with neglect of duty, has reported to the commissioner a finding of guilty as charged. In accordance with which, it is hereby ordered that the said Patrolman John F. Bray perform seventy (70) hours' punishment duty.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1051.

Maurice F. Murphy, patrolman assigned to Division 17, was on March 12, 1927, dismissed from the Police Department for conduct unbecoming an officer. Due written notice of such dismissal

with the reasons therefor was duly and specifically given in hand on March 12, 1927, to the said Maurice F. Murphy.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1052.

A trial board consisting of Captains McConnell, McDevitt and Campbell, having heard by reference a complaint against Patrolman John J. Falvey of Division 11, charging him with neglect of duty, has reported to the commissioner a finding of guilty as charged. In accordance with which, it is hereby ordered that the said Patrolman John J. Falvey perform one hundred and forty (140) hours' punishment duty.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1053.

A trial board consisting of Captains McConnell, McDevitt and Campbell, having heard by reference a complaint against Patrolman Harry G. Carlson of Division 11, charging him with neglect of duty, has reported to the commissioner a finding of guilty as charged. In accordance with which, it is hereby ordered that the said Patrolman Harry G. Carlson perform one hundred and forty (140) hours' punishment duty.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1054.

A trial board consisting of Captains McConnell, McDevitt and Campbell, having heard by reference a complaint against Patrolman Harold F. Brickley of Division 11, charging him with neglect of duty, has reported to the commissioner a finding of guilty as charged. In accordance with which it is hereby ordered that the said Patrolman Harold F. Brickley perform one hundred and forty (140) hours' punishment duty.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1055.

A trial board consisting of Captains Rooney, Laffey and Anderson, having heard by reference a complaint against Patrolman Aleck Nesky of Division 13, charging him with neglect of duty, has reported to the commissioner a finding of not guilty on charge and specifications. In accordance with which, it is hereby ordered that the complaint against the said Patrolman Aleck Nesky be dismissed.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

General Order No. 1056.

Whereas, It appears that Patrolman Jacob Grosberg of Division 16 has performed faithful service in the Police Department for seven and five-twelfths years, and that the physician to the Health Department has certified that the said Patrolman Grosberg is physically incapacitated, it is the judgment of the Police Commissioner that the said Patrolman Grosberg is physically incapacitated for useful service in the Police Department on account of injuries received in the actual performance of duty as a police officer; therefore, it is

Ordered, That with the approval of his Honor the Mayor, the said Patrolman Grosberg be retired from active service in the Police Department, under the provisions of chapter 353, Acts of the year 1892, as amended by chapter 6 of the Acts of 1920, and that his name be placed upon the department pension roll with pay at the rate of one thousand (1,000) dollars per annum, said sum being one-half of the amount of compensation received by him in the office from which he is retired; to take effect Wednesday, March 23, 1927, at 5.45 o'clock p. m.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

FOURTH RADIO TALK DELIVERED BY MAYOR.

Mayor Nichols delivered the fourth of a series of radio talks from Station WEEI on financial and administrative matters relative to the City of Boston at 7.50 p. m. on Tuesday, March 22, and said:

Ladies and Gentlemen of the Radio Audience.

Tonight it is my privilege to address you upon our municipal administration so far as it relates to the protection of life, property and the public welfare. Under this title there are municipal needs amounting to about twelve million dollars or approximately \$6 in the tax limit of \$13 now pending before the Legislature. You see this approaches one half of the tax limit of \$13 now pending before the Legislature. As I have had occasion to explain in prior addresses, the tax limit is a device used to authorize the amount of the municipal budget made up by the Mayor. It is fixed by the Legislature and the limit of \$13 now under consideration is 50 cents less than requested by the Mayor, making necessary a cut in our budget figures of about one million dollars. I had already cut the budget two millions before asking for a tax limit of \$13.50. If the present limit of \$13 is authorized it will be my duty to make a total cut of three million dollars, or a cut of one tenth from the estimates presented to me by my department heads.

In protecting life, property and public welfare, consider the Police Department. Last year the appropriation was five and one quarter millions, this year it is over five and one half millions, an increase of \$350,000, brought about by the addition of three hundred patrolmen to the Boston police force. This was a wise step taken last year in the interest of public safety. When I took office I found station houses undermanned, traffic regulations badly enforced and insufficient protection to life and property at a time when the boldness and frequency of crime had attracted public notice. The wisdom of providing for this additional three hundred patrolmen has amply justified the resulting expense.

The Police Department is under the control of a commissioner appointed by the Governor. Nevertheless, the department submits all department estimates as though it was under the control of the Mayor. Inasmuch as the law says that all expenses connected with the maintenance of the department shall be paid by the City of Boston upon the requisition of the Police Commissioner, the Mayor, in reviewing the Police Department estimates, has no power to make reductions in them, showing that the result of this law is that no part of the two million dollars which I had cut from the budget before asking for a tax limit and no part of the million which I must further cut under a tax limit of \$13 can be taken from the Police Department estimates.

The Fire Department appropriation is slightly over four million three hundred thousand dollars this year, slightly less than last year. The department is directly under the control of the Mayor who appoints as its executive head a Fire Commissioner. Under my direction the Fire Department is being reorganized in such a way as to eliminate divided authority and responsibility. We have revised the rules and regulations of the department and by conferences with the civil service have brought

about new procedure for the appointment of officers. There has been complete reorganization of the License Division and Fire Prevention Bureau. This has brought about an excellent result, as the fire losses during the past year are estimated at one million dollars less than in 1925 and less than in several years previous. The work of the administration has been complimented by business men and property owners throughout the city and I confidently believe will soon lead as it should to a downward revision of fire insurance rates. In recent conferences with members of the Boston Real Estate Exchange I suggested that a concerted movement be made to reduce these rates, and the co-operation of these influential and powerful business men was generously offered toward this beneficial accomplishment. The Fire Department really holds an enviable position when compared with other large cities. Today the department is completely motorized, and is well equipped to protect life and property in this city. I have no legal power to reduce the police budget. I stoutly oppose any reduction in the budget for fire protection.

If adequate police and fire service is essential to the public safety, no less can be said for the regulation and supervision of buildings and the construction of buildings. We have had a number of tragic lessons from building collapse. Taking these lessons to heart, the city has recently framed new regulations for the protection of workmen and of the public. The work of removing old, dilapidated and dangerous structures throughout the city has been carried forward. Violations of the building laws have been vigorously checked. Construction engineers are now held to a higher degree of responsibility. The work of the Building Department is not obvious to the casual observer, but you must realize that it involves many extensive, varied and searching examinations systematically carried on. These examinations cover entrances, fireproofing, elevators, gas fitting, plumbing, fire escapes, floors, roofs, tenement houses, theaters, in fact all places used for habitation and meeting. The appropriation for the department is slightly in excess of one quarter of a million dollars, about what it was last year. I would not take a dollar from it.

The Public Welfare service has to do with the care of the sick and the relief of the poor. Last Friday evening I discussed the care of the sick when I spoke of hospitals and public health and I said that provision should be made at the Long Island Hospital for accommodations for the men, women and children for whose welfare the city is responsible. I am sorry to say that this matter has not yet been acted upon favorably in the City Council. Permit me to discuss for a moment the relief of the poor. This is vested by a statute in the Overseers of Public Welfare, a Board of twelve appointed by the Mayor. The department has its headquarters in the new central administration building on Chardon street. There are two auxiliary branches, the Temporary Home for Women and Children and the Wayfarers' Lodge, each with separate functions and separate buildings. We have an excellent Board of Overseers who are devoting their time to unpaid work not fully appreciated. The overseers should have more visitors to take care of the thousands of cases brought to their attention for aid. It is my wish to provide for the appointment of these

visitors so that the administration of relief may be of real help to the deserving poor. This department cannot be slighted nor can the division of child welfare which cares for the dependent children of the city.

I wish it were possible for you all to see how much Boston accomplishes with the funds provided by her citizens. In no way is the accomplishment greater than in the protection given to life and property and the care of the sick and relief of the poor. I know that you want the needs of this municipal service reasonably met as they have been in the municipal budget of 1927.

Next Tuesday, March 29, at 7.50 I shall have the honor of addressing you upon another topic in municipal finance and administration. And now in conclusion let me thank Station WEEI for its courtesy in permitting me to speak to you upon city affairs.

Ladies and gentlemen of the radio audience, I thank you for your kind attention and I bid you good evening.

The New England Building Wrecking Company have been granted an extension of the time of completion of the contract for demolishing part of buildings numbered 74, 76, 78, 80, 82, 84 Kneeland street, city proper, from forty working days after starting to March 3, 1927.

ORDER OF ADDITION.

SCHOOLHOUSE DEPARTMENT.

The Mayor has approved the issuance of the following order of addition in the sum of \$4,839 to the contract of M. S. Kelliher Company for the erection and completion of the intermediate school (Thomas J. Kelly) on Oak avenue in the Minot School District.

This amount is required to cover the cost of fencing, cleaning lot and filling cellars, grading and seeding, and covers work which was not included in the original contract as the Board at that time decided to grade and fence but a portion of the lot upon which the school building stands.

PROTESTS AGAINST APPOINTMENTS TO ATTENDANCE DEPARTMENT.

At Mrs. Barron's request, the Secretary read the following:

(a) A communication from the Boston Women's Trade Union League, Mary Gordon Thompson, President, transmitting action of the League at its meeting of Jan. 25, 1927, when it was voted to send a letter of protest voicing the League's disapproval of the recent action of the School Committee with regard to appointment of attendance officers, and stating that it seems obvious to the League that the Committee is determined not to give the recognition due to women in this particular branch of service.

(b) A communication from the Boston League of Women Voters, Mary Tenney Healy, President, transmitting action of the League at its meeting of Feb. 2, 1927, when it was voted to send a letter to the School Committee expressing keen disappointment in the result of the balloting for attendance officers on Jan. 24, 1927. From recent conversations with members of the Committee and a careful review of the attitude of the members on the subject on previous occasions, the League was led to believe that there was a predominating sentiment for greater representation of women in the attendance department which it was hoped would register in the appointment of women to fill two of the three vacancies in the attendance department.

(c) A communication from Robert Silverman stating that at a meeting of the New England Congress Committee of the American Jewish Congress held Jan. 30, 1927, a resolution was passed concerning the failure of the School Committee to select an attendance officer who, in addition to other required qualifications, possesses a knowledge of the Yiddish language, although the desirability of selecting a Yiddish-speaking attendance officer has been urged repeatedly and endorsed by Mrs. Jennie Loitman Barron; Rabbi Harry Levi; Professor Nathan Isaacs of Harvard; D. Chauncey Brewer, President of the North American Civic League; Robert W. Kelso, Executive Secretary, Boston Council of Social Agencies; Dr. Maurice B. Hexter, Executive Director, Federated Jewish Charities; Sylvester J. McBride, Ex-President, Boston Typographical Union; John J. Kearney, former President, Boston Central Labor Union; Mrs. Maud Foley Van Vaerenwyck, Women's Trade Union League; and various other prominent representative citizens and organizations of the city. In view of the attitude of the Committee, as recently expressed, it was

RESOLVED, That this conference protest against such unjustifiable and unwarranted refusal to act in a matter generally acknowledged as an obvious need in the attendance department of the Boston School System, and thus call upon the Boston School Board, at its earliest convenience, to reconsider its unfortunate refusal to act.

The several communications were placed on file.

CONSIDERATION OF TIME OF MEETINGS OF BOARD.

Mr. Sullivan: Expressed pleasure on being informed that a certain leading organization of the city has at last decided to have representatives attend School Committee meetings to form what may be termed a vigilance committee. Believes this attitude should be commended and in order to encourage other organizations to similar interest, Mr. Sullivan moved that the Secretary be instructed to write to representative organizations of the city—Boston League of Women Voters and other similar organizations—asking what hour would be most convenient for attendance at School Committee meetings of their representatives. With these expressions of opinion at hand, Mr. Sullivan believes that the School Committee will be in a position to determine a suitable hour for holding regular meetings of the Committee hereafter.

The motion passed.

Mr. O'Hare: Referred to circular recently issued by the League with reference to attendance at School Committee meetings and was strongly of the opinion that the members of this and other organizations should be encouraged to attend meetings of the School Committee. In that way and that way only, can the public get full import of what the public records indicate of proceedings of the School Committee. Hopes other organizations will imitate the action of the League of Women Voters.

ABOLITION OF COMMISSION ON APPRENTICESHIP.

Mr. O'Hare: Referred to the notification in the newspapers of the abolition of the Commission on Apprenticeship for the Building Industry. The Commission has been a power for good and has been most helpful in the effort to develop a better understanding between the employer and employee, particularly through the establishment of Saturday morning apprenticeship classes which have been maintained as a part of the organization of the Boston Trade School during the past two years. Would be sorry to see the good work terminated.

The Superintendent stated that although the Commission is going out of existence, the work which has been started in these Saturday morning apprenticeship classes will continue. The Assistant Superintendent in charge reports that it is planned to have the apprenticeship classes carried on under the direction of the various Craft Committees hereafter. Thus the educational advantages previously offered these young people will continue.

UNFINISHED BUSINESS.

The order laid over at the meeting of Jan. 24, 1927, amending section 80, paragraph XI. of the rules relative to the requirements for the assistant in music certificate, was taken up and passed.

The Board adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

VETO OF LEAVE OF ABSENCE TO VETERANS.

The following was received:

City of Boston,

Office of the Mayor, March 15, 1927.

To the City Council.

Gentlemen,—I return herewith without my approval the order of your honorable body passed on February 28, 1927, which authorizes the granting of leave of absence without loss of pay for thirty days to veterans of the World War and which authorizes me to appoint a committee to verify the war service of those employees who apply for such leave of absence.

This order is in the same form as that passed by your honorable body on February 7, except that it provides that I appoint a committee to verify the war service of employees who apply for leave of absence.

The reasons given in my letter of disapproval to your honorable body on February 18, 1927, are applicable to this order also. There has been no change in the situation which prompts me to change my judgment.

Yours respectfully,

MALCOLM E. NICHOLS, Mayor.

VETO OF AMENDMENT IN RE HOURS FOR BURIAL PERMITS.

The following was received:

City of Boston,

Office of the Mayor, March 14, 1927.

To the City Council.

Gentlemen,—I return herewith, without my approval, an ordinance passed by your honorable body, amending section 10 of chapter 3 of the Revised Ordinances of 1925, by striking out after the word "bodies" in the ninth line of said section, the words "from ten o'clock in the forenoon until twelve o'clock noon on every day in the year" and inserting in place thereof the following:

"On week days, except Saturdays, from 9 a. m. to 10 p. m., on Saturdays, from 9 a. m. to 5 p. m. and from 6 p. m. to 10 p. m., on Sundays and holidays, except Thanksgiving, Christmas and New Years, from 10 a. m. to 5 p. m., and from 6 p. m. to 10 p. m., and on Thanksgiving, Christmas and New Years, from 10 a. m. to 12 noon."

I send this back to you without prejudice, as I am sincerely desirous of arriving at a suitable and satisfactory arrangement.

At the present time the office of the Health Department is open for the issuing of burial permits from 9 a. m. to 5 p. m. daily, including Saturdays and on Sundays and holidays from 10 a. m. to 12 o'clock noon.

In addition to this arrangement, burial permits for the removal of dead bodies after the hours just stated, may be had upon application to Deputy Health Commissioner Frederick L. Davis, telephone number, Kenmore 7850; Dr. Frederick J. Bailey, telephone number, Columbia 3232; Joseph W. Monahan, telephone number, Jamaica 3562-M; or Dr. F. X. Mahoney, telephone number, Brighton 4724.

As the foregoing arrangement appears more favorable than the hours proposed by the amendment to the city ordinances, may I suggest the advisability of continuing it for trial, and, if found necessary, for further adjustment.

Respectfully yours,

MALCOLM E. NICHOLS, Mayor.

Referred to the Committee on Ordinances.

LAYING OUT OF CERTAIN STREETS.

The following was received:

City of Boston,

Office of the Mayor, March 18, 1927.

To the City Council.

Gentlemen,—I transmit herewith communication from the Street Laying-Out Department rela-

tive to your orders of March 7, 1927, for the laying out and acceptance of the following streets: Westminster road, Ward 11; Frawley street, Ward 10; Manning street, Ward 18; Gilman street, Ward 18.

Yours respectfully,

MALCOLM E. NICHOLS, Mayor.

City of Boston,

Street Laying-Out Department, March 16, 1927.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Sir,—Replying to the orders of the City Council relative to the acceptance of Westminster road, Ward 11; Frawley street, Ward 10; Manning street, Ward 18, and Gilman street, Ward 18.

The necessary plans for Westminster road are almost completed and the Board expects to advertise the same for a hearing within the next two weeks.

Frawley, Manning and Gilman streets are at the present time under investigation, and a report will be made thereon later in the year.

Respectfully,

FOR THE BOARD OF STREET COMMISSIONERS,
THOMAS J. HURLEY, Chairman.

SAVIN HILL AND COULTER'S BEACHES.

The following was received:

City of Boston,

Office of the Mayor, March 19, 1927.

To the City Council.

Gentlemen,—I transmit herewith communications from the Park Department in reply to your orders of March 14, 1927, in relation to taking whatever steps are necessary to make Savin Hill Beach and Coulter's Beach available for recreation and bathing purposes for coming summer season.

Yours respectfully,

MALCOLM E. NICHOLS, Mayor.

City of Boston,

Park Department, March 18, 1927.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Sir,—I have your memorandum of March 17, with inclosure, order from the City Council, that the Park Department be requested, through his Honor the Mayor, to take whatever steps may be necessary to make Savin Hill Beach available for recreation and bathing purposes for the coming summer season.

In reply I desire to say that the department will have this beach ready for the opening on June 15. It is the intention to regrade the beach and thoroughly sand same, also to repair the bath house. At the present time, the report from the Board of Health relative to the pollution of the water is very unsatisfactory. It is hoped that matters will be straightened out on or before the opening.

Very truly yours,

WILLIAM P. LONG, Chairman.

City of Boston,

Park Department, March 18, 1927.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Sir,—I have your memorandum of March 17, with inclosure, order from the City Council that his Honor the Mayor request the Park Commissioners to take whatever steps may be necessary to make Coulter's Beach available for recreation and bathing purposes for the coming summer season.

In reply I desire to say that Freeport Street Beach, commonly known as Coulter's Beach, will be placed in proper condition the same as in former years, as far as the Park Department will be allowed to do so. The Metropolitan District Commission has taken, by right of eminent domain, a large portion of this beach.

It is the intention of the department to regrade the beach and cover same with sand and paint the bath house.

Very truly yours,

WILLIAM P. LONG, Chairman.

TRAFFIC OFFICER, EGLESTON SQUARE.

The following was received:

City of Boston,

Office of the Mayor, March 17, 1927.

To the City Council.

Gentlemen,—I transmit herewith communication from the Police Department in reply to your order of March 7, 1927, in relation to assigning a traffic officer to permanent duty at Egleston square.

Yours respectfully,

MALCOLM E. NICHOLS, Mayor.

City of Boston,

Police Department, March 14, 1927.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Mayor Nichols,—In response to a request of the City Council, I wish to state that Egleston square has been made a permanent traffic post and I am sending you herewith copy of report in triplicate of Capt James Laffey of Division 21, relative to this matter.

Yours respectfully,

HERBERT A. WILSON,
Police Commissioner.

City of Boston,

Police Department, March 12, 1927.

To the Superintendent.

Sir,—In reference to the communication received from the City Council, relative to making the traffic post at Egleston square an all-day post, I respectfully report that the traffic post at Egleston square has been covered A. M. and P. M. for the past three weeks and beginning on Monday, March 14, 1927, the post at Egleston square will be an all-day traffic post.

Respectfully submitted,

JAMES LAFFEY,
Captain Division 21.

LONG ISLAND LOAN ORDER.

The following was received:

City of Boston,

Office of the Mayor, March 14, 1927.

To Boston City Council.

Gentlemen,—I transmit to you herewith a new loan order appropriating for improvements at the Long Island Hospital the sum of \$1,000,000. This order is identical with the loan order for \$1,000,000 for the same purpose which failed of passage in your honorable body at its session this afternoon by a vote of twelve in favor thereof and ten against. The vote indicated that a substantial majority of the Council favored the order but lacked three votes necessary to make up the two thirds majority required by the provisions of the City Charter. As I told your Committee on Finance this morning at a conference with the committee and the Institutions Commissioner I deem the improvements called for of vital importance.

These improvements may be enumerated as follows:

The enlargement of the men's dormitories to provide for 200 additional beds.

The addition of new wards in the Men's Hospital.

The construction of a suitable children's hospital building, and an additional story and new roof on the Nurses' Home.

The necessity for the men's dormitory is well shown by the fact that while its normal bed capacity is 325, at the present time it is accommodating 505. In the Men's Hospital the normal bed capacity is 125 and at present there are crowded into it 180 beds. The building at present used as a Children's Hospital was formerly used for tubercular male patients and its open wards permit of no opportunity to isolate a child infected with contagious disease and is in no way suited to child occupancy. A new building with adequate facilities for the care of children should be erected.

The Nurses' Home has had a defective roof since its original construction and constant leaks are rapidly injuring the whole structure, requiring a new roof, and, while this is being done, it is imperative that an additional story be added to make provision for additional nurses whose services are already required but for whom no housing facilities are available.

Somewhat over ten years ago there was considerable discussion tending toward keeping up the plant at Long Island, but during the years of the war and thereafter the demands recognized earlier were not met and have not been met. In my opinion it is time to meet them for the health, safety and convenience of the needy and sick for whom suitable provision should be made. No other practical measures have been suggested except those embodied in the accompanying loan order. Whatever the future need of an additional chronic hospital on the mainland may develop is no answer to the immediate urgent necessities of the inmates of Long Island. Therefore, I trust that your honorable body will give the accompanying order favorable consideration.

Respectfully yours,

MALCOLM E. NICHOLS, Mayor.

Ordered, That the sum of one million (1,000,000) dollars be and the same is hereby appropriated for new buildings and additions to existing buildings at Long Island, as well as for equipment and furniture for such new buildings and additions, all for Institutions Department purposes, and that to meet said appropriation the City Treasurer be and hereby is authorized to issue from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

ADDITIONAL APPROPRIATION, READVILLE PLAYGROUND.

The following was received:

City of Boston,

Office of the Mayor, March 21, 1927.

To the City Council.

Gentlemen,—I am advised by the Park Department that in order to permit the awarding of a contract for grading and the erection of a shelter at the Readville Playground to the lowest bidder an additional appropriation of \$200 will be required. In order that there may be no delay in the making ready of this playground for use by the residents of this section of the city, I submit herewith an order providing for the appropriation of the desired

amount from the Special Fund "Sales of City Property." I respectfully recommend immediate consideration by your honorable body of this order.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Park Department, March 21, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners you are respectfully asked to make a request on the City Council for the transfer of the sum of \$200 from the appropriation, Sale of City Property—Special Funds, to the special loan appropriation, Playground, Readville District.

Advised proposals were publicly opened and read at this office on March 17, 1927, for grading and shelter at Readville playground, and ten bids were submitted, the lowest being approximately \$2,450.

As the balance in the appropriation, Playground, Readville District, is only \$2,371.31, it is necessary that a transfer of \$200 be made in order that the contract may be awarded.

Very truly yours,
DANIEL J. BYRNE, Secretary.

Ordered, That the sum of \$200 be and hereby is appropriated from Special Fund, Sales of City Property, for Playground, Readville District.
Referred to the Executive Committee.

ADDITIONAL APPROPRIATION, CASTLE ISLAND.

The following was received:

City of Boston,
Office of the Mayor, March 21, 1927.
To the City Council.

Gentlemen,—I am in receipt of a communication from the Park Department in which it is pointed out that in order to complete certain necessary repairs and remove the dangerous condition which now exists in the roadway leading to Castle Island an additional appropriation of \$5,550 will be required. Proposals for the necessary work have already been opened at the office of the Park Department and the additional sum requested will make possible the awarding of a contract to the lowest bidder. I submit herewith an order, providing for the appropriation of the desired sum from the special fund "Sales of City Property," and respectfully recommend adoption of this order by your honorable body.

Respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Park Department, March 21, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners you are respectfully asked to make a request on the City Council for the transfer of the sum of \$5,500 from the appropriation, Sale of City Property, Special Fund, to the special loan appropriation, Castle Island, Improvements, etc.

The reason for this request is that on account of the dangerous condition of the wooden bridge at Castle Island it is necessary to have it removed at once, and to lay water pipe and grade from Marine Park to Castle Island.

Proposals to do this work were opened at this office on March 17, 1927, and seventeen bids were submitted, the lowest bid being approximately \$20,050.

As the balance on hand in this appropriation for Castle Island, Improvements, is only \$14,900.79 it is necessary that a transfer of \$5,500 be made in order that this contract may be awarded.

Very truly yours,
DANIEL J. BYRNE, Secretary.

Ordered, That the sum of \$5,500 be and hereby is appropriated from Special Fund, Sales of City Property, for Castle Island, Improvements, etc.
Referred to the Executive Committee.

SALE OF WELSH COAL SCREENINGS.

The following was received:

City of Boston,
Office of the Mayor, March 18, 1927.
To the City Council.

Gentlemen,—I am transmitting herewith a communication from the Public Works Commissioner relative to the sale of a quantity of Welsh coal screenings, for which they have no use, and the sale of which they desire handled by the Supply Department.

I recommend the passage of the accompanying order.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, March 16, 1927.
To the Honorable the Mayor.

There is on hand at the Calf Pasture pumping station of this department a quantity of Welsh coal screenings for which we have no use and which it is recommended be sold. There are

between six and seven hundred tons at the plant, and the value is estimated to be more than \$500, but less than \$1,000.

The sale could best be handled by the Supply Department, and I respectfully recommend that you obtain the necessary permission from the City Council.

Yours respectfully,
JAMES H. SULLIVAN,
Commissioner of Public Works.

Ordered, That the Superintendent of Supplies be and hereby is authorized to sell, after public advertisement, a quantity of Welsh coal screenings belonging to the Public Works Department, valued at over five hundred dollars.

Referred to the Executive Committee.

EASEMENT, ROBERTS AVENUE, WEST ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, March 15, 1927.
To the Honorable the City Council.

Gentlemen,—Inclosed find order authorizing his Honor the Mayor of the City of Boston, in the name and behalf of said city, for a nominal consideration and upon the City of Boston receiving waivers of and releases satisfactory in form to the Law Department, for the damages caused by a taking made by a resolve and order of the Board of Street Commissioners of the City of Boston, approved by the Mayor of the said city July 30, 1913, to execute and deliver to Frank Holland, Alexandria Hammond and Max Jacobs, individually, as their interests may appear as owners of the parcels described in the said order, releases satisfactory in form to the Law Department, of an easement taken for sewer purposes in lands now owned by them. The easement herein referred to is shown on a plan marked "City of Boston, Plan No. 293, Sewerage Works, Vermont street, Roberts avenue, West Roxbury, July 15, 1913, F. O. Whitney, Chief Engineer, Street Laying-Out Department," on file in the said department.

The Commissioner of Public Works has informed me that the easement herein referred to is no longer required for public purposes.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, January 3, 1927.
To the Honorable the City Council.

Gentlemen,—The Commissioner of Public Works having charge of an easement in private land and Roberts avenue, West Roxbury, taken by the Board of Street Commissioners for sewerage purposes, by a vote dated July 30, 1913, respectfully notifies your honorable body that in his opinion, that part of the easement in private land and Roberts avenue that was made in the lands of Thomas F. Welch and Max Jacobs, and also that part of the easement in Roberts avenue, is no longer required for public purposes. (Plan K-1059.)

Respectfully,
JAMES H. SULLIVAN,
Commissioner of Public Works.

City of Boston, in City Council.

Whereas, The Board of Street Commissioners of the City of Boston by a resolve and order, approved by the Mayor of the said City of Boston, July 30, 1913, took an easement for sewer purposes in land in West Roxbury as shown on a plan marked "City of Boston, Plan No. 293, sewerage works, Vermont street and Roberts avenue, West Roxbury, July 15, 1913, F. O. Whitney, Chief Engineer, Street Laying-Out Department," on file in the office of said department; and

Whereas, There was awarded as damages caused by said taking to Thomas F. Welch and Max Jacobs the sums of two hundred thirty-two dollars (\$232) and twenty-nine dollars (\$29) respectively; and

Whereas, There was no award for damages caused by said taking to the owners of Roberts avenue, so called, a private way in said Roxbury, shown on said plan; and

Whereas, The Commissioner of Public Works of said City of Boston has by a communication dated January 3, 1927, to the honorable City Council declared that that part of said easement that was taken in the land of Thomas F. Welch and Max Jacobs and in Roberts avenue, so called, a private way as shown on said plan, is no longer required for public purposes;

Now, therefore, it is hereby ordered that upon the City of Boston receiving waivers of and releases for the damages caused by said taking to said above-mentioned property, satisfactory in form to the Law Department, the Mayor of said City of Boston be and he hereby is authorized in the name and behalf of said city, for a nominal consideration, to execute and deliver to Frank Holland, Alexandria Hammond and Max Jacobs, individually, as their interests may appear as owners of the hereinafter described parcels, releases satisfactory in form to the Law Department of said easement in the following described premises:

Northwesterly by land now or formerly of Clara E. Pinkham, twenty-seven and 95-100 feet; northeasterly by land now or formerly of Thomas

F. Welch, eight and 2-100 feet; southeasterly by said land of Thomas F. Welch, nineteen and 45-100 feet; northeasterly again by the said land of Thomas F. Welch, seventy-two feet; again northeasterly by Roberts avenue, so called, a private way, forty feet; again northeasterly by land of Thomas F. Welch situated on the south-easterly side of said Roberts avenue, fifteen and 94-100 feet; again northeasterly by land now or formerly of Max Jacobs, fourteen and 6-100 feet; southeasterly by said land of Max Jacobs, eight feet; southwesterly by said land of Max Jacobs, fourteen and 54-100 feet; again southwesterly by land of Thomas F. Welch, fifteen and 46-100 feet; again southwesterly by said Roberts avenue, forty feet; again southwesterly by land of Thomas F. Welch situated on the northwesterly side of Roberts avenue, eighty feet; containing, as shown on said plan, 798 square feet in the parcel lying northwest of Roberts avenue, so called; 320 square feet in the parcel lying within Roberts avenue, so called; 126 square feet in the parcel lying southwest of Roberts avenue, so called; 114 square feet in the parcel on said Jacobs' land, lying southeast of said Welch's land, as all of said parcels are shown on said plan No. 293, sewerage works, hereinbefore referred to.

Referred to the Committee on Public Lands.

TRAFFIC AT HAMILTON COOLIDGE SQUARE.

The following was received:

City of Boston,
Office of the Mayor, March 21, 1927.
To the City Council.

Gentlemen,—I transmit herewith a communication from the City Planning Board in reply to your order of February 7, 1927, relative to establishment of circle for improved handling of traffic at corner of Cambridge and Charles streets, known as Hamilton Coolidge square.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
City Planning Board, March 16, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—In reply to the foregoing order I would say that the City Planning Board, under date of December 29, 1926, submitted to your Honor a plan for the regulation of traffic and the relief of congestion in the vicinity of Hamilton Coolidge square, at the intersection of Cambridge and Charles streets.

This plan, which involved the taking of certain public and private properties in order to permit of the location of a circle and other changes in the street plan at this point, with a view to facilitating the flow of traffic, was submitted in principle only with the idea that a final plan would doubtless involve some readjustments in order to conform to the ideas of the Department of Public Utilities in their consideration of plans for an elevated station at this point.

As the matter stands at the present time, the sum of \$600,000 was authorized in 1924 for the erection of a station on the Cambridge subway line at or near the corner of Cambridge and Charles streets. This appropriation of \$600,000 was based upon plans prepared by the Boston Transit Department, and was considered sufficient to erect the type of station originally agreed upon, with platforms to accommodate four-car trains. These plans were later amended, however, to provide for six-car trains, which also necessitated certain changes in grades, etc., involving an estimated additional expense of \$250,000, or a total cost of \$850,000.

A bill requesting the authorization of this additional amount was submitted to the 1926 Legislature, but was referred to the next annual session.

A similar bill was introduced in the 1927 Legislature, House No. 360, providing for an additional appropriation of \$300,000, or \$900,000 in all, for the erection of the proposed station. A public hearing on this bill was held before the Legislative Committee on Street Railways and the petition was later given leave to withdraw.

A petition has now been filed by Representative Eliot Wadsworth providing for an investigation by a special commission, and a report on or before December 1, 1927, relative to the construction of an additional station on the Cambridge subway line, and to the widening in connection therewith of Cambridge and Charles streets in Boston, and has been referred to the Committee on Rules, where it rests at the present time.

In the meantime, the City Planning Board has conferred with the Department of Public Utilities and the Boston Transit Department, and it was the general sentiment that the whole matter should be held in abeyance until a decision is reached by the Legislature with regard to an elevated station at this point.

It is the opinion of the City Planning Board, as expressed in previous communications, that the entire problem should be considered as a unit, and that coincident with the preparation of plans for a new station there should be developed a program which will not only alleviate the difficulties occasioned by the congestion existing at the present time, which are admitted by all to be serious and

in urgent need of relief, but will also make provision for the future with its inevitable increase in both pedestrian and vehicular traffic.

Yours very truly,
FREDERIC H. FAY, Chairman.

COMMUNICATION FROM FINANCE COMMISSION IN RE GARBAGE COLLECTION.

The following was received:

The Finance Commission,
Boston, March 21, 1927.

To the Honorable the City Council.

Gentlemen,—I inclose herewith copy of communication in regard to contracts for the collections of refuse and garbage in the districts of Dorchester, East Boston, Brighton, Hyde Park and West Roxbury.

Yours very truly,
CHARLES L. CARR, Chairman.

Boston, March 21, 1927.

Hon. Malcolm E. Nichols,
Mayor of Boston.

Sir,—The Finance Commission presents its final report on the refuse and garbage contract of the City of Boston with D. M. Biggs & Co. for the Dorchester district.

Inasmuch as the charges of Councilman McGrath that aliens were being employed and that the wages paid were less than the contract price of 65 cents an hour covered not only the D. M. Biggs & Co. contract in Dorchester, but also other refuse collecting contracts, the commission decided to examine all the other contractors collecting refuse, namely, in East Boston, Brighton, Hyde Park and West Roxbury. The rest of the city is taken care of by the city's own forces.

The commission finds not only that D. M. Biggs has employed aliens on the work and has paid employees less than the contract price, but finds also that John J. Moore and Francis P. Donovan, subcontractor of Joseph P. McCabe, employ aliens and that John J. Moore, John J. Ward, and Frank P. Neelon,* subcontractor of Ward, pay less than the contract price.

* Mr. Neelon pays \$5 whatever the length of the day may be.

Thus other contractors beside D. M. Biggs have been operating in violation of the terms of the contracts.

The contracts for collecting refuse and garbage in the above-named districts of the city contain provisions to the effect that no person other than a citizen of the United States shall be employed on any public work being done by any contractor or subcontractor dealing with the city, but specifies certain conditions under which in case of necessity others may be so employed. These conditions briefly are:

1. A sworn statement from the contractor or subcontractor.

2. A public hearing before the Commissioner of Public Works.

3. The written authorization by the Public Works Commissioner for the employment of other than citizens, with the written approval of the Mayor.

The contracts also contain a provision that the contractor shall dismiss any employee engaged in the work when so requested by the commissioner and shall not re-employ the discharged employee.

These provisions are important in considering the question at issue and give to the Commissioner of Public Works absolute authority over the contractor to require the terms of the contract to be carried out literally.

In addition to John W. Biggs, the owner of the firm of D. M. Biggs & Co., the commission examined the following contractors and subcontractors:

John J. Moore, West Roxbury District.

Joseph P. McCabe, Brighton District.

Francis P. Donovan, subcontractor on garbage, Brighton District.

John J. Ward, East Boston District.

Frank P. Neelon, subcontractor on garbage, East Boston District.

Thomas E. Bryan, Hyde Park District.

Peter Wurcell, subcontractor on garbage, Hyde Park District.

Taking the contractors as they appear in the above list, the commission found the following facts:

1. D. M. BIGGS & CO.

Mr. Biggs was employing eight aliens in performing his work in the Dorchester district. Mr. Biggs explains the employment of the aliens on the ground that they are assigned to the collection of the garbage and that it is almost impossible to obtain citizen help in this kind of work. Although the Commissioner of Public Works orally requested Mr. Biggs to dispense with the services of these aliens Mr. Biggs declined to do so and, although your Honor on February 25 had a conference in your office at which your Honor added your request to that of the Commissioner of Public Works that the aliens be discharged, he again refused. Although the contractor continues to employ these aliens, no public hearings have been held, as specified in the contract and no written authority by the commissioner or approved by your Honor has been granted for employing them.

Wages Paid.

Some of the men are paid by Mr. Biggs \$4.50 a day, which he admits is less than his contract price, and which he sought to justify on the ground that the amount received by them is far in excess of the contract price of 65 cents an hour, because they receive pay from householders for rolling out barrels and doing various cleaning jobs on his time. He claims that his men receive between \$50 and \$75 a week all together by this method. The garbage men are paid \$7.50 a day, or \$2.50 a load.

The contract for this work contains a provision that the contractor shall provide at his own expense dumps for the refuse and that he shall deliver to a scow at Victory road the garbage of the district. Mr. Biggs claimed that he uses four private dumps and the Victory road dump belonging to the Park Department. The commission made a visit to the Dorchester district and could find evidence of use by Mr. Biggs of only one private dump. It appeared to the commission that the larger part of the refuse for the Dorchester district was being carted and dumped at Victory road. The privilege of dumping at Victory road was granted to Mr. Biggs by Mr. Long, the chairman of the Park Department, over the telephone. Mr. Donnell, the deputy in the Health Department, called Mr. Long's attention to the fact that no permit had been granted by the Health Department. Mr. Long held that as it was city property he had full authority and Mr. Biggs was allowed to continue to dump there. It appeared from the testimony that J. C. Coleman & Sons Co., which last year held the contract, had also the privilege of dumping free upon the Victory road dump, but that this company had the usual written permit. This formality required the patrolling of the dump by a watchman and the running of a hose from the hydrant to the dump itself, so as to prevent the breaking out of fires. It also appeared to the commission after a visit to the dump that the locus had been fairly well filled up and that it would be inadvisable to deposit any more refuse there. The commission found, however, that the charge of Councilman McGrath that the Victory road property was left by a member of the Calender family of Dorchester to the City of Boston for the purpose of a mothers' rest or a water park was erroneous. The city acquired the title by conveyance in the regular course, as appears from the opinion sent to the Commissioner of Public Works on May 21, 1913, by Judge Joseph J. Corbett, then Corporation Counsel. This opinion

may be found in the files of the Law Department, but the following quotation gives the important facts:

"The statement of your engineer that the land was deeded to the city 'for the creation of a water park' does not agree with the record title. The city may sell or make such use of these lands as it deems best."

2. JOHN J. MOORE, WEST ROXBURY.

The commission finds that Mr. Moore pays \$30 a week to his men for a six day week for a working day of 8 hours, and that he pays \$35 a week to his chauffeurs; that he employs two or not more than three aliens for work on the garbage; that although they are employed as aliens no public hearing was held and no written authority was granted by the Commissioner of Public Works for the employment of them. He has a private dump which is properly licensed.

3. JOSEPH P. McCABE, BRIGHTON.

The commission finds that Mr. McCabe sublets the garbage contract to Francis P. Donovan, who was the lowest bidder in this district for the general contract, but for some reason was rejected by the administration and the contract awarded to McCabe at \$460 a month more than the bid of Donovan. It therefore seems strange to the commission that Mr. Donovan was permitted to do the garbage work in the district under Mr. McCabe. Mr. McCabe employs only citizens in his work. He pays them \$4.50 a day for a seven hour day, and the balance is made up of tips which he allows the men to receive from the householders. He uses a private dump for his material. His subcontractor, Francis P. Donovan, testifies that of the thirteen men employed by him in the garbage removal two are aliens. All these men are paid 65 cents an hour and prior to the employment of aliens no public hearing was held by the Commissioner of Public Works, nor was written authority granted to employ them. He uses a private dump, properly licensed.

4. JOHN J. WARD, EAST BOSTON.

The work of collecting the garbage was let under a subcontract by Mr. Ward to Mr. Frank P. Neelon of Chelsea. Mr. Ward testified that he employed no aliens and paid 11 men \$32 a week. The rest of the force receive \$4 or \$4.50 a day, because they either do not work a full day or are allowed the privilege of doing extra work for householders or of picking over the junk. He uses a private dump for his refuse, for which a license has been granted.

5. THOMAS E. BRYAN, HYDE PARK.

The work of collecting garbage in the Readville district has been let to Peter Wurcell of Canton. Mr. Wurcell does the work himself. Mr. Bryan employs no aliens. The contract is a family affair. The work is done by Mr. Bryan, his uncle and his brother. He uses a private dump for his refuse which is licensed.

Although the commission criticised the letting of all the above described contracts, on the ground that not one was let to the lowest bidder it does not, now that the work has been going on under them for nearly three months, advocate cancelling them. It realizes that it is difficult for contractors to prevent their men from selling junk found in the refuse collected and from receiving pay for services rendered to householders on the contractors' time. This, however, is a difficulty for the contractors to solve. It does not release them from their contract to the city to pay the contract rate of wages.

The commission recommends:

1. That the Commissioner of Public Works require the contractors to pay the contract rate of wages.

2. That, if the need of employing aliens exists, the contractors be required to establish their right to employ them in the way provided in the contract.

3. That dumping at the Victory road land be discontinued and Contractor Biggs be required to provide whatever other dumps are necessary, to see that they are properly licensed, and that the terms of the licenses are followed.

4. That if thereafter any contractor refuses to comply with the contract provisions, the Commissioner of Public Works exercise his right to terminate the contract with the delinquent contractor.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

Placed on file.

STORAGE AND SALE OF GASOLINE.

Referred to the Executive Committee.

CONSTABLES' BONDS.

The constables' bonds of Abraham I. Weiss and Max Jacobs, having been duly approved by the City Treasurer, were received and approved.

APPOINTMENT OF NINA M. GEVALT.

Notice was received of the appointment by the Mayor of Nina M. Gevalt of 52 Park street, West Roxbury, to the position of Election Commissioner. Placed on file.

MINORS' LICENSES.

Applications were received for minors' licenses for twenty-two newsboys and twelve vendors, and it was voted that licenses be granted on the usual conditions.

CONFIRMATION OF APPOINTMENT.

President HEFFERNAN called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointment submitted by the Mayor March 14, 1927, of Charles J. Hurley, Jr., to be a Weigher of Coal.

The question came on confirmation. Committee, Coun. Dowling and Arnold. Whole number of ballots 16, yeas 16, and the appointment was confirmed.

MUNICIPAL BUILDING, WARD 14.

President HEFFERNAN called up, under unfinished business, No. 2 on the calendar, viz.:

2. Ordered, That the sum of five hundred thousand dollars be appropriated, to be expended by the Superintendent of Public Buildings for a municipal building in Ward 14, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, bonds or certificates of indebtedness to the said amount.

On March 7, 1927, the foregoing order was read once and passed, yeas 15, nays 1.

The order was given its second reading and passage, yeas 18. Nays—Coun. Dowling, Parkman—2.

REPAVING OF D STREET.

Coun. MAHONEY offered the following: Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave D street, South Boston, from First street to Dorchester avenue, with smooth pavement.

Passed under suspension of the rule.

REPAVING OF BOWER STREET.

Coun. BUSH offered the following: Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to repave with smooth paving, Bower street, Ward 12.

Passed under suspension of the rule.

CLEAN-UP CAMPAIGN.

Coun. McGRATH offered the following: Ordered, That his Honor the Mayor be requested to appoint a temporary committee, consisting of the Public Works, Fire, Building and Health Commissioners, to take charge of a "Clean-up Campaign" in Boston during the period of two weeks, beginning March 28, 1927, to appoint whatever extra help may be necessary to assist in this important work, and to submit an order to the City Council calling for an appropriation of \$1,000 to advertise the campaign and asking the assistance and co-operation of organizations, business men and individuals throughout the city.

Coun. McGRATH—Mr. President, in introducing this order, I ask for a two weeks' period to be set aside, starting with next Monday, in which we can have a clean-up campaign throughout our city. There is not any question but what, with the co-operation of the Commissioners of the Fire, Health, Building and Public Works Departments, we could have a lot of these dilapidated buildings torn down, that we could have our streets which are in a terrible condition, cleaned up, which would give work to hundreds of men here, and that it would be an opportunity for bringing out our new trucks in a campaign, the same as in a blizzard, where they could go out all through the city, with the co-operation of the local firemen who could add their supervisors with the foremen in the yards, and clean up the city which, today, is in a disgraceful condition.

Coun. GUILD—Mr. President, as I listened to the reading of that order, the last part of it calls for an appropriation of \$1,000 for publicity work. I question very much the need of spending \$1,000 in an advertising campaign of that sort. It seems to me that, if the Mayor were to announce it, the public press would seize upon it as an item of news value and explain it as much as was necessary. If the several departments concerned were to make it known, even orally, just outside their doors, that

they were engaged in hiring men for that purpose, the news would spread like wild fire, and I question very much, in my own mind, the advisability of spending \$1,000 for giving publicity to the campaign. I am heartily in accord with the purposes of the campaign, but I cannot see the need of spending \$1,000 to advertise the fact that we are engaged in it.

Coun. McGRATH—Mr. President, we have no authority to provide \$1,000, and so I have made that discretionary with the Mayor. If he thought he could get the proper publicity and amount of co-operation and assistance to carry on the work, I would have no objection to having them get the publicity, but I thought that might not work and, because that was discretionary and might originate with him, that I would incorporate that in the end of it.

The order was passed under suspension of the rule.

RECESS.

On motion of Coun. MAHONEY the Council voted, at 2.30 p. m., to take a recess, subject to the call of the Chair. The Council reassembled in the Council Chamber at 3.02 p. m., and were called to order by President HEFFERNAN.

EXECUTIVE COMMITTEE REPORTS.

Coun. GILBODY, for the Executive Committee, submitted the following reports:

1. Report on petitions (referred today) for permits for children under fifteen years of age to appear at places of public amusement, that leave be granted on usual conditions:

Dora Margolis, Practical Arts High School, March 17.

Mrs. W. D. Cottam, Washington Irving Hall, April 8.

Report accepted; said permits granted.

2. Report on order submitted by the Mayor (referred today) that the sum of \$5,500 be and hereby is appropriated from special fund, sales of city property, for Castle Island improvements,—that same ought to pass.

Report accepted; said order passed, yeas 19, nays 0.

3. Report on order submitted by the Mayor (referred today) that the sum of \$200 be and hereby is appropriated from special fund, sales of city property, for playground, Readville district,—that the same ought to pass.

Report accepted, said order passed, yeas 20, nays 0.

4. Report on order submitted by the Mayor (referred today) that the Superintendent of Supplies be and hereby is authorized to sell, after public advertisement, a quantity of Welsh coal screenings belonging to the Public Works Department, valued at over \$500,—that the same ought to pass.

The question came on the acceptance of the report and passage of the order.

Coun. GUILD—Mr. President, since the meeting of the Executive Committee I have been at some pains to verify the market prices of coal of this description. This order calls for the sale of a quantity of coal screenings at a price that approximates 83 cents per ton. I find that in the open market coal screenings of that description bring much nearer \$6 a ton than 83 cents. I move therefore, that the order be amended so as to read, instead of "five hundred dollars" "twenty-five hundred dollars."

The question came on the adoption of the amendment.

Coun. KEENE—Mr. President, it appears to me in matters of this nature where a commodity or property owned by the city is to be sold through the Supply Department and the order provides that it be sold in the usual manner by advertising, and specifies that it is of a value of over \$500, it really is not the purpose of the order in such a case to indicate the actual price. That language merely indicates that the property, whatever it is, is valued at over \$500, and therefore an order of this order should be passed by the City Council in order to deal with the matter. I appreciate the point made by the councilor, that Welsh coal screenings in the market are worth approximately \$6 a ton. That, however, includes not only the coal but the carting, and the carting represents the bulk of the cost. The city owns approximately 500 tons of Welsh coal screenings, located on city property under the supervision of the Department of Public Works. They come in here and ask for permission to sell it in the usual manner, and I am not in favor of putting in a limitation of \$2,500. I should say that it would easily cost \$4 a ton through a carting concern to have it delivered. This is something that we have no use for and want to sell. It seems to me that it is here proposed to be sold in the usual manner, and the order merely states that it is valued at over \$500. I trust that the report of the committee will be accepted.

Coun. PARKMAN—Mr. President, I agree with the last speaker. I don't think it has been made clear to the members of the Council that the pur. ose of using this language "valued at over \$500," is simply because the departments have authority themselves, where the amount involved is less than \$500, to sell without authorization from the City Council; but, the value in this case being

in excess of \$500, as stated by the order, the matter must then come before the City Council for action. That limitation, \$500, is no limitation whatever on the amount for which it is to be sold, and implies no estimate of the true value. It is simply that the value is over that amount and therefore the authority of the Council must be obtained.

Coun. GUILD—Then, Mr. President, standing corrected by the previous two speakers as to the purpose for which those words are inserted in the order, I will withdraw my motion, and I would now move to amend the order by inserting the words customary to insert in orders for sale of public land, "at an upset price of \$2,500."

Coun. GUILD's amendment was declared adopted. Coun. Keene doubted the vote and asked for a rising vote. The amendment was adopted, 8 to 5, by a rising vote.

The report was accepted, and the order as amended was declared passed. Coun. Keene doubted the vote and asked for the yeas and nays.

The order as amended was passed, yeas 10, nays 9.

Yeas—Coun. Bush, Dowd, Freeley, Gilbody, Green, Guild, Heffernan, Lynch, McGrath, Wilson—10.

Nays—Coun. Donovan, Dowling, Englert, Fitzgerald, Keene, Mahoney, Parkman, Ruby, Wragg—9.

COMPENSATION TO FRANK H. HAYFORD.

Coun. GUILD, for the Committee on Claims, submitted a report on the petition of Frank H. Hayford (referred March 14), for compensation for the loss of fowls killed by dogs, recommending the passage of the following, viz.:

Ordered, That there be allowed and paid to Frank H. Hayford the sum of \$4 in compensation for the loss of two hens killed by a dog or dogs January 7, 1927, said sum to be paid from the income for dog licenses.

Report accepted; order passed.

SHOWER BATHS AT FRANKLIN FIELD.

Coun. RUBY offered the following: Ordered, That the Park Commission be requested, through his Honor the Mayor, to keep the shower baths at Franklin Field open all the year round for the convenience of the people of the district.

Passed under suspension of the rule.

PROPOSED ABROGATION OF D. M. BIGGS CONTRACT.

Coun. McGRATH offered the following: Whereas, The D. M. Biggs Company has four times failed to be represented before the Committee on Unemployment Conditions of the Boston City Council to contradict the testimony submitted to the committee, and which testimony tends to show that (1) the company is employing aliens to more than ten per cent of its total personnel; (2) the company refused to pay the prevailing rate of wage as contracted for to some forty of its employers and (3) the company has been using land for a dump without the approval of the Fire and Health Commissioners as specified in section 5 of the contract; be it therefore

Ordered, That his Honor the Mayor be requested to direct the Public Works Commissioner to abrogate the contract made between the City of Boston and the D. M. Biggs Company for the removal of ashes and garbage in the Dorchester district, for the reason that the D. M. Biggs Company is not complying with the terms of the contract.

The question came on the passage of the preamble and order.

Coun. McGRATH—Mr. President, I have introduced this order because I personally feel, as the Finance Commission after a long controversy have finally handed down their findings in this matter, that the people of this city are to be congratulated upon this unscrupulous contractor being blocked in his refusal to carry out his contract in a proper manner. The report of the commission came in only about half an hour ago, and I have not had ample opportunity to read it; so I am not as prepared as I would like to be to pass on the matter. I find they say that Biggs testified that it is almost impossible to obtain citizens to do this kind of work, and that, although the Commissioner of Public Works has requested Biggs to dispense with the service of aliens and employ citizens he declines to do so. He says, sir, that he cannot get citizens to take the place of these aliens whom he is now employing in Dorchester. In that matter I would submit the testimony of P. Henry Jennings, the business agent of the Central Labor Union, who says there are between 60,000 and 70,000 men unemployed in Boston today, and when we asked him about possibly getting some of those men who are citizens to take the place of these aliens, he said yes, that hundreds of them would even be glad to drive swill wagons. That was his expression. When the Public Works Commissioner says to Mr. Biggs, "You dispense with the services of these men," and he refuses, I think that is a very hostile act. But, sir, it says farther down

in the report of the commission that some of the men are paid by Mr. Biggs \$4.50 a day, while he admits is less than his contract price. He excuses his not paying the price he is expected to pay under the contract by saying that the men receive pay from householders for rolling out barrels and doing various cleaning jobs during the time when they are employed on the contract work. Now, sir, these men were not employed by the householders and they were never supposed to be paid by the householders; and I think this could be called a violation of the contract, because, as I understand it, they are supposed to return the barrels to the point where they found them without cost. Mr. Biggs also claimed that he used four private dumps. That is what he claimed when he was under oath before the commission. What is the truth of the matter? The commission says:

"The commission made a visit to the Dorchester district and could find evidence of use by Mr. Biggs of only one private dump."

Even under oath this man would not tell the truth. Now, sir, he also refuses to let the aliens go and to hire citizens; he refuses to pay the contract price, and the only thing left to do is what this order calls for, abrogate that man's contract, because he absolutely refuses to carry out the terms of the contract he signed with the City of Boston. So far as the dump is concerned, in my experience in politics I have always found it to be the consensus of opinion of men in politics that there are two departments in the city that no man can afford to tamper with. One is the Fire Department and the other is the Health Department. That is because the functioning of these two departments is so important to the welfare of the city. Under section 5 of the contract this man was not supposed to use a dump unless he got the approval of the Public Works Department and the Health and Fire Departments. He went ahead and used this dump, however, without the approval of the Fire and Health Departments, and I say that until the Finance Commission places the responsibility for this they have not completed their report. Who is responsible? Who is responsible for holding up the workings of the Health and Fire Departments? From my way of looking at this report they admit that murder has been committed, but there is no murderer indicated, and until such time as the Finance Commission finish their report, showing us what powerful political factor in this city had courage enough to openly defy the ordinances with reference to the Health and Fire Departments, I don't feel that the citizens of this city will consider that they have done their duty. I am glad that they made the findings they did, and sent a copy of their findings to the Hall, showing exactly what the hearings brought forth; but I sincerely hope they will go farther and insist that this contract be abrogated entirely.

Coun. GILBODY.—Mr. President, I am glad the chairman of the Committee on Unemployment has brought this matter up, and I am going to support this order, because from my knowledge of the matter I know that what he says is true. The plan of campaign I had in mind was to try to have the amount for the Biggs contract stricken out of the Public Works Department appropriation, when it came before the budget committee, for violation of the contract in Dorchester. As the previous speaker has well said, the four salient charges brought out as a result of the hearing before the Committee on Unemployment, on February 12, brought this matter to a head, and what was indicated as the result of the examination by the committee is now substantiated by the report of the Finance Commission. I am going to take the time of the Council for but a moment to set forth, for the purpose of the record, a specific instance. I have in my hand the name of a man who has been seeking work from this contractor and who has been unable to get it. He is a man with five children, a citizen of Boston, endeavoring to support his family, typical of many other citizens, ready and willing at a moment's notice to go to work for Mr. Biggs, the Dorchester contractor. We are now going through this trouble in regard to this contract, which is being violated, as has been set forth, and I would like to suggest a constructive solution. There is here a violation of the rules of the Health Department and the Fire Department. The solution is this, and it is one that can be put into effect within a few months. Develop your scow dumping system. Have the ashes and garbage dumped into a scow and transported to Spectacle Island or dumped into the sea. That is the solution. The whole situation could be remedied very easily except for the mysterious hand that is conducting the campaign on behalf of this contractor, as suggested by Coun. McGrath. We have heard many rumors going about in Dorchester but I merely suggest that this order be passed, and if the action suggested is taken there will then be no necessity of carrying out my suggestion to have the amount of the Biggs contract stricken from the budget.

Coun. GUILD.—Mr. President, this is a matter of considerable importance, and I have not had the benefit of attending the meetings of the Committee on Unemployment, which have been held from time to time. We are confronted here this afternoon with the report of the Finance Commission. That report, I take it, in its terms does not suggest the stand which Coun. McGrath's order calls upon us to take. Therefore, I am a little bit reluctant, not having had time to thor-

oughly digest the Finance Commission's report, to vote upon this order at this time. I would, accordingly, move that the matter be assigned to the next meeting.

The question came on assignment of the preamble and order to the next meeting.

Coun. McGRATH.—Mr. President, because of the importance of this entire situation, as Coun. Guild intimates, I think we should strike while the iron is hot. We all know how these things die out, if you allow them to lay over sometimes even for twenty-four hours. It is clear that this contractor is still refusing to carry out the recommendations of the Commissioner of Public Works, and there certainly should be some power in this city to show this contractor that he cannot deny to the citizens the right to have their money properly expended. I hope that we will take action while the iron is red hot.

The motion to assign the preamble and order to the next meeting was declared lost.

The preamble and order were passed under suspension of the rule.

NEW COURTHOUSE, SUFFOLK COUNTY.

Coun. GILBODY offered the following:

Whereas, The City Council of Boston in regular meeting assembled January 17, 1927, adopted a resolution favoring legislation authorizing the City of Boston to borrow money outside the debt limit to be used for the purpose of building a new courthouse in the City of Boston; and

Whereas, Said resolution was vetoed by his Honor the Mayor on January 31, 1927; and

Whereas, A report and bill is now before the Legislature for the appointment of a state commission to take land and build a courthouse in the City of Boston, one half the cost of which is to be paid by Suffolk County; therefore he it

Resolved, That the City Council of Boston oppose any legislation creating a state commission to build a courthouse for the City of Boston as an unwarranted invasion of the rights of the people of Boston; and be it further

Resolved, That the City Council of Boston oppose Senate Bill No. 251, now pending; and be it further

Resolved, That the City Council of Boston adhere to its position as expressed in the resolution adopted on January 17, 1927, in favor of a new courthouse to be built by the City of Boston.

Referred to the Executive Committee.

SUFFOLK COUNTY EXPENSES.

Coun. PARKMAN offered the following:

Resolved, That the Boston City Council favors the appointment of a special commission, fairly representative of the various interests of the County of Suffolk, to study and report on the apportionment of Suffolk County expenses.

Coun. PARKMAN.—Mr. President, just a word in explanation of that resolve. The bill for apportionment of county expenses among the cities of Boston, Chelsea and Revere and the town of Winthrop was given leave to withdraw in the Legislature, and there is now pending before the Committee on Counties a substitute resolve providing for a commission to study and report to the Legislature on the subject. I have introduced this resolve in order to support the resolve of Representative Tobin, which is now before the Joint Committee on Counties, and I would like to ask for a suspension of the rule and the passage of the order.

The order was passed under suspension of the rule.

SIDEWALK ON TALBOT AVENUE.

Coun. WILSON offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Talbot avenue, both sides, between Codman square and Peabody square, Ward 17, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edge-stones, under the provisions of chapter 196 of the Special Acts of 1917.

Coun. WILSON.—Mr. President, speaking upon this order, I do not look upon it as an ordinary sidewalk order. Talbot avenue, between Codman square and Peabody square, Dorchester, is a 50 or 60 foot main highway, with a ear line, and it is a direct route to Neponset and the South Shore. It seems to me it is entitled to have good sidewalks throughout its entire length. At the present time at intervals on each side, there are granolithic sidewalks built or contracted for, for about two thirds of the distance, but on the easterly side there are five, and on the westerly side four stretches of dirt sidewalk. During the past week the department in charge of that part of the city has been kind enough to put up stakes and red lanterns to mark the exceptionally bad crevasses, mud holes and quicksands that one encounters in passing along the sidewalk, but in an enlightened community such as Boston it should really not be necessary to chart and mark out our sidewalks on main highways with danger signals after each bad storm. I accordingly ask a suspension of the rule and passage of the order at this time.

Coun. GILBODY.—Mr. President, inasmuch as I divide the representation of this section with my brother, I would also like to point out the fact that the sidewalks are used by hundreds of children going to and from the Dorchester High School, that conditions are very bad, and that this is an important matter which demands immediate attention.

The order was passed under suspension of the rule.

RECONSIDERATION REFUSED.

On motion of Coun. BUSH, a general reconsideration of all action taken today was refused.

Adjourned at 3.36 p. m., on motion of Coun. PARKMAN, to meet on Monday, March 28, at 2 p. m.

INSTALLATION OF SHOWER BATHS AND GYMNASIA EQUIPMENT IN SCHOOLS.

A communication was received from the Superintendent, under date of Mar. 7, 1927, to whom was referred at the meeting of Oct. 25, 1926 (see p. 241), an order of the City Council relative to the installation of shower baths and gymnasias equipment in schools, as follows:

ORDERED, That the Boston School Committee be requested, through His Honor the Mayor, to consider the advisability of installing shower baths and gymnasias equipment in all the old schools throughout the city that are not so equipped at the present time.

In accordance therewith, the Superintendent submits the following statement, with the suggestion that the same be forwarded to the City Council of Boston:

"At the present time showers are provided in The Teachers College, in thirteen of the sixteen high schools, in the Boston Trade School (for boys), in the Boston Clerical School, in three intermediate school buildings, and in one elementary school building.

"There are gymnasias in The Teachers College, in fifteen of the sixteen high schools, in the Boston Clerical School, in the Boston Trade School, in three intermediate and one elementary school building.

"Under date of Nov. 6, 1923, the Director of Physical Education, in reply to a request from the Superintendent, stated that the showers were not used in the Girls High School, the Girls Latin School, the Dorchester High School for Girls, the High School of Practical Arts, and the Roxbury High School; and that the showers were not used by girls at the Jamaica Plain High School. The Director at that time approved the request of the head master of the Girls High School that the showers there be removed to give more locker space. At the time this statement was made by the Director of Physical Education, the only showers in use by girls were those in The Teachers College. Showers were used by boys throughout the year in the Public Latin School, Dorchester High School for Boys, East Boston High School, South Boston High School, and the Boston Trade School. They were used by boys throughout the track season at Brighton High School, Charlestown High School, English High School, and High School of Commerce, and were used on rare occasions by boys at the Jamaica Plain High School. It was evident from the study of the Director that showers were not at all popular with the girls, and were not used as extensively as they might be by boys, except in connection with athletics.

"As a result of this report it was decided that no further provision for installing shower baths in any school building should be made until the Superintendent or the Board of Apportionment should determine the need.

"It is possible that the City Council did not fully realize the scope of the expression—"all the old schools throughout the city"—as the expense involved in installing shower baths in all these schools would be enormous. Only a careful survey under the direction of the School Committee or the School-house Department could designate

buildings in which suitable space could be found for showers; and no less careful consideration would be necessary in the selection of districts in which the use made of such accommodations would be sufficient to warrant the expense involved.

"Since a general installation of showers is entirely beyond the present financial resources of the School Committee, the only thing possible is to investigate and report upon the conditions obtaining in the particular buildings that the Council may see fit to designate."

The report was accepted and a copy ordered transmitted to the City Council.

APPOINTMENT OF ASSISTANT IN SUPERINTENDENT'S AND SECRETARY'S OFFICES.

A communication was received from the Secretary, under date of Mar. 7, 1927, reporting that, subject to the approval of the Board and with the approval of the Commissioner and Purchasing Agent of the Massachusetts Commission on Administration and Finance, she has appointed Rose A. Lyons as assistant, Group C, in the offices of the Superintendent and the Secretary, by transfer from the Commission on Administration and Finance, to take effect Mar. 14, 1927.

Placed on file and the appointment approved, to take effect on the date stated.

On motion of the Superintendent, it was

ORDERED, That the salary of Rose A. Lyons, assistant, Group C, in the offices of the Superintendent and the Secretary, is hereby established at the rate of twenty dollars (\$20) per week, to take effect Mar. 14, 1927, and to continue until otherwise ordered.

CERTIFICATION AND APPOINTMENT OF SCHOOL PHYSICIANS.

A communication was received from the Secretary, under date of Mar. 7, 1927, reporting that the Division of Civil Service has certified the following-named persons as eligible for appointment as school physicians:

Carmi R. Alden, Pierce J. Dunphy, Morris A. Silberg and Maurice L. Silverstein.

Placed on file.

On motion, Dr. Carmi R. Alden and Dr. Pierce J. Dunphy, the candidates standing highest on the list, were appointed school physicians, to take effect Mar. 14, 1927.

AMENDMENTS TO ELIGIBLE LIST.

A communication was received from the Board of Superintendents, under date of Mar. 7, 1927, reporting that, under the terms of the order passed at the meeting of Jan. 10, 1927 (see p. 10), Harry J. Tobin, a candidate of December, 1925, for the certificate of qualification XXX. Day and Evening Industrial Schools, has completed his examination by giving the required demonstration lesson, with a total rating of 769, and the certificate has accordingly been granted; and also re-

porting that School Document No. 7, 1926—Candidates Eligible for Appointment as Teachers—has been amended by inserting Mr. Tobin's name under certificate XXX., Carpentry, at the place indicated by the rating, as follows

APPROVAL BY THE MAYOR OF ORDERS INVOLVING SALARY ADJUSTMENTS AND OTHER EXPENDITURES WITHIN BUDGETARY LIMITATIONS.

A communication was received from the Corporation Counsel, under date of Jan. 19, 1927, pursuant to the action of the School Committee at its meeting on Nov. 15, 1926, (see pp. 265-70), requesting a ruling as to the necessity for the continuance of the policy of submitting to His Honor the Mayor for approval:

(1) Orders of School Committee increasing salaries of teachers, custodians and other employees;

(2) Orders involving general expenditures;

(3) Orders covering transfers within appropriations for all school purpose from one item to another item.

After reading the statutes which have bearing on the power of the School Committee to make appropriations as provided in Chapter 206 of the Special Acts of 1919, as amended, and the provisions of Chapter 486 of the Acts of 1909, as amended, which contain the entire authority which the Mayor has over appropriations and expenditures of the School Committee, the Corporation Counsel reported in substance as follows:

"That the School Committee must submit to the Mayor for his approval not only the original appropriation order, as divided into the statutory items and as divided into sub-items by the School Committee, but it must also submit to him for his approval all transfers from one statutory item to another if the limit specified in sec. 1 as to amount has not been exceeded, and also all transfers from a sub-item to another sub-item. The Mayor's approval is required, for example, if a transfer is sought from Item A, as contained in sec. 1 of the 1919 act, entitled "General School Purposes" to another item designated in sec. 1 as "(I) Vocational Guidance" provided, of course, that the amount which the Legislature authorized to be expended under "Vocational Guidance" is not exceeded by virtue of the transfer. His approval is also required if, for instance, the School Committee desires to make a transfer from the sub-item "Teachers' Salaries" under Item A in sec. 1 of "General School Purposes" to another sub-item under Item A described in your appropriating order as "Supplies."

The next question submitted by you is whether the Mayor's approval is necessary in the case of transfers within a sub-item such as "Teachers' Salaries," that is, must the Mayor's approval be secured when the School Committee desires to effect certain changes within a sub-item like "School Teachers' Salaries" or within the sub-item "Supplies" by intra sub-item transfers. In my opinion his approval is not required in such cases. Such transfers do not involve questions in which the Mayor is authorized to concern himself. They involve matters which the Legislature intended should be entirely within the control of the School Committee, as the authorities in charge of the management of the City Schools.

The third question which you ask is whether the Mayor's approval is required on orders of the School Committee making expenditures within the various items and sub-items. I find no requirement in the 1919 act or in any other act requiring the Mayor's approval on the vote of the School Committee making expenditures of money within appropriations already authorized and approved by him. Sec. 2 of the 1919 act only requires the Mayor's approval on the appropriations authorized in Sec. 1 of the act known as Items A, B and C, as divided into their sub-items by the School Committee. There is no provision requiring his approval on the orders of the School Committee making expenditures to pay bills and expenses incurred by the School Committee within the va-

rious items and sub-items. These bills must be paid by the City Treasurer when approved by the City Auditor, who is required by law to be satisfied that the particular expenditure is a proper one and is within the law."

In connection with the foregoing ruling of the Law Department, the Business Manager submitted the following communication:

With reference to my communication of Oct. 18, 1926, which called attention to the practice of sending to His Honor, the Mayor of Boston—(a) orders of the School Committee of the City of Boston increasing the salaries of teachers, members of the supervising staff, officers, custodians and other employees; (b) orders involving the expenditure of money for other purposes; and (c) orders covering transfers within appropriations for all school purposes from one item to another, I would say that I have read very carefully the opinion of the Corporation Counsel, and it is very evident that all of my contentions are supported by this opinion, with the exception of transfers from one main item or subdivision thereof to another main item or subdivision thereof.

These main items or subdivisions thereof are as follows:

1. Salaries of instructors (principals, teachers, members of the supervising staff and others).
2. Salaries of officers (administrative officers, attendance officer, clerks, stenographers and other employees.)
3. Salaries of custodians (including matrons)
4. Fuel and light (including electric current for power).
5. Supplies and incidentals.
6. Pensions to attendance officers and custodians.
7. Physical education.
8. School physicians and nurses.
9. Pensions to teachers.
10. Extended use of the public schools.
11. Alteration and repair of school buildings, etc (as subdivided).
12. New school buildings, lands, yards, etc. (as subdivided).

The opinion of the Corporation Counsel defines for the first time the powers of the School Committee in making expenditures under its appropriations. It is clearly stated that the votes or orders of the School Committee increasing the salaries of teachers, members of the supervising staff, officers, custodians and other employees, and votes or orders involving the expenditure of money for other purposes, which are within the appropriations, need not be sent to His Honor, the Mayor, for his approval, and that therefore these matters of organization and control within budgetary limitations may be decided by the School Committee of the City of Boston and by that Committee only.

After the budget for the financial year is once adopted in accordance with the requirements of existing statutes, the only orders of the School Committee that it is necessary to send to His Honor, the Mayor, for his approval, are orders transferring sums of money from one item to another or from one subdivision of an item to another in the annual appropriation orders. Practically all of these transfers are made at the request of the Schoolhouse Commission, a department under control of the Mayor.

I am therefore recommending that the Secretary of the School Committee be requested to discontinue the practice of sending to His Honor, the Mayor, for approval the following orders:

a. Orders of the School Committee of the City of Boston establishing salary schedules for teachers and others.

b. Orders increasing salaries of teachers, members of the supervising staff, officers, custodians or any other employees.

c. Orders involving the expenditure of money for other purposes.

As I have previously informed your Committee, such orders, based on budgetary provisions and limitations, are purely and peculiarly within the jurisdiction of the School Committee. The opinion of the Corporation Counsel to the School Committee, dated January 19, 1927, as stated in the first paragraph of this communication, unqualifiedly supports my contentions, with the exception, viz., transfers."

The communication from the Law Department was placed on file, and it was agreed that hereafter procedure in forwarding orders for approval to His Honor, the Mayor, shall be in accordance with the ruling now given by the Law Department and as clearly outlined in the communication from the Business Manager.

The communication from the Business Manager was placed on file and the Chairman and Mr. Sullivan, on behalf of the School Committee, commended the Business Manager for the amount of time and study he has put into this matter, which has resulted in a clear definition from the Law Department of the authority of the School Committee in matters which involve the expenditure of money in so far as necessity for securing the approval of his Honor, the Mayor, is concerned.

LEAVES OF ABSENCE TO CUSTODIANS.

A communication was received from the Schoolhouse Custodian, under date of March 7, 1927, recommending that Daniel C. Danick, custodian, Cottage Place Schoolhouse, be granted leave of absence for the period Jan. 19 to Mar. 12, 1927, inclusive, on one-half net compensation, because of personal illness.

Placed on file and leave of absence on one-half net compensation granted for the period specified.

TRANSFER OF A CUSTODIAN.

A communication was received from the Schoolhouse Custodian, under date of Mar. 7, 1927, submitting a list of applicants desiring transfer to the custodianship of the Thomas J. Kenny Schoolhouse, and recommending that James J. Walsh, custodian, Charles Bulfinch Schoolhouse, who stands at the head of the list, be appointed to the position, to take effect Mar. 4, 1927.

Placed on file and the transfer of James J. Walsh approved, to take effect on the date stated.

REPORT ON CHARGES PREFERRED AGAINST AN ATTENDANCE OFFICER

The Chairman stated that several weeks ago charges were preferred by John F. Geaghty against Irving T. Howe, a recently appointed attendance officer. The charges in substance were that Mr. Howe was guilty of defamation of character of the daughter of the complainant, and of conduct unbecoming a police officer prior to his appointment as an attendance officer.

The School Committee held two hearings as a result of these charges at which hearings the parties interested, their counsel, and such witnesses as they saw fit to bring, were present.

After careful consideration and investigation, a majority of the Committee—Mrs. Barron, Messrs. Gray and Sullivan—submit the following report and findings:

The Committee, after full investigation and consideration, finds that Irving T. Howe did not act in such wise as to render him unfit for the position of attendance officer, and was acting in due performance of his duty as a police officer.

The Committee desires to go on record as stating that its finding is in no way an impeachment of the character of the complainant's daughter, and in its opinion her character stands unimpaired.

In support of the report and findings of the majority of the Committee, the individual members comprising the majority, namely, Mrs. Barron, Mr. Gray, and Mr. Sullivan, made the following statements:

Mr. Gray: Irving T. Howe, who headed the Civil Service list, was appointed an Attendance Officer by this committee on January 24. Shortly thereafter a complaint was lodged with the Committee, in which it was alleged that on an occasion named, Howe, who at the time stated had not been appointed to our Attendance Department but was then a member of the police force, had acted in a manner unbecoming a police officer. The Committee had no knowledge of the complaint or the action complained of when it appointed Howe an Attendance Officer but as a result of the complaint a hearing was held by the Committee. The sole question for the determination of the Committee was whether or not Howe by reason of the complaint against him while acting as a police officer was unfit to be an Attendance Officer in the school system.

After full investigation and consideration of all the facts, I am clear-

ly of the opinion that Mr. Howe did not act in such wise as to render him unfit for the position of Attendance Officer, but that he was acting in the due performance of his duty as a police officer.

Although this was the only question before the Committee, in view of the nature of the complaint and of the proceedings before us, I should deem it unfair and unjust if I did not state publicly that the above finding is in no way an impeachment of the character of the complainant's daughter, whose character in my opinion stands unimpaired.

Mr. Sullivan: Irving T. Howe was appointed unanimously attendance officer by the School Committee on Jan. 24, 1927, to take effect Feb. 1, 1927. Mr. Howe was then a police officer attached to Division 9, Boston. Subsequent to Feb. 1, 1927, a complaint was lodged with the School Committee alleging that Mr. Howe was guilty of defamation of character in the performance of his duties as police officer and of conduct unbecoming a police officer. The alleged offense which caused said complaint occurred on Jan. 21, 1927. The Police Department accepted without reservation Mr. Howe's resignation tendered Jan. 28, 1927, to take effect Jan. 29, 1927. In my opinion this complaint was properly and exclusively for the consideration and determination of the Police Department or the courts, or both, and had no proper place before the School Committee. To hold otherwise would jeopardize each and every prospective employee of the School Committee and other municipal and governmental departments, and would confront such prospective employee with the liability of accusation and complaint concerning his actions, real or fictitious, from the point when such prospective employee attained the age of reason to the date of his employment by the School Committee or other municipal or governmental department, which is manifestly unjust and improper.

Nevertheless, hearings were held by the School Committee in the matter of this complaint. There was no allegation at any time during the hearing by the complainant of any assault by Mr. Howe, and certainly not the necessary preponderance of evidence of a deliberate insult by Mr. Howe. Captain Fitzgerald of Station 9, who was called as a witness by the complainant and not by Mr. Howe, and who therefore can be fairly characterized as hostile to Mr. Howe yet testifying to the best of his knowledge and belief, declared in his testimony that Mr. Howe had a right on the premises where the offense is said to have occurred.

The positions of police officer and attendance officer are distinct and different, and the one and same act might be highly proper in the exercise of police discretion and highly improper in the exercise of attendance officer discretion, and vice versa. Just as the two positions are distinct and different, so is the exercise of discretion different for each position.

Mr. Howe had the fundamental American right to the presumption of innocence until proven guilty in this proceeding by at least a preponderance of evidence. He was entitled to this presumption of innocence as an American surely in view of his splendid record as a scholar,

athlete, overseas veteran, and police officer. There should not be any consideration of color, race or religion in our community and no such consideration was entertained by any member in the appointment of Mr. Howe, and no such consideration should enter into the disposition of this complaint.

The complainant's daughter, in my opinion, possesses an exemplary character, confirmed by the determination of the majority of the School Committee in this proceeding, and is in no manner or measure prejudiced or impaired.

Mrs. Barron: I agree with the reasons given by Mr. Gray and Mr. Sullivan. I also want to add that, although I was not present at the first part of the hearing, I read the evidence very carefully, the stenographic record, and with the consent of her counsel, I talked with the young girl personally so that I might not lose the benefit of the personal impression; and inasmuch as the girl herself testified at the subsequent hearing at which I was present, feel I was in a position to vote as I did.

I was very much impressed with the evidence given by Judge Joseph A. Palmer, a special justice of the Roxbury Municipal Court. Judge Palmer is a man of tried and excellent judgment as well as respected in his community, and Judge Palmer said that from his personal knowledge of Mr. Howe, from investigation of cases under the direction of Judge Palmer, and from his observation of him in the court room day after day, he felt that Mr. Howe was eminently fair and of splendid character.

There were also character witnesses for the girl, and I wish to say also that I believe that the character of the complainant's daughter is absolutely unimpaired, notwithstanding the fact that I felt that Mr. Howe acted in a proper manner. I believe that the sole motive which actuated Mr. Howe in entering the premises referred to at the hearing, was purely to protect the girl from possible harm. Although it is an interesting coincidence that the three lawyers on the Board found for Mr. Howe, I want to say that we did not guide our decisions by legal testimony, that is, we did not say that Mr. Howe was not guilty because he was not proven guilty beyond a reasonable doubt. I think we acted as laymen would act, and not as lawyers in saying whether or not there was a preponderance of evidence. I believe that Mr. Howe had a right on the premises, that to find him guilty on the evidence that was presented to us and to discharge him on that ground, would be most unfair and most unjust, and would be to label him as a man of bad character and practically cripple him for life, and I believe that the evidence does not justify such action.

Dr. Bogan and Mr. O'Hare, a minority of the Committee, disagreed with the report and findings of the majority of the Committee, as set forth above, and submitted the following statements in support of their contentions:

Dr. Bogan: I respectfully disagree with the findings of the majority of the School Committee on the complaint of John F. Geraghty against Irving T. Howe, for the following reasons:

After listening with open mind to all the evidence submitted at the hearings held by the School Com-

mittee, I am convinced that Miss Geraghty is absolutely innocent of any wrong doing. All the testimony presented on both sides of the case went to prove conclusively that she is a girl of excellent character and reputation. I believe that Miss Geraghty told the truth about what occurred in the store on the evenings in question.

As I am convinced that the girl told the truth, I cannot give credence to the story of Mr. Howe. I believe that Mr. Howe was not justified in his suspicions of Miss Geraghty, that he exceeded his authority in spying upon the young people in question, and that his attitude in the instances reported to the School Committee was questionable and unbecoming either a police officer or an attendance officer.

Finally, from all the evidence offered, I am convinced that Mr. Howe is not the type of man for an attendance officer.

Mr. O'Hare: May I refer to a few things that came up in the course of the deliberations of the School Committee. In the first instance, I believe that the School Committee of the City of Boston would have at least deferred action on the appointment of said Irving T. Howe on January 24, were they cognizant of the happenings of January 21, 1927, when said Irving T. Howe was a member of the Police Department. Secondly, we knew that we could not sit as a body on the charges as presented, since we could not sit on defamation of character which is for the courts to determine; nor could we sit on conduct unbecoming a police officer, which is for a Trial Board of the Police Department to determine. Consequently, we had to reach our best judgment as to Mr. Howe's capabilities for continuing as an attendance officer since we had duly appointed him. No one of the Board, and I can speak for myself, in finding on this case, considered the man's color, or racial extraction, or his creed. We merely gave our best reaction to facts as presented, and nothing else.

From all the evidence presented to the School Committee concerning Mary F. Geraghty, the girl whose father made the complaint to us, I find that said young lady is of exemplary character, is of excellent habits, and is absolutely pure and chaste. Furthermore, I find that Irving T. Howe, formerly a police officer in the City of Boston, and elected on Jan. 24, 1927, by the entire School Committee as an attendance officer in the public schools, in his acts and actions on Jan. 21, 1927, at or about 9:40 o'clock P. M. did not use good judgment, and was faulty in the use of his discretion in performing his duties as a police officer. I am not attacking the man's character, but I am judging his qualifications for a position. Because of these findings, I believe that said Irving T. Howe is not a suitable person to serve further as attendance officer in the public school system of Boston. Needless to say, we of the School Committee, did not know of the happenings as above noted on Jan. 21, 1927, when we, on Jan. 24, 1927, voted for said Irving T. Howe as a unit.

The report of the majority of the Committee was accepted, and the findings adopted as the findings of the Committee; the statements of the individual members were placed on file.

CAMPAIGN AGAINST DISTRIBUTION OF "RED" PROPAGANDA AMONG PUPILS.

Mr. Sullivan: I want to speak of one matter very briefly and that is regarding the so-called "Red" propaganda which has been circulated in the neighborhood of the Phillips Brooks and Oliver Wendell Holmes Schools. I note that the Boston City Council has ordered an investigation. I want to sincerely congratulate the City Council for its effort in this matter and wish to assure the City Council that the School Committee appreciates its co-operation, but I also desire at this time to remind the City Council that our Superintendent's Americanism has never been questioned. He is not only sufficiently American, but also is sufficiently intelligent, capable, and accomplished, and of sufficient determination, to lead whatever campaign is necessary in this drive against the "Red" propaganda in our schools. And I want to add right here that I know the Superintendent will appreciate and does appreciate the co-operation of all other governmental agencies. I personally can look to no one with more confidence than to the Superintendent for a most thorough, capable and adequate investigation, determination and report to us of this alleged "Red" situation.

Dr. Bogan. That matter is now in the hands of the Superintendent and has been for the past week.

Mrs. Barron: May I state that as a matter of personal knowledge, I happened to visit one of the schools mentioned and I know that our Superintendent a week ago last Monday had already begun an investigation even before the newspapers had knowledge of it.

On motion of Mr. O'Hare, the Superintendent was asked to request principals of schools and districts to instruct teachers in charge of school buildings to collect and forward to the Superintendent without delay, any so-called "Red" literature which may be found at any time in or about school buildings.

The Superintendent was further requested to seek the co-operation of the Police Commissioner in his efforts to prevent the distribution of such deleterious material.

LEAVES OF ABSENCE FOR EUROPEAN TRAVEL.

Mrs. Barron made the following statement: Several requests have come from teachers in our service that they be granted leave of absence on the last two or three days of school, for the purpose of European travel, without pay, of course. After discussion, it evidently is the opinion of the majority of the Board that all these cases should be treated alike, and that it would be inadvisable to allow any teachers leave for European travel the last few days of school. I personally am very much opposed to this ruling. I believe that every case should be treated on its individual merits. It seems to me inhuman to put such red tape in our schools when we have 4,000 teachers, and only a dozen have asked for leave. I do not think that any private concern that has had an employee as long as some of these applicants have been in the schools, would take such a stand—one teacher has been 31 years in the service and has never had a sabbatical leave. I do not know any of these teachers; I have never

seen them; they have not come to me personally, but they have written to the Superintendent, and when a teacher writes that she has been in the service thirty-one years, when she writes that she would have to give up a trip which she has looked forward to for years unless leave of two days without pay is granted, you can see why I think it is pre-eminently unfair not to consider her case on its own merits.

We allow teachers in the middle of the year to go to conventions. Permission was just given to a teacher to go for three days to New York to take part in a chorus, without pay, and I think that is perfectly proper. Travel is certainly an educational factor. I think you have taken the human element out when you say "you cannot go because you would disrupt your class." A substitute can be placed in that teacher's class. She is going to bring back something she would not have if she did not travel. To make an absolute rule without any regard to the merits of the case is unfair. I do hope the members of the Board will consider this question again and take up every case on its merits. There is a letter from one teacher who says that she has been twenty years in the service and has been looking forward for years to a trip. It is a cruise to Norway, a trip to the Land of the Midnight Sun, which would necessitate losing the last day of school, and yet the Board says we cannot consider the merits of this case because it would disrupt the class. I would object to anything that would interfere with the education of our children, but I do not believe absence of one or two days is such interference. It has been said by educational experts that the teacher is not a good teacher unless she gives to the children something of her personality, something of herself. Simply to teach the rudiments is not sufficient; travel broadens. I think we must also take into consideration as do private employers, the temperament of our employees. If we treat them unjustly, we will not have contented teachers. I would not favor allowing these teachers to go if they can make other arrangements, and thus not lose the summer of travel; but I do think each case should be taken on its merits. Rules should be made to guide us, not dominate us.

Dr. Bogan briefly explained the attitude of the School Committee and the reasons which have caused the Committee to come to the conclusion that leaves of absence towards the close of this school year, on account of Summer travel, should not be allowed. The date of closing, June 28, 1927, was established by order of the School Committee on March 15, 1926, so that teachers had full knowledge long in advance of the date scheduled. It has seemed to the Committee that we cannot well say, "You may go" to one, and "You may not go" to another, and that the same rule should apply to all. The Committee believes that all teachers should remain on duty through the final session of the respective schools.

REQUEST FOR CO-OPERATION OF THEATRE OWNERS AND MANAGERS.

Mr. Sullivan: I believe that the time has come, if the Character

Training Course in the Boston Public Schools is to be a success, to secure the co-operation of the owners and managers of motion picture and vaudeville houses throughout the city. It is a well known fact that many thousands of pupils of the public schools patronize motion picture and vaudeville houses. It is common knowledge that all too often jokes and remarks of entertainers are not fit for the ears of school children and these jests and quips have reached the point where some of the best citizens of the community are worried about their effect on the minds of the school children in attendance.

Something should now be done by the School Committee to protect the pupils who attend these performances, and it is my opinion that the most effective way to ensure such protection is to bring the matter to the attention of the various owners and managers of motion picture and vaudeville houses throughout the city.

Mr. Winthrop Ames, Harvard graduate, and pre-eminent artistic theatrical producer, in an interview recently declared that neither of his two children would see the inside of a theatre until they passed the dangerous age. He states that the movies are not too good, but that the real trouble lies in the theatre itself where entertainers, in some instances, appear to have no check on their remarks and jests or on how far they may go. New York is now taking up the cudgels, not only to protect its adults, but its school children from those producers and actors who evidently have very little or no regard for the effect of their drama or motion pictures on the community.

I am recommending that this Committee instruct its Superintendent to communicate with the owners and managers of motion picture and vaudeville houses throughout the city and call to their attention the menace that confronts the pupils in the public schools by the license taken by performers and entertainers. I believe that full co-operation will be accorded if the matter is brought home clearly to the owners and managers.

Let Boston lead the way in this deserving crusade.

The recommendation of Mr. Sullivan for reference to the Superintendent was adopted.

The Board adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

SETTLEMENT OF BOSTON, 1630.

Effected by Puritan colonists under Governor John Winthrop in the latter part of August, 1630. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630. This date was moved forward by the New Style calendar in 1752 to September 17, the recognized date of the founding of Boston. The name, Trimountaine, had been given because of the three peaks of the most prominent hill, afterward called Beacon Hill, much higher then than now. By the Indians the place was called Shawmut. The name, Boston, was derived from the English town of Boston in Lincolnshire, the home of some of the leading colonists and promoters of the enterprise.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

The Massachusetts Civil Service Commission announces examinations for desirable positions open in the Boston and Metropolitan districts as follows:

WATCHMEN, GATEMEN, GUARDS AND PRISON OFFICERS, APRIL 16, 1927.

This examination will be held for the service of the state and all cities and such towns in the state as are classified under civil service. This service includes watchmen and guards in public parks, grounds, institutions, and departments; gatemen for ferries; turnkeys and guards in prisons, houses of detention and reformatories.

Applicants for appointment as officers in State Prison and Massachusetts Reformatory must be not less than twenty-five nor over forty years of age at the time of filing application. Applicants for appointment as officers in the prison camp and hospital must be not less than twenty-three nor over forty years of age at the time of filing application. All applicants for these places must be not less than 5 feet 7 inches in height and weigh not less than 135 pounds.

A certificate of date of birth must be filed with the application.

There are no age, weight, or height limits for watchman service other than those mentioned above.

The examination for watchmen, gatemen, and guards will be as follows: Training and experience, 6; memory test, 1; arithmetic, 1; handwriting, 1; accuracy, 1; total, 10.

The examination for prison guards will be as follows: Training and experience, 4; practical questions covering general disciplinary and penological methods, 3; personality and fitness as determined by an oral interview, 3; total, 10.

Applicants who pass the examination for prison officers will, upon request, also be placed on the list for watchman.

Physical fitness to be determined by physical examination.

NATIVES AND CITIZENS OF BOSTON AND VICINITY HONORED IN HALL OF FAME.

In the American Hall of Fame, New York City, dedicated in 1901, are inscribed on bronze tablets the names of 58 eminent men and 7 distinguished women deemed worthy of the highest honor on account of their services and attainments. Of the 65 individuals thus selected (up to 1925 inclusive) by an electorate of 100 leading Americans, 27 were natives or for some time citizens of Boston or vicinity. The names of the latter are as follows:

Chosen in 1900—John Adams, Benjamin Franklin, William Ellery Channing, Ralph Waldo Emerson, Daniel Webster, Henry Wadsworth Longfellow, Horace Mann, Nathaniel Hawthorne, George Peabody, Samuel Finley Breese Morse, Joseph Story, Asa Gray, Gilbert Stuart—total, 13.

Chosen in 1905—John Quincy Adams, James Russell Lowell, John Greenleaf Whittier—total, 3.

Chosen in 1910—Edgar Allan Poe, Oliver Wendell Holmes, George Bancroft, John Lothrop Motley, Phillips Brooks—total, 5.

Chosen in 1915—Louis Agassiz, Francis Parkman, Rufus Choate, Charlotte Cushman—total, 4.

Chosen in 1920—William Thomas Green Morton, Alice Freeman Palmer. Five additional names every fifth year are to be selected and inscribed until the year 2000, when the 150 tablets in the colonnade will be complete.

No Bostonian was selected in 1925.

If those who were natives or residents elsewhere in the State are added to the list, the following 7 names increase the total to 34 for Massachusetts or more than half the whole number, viz.: William Cullen Bryant, Jonathan Edwards, Mark Hopkins, Elias Howe, Eli Whitney, Maria Mitchell, Mary Lyon.

If all New England is included, 4 more names will bring up the total to 38 or 58.46 per cent of whole number chosen, these being Roger Williams, Henry Ward Beecher, Harriet Beecher Stowe, Emma Willard.

SCHOOL COMMITTEE.

PROPOSALS FOR SEMI-BITUMINOUS COAL FOR
BOSTON PUBLIC SCHOOLS.

The School Committee invites bids for furnishing semi-bituminous coal required for school buildings from June 16, 1927, to December 31, 1927, deliveries to be continued until June 15, 1928, provided appropriation is made therefor and the School Committee so orders. Proposals made on the form to be obtained at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street, will be received until Thursday, April 14, 1927, at 12 o'clock m., at said office, at which time and place they will be publicly opened and read. Envelopes containing proposals must be plainly marked "Proposal for Semi-Bituminous Coal." Each bid must be made in duplicate, one to be sent to the Business Manager of the School Committee as above, and the other to be filed with the City Auditor, City Hall, Boston, previous to the time named for opening bids. The coal is to be delivered in the bins of the several buildings, and the price per ton named in the proposal must include the delivery and housing in a manner satisfactory to the School Committee. The contractor must furnish suitable equipment and a sufficient number of men to house the coal properly and promptly. The amount of coal required for the entire period, about 60 per cent of which may be put in during July and August, 1927, is estimated as follows:

District.	Semi-Bituminous.
1. City Proper.....	6,292 tons.
2. South Boston.....	2,647 tons.
3. East Boston.....	2,321 tons.
4. Roxbury.....	4,507 tons.
5. Dorchester.....	4,896 tons.
6. Charlestown.....	1,479 tons.
7. Brighton.....	1,032 tons.
8. West Roxbury.....	1,851 tons.
9. Hyde Park.....	344 tons.
Total.....	26,269 tons.

Bidders may submit a proposal for furnishing the semi-bituminous coal required in any one or more of the above nine districts of the city, and may also submit one bid covering the whole city. A certified check for one hundred dollars (\$100) for each district bid for (\$900 for the whole nine districts), payable to the City of Boston, must be filed with the copy of bid sent to the Business Manager of the School Committee, and any bidder awarded a contract must furnish a bond for not less than twenty-five (25) per cent of the estimated amount of the contract awarded him. The School Committee reserves the right to reject any or all bids and to award the contract by districts or for the entire requirements as may appear to be best for the interests of the city.

MAYOR TAKES ISSUE WITH GOVERNOR ON BOSTON'S TAX LIMIT.

The Mayor made the following comment upon the recommendation of the Governor concerning the tax limit for Boston:

Governor Fuller's recommendation to the Legislature for a further cut of 50 cents from the tax limit of \$13 passed by the Legislature is based chiefly upon the proposed use of back taxes, those of prior years, collected during the current year. This recommendation, if adopted, leaves the Mayor no choice but to adopt financial methods which he has publicly opposed as unsound in order to obtain sufficient money to maintain the city departments in a satisfactory manner.

I requested a tax limit of \$13.50 which the Legislature reduced to \$13. It is my opinion that the limit of \$13 is preferable to the \$12.50 limit proposed by the Governor, coupled with a financial measure permitting a greater appropriation power but whose adoption I deem unwise, and it is therefore my sincere hope that the Legislature will adhere to the \$13 limit which it adopted without a dissenting vote.

The proposal to use back taxes in the financing of our principal budget is not a new one. The Finance Commission, year after year, has introduced it into the discussion before the Legislative Committee on Municipal Finance, where it has always been regarded as a dangerous experiment.

Under the present financial procedure of the city, a procedure which has been followed for over forty years, back taxes when collected are considered as part of the current revenue of the city in the year when collected. They are not set aside in any special fund, but rather are used to finance current obligations and liabilities. Their use in this manner tends to offset, at the end of the fiscal year, taxes outstanding after a three months' collection period. This deficit, if not offset, would make necessary the issuance of a large temporary loan before the close of the year and naturally the financing of such a loan would increase materially the interest requirements of the subsequent year.

The manner in which back taxes are now handled by the city is exactly similar to the manner in which accounts receivable are handled in the business world. A private business in collecting its outstanding accounts from year to year does not set the amount so collected aside in a private fund and at irregular periods distribute the fund to its stockholders, but rather uses the amounts so collected as current revenue to meet current obligations and thus obviate the necessity of issuing temporary loans to finance the business.

This recommendation says that the use of back taxes will not interfere with the finances of the city. I cannot follow the Governor's reasoning, as it will be clear by an examination of the results that there

BOSTON'S TAX LIMIT.

(Continued from page 361.)

is a gap at the end of the year caused by the proposed use of these taxes which must be financed by the issue of temporary loans and the abandonment of the pay-as-you-go policy.

It is also said that an increase in the average valuation in 1927 by \$40,000,000 will produce on the basis of a \$30 tax rate additional funds of \$1,200,000. This seems to confuse tax rate with tax limit. The tax limit is a figure set by the Legislature which, multiplied by city valuations, provides the amount of the appropriations in the budget to be raised by taxation. The tax rate is the figure fixed by the assessors sometime next August, which raises the entire amount which the city is obliged to raise to discharge its obligations for the year. The tax limit applies merely to city departments. The tax rate applies to city departments, state, county and school maintenance and debt requirements.

The suggestion that \$30 will produce \$1,200,000 additional therefore has no application to what we are now considering. What we are now considering is a tax limit of \$13 which will on the increase of \$40,000,000 in average valuations for 1927, of course, not yield \$1,200,000 additional, but would produce only \$520,000 additional.

The tax limit set by the Legislature this year is \$13. The tax rate, which will be fixed in August, will be at least \$1 lower than the tax rate of last year, which was \$31.80. I promised to lower the tax rate and the estimates which I have before me indicate that I shall be successful in doing so.

It is also said that in addition to the back taxes I have made no estimate of the amount received by the city on the income tax collected by the Commonwealth. The reason no estimate was made of income taxes is because of the provision of section 30 of chapter 44 of the General Laws, which does indeed give cities the right to appropriate income tax revenue but specifically excepts the City of Boston.

Thus the City of Boston is expressly forbidden by law to include in its estimates income tax revenue as available for appropriations. In other words, income tax revenue has nothing to do with the computation of the tax limit, but is only available for a reduction of the tax rate by the assessors when they are notified by the Tax Commissioner on or before August first of the amount of the income tax revenue.

His Excellency says that the argument of the city to the issue of temporary loans at the end of the year to meet deficits caused by the use of back taxes for appropriations is not a valid one because the law allows the city to borrow in anticipation of taxes for a period of one year from the date of the loan. That is a correct statement of the law, but it is not a valid reason why the city should be forced to borrow.

His Excellency also says that the law provides that the taxes shall be collected within one year from the due date; and that it certainly would not seem reasonable to allow a municipality to assess the citizens a sum which would allow a surplus large enough to permit it to finance without the issuing of temporary loans. Restated, this language in the Governor's message assumes that a deficit covered by a temporary loan at the end of the year is preferable to a cash surplus and with this point of view I am unable

to agree. Had this been the policy of the city last year we should not have at this moment available for computation in the tax limit the sum of \$309,000; which was the cash surplus on December thirty-first last.

The Governor's computation illustrates the advantageous use of this surplus of \$309,000. The message says that if the city did not have a surplus it would be necessary for the collector to make a more determined effort to collect the taxes due the city. I do not think it would be possible to improve upon the tax collections of the city. In a period of three months from the due date of the tax bills the collector for the last two years has made the very creditable total collection of over 88 per cent of the tax warrant for each year. I doubt if many cities in the commonwealth can produce a more creditable record.

The records of the State Division of Accounts will disclose that low tax rates can be had from drafts upon accumulative reserves or from borrowings and thereby the burden passed on to avoid future taxation. This is exactly what the proposal now made accomplishes. I am aware that it confers an extended appropriating power upon the city at the expense of the future. It is a change which I think should be avoided, one from which I would not advise the taking of an apparent present advantage. Our policy is pay-as-you-go. We have maintained it for many years under the amended charter. We ought not now to place it in jeopardy.

Governor Fuller's statement to the Legislature was as follows:

Boston, March 29, 1927.

To the Honorable Senate and House of Representatives.

Under the provisions of Article LVI of the Amendments to the Constitution, I am returning herewith House Bill No. 257, entitled 'An Act Relative to Appropriations by the City of Boston for Municipal Purposes,' with the recommendation that it be amended as follows:

By striking out in section 1, fifth line, the word "thirteen" and inserting in place thereof the words "twelve dollars and fifty cents."

By inserting after the last word of section 1 the words "and may appropriate for municipal purposes from the funds received from the collection of prior years' taxes a sum equal to one dollar on each one thousand dollars of the valuation upon which the appropriations by the city council are based."

The tax limit for the City of Boston for the fiscal year ending December 31, 1927, can be fixed at \$12.50 per \$1,000 of the valuation upon which the appropriations by the City Council are based by providing that a sum be used from the money received from the collection of taxes of prior years which would equal \$1 per \$1,000 of the valuation upon which the appropriations by the City Council are based.

Average valuation for three years.....	\$1,841,057,566 16
Tax limit per \$1,000 valuation.....	12 50
	\$23,013,219 58
Estimated receipts.....	6,140,000 00
Cash surplus.....	309,715 62
Prior years' taxes collected to an amount equal to \$1 per \$1,000 average valuation.....	1,841,057 56
Mayor's budget estimate.....	\$31,303,992 76

In preparing the above table I have used the estimated receipts as submitted

by the Mayor of \$6,140,000. The actual receipts in 1926 on the items estimated by the Mayor were \$6,275,723.14. Therefore, this item could be increased by \$135,723.14, as it is reasonable to suppose that the receipts will be at least as much as received during 1926.

In addition to this amount, there is no estimate made of the amount to be received by the city on the income tax collected by the Commonwealth. Last year the estimate made by the Commissioner of Corporations and Taxation for the City of Boston was \$3,416,722.54. The city was actually paid from this source \$4,726,520.39, and it would certainly be fair to assume that the city would receive at least as much as the estimate of last year of \$3,416,722.54.

In estimating the amount to be used from funds received on account of collection of prior years' taxes of \$1,841,057.56, a conservative figure has been used, as the receipts from this source up to within the last week were in excess of \$3,500,000.

This use of money collected from prior years' taxes (which I am informed is in accord with the general practice throughout the Commonwealth) of \$1,841,057.56 would not, in my opinion, interfere in any way with the proper and businesslike administration of the finances of the city; and while this use of these receipts would make the tax limit \$1 less than the amount requested by the Mayor, it should not cause any increase in the tax limit for the year 1928, as the increase in valuation for the year 1927 would increase the average valuation upon which the tax limit is based in 1927 by approximately \$40,000,000.

This increased valuation would produce available funds on the basis of a \$30 tax rate of \$1,200,000; and the increase in the other estimated revenues and a more prompt collection of the outstanding taxes would more than offset this use of the collections of prior years' taxes.

The only argument advanced by the city officials for not using any portion of the receipts collected on account of prior years' taxes is that they would be obliged to carry over at the end of the year a certain amount of loans issued in anticipation of revenue. This, to my mind, is not a valid objection to the use of these funds. The law allows the city to borrow in anticipation of taxes for a period of one year from the date of the loan; the law also provides that the taxes shall be collected within one year from the due date; and it certainly would not seem reasonable to allow a municipality to assess the citizens a sum which would permit a surplus large enough to permit it to finance without the issuing of temporary loans.

The City of Boston collects each year between \$4,000,000 and \$5,000,000 of taxes assessed for the expenses of the city in prior years. This money is used in financing the needs of the city in lieu of issuing temporary loans, and to my mind this is a bad practice, as it has a tendency to allow the collector to assume the duties of a receiver and not of a collector of taxes.

If the city did not have this surplus with which to finance, it would be necessary for the collector to make a more determined effort to collect the taxes due the city.

In 1926, as previously stated, the city received from income tax \$1,309,797.85 in excess of the amount estimated in determining the amount to be raised by taxation. Had this money been available at the time the tax rate was fixed, the citizens would have received the benefit

of it in the tax levy of the year 1926; but as it was not received until November the amount was used for running expenses of the city in lieu of collection of taxes, and the citizens most certainly should receive the benefit of this money in the tax levy of the current year.

ALVAN T. FULLER.

The Finance Commission's statement reads:

BOSTON, March 31, 1927.

To the Honorable the Senate and House of Representatives in General Court Assembled.

There has been so much misunderstanding about the Boston tax limit that the following simple facts may be helpful.

The recommendations of his Excellency the Governor that the tax limit be reduced to \$12.50 in no way limit the amount which the Mayor states it is necessary to spend for 1927; they relate only to the source from which he shall get his money.

The Mayor wishes to raise from the taxpayer all the money which he plans to spend in the current year, except for certain items which he is willing to figure as ways and means. He wishes to ignore the fact that this year he has already received available cash of over \$3,500,000 derived from taxes assessed in prior years but not paid until after January 1, 1927.

Surplus money from back taxes comes into the city treasury in every year, is spent immediately to run the city but no credit is given the taxpayer for it. If these taxes had been collected before January 1 they would have affected the tax limit; as they came in after January 1 the Mayor refuses to take them into account. This is a distinction without a difference.

There is no infringement of the "pay-as-you-go policy." On the contrary the current expenses will be met partly by cash received from back taxes and partly by cash received from current taxes.

Thus the proposition of the Governor leaves the Mayor free to spend all that he has planned to spend, but requires the use of a part of this surplus cash to ease the load of the taxpayer in this year of heavy taxation.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

MAYOR DELIVERS FIFTH RADIO TALK ON MUNICIPAL FINANCES.

On March 29 the Mayor delivered the fifth of a series of radio talks on financial and administrative questions affecting the City of Boston. It was as follows:

Ladies and Gentlemen of the Radio Audience.

For many weeks determined opposition has been directed against the request of the Mayor of Boston for authority to make adequate provision for upkeep of the city departments during the year 1927. The authority requested is contained in the so-called tax limit, which by law determines the amount of money available for departmental appropriations. A tax limit of \$13 a thousand has been granted by the Legislature and is now before his Excellency the Governor. This tax limit of \$13 was opposed by the Finance Commission but passed both branches of the Legislature without dissent. Before asking for the tax limit I had reduced departmental estimates by two millions. When the Legislature cut the tax limit by 50 cents, making it \$13, the city lost nearly one million more of appropriating power. The Finance Commission would now reduce it to a figure much lower than \$13, involving the possibility of a further loss of appropriating power, amounting to nearly two million more.

In my radio talks I have discussed the city appropriations contained in the budget and have endeavored to show how the loss in appropriating power affects the maintenance of the city. I do not think that it is possible to cut these appropriations below the authority contained in a \$13 tax limit without serious results. The people of this city want their hospitals well managed, their streets kept in repair, their parks and playgrounds well equipped and operated, their snow removed, their ashes and garbage collected. All of these municipal services have been maintained during the past year at a very high standard and at moderate cost.

I think it a great mistake to cramp the activities of the city in such a way as to make it difficult for the men and women who live in it to have what every prosperous and progressive municipality ought freely to place at their disposal.

Let me tell you the kind of argument that has been used frequently against the granting of an adequate appropriation. The argument was twofold:

First, it has been said that the estimates of revenue, which of course affect the tax limit, should include the sums collected from back taxes. This I have publicly denounced as revolutionary and unsound. Those who advise this course have not even attempted to follow the workings of their proposals but are con-

tent to live in the present and let the future take care of itself. The application of back taxes in the manner suggested will be beneficial to the taxpayers in only one year, namely, in the initial year of application. After the first year little, if any, advantage will be gained since the back taxes collected in subsequent years will be obligated to meet the large deficit in ready cash which will occur at the end of the first year. A deficit must be met by a temporary loan upon which the city must, of course, pay interest. It merely results in a series of temporary loans and an unwise and unjustifiable abandonment of the pay-as-you-go policy which has been so well fixed in our financial administration that I am amazed that any responsible person should urge that it be abandoned.

The other objection relates to technical criticisms of the budget itself, which can be taken up when the various items are before the City Council rather than discussed in detailed form during the consideration of the tax limit. The city has for the past two years been perfectly willing to show where it intended to expend the money and would, of course, if desired, institute before the Legislature a minute study of the budget, but this has never been deemed of importance because of the complexity of the subject. Really the objection lies mainly in the administrative policy of the city and a difference in the point of view between the Finance Commission, which has no responsibility whatsoever, except to make studies and reports, and the Mayor who has all the responsibility and whose policies should be given due recognition. Indeed, they have been given due recognition by our citizens who have expressed unqualified approval of the manner in which the city activities have been maintained.

The budget this year under a \$13 limit is lower than last year by about half a million dollars and we have provided for 300 additional patrolmen and a living wage for laborers at an expense of about half a million. There is thus about one million less this year for general purposes than there was last year.

Compared with the state expenses and with other cities and towns Boston is not extravagant. The cost of everything, including public administration, has in ten years jumped about 100 per cent. In 1916 the state expenditures were twenty-four millions; in 1926 they were forty-eight millions.

We pay for everything we get and pay most by a foolish parsimony which neglects the essential demands of public service.

FINANCE COMMISSION REPORT.

The Mayor has received the following report from the Finance Commission:

Boston, March 26, 1927.

HON. MALCOLM E. NICHOLS, Mayor.

SIR,—The Finance Commission calls your attention to the needless delay in procuring furniture for the new Dorchester Courthouse. The new building was completed in December, 1926. Other equipment has been installed, but the building cannot be used without the new furniture. By this delay the judges are inconvenienced, the public is forced to continue to use the dirty and inadequate old building, and the work of remodeling the old structure for police and library purposes is impeded.

By a communication dated January 7, 1927, the commission reported to your Honor on the bids for this furniture which were opened on December 29, 1926. It

found that there had already been delay in procuring plans and specifications for the furniture. It further found that the lowest bidder had been improperly assisted by the architect and that the time for preparing bids and the time for performing the contract was too short. It recommended that all the bids be rejected, that a new architect be placed in charge of the work, and that new and proper competition be had. Nearly three months have passed since the report was made but the delay continues. There has been plenty of time to readvertise in a proper manner, and if this had been done the furniture might now have been well on the way to completion. The fact that the competition of December 29 was unfair and improper is no excuse for the complete failure to function in this matter.

Delay in similar cases has caused inconvenience to the public, or been the means of preferring favored contractors, and has generally resulted in waste. Delay gave the opportunity to the Superintendent of Public Buildings to rush through the bidding for the City Council furniture and to award the contract to the favored bidder who, through advance knowledge, had been able to have the specially designed furniture partially completed and the only supply of the specified carpet bought and put away when the bids were opened.

This happened in the closing weeks of the last administration, but your Honor continued the Superintendent of Public Buildings in office. Delay caused the letting of a cost-plus contract without public competition in February, 1927, for relaying flooring in the Quincy Market when the need had been known to the department for eleven years and had been especially called to your Honor's attention in September, 1926.

Delay was the cause of making the period between the advertisement and the opening of the bids for furnishing street signs in December, 1926, so short that one contractor could not procure and file the required certified check, and the lowest bidder could not file his bid in time to be counted. This long delay was permitted, although \$25,000 for purchasing these signs was provided in the city budget, passed eight months earlier in the same year, and nothing has since been done to procure the signs.

The desire of the head of the department to give a contract to a favorite bidder is no excuse for delay in procuring articles needed for the administration of the public service.

There is no difficulty in drawing fair specifications for goods to be purchased for the city, giving all the contractors fair treatment and allowing a reasonable time to prepare bids and fulfill contracts, except the unwillingness of the head of the department. There is nothing incompatible between protection to the tax payers and fairness to the bidders, nor between efficiency and promptness.

In order that the administration of justice may be no longer hindered by delay, the commission renews its recommendations contained in its report of January 7, 1927. It further recommends that no more delay be permitted in procuring furniture in a proper manner for the new Dorchester Court house.

Respectfully submitted,

THE FINANCE COMMISSION,
by CHARLES L. CARR,
Chairman.

STATEMENT OF MAYOR NICHOLS ON THE COMPLETION OF THE DORCHESTER COURTHOUSE.

March 28, 1927.

The Finance Commission's report upon the furnishing of the Dorchester Courthouse would be hard to understand if it did not betray anxiety to take sides in a row among furniture dealers.

There has been no delay in the equipping of the Dorchester Courthouse. The city has been prompt and efficient in the equipping of the Dorchester Courthouse, has consulted the wishes of the judges, and is carrying out plans to serve the convenience of the Court.

This spring, after the grading has been completed, the courthouse will be opened, despite the recommendation for further delay made by the Finance Commission in its uncontrollable desire to meddle with the conduct of city business.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

PUBLIC WORKS DEPARTMENT (Water Service).

Upon March 29 the Mayor approved a contract with John Williams for laying and relaying water pipes in Barlow street, Cedar road, Forest Hills street, Pond place, Rhoda street, Walnut road, West Roxbury Parkway, West Roxbury; Church street, Hillside street, Hyde Park, and Duxbury road, Dorchester. Bids, opened March 21, were as follows:

John Williams, \$4,445; Zoppo & Civitarese, \$4,510; A. Grande, \$4,711; M. DeSisto Company, \$4,801.75; L. P. Federico & Co., \$5,006.25; C. Russo, \$5,085; D. Vozzella, \$5,226.75; N. DiBaratolomeo Company, \$5,315.50; DeCristofaro Brothers Company, \$5,454.25; Joseph Capone, \$5,547; V. Barletta, \$5,585.25.

SCHOOLHOUSE DEPARTMENT.

Upon March 28 the Mayor approved a contract with Curran & Craig for furnishing and installing stage equipment, etc., in East Boston High School. Bids, opened on March 24, were as follows:

Item 1.—Curran & Craig, \$975; National Theatre Supply Company, \$980.

Item 2.—Curran & Craig, \$755; National Theatre Supply Company, \$795.

Item 3.—Curran & Craig, \$170; National Theatre Supply Company, \$167.

Item 4.—Curran & Craig, \$10; National Theatre Supply Company, \$47.80.

Total, Curran & Craig, \$1,910; National Theatre Supply Company, \$1,989.80.

SUPPLY DEPARTMENT.

Upon March 29 the Mayor approved a contract with the Warren Pipe and Foundry Company for furnishing water pipe and special castings to the Water Service.

A communication from Hubert S. Frost of the Supply Department was as follows:

B. Nichol & Co. of New York was the lowest bidder at a total price of \$149,700. This company is not the manufacturer of the pipe to be furnished, but is contracting for its manufacture with a foundry in Germany. Should the City of Boston enter into this contract with B. Nichol & Co. and purchase pipe manufactured in Germany, we are ignoring the spirit of city ordinance, chapter 40 of 1925.

The Warren Pipe and Foundry Company of Phillipsburg, N. J., is the lowest bidder of pipe manufactured in the United States at a total price of \$163,392. The difference in price between the two bids, namely \$13,692, does not represent the actual difference in cost to the city as the difficulties involved in the inspection of pipe made in a foreign country and by a foundry with whom we are not the direct contractors, together with the possible loss or damage in transit and delay in delivery, might seriously effect this amount.

Pipe made at Phillipsburg, N. J., in the past has been shipped in car lots as soon as cast and inspected, consequently immediate attention can be given to our needs, particularly at the present time where an early delivery is most essential.

The Supply Department has investigated the prices paid by different municipalities and engineers in different sections and finds that the price bid by the Warren Foundry and Pipe Company of \$51.28 per ton is lower than the average scale of prices paid.

After consulting with the Commissioner of Public Works, who concurs with the Supply Department's recommendation, and in view of the before mentioned facts, I would respectfully recommend that this contract be awarded to the Warren Pipe and Foundry Company, the lowest bidder on pipe of American manufacture at the prices indicated on the attached sheet.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

Bids, opened December 30, 1926, after readvertisement, were as follows:

200 Tons 6-inch Pipe.—United States Cast-iron Pipe and Foundry Company, \$51.50 per ton; Warren Foundry and Pipe Company, \$51.28 per ton; B. Nicoll & Co., Inc., \$47.50 per ton.

700 Tons 8-inch Pipe.—United States Cast-iron Pipe and Foundry Company, \$51.50 per ton; Warren Foundry and Pipe Company, \$51.28 per ton; B. Nicoll & Co., Inc., \$47.50 per ton.

1,500 Tons 12-inch Pipe.—United States Cast-iron Pipe and Foundry Company, \$51.50 per ton; Warren Foundry and Pipe Company, \$51.28 per ton; B. Nicoll & Co., Inc., \$47 per ton.

600 Tons 16-inch Pipe.—United States Cast-iron Pipe and Foundry Company, \$51.50 per ton; Warren Foundry and Pipe Company, \$51.20 per ton; B. Nicoll & Co., Inc., \$47 per ton.

75 Tons Special Castings.—United States Cast-iron Pipe and Foundry Company, \$135 per ton; Warren Foundry and Pipe Company, \$128 per ton; B. Nicoll & Co., Inc., \$110 per ton.

Total.—United States Cast-iron Pipe and Foundry Company, \$164,625; Warren Foundry and Pipe Company, \$163,392; B. Nicoll & Co., Inc., \$149,700.

Upon March 31 the Mayor approved a contract with the Cambridge Screen Manufacturing Company for furnishing window screens for the new Maternity Hospital of the Boston City Hospital. Bids, opened March 8, were as follows:

Approximately, 250 double hung windows, twenty-five double outswinging casements, twenty louver openings in porches, three doors in basement, five pivot sashes to be screened, one double door, nine doors, nine transoms, four casement windows in operating room.

Chamberlain Metal Weather Strip Company, solid steel frame screens, \$5,453; hollow steel frame type, \$7,040; H. E. Holbrook Company, \$10,429; discount, 2 per cent; Cambridge Screen Manufacturing Company, \$5,200; the E. T. Burrowes Company, \$5,451.50.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon March 24 the Mayor approved a contract with Charles DeSimone for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, March 23, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone side-

walks in the public streets, without advertising, to Charles DeSimone, 355 Chelsea street, East Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon March 28 the Mayor approved a contract with Joseph A. Sprissler for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, March 25, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Joseph A. Sprissler, 3 Austin street, Roxbury, is hereby requested on the grounds that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

Upon March 29 the Mayor approved a contract with Rich Brothers, Inc., for the construction of artificial sidewalks. A communication from James H. Sullivan of the Public Works Department was as follows:

BOSTON, March 24, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Rich Brothers, Inc., 60 Scollay square, Boston, is hereby requested on the grounds that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

JAMES H. SULLIVAN,
Commissioner of Public Works.

EXTRA WORK UNDER CONTRACT.

Joseph A. Singarella has been directed to perform the following extra work under contract for building rubble wall on Morton street, northerly side, from Canterbury street to Morton road. Items ordered: Excavate below subgrade and replace with concrete on line of wall on Morton street, from Morton road about 500 feet southerly. Price to be paid: For each square yard of material excavated and replaced with concrete, the sum of \$10. Estimated cost, \$750. Grade fill where directed on line of Morton street wall. To be paid for by force account. Estimated cost, \$200. Estimated cost of extra work (total), \$950.

PETITIONS APPROVED.

The Mayor has approved the following petitions received from the Board of Street Commissioners:

Calile J. Maloof, 275 Old Colony avenue, Ward 7, 1,000 gallons of gasoline.

George Henry Holland, 278A Centre street, Ward 10, 3,000 gallons of gasoline.

Frank A. Hawes, 341 Belgrade avenue, Ward 20, 1,000 gallons of gasoline.

Nathaniel Dane, 38 Conley street, Ward 16, 3,000 gallons of gasoline.

City Land Company, 33-39 Allerton street, Ward 8, 4,000 gallons of gasoline.

ADDITIONAL DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Whereas, An award of \$85,500 for the taking of an easement in 1,416 square feet of land from Jennie M. Hamilburg, for the widening and relocation of Tremont street, was made to said Hamilburg under the order for said improvement dated March 26, 1925; and

Whereas, Said sum (\$85,500) was accepted by said Hamilburg not in full satisfaction of all damages so sustained but as payment *pro tanto* without prejudice to any right to have the remainder of said damages, if any, assessed by the appropriate tribunal; and

Whereas, Said Hamilburg petitioned the Superior Court for a jury to determine said damages in excess of the amount (\$85,500) so awarded, accepted and paid; now, therefore, it is

Voted, After consultation with the Law Department, and on its advice, that additional damages in the amount of \$15,000 flat be and the same hereby is awarded to Jennie M. Hamilburg, and it is further ordered that the Corporation Counsel agree to judgment in said case on the terms herein stated.

Whereas, An award of \$40,000 for the taking of an easement for highway purposes in 847 square feet of land from Sidney F. Squires, for the widening and relocation of Tremont street, was made to said Squires under the order for said improvement dated March 26, 1925; and

Whereas, Said sum (\$40,000) was accepted, by said Squires not in full satisfaction of all damages so sustained but as payment *pro tanto* without prejudice to any right to have the remainder of said damages, if any, assessed by the appropriate tribunal; and

Whereas, Said Squires petitioned the Superior Court for a jury to determine said damages in excess of the amount (\$40,000) so awarded, accepted and paid; now, therefore, it is

Voted, After consultation with the Law Department and on its advice, that additional damages in the amount of \$15,000 flat be and the same hereby is awarded to Sidney F. Squires, and it is further ordered that the Corporation Counsel agree to judgment in said case on the terms herein stated.

CLAIMS ALLOWED.

The Mayor, upon recommendation of the Corporation Counsel, has approved the following claim:

Barnard Melnick, 21 Fernboro street, Roxbury, in the sum of \$98.25, as compensation for personal injuries received May 22, 1926, by being struck in the eye by ball thrown by boys in the Norfolk Street Playground.

FIRE DEPARTMENT ORDERS.

General Order No. 16.

I. LIEUT. JOSEPH M. DONOVAN.

It is with deep regret that the Acting Fire Commissioner announces the death of Lieut. Joseph M. Donovan of Engine Company 9 on March 23, 1927.

Lieutenant Donovan was a chief's driver in this department from November 11, 1904, to April 12, 1907, when he was appointed a permanent member. He was promoted to lieutenant on June 8, 1923.

The funeral will be held from his late residence, 323 Columbia road, Dorchester, at 10.15 a. m., Saturday, March 26, 1927, followed by services at St. Peter's Church, Bowdoin street, Meeting House Hill, at 10.45 a. m.

Engine Company 9 will be excused from duty in order to attend the funeral, and the Chief of Department will arrange for the customary details to represent the department. Members of the department who are off duty at the time of the funeral are invited to join the department detail and permission is hereby granted to wear the department uniform for that purpose. The detail will report at the quarters of Engine Company 17, Meeting House Hill, not later than 9.45 a. m., and will be under the direction of the District Chief of District No. 10.

II. LIEUT. BARTHOLOMEW J. DOWD.

It is with deep regret that the Acting Fire Commissioner announces the death of Lieut. Bartholomew J. Dowd of Engine Company 45 on March 12, 1927.

Lieutenant Dowd was appointed to this department October 16, 1906, and was promoted to lieutenant February 1, 1924.

The funeral was held from his late home, 15 Johnswood road, West Roxbury, March 16, 1927, at 9 a. m., followed by services at the Church of the Sacred Heart, at 9.30 a. m.

Engine Company 45 was excused from duty in order to attend the funeral, and the Chief of Department arranged for the department detail to represent the department at the funeral.

DANIEL F. SENNOTT,
Chief of Department.

General Order No. 17.

I. EXAMINATION FOR PROMOTION FROM PRIVATE TO LIEUTENANT.

The Department of Civil Service and Registration of the Commonwealth of Massachusetts announces that an examination will be held on Saturday, April 9, 1927, for promotion to the grade of lieutenant in the Boston Fire Department.

This examination is open to the permanent men in the Boston Fire Department who have served, in accordance with civil service rules, at least six years immediately preceding the date of examination.

The subjects of examination with their respective weights will be as follows: Training and experience, 9; report, 3; practical questions, 8; total, 20.

Successful applicants will also be given a physical examination and strength tests.

Application blanks may be secured from the district chiefs of each district. The vouchers on this blank need not be filled out. When completed applications should be sent to the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston, not later than Saturday, April 2.

Examination will be held at the Girls' High School on West Newton street. The applicants for this examination will be divided into two classes, namely, No. 1 and No. 2. Class No. 1 will take the examination in the morning at 9 a. m., Saturday, April 9, 1927, and Class No. 2 will take the examination at 2 p. m., Saturday, April 9, 1927. Members of the department who are to take the examination are warned to report at the Girls' High School at the hours mentioned above.

Members who have an off duty period during the day on Saturday and who desire to take the examination may do so either in the morning or afternoon. It is requested that some join the afternoon session and thus relieve any congestion in the morning.

Members who are on duty during the day on Saturday and who file applications to take the examination will be divided into two classes by district chiefs. One class will go in the morning and one in the afternoon. These classes are to be divided as evenly as possible so that the efficiency of the department will not be lessened. Deputy chiefs will go into this matter with district chiefs and see that each company is covered with chauffeurs, engineers, pump operators, etc. Changes of time off will be allowed to meet this condition. It should be borne in mind that the Department of Civil Service desires to have the classes evenly divided.

Each applicant must bring his own penholder, pen, blotter, pencil, eraser and ink.

No smoking. The attention of those who are to take the examination is called to the fact that smoking is strictly prohibited in School Buildings, and the Fire Commissioner has been requested to call the attention of the men to this rule. It is hoped that he will receive no complaints after the examination that the men were careless in this regard.

On the day of the examination the special drill will be suspended.

DANIEL F. SENNOTT,
Chief of Department.

CONSTRUCTION WORK.

The Mayor, upon request of the Public Works Department, has approved the following construction work:

On motion, it was

ORDERED, That the Schedule of Extra Compensation for Custodian Service, Section 1, Paragraph 10, be amended as follows:

Donald McKay School—Number of Assistants Authorized—1.

Frank V. Thompson School—Number of Assistants Authorized—1.

Grover Cleveland School—Number of Assistants Authorized—1.

REPORT ON NON-ENGLISH LEC- TURES AND DISCUSSIONS IN SCHOOL BUILDINGS.

Mr. O'Hare offered the following:

ORDERED, That the Superintendent is hereby requested to report to this Board, at his early convenience, as to non-English lectures, talks or oral discussions of any kind which have taken place, which are taking place and which are contemplated in public school buildings;

And be it further

ORDERED, That the Superintendent, as a result of his investigation, recommend to this Board a definite policy as to further continuance of said non-English lectures, talks or other oral discussions.

The orders passed.

INVESTIGATION OF COST OF SHOPS FOR INTERMEDIATE SCHOOLS.

Mr. Sullivan made the following statement:

I understand that about \$100,000 is being appropriated this year for intermediate shops. The Business Manager, in his Annual Report of 1926, has referred to the extraordinary increase in school expenditures over a period of ten years, totalling

millions, and in commenting on the several reasons for this increase, includes the following:

"the growth of junior high school education with the trade work connected therewith, namely, the employment of trade teachers and the equipping and maintaining of costly machine shops, sheet metal shops, electrical shops and printing shops. It is significant that in the year 1916 there were 75 woodworking shops and 17 trade shops in operation and that in the year 1925 the numbers were 74 woodworking shops and 57 trade shops. There is also the element of costly construction in connection with these shops. Eleven additional shops are scheduled for September, 1926."

Continuing Mr. Sullivan said:

An honest feeling of public criticism has reached the acute stage not only in this community but in neighboring cities as well. In Brookline, for example, a real investigation has been made and the feeling there is against the introduction of manual training because of the tremendous cost of junior high school shops.

Mr. Sullivan offered the following motion:

That the Business Manager be instructed to bring in to this Committee, at his early convenience, an exhaustive report of the expenditures for junior high school shops, which report shall cover a period of years and, if possible, go back to 1916.

In connection with the motion, the Superintendent stated that he has already appointed a committee consisting of three heads of departments, to make a very thorough investigation of the costs of intermediate and high school shop equipment, such investigation to include a study of the cost of instruction and supervision. The committee will also, in its study, consider the costs of equipment and instruction in other cities of size and conditions similar to Boston.

The Superintendent suggested that, if agreeable to Mr. Sullivan, his motion be amended to provide that the Business Manager shall work in collaboration with this committee of three heads of departments appointed by the Superintendent, rather than as a separate committee.

Mr. Sullivan accepted the amendment and the motion, as amended, passed.

INVESTIGATION OF COST OF FURNISHING ATHLETIC EQUIPMENT AND MATERIAL.

Mr. Sullivan asked that, inasmuch as the matter of furnishing athletic equipment and material to pupils in high and intermediate schools is an educational as well as a financial problem, the Board of Apportionment be requested to consider the whole proposition, and in accordance with his suggestion the matter was referred to the Board of Apportionment for consideration and early report.

UNFINISHED BUSINESS.

The three orders laid over at the meeting of Mar. 7, 1927, making changes in the Authorized List of Text Books, were taken up and passed unanimously.

The order laid over at the meeting of May 10, 1926 (see pp. 92-93), amending the Appendix to the rules and regulations covering the bound-

dary lines of schools and districts, was taken up, and the following order substituted therefor:

ORDERED, That the Appendix to the rules and regulations covering the boundary lines of schools and districts is hereby amended as follows:

Strike out the paragraphs which describe the boundary lines for the Latin and day high schools, and substitute in place thereof the following:

The Public Latin School, the Girls' Latin School, the English High School, the Girls' High School, the High School of Commerce, the High School of Practical Arts, and the Mechanic Arts High School, receive pupils from all parts of the city. In case lack of accommodations makes it impossible to accept all applicants, admissions shall be in accordance with the plan established by the Board of Superintendents.

The Brighton High School receives pupils who reside within the limits of the former town of Brighton.

The Charlestown High School receives pupils who reside within the limits of the former city of Charlestown and those residing in the North End of the city proper.

The Dorchester High School for Boys receives boys who reside within the limits of the Christopher Gibson, Edmund P. Tileston, Edward Everett, Frank V. Thompson Intermediate, Gilbert Stuart, Grover Cleveland Intermediate, Henry L. Pierce, Mary Hemenway, Mather, Minot, Oliver Wendell Holmes Intermediate, Phillips Brooks, Theodore Roosevelt Intermediate, and William E. Russell Districts.

The Dorchester High School for Girls receives girls who reside within the limits of the Christopher Gibson, Edmund P. Tileston, Edward Everett, Frank V. Thompson Intermediate, Gilbert Stuart, Grover Cleveland Intermediate, Henry L. Pierce, John Winthrop, Mary Hemenway, Mather, Minot, Oliver Wendell Holmes Intermediate, Phillips Brooks, and William E. Russell Districts.

The East Boston High School receives pupils who reside within the limits of East Boston.

The Hyde Park High School receives pupils who reside within the limits of the former towns of Hyde Park and West Roxbury, and those residing within the limits of the Edmund P. Tileston and Gilbert Stuart Districts.

The Jamaica Plain High School receives pupils who reside within the limits of the former town of West Roxbury, and those residing within the limits of the Theodore Roosevelt Intermediate District.

The Memorial High School (Girls) receives girls who reside within the limits of the former city of Roxbury, and those residing within the limits of the Christopher Gibson, Edward Everett, Hugh O'Brien, John Winthrop, Martin, and William E. Russell Districts.

The South Boston High School receives pupils who reside within the limits of South Boston, and those residing within the limits of the Edward Everett and William E. Russell Districts.

The substitute order was passed under a suspension of the rules.

The Board adjourned.

The following was received:

City of Boston,
Office of the Mayor, March 28, 1927.
To the City Council.

Gentlemen,—I transmit herewith a communication from the Public Buildings Department in reply to your order of March 14, 1927, in relation to repairs to electric signal system on elevators in City Hall Annex.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Buildings Department, March 23, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—Replying to the inclosed order of the City Council under date of March 14, 1927, in which the Superintendent of Public Buildings is requested, through his Honor the Mayor, to have the electric signal system of the elevators in City Hall Annex repaired at once, I wish to state that the order probably has reference to the lights on the elevator fronts at the various landings, which do not operate. The truth of the matter is that this system of signals was discontinued some years previous owing to the fact that the construction was such that it was a physical impossibility to keep them in working order. When this system was discontinued another was installed, namely, that when a person pushed a button on any of the floors, a light would automatically appear in the elevator car and would acquaint the operator of the fact that the car was required at the particular floor on which the button was pushed. This feature is working quite satisfactorily at the present time.

However, I am looking into the matter and if I find that the former electric system could be restored without any great expense, I will be only too glad to make the change.

Respectfully yours,
JOHN P. ENGLISH,
Superintendent of Public Buildings.

Placed on file.

VETO OF ORDER SALE OF COAL SCREENINGS.

The following was received.

City of Boston,
Office of the Mayor, March 28, 1927.
To the City Council.

Gentlemen,—I return herewith, without my approval, the order in the annexed form passed by your honorable body on March 21, 1927, relative to the sale of Welsh coal screenings.

The order as originally submitted to you specified that the coal screenings were valued at over \$500 and made no reference to the sale price at that figure. There are between 600 and 700 tons for disposal at a value estimated to be more than \$500 but less than \$1,000.

The screenings referred to are those which were left from a cargo of Welsh coal which was publicly sold by the Fuel Committee during the

coal shortage in 1922-23. They are of much inferior quality than the American anthracite and Welsh screenings on the market today. In 1924 the Boston Consolidated Gas Company, having a plant on the adjoining lot, made an offer of \$2.25 per gross ton, they to do the loading and carting, but withdrew their offer on account of the expense involved in loading and carting same. In 1925 the screenings were offered to the Metropolitan Coal Company but after trying them they too refused them on the grounds that they were unsatisfactory.

After the first of March of this year, due to the shortage of the market on screenings, we had an offer of \$1.50 per ton.

In view of the foregoing the order of your honorable body now before me is of no value whatsoever, and for that reason I cannot give it my approval.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

Placed on file.

REBUILDING OF EAST RIVER STREET BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, March 23, 1927.
To the Honorable the City Council.

Gentlemen,—I have received from the Commissioner of Public Works a letter, hereto appended, in which he states that plans have been prepared for rebuilding the East River Street Bridge, Hyde Park, over the tracks of the New York, New Haven & Hartford Railroad, as part of the improvement of River street, authorized by chapter 260, Acts of 1926.

Before the work is done it will be necessary to petition the Public Utilities Department for its decision as to the necessity for the alteration. The alteration proposed will be necessary for the proper construction of the street.

I therefore recommend the passage of the accompanying order so that the work may be commenced as soon as possible.

Respectfully yours,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, March 2, 1927.
To the Honorable the Mayor.

Plans have been prepared for rebuilding the East River Street Bridge, Hyde Park, over the tracks of the New York, New Haven & Hartford Railroad, as part of the improvement of River street, authorized by chapter 260 of the Acts of 1926.

The next step will be for the City Council to petition the Department of Public Utilities for a decree as to the necessity for rebuilding the bridge. This is the procedure prescribed by law, and undoubtedly the city, as the petitioner, will be the party determined to do the work and bear the cost in the first instance, after which the railroad company will be called upon to pay its share.

I respectfully recommend that your Honor ask the City Council to petition the Public Utilities Commission for a decree in connection with this construction.

Yours respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.

Whereas, River street, a public way in the Hyde Park district in the City of Boston, crosses the tracks of the Midland Division of the New York, New Haven & Hartford Railroad by an overhead bridge, commonly known as the East River Street Bridge; and

Whereas, By the provisions of chapter 260, Acts of 1926, the Board of Street Commissioners are authorized to alter and reconstruct the said bridge in connection with the widening and reconstructing of said East River Street Bridge from Everett square to Mattapan square to a width of not less than fifty feet; and

Whereas, We are of the opinion that it is necessary for the security and convenience of the public that an alteration which does not involve the abolition of the crossing at grade should be made in said overhead bridge and its approaches;

Ordered, That the Corporation Counsel, in the name and behalf of the City Council, apply to the Department of Public Utilities for its decision upon the necessity of such alteration, and for prescribing the manner and limits within which it shall be made; and if the decision of the Department of Public Utilities is that an alteration is necessary that the Corporation Counsel take such legal proceedings as are necessary to have such decision carried into effect in compliance with sections 59 to 64, both inclusive, of chapter 159 of the General Laws of Massachusetts, 1921.

Referred to the Executive Committee.

NOTICE OF HEARING ON TRACKS ACROSS C STREET.

Notice was received of hearing to be given April 6 by the Department of Public Utilities on petition of Walworth Manufacturing Company to construct private railroad across C street, South Boston.

Placed on file.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

President HEFFERNAN, under unfinished business, called up No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor March 21, 1927, of John F. McKeon and Dorothea Levine, to be Weighers of Coal, and Morris Mindick and Roy R. Nichols, to be Weighers of Goods.

The question came on confirmation. Committee, Coun. Fitzgerald and Guild. Whole number of ballots 14, yeas 14, and the appointments were confirmed.

ANNUITY FOR WIDOW OF BARTHOLOMEW J. DOWD.

Coun. KEENE offered the following:

Ordered, That an annuity of \$600 be allowed and paid to the widow of Bartholomew J. Dowd, late member of the Boston Fire Department, who died from injuries received in the performance of his duty, such annuity to continue so long as said widow remains unmarried and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Referred to the Executive Committee.

HALF HOLIDAY FOR CLEANING FORCE, CITY HOSPITAL.

Coun. DOWLING—Mr. President, in the absence of Coun. Ward, who is ill and, I understand, has gone to the hospital today, I desire to present this order for him.

Coun. DOWLING, for Coun. Ward, offered the following:

Ordered, That the trustees of the Boston City Hospital be requested, through his Honor the Mayor, to grant a half holiday on Saturdays during the year to the employees of the house cleaning department.

Coun. DOWLING—Mr. President, Coun. Ward asked me to make a statement to the members of the Council in connection with that order. A week or two ago the Council passed an order that applied to the women, and the hospital trustees did not include in the benefits to be derived from the order a number of male employees. Therefore, this order is introduced, and Coun. Ward hopes that it will pass.

The order was passed under suspension of the rule.

REPORT OF COMMITTEE ON UNEMPLOYMENT.

Coun. McGRATH, for the Special Committee on Unemployment, submitted the following report:

The Special Committee on Unemployment of the City Council submits the following partial report of the committee relative to that phase of the investigation that covered eavesdropping and listening in by the New England Telephone and Telegraph Company.

On February 14, 1927, the following order was adopted at the City Council meeting:

"Ordered, That his Honor the Mayor be authorized, in the name and on behalf of the City of Boston, to petition the Massachusetts Legislature during its present term for legislation to repeal section 102 of chapter 272 of the General Laws of 1921.

In order that the entire matter may be explained properly, we quote the following four sections of the chapter.

(Chapter 272, Crimes against Chastity, Morality Decency and Good Order).

Section 99. Whoever, except when authorized by written permission of the attorney general of the Commonwealth, or of the district attorney for the district, secretly overhears, or attempts to overhear, or to have any other person secretly overhear, any spoken words in any building by using a device commonly known as a dictagraph or dictaphone, or however otherwise described, or any similar device or arrangement, or by tapping any wire, with intent to procure information concerning any official matter or to injure another, shall be punished by imprisonment for not more than two years or by a fine of not more than one thousand dollars, or both.

Section 100. Whoever, except when authorized under the preceding section, either on his own account or as the servant or agent of another, permits or acquiesces in the installing of a device commonly known as a dictagraph or dictaphone or any similar device or arrangement, or the tapping of any wire, with intent to procure or knowing or intending that it will be used to procure information concerning any official matter or to injure another, shall be punished by imprisonment for not more than two years or by a fine of not more than one thousand dollars, or both.

Section 101. Proof of the installation in any building of any device or arrangement which may be used for the purpose of violating the provision of section ninety-nine of this act by listening to any spoken words or proof of the tapping of any wire, unless duly authorized and unless done with the consent of the owner or person in control of

the building, shall be *prima facie* evidence of the commission of the crime of eavesdropping; but nothing contained in this or the preceding sections shall render it unlawful for any person to install and use such a device on premises under his exclusive control.

Section 102. The three preceding sections shall not apply to a corporation subject to the jurisdiction of the department of public utilities of the commonwealth or to the jurisdiction of the interstate commerce commission, or to the employees of any such corporation while engaged in the conduct of its business.

The order proposed an amendment to the law so that the New England Telephone and Telegraph Company and its employees would be placed on the same basis as every person in Boston and Massachusetts.

On February 28, 1927, the Mayor sent back the order accompanied by a veto message, and on March 14, 1927, he submitted to the City Council the opinion of the Corporation Counsel to substantiate his action in vetoing our order.

As he has summarized the entire situation which forms the basis for his veto by stating that there is sufficient power now invested in the Department of Public Utilities to enforce an order relative to wire tapping or eavesdropping by the New England Telephone and Telegraph Company, I wish to submit an answer which contradicts this opinion of his Honor and which I believe is self-explanatory.

March 22, 1927.

Mr. Joseph McGrath, City Councilor, City Hall, Boston, Mass.

Dear Sir,—I have your letter of the 19th instant, inquiring whether this department has ever issued an order relative to wire tapping or eavesdropping by the New England Telephone and Telegraph Company, and in reply would say that no such order has ever been issued by this department or its predecessor. My idea that an order of this commission would be difficult to enforce is based upon the fact that persons can listen in to telephone conversations without the people conversing being aware of it, and to effectively enforce such an order made by this department would involve the employment of a very great number of inspectors.

With kind regards, I am,
Yours very truly,
(Signed) HENRY C. ATTWILL,
Chairman.

This letter shows that as a practical matter the Public Utilities Commission, under their general powers, are unable to prevent wire tapping or eavesdropping on the part of the Telephone Company, and section 102 previously quoted, exempts the Company from prosecution or control under chapter 272 of the General Laws.

The committee believes this is a situation which should be corrected and submits this report so that if the matter is again taken up the Mayor and others interested will have the benefit of the information we have collected.

Coun. McGRATH—Mr. President, I move that the reading of the report be dispensed with. It is a report of the Committee on Unemployment, and it can be laid over a week so that all the members will have an opportunity to see it in print and know how to govern themselves.

The reading of the report was dispensed with, and it was ordered printed as a public document, and laid over to the next meeting.

RESURFACING OF WASHINGTON STREET, DORCHESTER.

Coun. WILSON offered the following:

Ordered, That his Honor the Mayor be and he hereby is respectfully requested forthwith to make immediate arrangements for the resurfacing of Washington street, Dorchester, especially between Park street and Talbot avenue, in view of the present unsafe and dangerous condition of said highway.

Passed under suspension of the rule.

FENCE FOR HAROLD PARK, WARD 12.

Coun. WILSON, for Coun. Bush, offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to include in the budget for the current year a sum sufficient to construct a suitable iron railing or picket fence to surround the small triangular park known as Harold park, located in Herbert J. Wolf square, Ward 12.

Coun. WILSON—Mr. President, I have introduced this order at the request of Coun. Bush, who resides near the square in question. The square in which this park, consisting of a small triangular plot of land, is located was named after Herbert J. Wolf, a member of the American Expeditionary Forces, who was the first boy from New England to die in France. Herbert J. Wolf was the bugler of Headquarters Troop of the 102d Machine Gun Battalion, and also served on the border in the First Squadron, Massachusetts Cavalry. He was the son of former inspector Morris Wolf of the Boston Police Department, and Mr. Wolf is planning to erect a monument and tablet on that park to commemorate the service and sacrifice of his son.

The railing is designed to protect the park and monument from being desecrated by vandals and from being overrun by children. It is not large enough for the purposes of a playground, and in fact consists of but approximately thirty square feet, and is therefore too small to be used for any other purpose.

The order was passed under suspension of the rule.

ROPING OFF STREETS APRIL 9.

Coun. DOWD offered the following:

Ordered, That the City Messenger be and hereby is authorized to rope off the streets in the vicinity of Union Park street and Harrison avenue on April 9 for the road race held by the Cathedral Young Men's Catholic Association, the expense to be charged to the appropriation for City Council, Flags, Ropes and Stakes.

Passed under suspension of the rule.

RECESS.

On motion of Coun. RUBY, the Council voted at 2.21 to take a recess subject to the call of the President. The members of the Council reassembled in the Council Chamber and were called to order by President HEFFERNAN at 3 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. GILBODY, for the Executive Committee, submitted the following:

1. Report on petitions (referred today) that permits be issued under usual conditions for children under fifteen years of age to appear at places of public amusement, viz.:

Jennie M. Trainor, Jordan Hall, May 18.

East Boston Masonic Association, Music Hall, March 29, 30, 31 and April 1.

Ethel Hawkins Forrest, Repertory Hall, April 18.

Report accepted; said permits granted.

2. Report on order (referred today) that there be allowed and paid to the widow of Bartholomew J. Dowd, late a member of the Boston Fire Department, who died from injuries received in the performance of his duties, an annuity of \$600—that the same ought to pass.

Report accepted; said order passed.

3. Report on order submitted by the Mayor (referred today) that the Corporation Counsel, in the name and behalf of the City Council, apply to the Department of Public Utilities for its decision upon the necessity of alteration of bridge in Hyde Park crossing the tracks of the Midland Division of the New York, New Haven & Hartford Railroad, and for prescribing the manner and limits within which it shall be made, etc.—that the same ought to pass.

Report accepted; said order passed.

SPECIAL COMMITTEE ON JITNEYS.

Coun. DOWD, for the Committee on Jitneys, submitted report on petition (referred January 31) of Boston Motor Tours Company for license to operate five buses in City of Boston—that license be granted.

Report accepted; said license granted under the usual conditions.

SIDEWALK ON HAMILTON STREET.

Coun. McMAHON offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Hamilton street, both sides, between Clarkson and Coleman streets, Ward 15, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

ANNUITY TO WIDOW OF JOSEPH M. DONOVAN.

Coun. McMAHON offered the following:

Ordered, That an annuity of \$600 be allowed and paid to the widow of Joseph M. Donovan, late member of the Boston Fire Department, who died from injuries received in the performance of his duty, such annuity to continue so long as said widow remains unmarried and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Referred to the Executive Committee.

ARC LAMP, CODMAN PARK, WARD 11.

Coun. ENGLERT offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install an electric arc lamp in front of 58 Codman park, Ward 11.

Passed under suspension of the rule.

ACCEPTANCE OF CHAUNCY PLACE, WARD 11.

Coun. ENGLERT offered the following:
Ordered, that the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out as a public highway Chauncy place, Ward 11.

Passed under suspension of the rule.

APPEARANCE OF FRANCES HEENAN "PEACHES" BROWNING.

Coun. DOWLING offered the following:

Ordered, that the Censorship Bureau be requested, through his Honor the Mayor, to deny to Frances Heenan "Peaches" Browning the right to appear on the stage at any public performance in this city.

Coun. DOWLING—Mr. President, I am informed by a representative of the press, who got his information today from New York, that a certain notorious woman in the great metropolis known by the name of Frances Heenan "Peaches" Browning today signed a contract for an extended vaudeville tour, and that her itinerary includes Boston. I do not believe there is a man, woman or child in this city who goes to any of the public play houses who anticipates with any great degree of pleasure the public appearance here of a woman who pretty nearly reached the stage of a public prostitute. The appearance of a woman of that character in the presence of the children of this city, who attend performances without escort, ought to be denied, and I hope that the order will pass. (Applause in the gallery.)

The order was passed under suspension of the rule.

BUILDINGS IN CITY YARDS, ALBANY STREET.

Coun. DOWD offered the following:

That the Commissioner of Public Works be requested, through his Honor the Mayor, to take immediate steps to demolish the dilapidated and unsightly buildings located in the city yards on Albany street, Ward 8, which constitute a health menace and fire hazard to the residents of said district, and that provision be made to replace the same by the erection of a modern fireproof building to house the Sewer, Street Cleaning, Sanitary and Paving Services of said district.

Passed under suspension of the rule.

NAMES OF THREE COUNCILORS.

Coun. DOWD offered the following:

Ordered, that his Honor the Mayor be requested to furnish the Council at the next meeting with the names of the three councilors whom he has threatened to name as treading on dangerous ground.

Coun. DOWD—Mr. President, I was rather surprised, to say the least, not to say amused, when I read in the afternoon papers of last week the statement that his Honor the Mayor had said publicly that there were three members of the Boston City Council who were treading on very dangerous ground. I really do not know what his Honor the Mayor means when he says we are treading on dangerous ground. I do not feel, as one member of the Council, that I have anything to hide or to be ashamed of during my membership in the Boston City Council. It is true that I have opposed Mayor Nichols and this administration from the very first day I took office, for the simple reason that I do not like the methods used by those who are supposed to be running the City of Boston. I think if his Honor the Mayor has anything on any three members of the Boston City Council he should have the guts to come out and name the three councilors who are, as he says, treading on dangerous ground. I respectfully ask a suspension of the rule and the passage of the order.

Coun. GUILD—Mr. President, I move reference of the order to the Executive Committee.

Coun. DOWD—Mr. President, I believe his Honor the Mayor made a statement last week which was given, as I have said, publication in the press of this city, to the effect that I have stated. If this Council does not see fit to reply to his Honor the Mayor, the public may believe that there are three councilors in this body who are afraid to have their names mentioned. I believe, therefore, that we should strike and should ask the Mayor this question while the iron is very, very warm.

Coun. GUILD—Mr. President, it behooves me to explain my position. I do not gainsay that the councilor who has just taken his seat is correct in his statement as to what was published, purporting to come from his Honor the Mayor, but it was not in any publication that came to my attention, and before voting upon this matter I think I should be favored with the exact reference to what has been said, should be permitted to see whatever has been printed on the subject. It may be that I am so far remote from the public press that I do not get everything that is inserted therein, but before being asked to vote in this matter I feel that I should at least know what I am voting upon. Therefore, I have moved reference of the order to the Executive Committee.

Coun. DOWD—Mr. President, before referring the order to the Executive Committee, if the Council so desires, I believe I could answer Coun. Guild in this way, that I think most of the councilors, at least, read what was published in a certain afternoon paper of last week which stated, and stated very plainly, that Mayor Nichols said that three councilors were treading on very dangerous ground.

Coun. GUILD'S motion to refer the order to the Executive Committee was declared lost. Coun. GUILD doubted the vote and asked for a rising vote. The motion to refer the order to the Executive Committee was lost upon a rising vote, 9 to 10.

The rule was declared not suspended, for the passage of the order. Coun. DOWLING doubted the vote and asked for a rising vote.

The motion to suspend the rule for passage of the order was lost (a two-thirds vote being necessary for suspension), 10 to 9.

President HEFFERNAN—Less than two thirds having voted in favor of the motion, it is not a vote, and the order is referred to the Executive Committee, under the rules.

RECESS.

Coun. WILSON—Mr. President, I move that we take a recess, subject to the call of the Chair.

Coun. FITZGERALD—Mr. President, I would like to know for what purpose it is proposed that we take a recess.

Coun. WILSON—Mr. President, I understand that the last order offered was referred to the Executive Committee, and I am very much in favor of getting rid of it at this time.

The Council voted at 3.14 p. m. to take a recess subject to the call of the Chair.

The members reassembled in the Council Chamber and were called to order by President HEFFERNAN at 3.34 p. m.

ROPING OFF CENTRE STREET.

Coun. GUILD offered the following:

Ordered, that the City Messenger be authorized to rope off Centre street, Jamaica Plain, from Walden street to a point about one hundred yards beyond Gay Head street, on the occasion of the Michael J. O'Connell Post, American Legion, road race on April 19, 1927; the expense attending the same to be charged to the appropriation for City Council, Flags, Ropes and Stakes.

Passed under suspension of the rule.

SALARY OF BUILDING COMMISSIONER.

On motion of Coun. FITZGERALD the Council voted to take No. 3 from the table, viz.:

3. An Ordinance concerning the salary of the Building Commissioner.

Be it ordained by the City Council of Boston, as follows:

Section 5 of chapter 3 of the Revised Ordinances of 1925 is hereby amended in the clause establishing the salary of the Building Commissioner by striking out the words "six thousand" and inserting in place thereof the words "seventy-five hundred."

The question came on the passage of the ordinance.

Coun. McGRATH—Mr. President, this is an ordinance establishing the salary of the Building Commissioner at \$7,000 a year instead of \$6,000 a year. Some three weeks ago I had the ordinance laid on the table, for the reason that the business agent of the Boston Central Labor Union, before a committee of which I am a member, said there were between 60,000 and 70,000 people unemployed in our city. Many of those people were men who were married, with families, and they were going throughout the streets of this city looking for an opportunity to get work at almost any wages. I had a man in here this morning who is working at the hospital for \$2 a day, the father of a family; and here was a situation where a man was getting \$115 a week and we were being asked to increase his salary to \$144 per week. It seemed to me as if it was a mockery, with the present conditions of unemployment, with cases coming to our attention right along of people literally starving in the homes of our city; with his Honor the Mayor of our city getting \$400 a week. As I say, regarding conditions as they are confronting us at this time, to me it seemed a mockery. Let me say personally that I recognize Mr. Rourke as a man of as high standing as any man in this city, a man who is a master mind in engineering, and I consider it personally very unfortunate after the friendship I have had with him for thirteen years and after having had some of my closest friends, politically and personally, come to me and ask me to go through on this ordinance, to feel that I have to stand on the floor here and take the position I do at this time. But, Mr. President, it is not a question of friend or foe here today. It is a question of facing in this city conditions the like of which we have not seen for years. It is a question of men and women walking our streets asking an opportunity to work at anything so that they may provide food for their families. The Department of Public Welfare, down below us here, have more on their roll than ever before. Hon. Joseph H. O'Neil, former president of the Federal Trust Company, told me the other day

that never in his life has he seen so many people on the list of a charitable organization of which he is a representative as today. And, therefore, Mr. President, I say it is mockery for this ordinance to be introduced at this time, asking that the salary of a man who now receives \$115 a week from the city treasury should be increased to \$144 a week. When the commissioner took this position he knew that the salary was \$6,000, and I understand from some of the members here that he was promised more. Who, in this Council or outside, had the right to give him the idea that he would get more? Nobody had a right to promise my vote or the vote of any other member here; and I say that we have no right to vote for this proposed increase at the present time, in the face of the wave of unemployment that we are experiencing in this city, with over 18,000 city employees who are getting under \$3,000 a year unable to get a raise, and with 60,000 to 70,000 of our people in this city walking the streets and glad to get a job that will give them \$25 a week.

Coun. DOWLING—Mr. President, as chairman of the committee that has reported this proposed ordinance I ought to say that the committee heard from no one in opposition to it, in spite of the fact that it was discussed in the committee and that there was an opportunity afforded to anybody who wished to be heard. The committee favored this with the idea of giving to the Building Commissioner a salary commensurate with the responsibilities of his office. I, like Coun. McGrath, have been a close personal friend of the Building Commissioner for many years. I remember when he came into the service of the city, with recommendations such as no other department head ever brought. I have followed Mr. Rourke's career, as have other members of the Council, with much interest and admiration. He is a competent and efficient man, equal to the responsibilities imposed upon him and well qualified in every particular. I would like to ask Coun. McGrath if he feels that he can justify the speech he has just made without offering an ordinance to reduce the salaries of the other corresponding heads of departments, so that they may be placed on a comparable basis with Mr. Rourke?

Coun. McGRATH—Mr. President, I have never in my life, throughout my experience in politics, introduced an order to reduce any man's salary; but I will at a time like this fight any increase of \$1,500 per year to a man already receiving \$6,000 per year, while we are awaiting a budget which will deeply concern a very large number of other employees of the city who are probably to be denied any substantial increase in their salaries. No, Mr. President, I will never ask to reduce any man's salary, but I will ask for the increase of the salaries of 18,000 people who are getting less than \$3,000 a year before I vote for an increase of \$1,500 in the salary of a man who is getting \$6,000 a year.

Coun. ARNOLD—Mr. President, I believe a man in this position is worth the amount of salary that has been asked for by this proposed change in the ordinance. The people of the City of Boston may have short memories but, sir, they are not so short but what they must remember some of the disasters that have overtaken us in the carrying on of the functions of this department in the past—not that I would stand here and say that the Building Commissioner who was in the position at the time of a particular disaster we have in mind was wholly responsible for it; but I believe we should see to it that we maintain in the office of Building Commissioner a man to whom we can look with confidence for the safety of the citizens of our city, so far as the work of the department is concerned. I believe the safety of our citizens is just as important a function as any over which we have any supervision. I trust, sir, that this ordinance will pass.

Coun. WILSON—Mr. President, I certainly have no quarrel with Mr. Rourke, whom we all consider a very efficient and able gentleman. In fact, no less a personage than ex-Mayor Fitzgerald brought Mr. Rourke to our city some years ago at a salary of \$10,000 a year. On the other hand, however, I would much rather see a budget come in here from the Mayor properly providing for many of the employees of our city who are receiving small amounts, in line with Coun. McGrath's remarks, men receiving perhaps, \$1,400 to \$1,600 a year, than to see the salary now in question raised as proposed. I am not opposed to Mr. Rourke. I think he deserves the money, that he is worth it, but I do believe this is a most inopportune time to put this particular ordinance through.

Coun. GUILD—Mr. President, I am frequently impressed with the eloquence of Coun. McGrath in debate, but I am not today impressed with the logic which seems to appeal to both him and Coun. Wilson in this matter. They stand up here and tell us that Mr. Rourke is the highest type of man, a master mind in engineering matters. Then they jump from that and tell us about the great wave of unemployment in the city and the thousands who are out of work. They tell us, further, that there are 18,000 city employees getting less than \$3,000 a year, and because of that they then wish us to draw the inference that by refusing to give Mr. Rourke this increase of salary—which they tell us that this highest type of man and master mind in engineering problems is entitled to—we will be enabled to alleviate unemployment conditions in this city and to raise the pay of other city employees. Does anyone

here think there is the slightest chance, by defeating this ordinance, to do anything in the way of raising the pay of the 18,000 city employees who are getting less than \$3,000 a year? I cannot see any connection at all between the two propositions. The \$1,500 which is asked for here as an increase in Mr. Rourke's salary certainly cannot—and it cannot be claimed here by either Coun. McGrath or Coun. Wilson that it will—alleviate the unemployment situation, and there is no indication or intention of it being used in that way. Neither can Coun. McGrath or Coun. Wilson spread that \$1,500 among the 18,000 municipal employees who are getting less than \$3,000 a year. Being so, I can see no connection at all between this ordinance, which the Committee on Ordinances has reported favorably,—and, incidentally, none of those now objecting to the proposed ordinance took the trouble to appear at any session of the committee when it was considering this matter,—and the other conditions that have been referred to here today. It seems to me, therefore, this being an entirely different and separate matter, that the ordinance as reported by the committee ought to pass.

Coun. KEENE—Mr. President, for the information of the Council I would say that, as I understand the situation, this ordinance was not introduced so much to increase the salary of any department head as it was to equalize the pay of the heads of the various departments. The fact is, and it has been recognized for some time, that the head of this department as compared with the heads of other departments is underpaid. The chairman of the Board of Assessors gets \$7,000, the Collector \$7,500, the Fire Commissioner \$7,500, the Police Commissioner \$8,000, the Health Commissioner \$7,500, the Institutions Department Commissioner \$7,500, the head of the Park Department \$7,000, the Public Works Commissioner \$9,000, and the head of the Law Department \$9,000. So the head of this department is practically the lowest paid head of any department of this size and importance in the entire city. I think the purpose has been simply to equalize these salaries, to put the salary of the head of this department on the same basis as the others. No other salaries of department heads have been increased, but it is simply felt that the head of this department, as a department of importance, should be put in a class corresponding with the other department heads, so far as salary is concerned.

Coun. WILSON—Mr. President, with reference to the logic of the gentleman from Jamaica Plain and outlying sections in the general direction of Jamaica Pond, who has gone somewhat into the question of arithmetic on this matter, it does appear to me that, if the City of Boston can afford any salary increases, instead of giving one increase amounting to \$1,500 to one man, it might be well to raise to the extent of \$100 fifteen employees now perhaps getting but \$1,400 or \$1,500 a year. While it would not put them in a condition to get expensive houses, with garages and automobiles, it would at least alleviate their condition. So it seems to me that Coun. McGrath was not only eloquent but logical in making the suggestion that if the City of Boston can afford to start at the top and increase salaries there in a large amount, we had best look over the budget situation first and see whether the city can afford to pay a somewhat additional amount to some of the lower priced employees, perhaps giving them a lift of \$100. (Applause in the galleries.)

President HEFFERNAN—The applause in the galleries must cease.

Coun. MCGRATH—Mr. President, I want to say just a word in closing, something not having anything to do with this particular bill, but which I think may well be considered, in view of what has been said here today. I recently saw this in the paper:

"Fuller Sees Plot in School Bill. Would not give committee right to fix salaries. Governor Fuller aimed a blow at what he thought to be a move toward involving the Boston School Committee in partisan politics, by returning to the General Court the Schoolhouse Commissioner salary bill, with suggestions for certain changes."

That is, he vetoed a bill providing that the salaries of the commissioners of the Schoolhouse Department "shall be fixed by the School Committee with the approval of the Mayor." His suggestion to the Legislature was that it strike out the words "School Committee with the approval of" and insert after the word "Mayor" the words "and Council." The Governor believed that this was a matter which should go to the City Council for their approval, as clearly the representatives of the city. We are only applied to when it is necessary to apply to us, and when that is the case I believe in considering a matter very carefully before I act upon it.

The report was accepted, and the ordinance was declared not passed. Coun. Parkman doubted the vote and asked for a rising vote.

On motion of Coun. DOWLING, it was voted that a roll call be had.

The ordinance was passed upon a roll call, yeas 13, nays 7.

Yeas—Coun. Arnold, Donovan, Dowling, Engert, Fitzgerald, Freeley, Gilbody, Green, Guild, Heffernan, Keene, Parkman, Wragg—13.

Nays—Coun. Dowd, Lynch, Mahoney, McGrath, McMahon, Ruby, Wilson—7.

APPROPRIATION FOR MUNICIPAL BUILDING, WARD 11.

On motion of Coun. ENGLERT, the Council voted to take up, under unfinished business, No. 2 on the calendar, viz.:

2. Ordered, That the sum of five hundred thousand dollars be appropriated, to be expended by the Superintendent of Public Buildings for a municipal building in Ward 11, and that to meet said appropriation the City Treasurer be authorized to issue, from time to time, bonds or certificates of indebtedness to the said amount.

On March 14, 1927, the foregoing order was read once and passed, yeas 20, nays 2.

The order was given its second reading and final passage, yeas 18, nays, Coun. Dowling, Parkman—2.

ROPING OF STREETS FOR MARATHON RACE.

Coun. ARNOLD offered the following:

That the City Messenger be authorized to rope off such streets as may be necessary, as in former years, in connection with the marathon race, to be held on April 19, 1927, under the auspices of the Boston Athletic Association, the expense attending the same to be charged to the appropriation for City Council, Flags, Ropes and Stakes.

Passed under suspension of the rule.

RELIEF OF TRAFFIC CONDITIONS, CHARLESTOWN.

Coun. GREEN offered the following:

Ordered, That the City Planning Board be requested, through his Honor the Mayor, to make a study and report to the City Council as to the advisability of widening streets in the vicinity of Rutherford avenue and Chapman street, and in the vicinity of Austin and Main streets, Charlestown, with a view to relieving traffic conditions.

Passed under suspension of the rule.

CLEARING OF SPACE ADJACENT TO CITY HALL.

Coun. DONOVAN offered the following:

Ordered, That his Honor the Mayor request the Police Commissioner, the Board of Street Commissioners, and the Superintendent of Public Buildings, to co-operate in taking action to clear the area adjacent to City Hall of automobiles in order that the citizens of Boston may have ready access for the transaction of municipal business.

Passed under suspension of the rule.

USE OF WEST NEWTON STREET.

Coun. DOWLING offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to submit to the City Council, at its earliest convenience, a copy of all communications and other papers of record relating to the use of any part of West Newton street by private individuals for parking purposes.

Coun. DOWLING—Mr. President, my attention has been called to a condition of affairs in the vicinity of Mechanics Building, and I, myself, have personally experienced it, that I think presents an outrageous situation. West Newton street, from the extreme end toward Harrison avenue to the tracks of the New York Central Railroad, is a public way. What might be called the dead end of the street is in close proximity to Mechanics Hall. There is room there for the parking of about fifty or sixty cars. Some time ago, I am told on responsible authority, a letter was written by a member of the Board of Street Commissioners, who is not at present a member of that board, which delegated to a private individual the right to go into the dead end of West Newton street and collect parking fees for automobiles that might be parked there—and I offer this as a serious part of my statement—there is also a public garage there, and I assume that the man who owns the garage pays his rent, his taxes and his help, and his greatest competitor is a man somewhat friendly with this administration who has the right to charge citizens for parking cars there in the open street directly in front of the garage man's premises. I don't know the man who owns the garage, I do not know the favorite son who has the authority of the Street Commission or of the Mayor's office in this matter. But apparently such authority or such a permit has been given to him. I don't know his name, but I am told that he is a former representative, a Democratic representative of the city, who has been extremely friendly with the Mayor's office during the past year and who has got round shouldered with the favors that he has obtained from that office. I understand that he has been given the right to go into West Newton street there and collect 50 cents for the privilege of parking a

car there. In common with 100,000 other impoverished American citizens, I attended the auto show a few weeks ago, looking at cars I could not afford to buy. There were fifty cars in that area I have referred to, and there was a uniformed policeman at the junction of the area who was apparently working in cahoots with the fellow who has this unholy right to use the public way. There was still apparently room for me to drive my flivver into the area, and I said to the officer, "Is there some chance of my parking there?" He said, "It looks pretty full to me." Well, it looked to me as though there was still room for four or five more cars there, and I said to him, "It doesn't look very full to me, and I would like to park my car there, as I want to go to the show." He repeated, "It looks pretty full to me," and then I blossomed out with all the pride that I could muster, threw back my shoulders and said I was a member of the City Council. I thought that might make a little difference, but the only difference was that the officer turned his head around so that I couldn't see his number, held his head off this way and answered this way, saying I could not see his number. Mr. President, I am perfectly satisfied that some fellow who has no right to use the public highway there is parking cars there and collecting money for doing so, because when I spoke to three who seemed to be on duty in this improvised parking space, one of them objected to my coming in. Well, I said that I was a disreputable member of the City Council and that I probably should have as much right as any one. He said, "We charge for parking here." I said, "Who do you charge?" "We charge the people who park here." I said, "That is all right, charge it." (Laughter.) So I put my flivver in there, and as I left the place to go into the show with my wife, I said to this person or tenant that I was going to lock the door of the car. He said, "I hope you will not lock the car, but will leave it so that it can be moved. I can put in two or three others,"—although before it was pretty full. Of course, that would mean another dollar and a half to him. I said, "Well, I have a tire, a set of tools and a set of chains, that I don't want to lose." Well, he said he would look after that, and I will say that he did take pretty good care of it because the tire, the tools and the chains were there when I came back. But when I started to get out of the place again another attendant came to me for another charge of 50 cents for parking. Now, I want to know if the Mayor's office knows about it, or if the Street Commissioners have any authority to allow any one to use the public highways and collect for parking privileges in any such fashion. The same situation, I am told, exists at the dead end of Gainsborough street near the Arena. An officer is posted there, and apparently one of his jobs is to see that the tenants of the public highways can collect 50 cents out of people who are suckers enough to give it to them. I hope the order will pass.

Coun. ARNOLD—Mr. President, for fear that the Council may think that that part of Boston which I have the honor to represent is inhospitable, I must rise in answer to the distinguished councilor who has just taken his seat. I do not believe, sir, that the situation which he has pointed out in such detail is particularly unusual. There is an endeavor on the part of this army of the unemployed, of which we have heard, and with whom we all sympathize, to get a little change out of the customers of the Automobile Show, and the streets in that vicinity have been flooded with individuals who have been very courteous and very helpful in finding places to park cars. My house is exactly opposite Mechanics Building, and, on account of the fact that Mechanics Building has so many such functions during the year, I have never obtained the privilege which I might have had and had that particular area in front of my place designated as a restricted area. I am glad, as far as they can be accommodated, to have the cars coming from anywhere at any time park in that vicinity. We are proud in that district of the attractions which we have, and we do everything in our power to make those who come there welcome. The particular area which has been referred to is, as I understand it, private property, and if somebody has been given the privilege of collecting a fee it is unusual, to say the least. Gratuities undoubtedly are given, however, to many persons who are about that area during the time of these large expositions. I am sorry that the councilor has been thus treated in my district, and I am going to invite him the next time he comes down to any show to park in front of No. 92 Huntington avenue, and I will see that everything he brings, and even more, will go back with him!

Coun. DOWLING—Mr. President, I have enjoyed the hospitality of the councilor from that district, and I can vouch for the cordiality with which you are received at his office there—not his house. But the fact remains that a charge is being made there in the use of the public streets notwithstanding what the councilor has said, and I will repeat, if I did not make it clear in my previous remarks, that one man apparently in charge at that dead end street told me that he received his permit to use the street from the Street Commissioners' office. As I understand it there is no such place from which fees are collected for the parking of cars except the dead end of West Newton street and the dead end of Gainsborough street.

The order was passed under a suspension of the rule.

NAMES OF THREE COUNCILORS.

Coun. DOWD—Mr. President, may I ask the status of the order which I offered and which was referred to the Executive Committee at the present time?

President HEFFERNAN—The Chair will rule that it remains in the Executive Committee. As I understand it, there was a vote on the question of reporting the order back, and it was defeated, and there was no further motion made. The Executive Committee adjourned without any further vote being taken.

Coun. DOWD—I believe it was referred to the Executive Committee by a vote of 10 to 9, and it still lies in the Executive Committee?

President HEFFERNAN—Yes. It is still necessary to have a vote of some kind in the committee in order to report it back.

Coun. DOWD—Mr. President, I now move that the matter be taken from the Executive Committee and acted upon in this Council Chamber.

President HEFFERNAN—The Chair would rule that that requires a two thirds vote as it amounts to a suspension of the rule.

Coun. DOWD—Mr. President, I simply want to say a word at this time. It seems that every time that the Mayor of Boston has taken a slap at the twenty-two members of the Council they have accepted it very meekly, just like lambs. A week ago the Mayor sent notice to the majority of us that we couldn't name the appointments in the assessors' office we had the privilege of appointing last year. That privilege was taken away from us because we wouldn't curry favor with and vote for the orders presented by the Mayor of Boston. I cannot understand how any councilor can really justify his vote against this order presented by myself. If the Mayor of Boston really feels that three members of the City Council are treading on dangerous ground, it is his duty to tell the public who they are so that they may be defeated at the next election. I know, of course, that the Mayor does not desire me to be in the Council next year, but I only hope that he will come to the South End and various parts of Roxbury and campaign against me. If he does, there will be no contest whatsoever in the district. In closing, let me say that when the Mayor speaks of three who are treading on dangerous ground, I don't think he really means three members of the Boston City Council, but he is really referring to three who have more power than we have, although they were not elected by the people. The three I refer to, who are running the City of Boston, are Ernie, Charlie and Bobbie. I ask for a roll call on my motion.

Coun. DOWD'S motion to take the order referred to from the Executive Committee was lost, yeas 10, nays 10.

Yeas—Coun. Dowd, Dowling, Freeley, Gilbody, Heffernan, Lynch, Mahoney, McGrath, McMahon, Wilson—10.

Nays—Coun. Arnold, Donovan, Englert, Fitzgerald, Green, Guild, Keene, Parkman, Ruby, Wragg—10.

President HEFFERNAN—The motion not having received the necessary two thirds vote is lost.

Coun. DOWD offered the following: Ordered, That his Honor the Mayor be requested to furnish the Council at the next meeting with the names of the three councilors whom he has threatened to name as treading on dangerous ground.

Coun. GUILD—Mr. President, I rise to a point of order. An order in identical terms is pending having been referred to the Executive Committee.

President HEFFERNAN—The Chair will have to rule the point of order well taken. There is a similar order in Executive Committee at the present time.

Coun. DOWD—Mr. President, the order as originally presented by me is the same as this order. But that order which I offered, and which went into the Executive Committee, was there amended, and the order as it lies in the Executive Committee is not the same order that I now present.

President HEFFERNAN—The Chair will rule that the vote in the Executive Committee, as he recalls it, was on the question of substitution of an order, which did not prevail. The order as it stands in the Executive Committee was in the very same form when it left the chamber as this order and the Chair will rule the point of order well taken.

THE NEXT MEETING.

Coun. FITZGERALD—Mr. President, I move that when the Council adjourn it be to meet two weeks from today at 2 p. m.

Coun. KEENE—Mr. President, might I suggest to Coun. Fitzgerald the probability or possibility of the budget being put in here next week?

Coun. FITZGERALD—Mr. President, I withdraw the motion.

GENERAL RECONSIDERATION REFUSED.

On motion of Coun. KEENE, the Council refused a general reconsideration of all action taken today.

Adjourned, on motion of Coun. FREELEY, at 4.10 p. m., to meet on Monday, April 4, at 2 p. m.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR ASSEMBLING 50 POST HYDRANTS.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for assembling 50 Post Hydrants. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of twenty-three hundred (2,300) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Assembling Post Hydrants," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Monday, April 11, 1927, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

JAMES H. SULLIVAN,
Commissioner of Public Works.

CITY OF BOSTON.

SCHOOL COMMITTEE.

PROPOSALS FOR AMERICAN ANTHRACITE COAL FOR BOSTON PUBLIC SCHOOLS.

The School Committee invites bids for furnishing American anthracite coal required for the school buildings from June 16, 1927, to December 31, 1927, deliveries to be continued until June 15, 1928, provided appropriation is made therefor and the School Committee so orders. Proposals made on the form to be obtained at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street, will be received until Wednesday, April 20, 1927, at 12 o'clock m., at said office, at which time and place they will be publicly opened and read. Envelopes containing proposals must be plainly marked "Proposal for American Anthracite Coal." Each bid must be made in duplicate, one to be sent to the Business Manager of the School Committee as above, and the other to be filed with the City Auditor, City Hall, Boston, previous to the time named for opening bids. The coal is to be delivered in the bins of the several buildings, and the price per ton named in the proposal must include the delivery and housing in a manner satisfactory to the School Committee. The contractor must furnish suitable equipment and a sufficient number of men to house the coal properly and promptly. The amount of coal required for the entire period, about 60 per cent of which may be put in during July and August, 1927, is estimated as follows:

District.	American Anthracite Coal—Egg Size.
1. City Proper.....	1,000 tons.
2. South Boston.....	650 tons.
3. East Boston.....	750 tons.
4. Roxbury.....	1,100 tons.
5. Dorchester.....	1,300 tons.
6. Charlestown.....	350 tons.
7. Brighton.....	750 tons.
8. West Roxbury.....	600 tons.
9. Hyde Park.....	500 tons.
Total.....	7,000 tons.

Bidders may submit a proposal for furnishing American anthracite coal required in any one or more of the above nine districts of the city, and may also submit one bid covering the whole city. A certified check for one hundred dollars (\$100) for each district bid for (\$900 for the whole nine districts), payable to the City of Boston, must be filed with the copy of bid sent to the Business Manager of the School Committee, and any bidder awarded a contract must furnish a bond for not less than twenty-five (25) per cent of the estimated amount of the contract awarded him. The School Committee reserves the right to reject any or all bids and to award the contract by districts or for the entire requirements as may appear to be best for the interests of the city.

MAYOR NICHOLS DELIVERS FINAL RADIO TALK OF SERIES.

Mayor Nichols delivered the following address from radio station WEEI on Friday evening, April 1, at 9.30, this being the concluding talk of a series of six on the subject of Municipal Finance and Administration.

Ladies and Gentlemen of the Radio Audience:

With your permission tonight I will turn from the subject of the municipal budget, which I have discussed during the preceding five radio addresses on municipal administration and finance, and speak of the administration of the City of Boston as it relates to the Metropolitan District, which, you know, consists of forty cities and towns, and to tax burdens not included in the municipal budget.

The position of Boston in the midst of this cluster of fine and growing municipalities is one of peculiar importance. It will be found that the growth in the population of the greater metropolis has been a factor of significance in the tax burden laid annually upon the City of Boston.

We are the business and social center of a metropolitan city of nearly two millions of people, with corresponding responsibilities. We maintain the streets of a business center of a city twice our size.

Boston is called upon to perform the police work of a business center of nearly two millions although her population is less than one million. This makes apparent the need of the additional 300 patrolmen for which I made provision last year.

In the same manner the proportionate cost of the city is greater for fire protection.

Our hospitalization applies to a city of two millions rather than to a city of less than one million.

The use of our park system, which is quite separate and distinct from the Metropolitan Park System, is really a metropolitan use.

Of the persons who apply to the City Hospital for treatment, 50 per cent have no legal settlement in Boston, and yet no worthy person is ever refused treatment at the Boston City Hospital. In a somewhat larger measure this percentage of non-resident applicants applies to the Haymarket Square Relief Station.

The City of Boston, nevertheless, welcomes the whole world within her gates, and is glad to serve the welfare and convenience of her neighbors and speaks thus in the pride of her standing as one of the greatest cities in America.

Last year the amount of money required to be raised by taxation to meet the obligations of the city was just over seventy millions of dollars. Of this amount, forty-two and three quarters millions, or 60 per cent, applied to functions not under the control of the Mayor. The city pays all of the expenses of Suffolk County and this item amounts to three and one half millions. The city pays 55 per cent of the Metropolitan Park main-

FINAL RADIO TALK.

(Continued from page 385.)

tenance, almost all of which is beyond the borders of the city. The state tax and many metropolitan assessments charged to Boston amount to over five millions. The expense of the Police Department, the debt requirements, and the public schools make up the balance of the forty-two and three quarters millions. All of these, except for the Police Department, are outside the city departments' budget.

Cost and expenditure play a significant part in municipal management. As both have risen sharply during the period of the past ten years there has come a more serious realization of the nature of public burdens, as tax rates have been produced which would not have been dreamed of years ago. Hardly anyone could have foreseen fifty years ago how many things today the City of Boston would be expected to do. I would not go back fifty years to show how startling have been the increases in cost. A ten-year period will show that the costs of city and state maintenance have increased 100 per cent each, county maintenance, 107 per cent; school maintenance, 154 per cent, and while various new avenues of expenditures have constantly appeared. Our pension accumulation fund this year amounts to nearly two millions of dollars. Payments of interest and principal on the city debt are between seven and eight million dollars annually.

I have been talking up to this time about maintenance charges, but now consider what a great and progressive city may have to expend upon its improvements. Last year I had projects suggested to me which, of course, would not be taken immediately from taxation but would be paid for from money raised by municipal loans amounting to rising two hundred million dollars. These projects reflect the constant demand for increased services in the City of Boston and yet our municipal services at present compare favorably with those of any great city. A considerable portion of these projects amounting to two hundred million dollars are all right if the city can afford to have them, but it is a problem of increasing perplexity to distinguish between real demands and those demands which are manufactured by organizations who are constantly engaged in devising new and attractive ways of spending public money.

The cost of such projects, when adopted as public improvements, is indicated by the debt requirements just referred to in the sum of between seven and eight millions annually, or about \$3.75 on the tax rate.

The projects which ought to be considered first I have not opportunity to speak of tonight, but sometime in the near future I want to tell you more about them. But I shall never tell you that public improvements are inexpensive or that you will not have to pay for them.

This is the last of my series of six talks upon city administration and finance. In conclusion, let me thank Station WEEI for its courtesy. Ladies and gentlemen of the radio audience I thank you for your attention, and I bid you good-night.

CLAIMS DISAPPROVED.

The Law Department has disapproved sixteen claims against the city, aggregating \$11,233.28, and they are classified as follows: Against the Public Works Department, sixteen, amounting to \$11,233.28.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the fol-lowing described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, build-ings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed there-from within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Roxbury, and are bounded as follows:

A parcel of land, supposed to belong to Maria A. McCormick, bounded:

Southeasterly by land hereinafter de-scribed as taken from owners unknown (Bowditch court), four and 64-100 feet; southwesterly by land hereinafter de-scribed as taken from Pietro Persico, forty-two and 60-100 feet; again south-westerly by land hereinafter described as taken from Frank and Mary Saraceno, eleven and 78-100 feet; northwesterly by other land supposed to belong to said McCormick, one and 52-100 feet; and northeasterly by the same, fifty-two and 89-100 feet, containing two hundred and twenty-four square feet, more or less.

The aforesaid described parcel is a part of a parcel of land registered in the Land Court, October 24, 1913, title certificate No. 5097, Book 24, page 97.

A parcel of land, supposed to belong to Frank and Mary Saraceno, bounded:

Southeasterly by land hereinafter de-scribed as taken from Pietro Persico, four and 85-100 feet; southwesterly by other land supposed to belong to said Saracenos, nine and 60-100 feet; northwesterly by the same, seven and 48-100 feet; and northeasterly by land hereinbefore de-scribed as taken from Maria A. McCormick, eleven and 78-100 feet, containing sixty-four square feet, more or less.

A parcel of land, supposed to belong to Pietro Persico, bounded:

Northwesterly by land hereinbefore de-scribed as taken from Frank and Mary Saraceno, four and 85-100 feet; north-easterly by land hereinbefore described as taken from Maria A. McCormick, twenty and 40-100 feet; southeasterly by land hereinafter described as taken from said Persico, four and 50-100 feet; and southwesterly by other land supposed to belong to said Persico, twenty-two and 20-100 feet, containing ninety-six square feet, more or less.

A parcel of land, supposed to belong to Pietro Persico, bounded:

Northwesterly by land hereinbefore de-scribed as taken from Pietro Persico, four and 50-100 feet; northeasterly by land hereinbefore described as taken from Maria A. McCormick, twenty-two and

20-100 feet; southeasterly by land hereinafter described as taken from owners unknown (Bowditch court), fourteen and 53-100 feet; and southwesterly by other land supposed to belong to said Persico, by two measurements, 79-100 feet and twenty-two and 51-100 feet, containing one hundred and two square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Bowditch court, bounded:

Southeasterly by Warren street, nine and 4-100 feet; southwesterly by another part of said court, ninety-nine and 97-100 feet; northwesterly by land hereinbefore described as taken from Persico and from McCormick, nine and 17-100 feet; and northeasterly by the same, by two measurements, 80-100 feet and ninety-nine and 24-100 feet, containing nine hundred square feet, more or less.

The sewerage works to be constructed are as follows: 140 linear feet of 12-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Bowditch court, and private land northwesterly from Bowditch court for a distance of approximately fifty feet.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on the westerly, northerly and southerly sides of Bowditch court, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 739, Sewerage Works, Bowditch Court, Roxbury, February 8, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do the work with the department forces without advertising; additions to and deductions from contracts.

PARK DEPARTMENT.

Upon April 4 the Mayor approved a change in the contract of the Edison Company for furnishing and installing underground conduits, etc. A communication from William P. Long of the Park Department was as follows:

BOSTON, March 29, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR—On March 13, 1927, you approved a request from the Board of Park Commissioners to award a contract, without advertising, to the Edison Electric Illuminating Company for furnishing and installing underground conduits, cables, manholes, and handholes to supply electric service to existing arc lamps at new locations along Audubon road in the Fens, between Aggasiz road and Fens Bridge.

We stated in the letter as follows:

"The cost of the work to be paid for by the city will be figured on the basis of the cost of same to the Edison Company plus ten (10) per cent for underground construction and fifteen (15) per cent for overhead construction. The estimated cost of this work to the city is \$2,934."

The Edison Company has requested that we change the wording of the above so that it will read as follows:

"The cost of the work to be paid for by the city will be figured on the basis of the cost of same to the Edison Company plus fifteen (15) per cent and ten (10) per cent for engineering and overhead cost. The estimated cost of this work to the city is \$2,934."

The representative from the Edison Company states that the reason for requesting this change is so that it will conform to the form of contract made with other cities and towns in this state, and as the estimated amount remains the same, \$2,934, and the Edison Company will not accept it in any other form, I respectfully ask that the change requested by the Edison Company be approved.

Very respectfully yours,

WILLIAM P. LONG,
Chairman.

PUBLIC BUILDINGS DEPARTMENT.

Upon March 31 the Mayor approved a contract with George A. Murphy for furniture for the Dorchester Court. A communication from John P. Englert, Superintendent of Public Buildings, was as follows:

BOSTON March 28, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR—On December 29, 1926, the Public Buildings Department publicly

opened and read bids for furniture for the Dorchester Court, with the following result:

George A. Murphy, \$13,857; Herbert W. Doten, \$18,981; Casper Furniture Company, \$20,086.

At no time since has there been enough money available to award a contract in even the lowest amount and it would be illegal to have attempted same. I therefore respectfully request permission to reject all bids.

I have now an understanding with the court authorities and they are quite willing to do without certain articles called for in the specifications. I have therefore eliminated certain features amounting to \$4,700 and would respectfully ask permission to award a contract to George A. Murphy in the sum of \$9,157, without the usual form of advertising, this amount being the difference between Mr. Murphy's original bid, which was the lowest, in the sum of \$13,857, and the total eliminations from the contract of \$4,700, leaving a balance of \$9,157, which will be the contract price.

I think, in consideration of all the facts, that the best interests of the city will be conserved thereby.

Respectfully yours,

JOHN P. ENGLERT,
Superintendent of Public Buildings.

PUBLIC WORKS DEPARTMENT (Paving Service).

Upon March 31 the Mayor approved a contract with the Boyle Robertson Construction Company for the construction of artificial stone sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, March 31, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to the Boyle Robertson Construction Company, Inc., 11 Beacon street, Boston, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

J. H. SULLIVAN,
Commissioner of Public Works.

Upon March 31 the Mayor approved a contract with Edward J. Farrell for the construction of artificial sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, March 30, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Edward J. Farrell, 473 Tremont street, Roxbury, is hereby requested on the ground that this contractor is not selected by the city in the first instance, but by the abutters; secondly, the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

J. H. SULLIVAN,
Commissioner of Public Works.

Upon April 1 the Mayor approved a contract with Antonio Pasquand for the construction of artificial sidewalks. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, March 31, 1927.

To the Mayor of Boston.

Permission to award a contract for the construction of artificial stone sidewalks in the public streets, without advertising, to Antonio Pasquand, 37 Rexford street, Mattapan, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; secondly the expense of construction is to be divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

J. H. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT (Water Service.)

Upon April 1 the Mayor approved a contract with Joseph A. Singarella for the construction of tile drain and pipe connection, etc., for Franklin Park area. A communication from J. H. Sullivan of the Public Works Department was as follows:

BOSTON, March 25, 1927.

To the Mayor of Boston.

Permission is requested to award a contract, without advertising, to Joseph A. Singarella, 110 High street, Boston, to construct a tile drain and pipe connection, furnishing all labor and materials therefor, in Franklin Park area at Morton street, West Roxbury, at an estimated cost of \$3,000.

This work is necessary, due to the wet and boggy condition of the ground at the northerly side of Morton street where Mr. Singarella is now building, under contract with this department, a stone masonry wall. It is inadvisable to build the wall until this area is drained.

The contractor is responsible and capable, and the price conservative, and in my opinion no advantage would be obtained or lower prices submitted if advertised for bids.

Yours respectfully,

J. H. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Upon April 4 the Mayor approved a contract with John T. Benson for the purchase of polar bears for the Franklin Park Zoo. A communication from Herbert S. Frost of the Supply Department was as follows:

BOSTON, April 1, 1927.

HON. MALCOLM E. NICHOLS,
Mayor of Boston.

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to John T. Benson, agent for the Hagenbeck Brothers, Inter-State Farm, Hudson, N. H., to furnish to the Franklin Park Zoo, Park Department, the following: One (1) pair female polar bears, \$1,300.

A personal selection of these polar bears has been made by the chairman of the Park Department who recommends that this purchase be made.

Respectfully yours,

HERBERT S. FROST,
Superintendent of Supplies.

EXTENSION OF CONTRACTS.

HOSPITAL DEPARTMENT.

Matthew Cummings Company have been granted an extension of time of completion of contract for additions and alterations, Nurses' Home, Boston City Hospital, from April 1, 1927, to August 1, 1927.

PARK DEPARTMENT.

Maplewood Construction Company have been granted an extension of time until May 15, 1927, for the completion of the contract for resetting edgestone around Public Garden Pond.

PUBLIC WORKS DEPARTMENT.

C. Russo has been granted an extension of time of completion of the contract for laying and relaying water pipes in Donald road, Milton avenue, Dorchester; Dana road, Knoll street, Roslindale avenue, Sanborn avenue and Walworth street, West Roxbury, from March 26 to May 1.

Joseph Capone has been directed to perform the following extra work under contract for laying and relaying water pipes in Bullion road, Cranston road, Pond circle, West Roxbury, and Violante street, Dorchester, dated December 18, 1926. Items ordered: Hauling inspector's shanty and furnishing 2-inch plank for wet bottom trench. Estimated cost of extra work, \$20.

AUTHORITY TO DO WORK.

The Mayor has granted the request of the Public Works Department for authority to widen and reconstruct Melville avenue, at southwest corner of Dorchester avenue, with department forces, without advertisement, the estimated cost for labor and material being \$3,000.

CONTRACT AMENDED.

Phandor Company have been allowed to amend the contract for the erection and completion of an elementary school in the Bennett District, Washington street, Corey road and Orchard street, Brighton, by striking out the words "nine months from date of this contract," on page 171, Article II, in connection with "Completion," and substituting therefor the word and figures "June 4, 1927," so that the paragraph of said Article II, on page 171, shall read: "The work is to be completed on or before June 4, 1927."

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz. 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt \$100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

POLICE DEPARTMENT ORDERS.*General Order No. 1057.*

A trial board consisting of Captains McConnell, McDevitt and Campbell, having heard by reference a complaint against Patrolman John J. Banks of Division 9, charging him with neglect of duty and conduct unbecoming an officer, reported to the Commissioner a finding of guilty as charged. In accordance with which, the said Patrolman John J. Banks was on March 15, 1927, dismissed from the Police Department.

Due written notice of such dismissal with the reasons therefor was duly and specifically given in hand on March 15, 1927, to the said John J. Banks.

On the seventeenth day of March, 1927, the said John J. Banks requested, through his attorney, in writing, a public hearing as provided by law, and the Police Commissioner set down Wednesday, March 23, 1927, at eleven o'clock a. m., at the office of the Police Commissioner, as the time and place of said hearing, and duly notified the said John J. Banks, said hearing being at request of counsel for the said John J. Banks, continued and set down for hearing at eleven o'clock a. m., on Tuesday, March 29, 1927, at the office of the Police Commissioner.

The said John J. Banks was present at said time and place and was heard with his witnesses. Whereupon, after hearing the case, the Police Commissioner finds the said John J. Banks guilty as charged and further finds that the said John J. Banks shall stand dismissed from the Police Department.

The Superintendent of Police will promulgate this order.

HERBERT A. WILSON,
Commissioner.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Huntington avenue, bounded:

Northwesterly by Collins street, six feet; northeasterly by another part of Huntington avenue, six hundred and fifty feet; northwesterly by the same, seventeen feet; northeasterly by land hereinafter described as taken from owners unknown, twelve feet; southeasterly by another part of Huntington avenue, twenty-three feet; and southwesterly by the same, six hundred and sixty-two feet; containing forty-one hundred and seventy-six square feet, more or less.

A parcel of land, owners unknown, bounded:

Southwesterly by land hereinbefore described as taken from owners unknown, twelve feet; northwesterly by land supposed to belong to John C. Cobb and to William Bleakie *et al*, trustees, two hundred forty-nine and 80-100 feet; northeasterly by land hereinafter described as taken from owners unknown (Bradlee street), twelve feet; and southeasterly by land supposed to belong to William Bleakie *et al*, trustees, and to Irving P. Dodge, two hundred forty-nine and 80-100 feet, containing twenty-nine hundred and ninety-eight square feet, more or less.

A parcel of land, owners unknown, being part of the private way known as Bradlee street, bounded:

Southwesterly by land hereinbefore described as taken from owners unknown, twelve feet; northwesterly by another part of Bradlee street, seventeen feet; northeasterly by easement taken by the City of Boston in Bradlee street, October 9, 1919, twelve feet; and southeasterly by another part of Bradlee street, seventeen feet, containing two hundred and four square feet, more or less.

The sewerage works to be constructed are as follows: 920 linear feet of 10-inch by 12-inch pipe sanitary sewer, in the above described premises, being part of the private way known as Huntington avenue, leading southeasterly from Collins street for a distance of approximately 662 feet, private land between Huntington avenue and Bradlee street, and part of the private way known as Bradlee street.

This Board determines that no person sustains damages in his estate by the taking of the aforesaid easement and construction of said sewerage works and awards no damages therefor.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the lots of abutting land on both sides of Huntington avenue, leading southeasterly from Collins street for a distance of approximately seven hundred feet, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Plan No. 741, Sewerage Works, Huntington Avenue, Hyde Park, February 28, 1927, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

REFUSES TO BUY FOREIGN PIPE.

Mayor Nichols announced on March 29 that he had approved the award of a contract to the Warren Pipe and Foundry Company for furnishing water pipe and special castings to the Water Division of the Public Works Department.

B. Nichol & Co. of New York was the lowest bidder at a total price of \$149,700. This company is not the manufacturer of the pipe to be furnished, but is contracting for its manufacture with a foundry in Germany. Should the City of Boston enter into this contract with B. Nichol & Co. and purchase pipe manufactured in Germany, it would be ignoring the spirit of City Ordinance, chapter 40, of 1925.

The Warren Pipe and Foundry Company of Phillipsburg, N. J., is the lowest bidder of pipe manufactured in the United States, at a total price of \$163,392. The difference in price between the two

bids, namely, \$13,692, does not represent the actual difference in cost to the city, as the difficulties involved in the inspection of pipe made in a foreign country and by a foundry with whom the city is not the direct contractor, together with the possible loss or damage in transit and delay in delivery, might seriously affect this amount.

Pipe made at Phillipsburg, N. J., in the past has been shipped in car lots as soon as cast and inspected, consequently immediate attention can be given to our needs, particularly at the present time where an early delivery is most essential.

The Supply Department has investigated the prices paid by different municipalities and engineers in different sections and finds that the price bid by the Warren Foundry and Pipe Company of \$51.28 per ton is lower than the average scale of prices paid.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for sewerage works to be constructed as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within sixty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly West Roxbury, and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Caspar street, bounded:

Southwesterly by another part of Caspar street and by easement taken by the City of Boston for sewerage purposes December 4, 1915, ten feet; northwesterly by another part of Caspar street, fifteen feet; northeasterly by land hereinafter described as taken from Rose Barton, ten feet; and southwesterly by another part of Caspar street, fifteen feet, containing one hundred and fifty square feet, more or less.

A parcel of land, supposed to belong to Rose Barton, bounded:

Southwesterly by land hereinafter described as taken from owners unknown (Caspar street), ten feet; northwesterly

by other land supposed to belong to said Barton, one hundred six and 83-100 feet; northeasterly by land hereinafter described as taken from Frank R. and Esther W. Atwill, ten and 1-100 feet; and southeasterly by other land supposed to belong to said Barton, one hundred seven and 33-100 feet, containing ten hundred and seventy-one square feet, more or less.

A parcel of land, supposed to belong to Frank R. and Esther W. Atwill, bounded:

Southwesterly by land hereinafter described as taken from Rose Barton, seven and 1-100 feet; northwesterly by other land supposed to belong to Frank R. and Esther W. Atwill, by two measurements, six and 93-100 feet and one hundred thirty-four and 5-100 feet; northeasterly by other land supposed to belong to Frank R. and Esther W. Atwill, seven and 15-100 feet; and southeasterly by other land hereinafter described as taken from Frank R. and Esther W. Atwill, by two measurements, one hundred thirty-four and 78-100 feet and five and 87-100 feet, containing nine hundred and eighty-six square feet, more or less.

A parcel of land, supposed to belong to Frank R. and Esther W. Atwill, bounded:

Southwesterly by land hereinafter described as taken from Rose Barton, three feet; northwesterly by land hereinafter described as taken from Frank R. and Esther W. Atwill, by two measurements, five and 87-100 feet and one hundred thirty-four and 78-100 feet; northeasterly by other land supposed to belong to Frank R. and Esther W. Atwill, twenty and 43-100 feet; southeasterly by other land hereinafter described as taken from Frank R. and Esther W. Atwill, ten and 21-100 feet; southwesterly by other land supposed to belong to Frank R. and Esther W. Atwill, seventeen and 37-100 feet; and again southeasterly by the same, by two measurements, one hundred twenty-

four and 88-100 feet and five and 41-100 feet, containing five hundred and ninety-five square feet, more or less. This taking is made reserving to the Commonwealth of Massachusetts all the rights acquired in said parcel by the taking made therein for sewerage purposes.

A parcel of land, supposed to belong to Frank R. and Esther W. Atwill, bounded:

Northwesterly by land hereinafter described as taken from Frank R. and Esther W. Atwill, ten and 21-100 feet; northeasterly by other land supposed to belong to Frank R. and Esther W. Atwill, four hundred seventy-nine and 11-100 feet; northwesterly by the same, five hundred seventeen and 21-100 feet; southeasterly by land hereinafter described as taken from Frank R. and Esther W. Atwill, twenty-four and 49-100 feet; again southeasterly by land supposed to belong to Frank R. and Esther W. Atwill, five hundred five and 15-100 feet; and southwesterly by the same, four hundred eighty-seven and 32-100 feet, containing ninety-nine hundred and forty-four square feet, more or less.

A parcel of land, supposed to belong to Frank R. and Esther W. Atwill, bounded:

Northwesterly by land hereinafter described as taken from Frank R. and Esther W. Atwill, twenty-four and 49-100 feet; again northwesterly by other land supposed to belong to Frank R. and Esther W. Atwill, three and 1-100 feet; northeasterly by the same, sixteen and 86-100 feet; southeasterly by land hereinafter described as taken from Frank R. and Esther W. Atwill, eleven and 10-100 feet; southwesterly by other land supposed to belong to Frank R. and Esther W. Atwill, eleven and 39-100 feet; and southeasterly by the same, fifteen and 7-100 feet, containing two hundred and thirty-two square feet, more or less. This taking is made reserving to the town of Brookline all the rights acquired in said parcel by the taking made therein for water works purposes.

A parcel of land, supposed to belong to Frank R. and Esther W. Atwill, bounded:

Northwesterly by land hereinafter described as taken from Frank R. and Esther W. Atwill, eleven and 10-100 feet; northeasterly by other land supposed to belong to Frank R. and Esther W. Atwill, three hundred eighty-nine and 15-100 feet; northwesterly by the same, by two measurements, seventy-five and 22-100 feet and one hundred fifty-six and 18-100 feet; again northeasterly by the same, twenty-one and 94-100 feet; southeasterly by land hereinafter described as taken from Frederick C. Twitchell, twelve and 10-100 feet; southwesterly by other land supposed to belong to Frank R. and Esther W. Atwill, twelve and 94-100 feet; southeasterly by the same, by two measurements, one hundred forty-three and 49-100 feet and eighty-six and 50-100 feet; and southwesterly by the same, three hundred ninety-five and 81-100 feet, containing sixty-four hundred and forty-one square feet, more or less.

A parcel of land, supposed to belong to Frederick C. Twitchell, bounded:

Northwesterly by land hereinafter described as taken from Frank R. and Esther W. Atwill, twelve and 10-100 feet, northeasterly by other land supposed to belong to Frederick C. Twitchell, eighty-six and 90-100 feet; southeasterly by easement taken by the City of Boston for sewerage purposes June 26, 1923, twelve feet; and southwesterly by land supposed to belong to Lucius W. Wright,

eighty-five and 32-100 feet, containing ten hundred and thirty-three square feet, more or less.

The aforesaid described parcel is a part of a parcel of land registered in the Land Court, October 27, 1914, title certificate No. 6579, Book 28, page 179.

The sewerage works to be constructed are as follows: 2,046 linear feet of 12-inch pipe sanitary sewer, in the above described premises, being private land between Caspar and Vermont streets.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that no person sustains damages in his estate by the taking of an easement for sewerage purposes in private land between Caspar street and Vermont street, West Roxbury district, under the order of the Board, and awards no damages therefor.

CITY CHARTER CHANGES.

In 1854, 1885, 1909 and 1924 important changes in the original City Charter of 1821 were effected for the purpose of improving the methods and efficiency of the City Government. The revision of 1854 (Chapter 448, Statute 1854) referred to the voters for acceptance, gave the Mayor a qualified veto over the action of the City Council, also the power of removal of appointed officials, besides providing for his election by a plurality instead of a majority vote. The amendments of 1885 (Chapter 266, Statute 1885) were not submitted to the voters for approval. They transferred all the executive powers to the Mayor prohibiting the City Council from interference with the executive and administrative business of the City. This was done in order to end the inefficiency resulting from an excessive number of joint committees, a municipal development conforming to the traditions of the outgrown town government.

The amendments of 1909 (Chapter 486, Statute 1909) cut down the number and powers of the legislative branch of the government to a minimum, the Board of Aldermen (13 members) and the Common Council (75 members) being abolished. For these was substituted a single City Council of nine members to be elected at large for 3-year term. The Mayor's position was further strengthened by giving him a 4-year term, subject to recall at end of two years, but requiring a majority of the registered voters to make the recall effective. The Mayors power over appointments was no longer subject to check by aldermen but by a State board, the Civil Service Commission, and City elections were removed from all connection with national and State politics, no primaries nor caucuses being permitted, all candidates for office to be selected by means of nomination papers. The only question in this Act of 1909 which was submitted to the voters was contained in section 35, *i. e.*, whether Plan 1 or Plan 2 should be adopted, the first providing for a term of two years for Mayor and a City Council of 36 members to be chosen in primaries. Plan 2, providing for City Council of 9 members, was adopted by a majority of 3,894.

Charter of 1909 amended later as follows: (1) By Chapter 437, Acts of 1910, exempting loans issued for Rapid Transit construction from the prohibition of the establishing of sinking funds, as contained in section 26. (2) Chapter 730, Acts of 1914, fixing date of annual municipal election on the sixth Tuesday after the state election instead of in the following January, as in section 32; changing the requirement as to signatures on nomination papers to 3,000 for Mayor and 2,000 for City Council and School Committee instead of 5,000 for all, as in section 53, also limiting the number of nomination papers issued to 300 for a candidate for Mayor and 200 for other candidates, referring to section 54. (3) Chapter 37, Special Acts of 1918, annulling the jurat at end of nomination papers. (4) Chapter 94, Special Acts of 1918, abolishing recall of Mayor, and making him ineligible for re-election, *i. e.*, establishing a single term of four years, but not prohibiting the election of any Mayor for other than consecutive terms. (5) Chapter 288, Acts of 1921, fixing date of the annual municipal

election on the first Tuesday after the second Monday in December, also making slight changes as to nominations. (6) Chapter 133, Acts of 1922, changing publication of list of City officials and employees to every second year from 1923. (7) Chapter 479, Acts of 1924, providing for biennial City elections (dating from November 3, 1925); for borough or ward representation in City Council; for a fiscal year dating from January 1 to December 31, beginning in 1926, also a municipal year dating from the first Monday in January, to begin in 1926; for election of the five members of School Committee in 1925, the candidates receiving the two largest votes to hold office four years, the other three for two years and at the election in 1927 and thereafter the term for all to be four years. (8) Chapter 136, Acts of 1925, increasing the number of signatures of registered voters required to nominate a candidate for election to the City Council. (9) Chapter 105, Acts of 1926, relative to nominations for municipal elective offices.

The only amendment of 1924 subject to a referendum was the alternative of Plan 1 or Plan 2 as to the City Council. At the State election on November 4 Plan 2 was adopted, providing for the election by each ward in 1925 and every second year thereafter of one councillor for 2-year term.

MAYORS OF BOSTON.

In its 103 years of existence as a city Boston has had 36 elected Mayors and five *ex-officio* Acting Mayors. Of the 36 men who have held the office for one year or more, six were elected for other than consecutive terms and 25 were re-elected one or more times. Those born within the present limits of Boston numbered 21; in towns near Boston, 8; in neighboring New England States, 5; in Ireland, 2. The Mayor longest in office was Mayor Curley, who served 4 years ending February, 1918 and 3 years and 11 months, ending 1925. Next in length of service was Mayor Lincoln, serving 3 years ending 1860 and 4 years ending 1866. The first Mayor Quincy had the distinction of serving through six successive one-year terms ending 1828, and Mayor Fitzgerald also served 6 years but in two separated terms. Those who served 4 years were Mayors Prince, O'Brien, Matthews (third), Quincy, Hart and Peters. Mayor Collins was in office nearly 4 years, his death occurring 3½ months before his second term expired. Those serving 3 years were Mayors Otis, Eliot, Chapman (second), Quincy, Bigelow, Shurtleff and Cobb; 2 years, Mayors Wells, Lyman, Brimmer, Seaver, Smith, Rice, Wightman, Gaston, Pierce (22 months) and Hibbard; 1 year Mayors Phillips, Armstrong, Davis, Norcross, Green, Palmer, Martin and Curtis. The five Acting Mayors were Chairman (Board of Aldermen) Parker, Leavitt, Allen, Cutter and Whelton.

Mayor Otis was Speaker of Massachusetts House of Representatives, President of Senate, Representative in Congress also Senator before becoming Mayor. Mayor Armstrong was Lieutenant-Governor and at times Acting Governor before serving as Mayor. Mayors Rice and Gaston served 3 years and 1 year (respectively) as Governor after their terms as Mayor. Mayors Collins, Curley, Fitzgerald, Peters, Pierce and Rice have represented Boston in

the lower house of Congress, Mayor Peters having also served as assistant secretary of the Treasury.

Ex-Mayor Curtis was appointed Police Commissioner in 1919 for term of five years but his service was terminated by his death in 1922. Ex-Mayor Quincy died in 1919, and Ex-Mayor Green in 1918. (See annual City Document, *Municipal Register*, for full list of Mayors from 1822 to 1925, with place and date of birth, years of service and date of death.)

AREA AND POPULATION OF GREATER BOSTON.

Area of Northern Division, 150.8 square miles and population in 1920, 699,685, or a density of 4,619 per square miles; Southern Division, 214.8 square miles and 211,191 population, or density of only 983 per square miles; in the whole Metropolitan District, 4,051 per square miles. In percentages Boston shows 10.5 per cent of District's area and 45.09 per cent of population; Northern Division, 36.2 of area and 42.18 of population; Southern Division, 53.3 of area and 12.73 of population. In the period 1915-1920, increase of population 34,798 larger in Northern than in Southern Division.

Total land area of District, 409.5 square miles; population by census of 1920, 1,713,744 (as corrected) or 7.52 per cent increase over that of 1915. Of the total population of the State in 1920 "Greater Boston" had 43.86 per cent.

In 1925, as ordered by the new census law (Chap. 453, Acts of 1924) each municipality of the District undertook its own enumeration, the total population counted being 1,808,845 as of March 31. Boston's proportion of said total was 43.10 per cent. By the more reliable State Census of 1915 that proportion was 46.77 per cent.

VETO OF LOANS FOR MUNICIPAL BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, April 2, 1927.
To the City Council.

Gentlemen,—I return herewith, without my approval, the following orders:

1. That the sum of \$500,000 be appropriated for a municipal building in Ward 14.
2. That the sum of \$500,000 be appropriated for a municipal building in Ward 11.

I regret that the financial situation of the city is such that the construction of municipal buildings cannot be considered at this time.

Yours respectfully,

MALCOLM E. NICHOLS, Mayor.

SOAP FACTORY, CHARLESTOWN.

The following was received:

City of Boston,
Office of the Mayor, April 2, 1927.
To the City Council.

Gentlemen,—I transmit herewith communications from the Fire and Building Departments in reply to your orders of December 31, 1926, in relation to soap factory at corner of Charles street, Charles Street place and Schoolhouse court, Charlestown.

Yours respectfully,

MALCOLM E. NICHOLS, Mayor.

City of Boston,

Fire Department, February 15, 1927.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Sir,—I return herewith the following order passed by the City Council on December 31, 1926: "Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to have the Fire Prevention Bureau examine the building used as a soap factory at the corner of Charles street, Charles Street place and Schoolhouse court, Charlestown, for the purpose of determining whether or not it constitutes a fire hazard."

In reply thereto I would say that this building has been inspected by the Fire Department, and I am attaching hereto copies of the report of the Fire Prevention Division.

In regard to the recommendations made by the inspector, I would say that the Fire Commissioner has no authority to order them remedied.

Yours very truly,

E. C. HULTMAN,

Fire Commissioner.

City of Boston,

Fire Department, January 14, 1927.

From Fire Prevention Division.

To The Fire Commissioner.

Subject: Building Inspection.

I submit the following report of the Rand & Byam, Inc., Soap Factory, located at the corner of Charles street and Charles Street place, Charlestown.

The building is 2-2½-3 stories, wood. Section A, three stories, size 52 by 22 feet; Section B, two stories, size 87 by 36 feet; Section C, two stories, size 55 by 22 feet; Section D, 2½ stories, size 40 by 16 feet.

The building is structurally strong and has three stairways, and in addition one stairway to basement.

The fact that this building has unprotected openings on all floors, and has floors soaked in grease, creates a serious condition in case of fire.

In my opinion the fire appliances are insufficient, and I would recommend that sprinklers be installed. Also, since there is but one exit from the basement, and that to the first floor, and since the cellar windows are too small to allow entrance to, or exit from, the cellar, I would recommend that a bulkhead entrance be built from the yard to the basement.

Respectfully submitted,

MICHAEL NORTON, Captain.

City of Boston,

Building Department, March 21, 1927.

Hon. Malcolm E. Nichols,

Mayor of Boston.

Dear Sir,—With reference to the attached orders of the City Council regarding the building at the corner of Charles street, Charles Street place and Schoolhouse court, Charlestown, used as a soap factory, our inspector reports that the building is structurally safe and has three means of exit from the second and third floors where no more than five men are working at any one time.

There is, however, but one exit from the cellar, and the department has ordered an additional one installed.

As regards the sprinkling of this building, the cost of a sprinkler installation would amount approximately to the full assessed value of the property, and I do not believe the department has the authority to order such an expense.

Respectfully yours,

L. K. ROURKE,
Building Commissioner.

SHOWER BATHS, FRANKLIN FIELD.

The following was received:

City of Boston,
Office of the Mayor, April 2, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Commissioner in reply to your order of March 21, 1927, in relation to keeping the

shower baths at Franklin Field open all the year round for the convenience of the people of the district.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Park Department, March 29, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Sir,—I have your memorandum of March 28, with inclosure, order from the City Council, requesting that the Board of Park Commissioners be instructed to keep the shower baths at Franklin Field open all the year round for the convenience of the people of the district.

In reply I desire to say that the locker building at Franklin Field was never intended to be used for bathing purposes,—the showers were installed for the convenience of the athletes using the field during the summer months.

Franklin Field has the second largest skating area under the control of the park system. During the skating season it would be impossible to keep these showers open owing to the fact that 200 to 300 persons check their clothes in this room where the shower baths are situated.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

REPAVING OF SOUTH BOSTON STREETS.

The following was received:

City of Boston,
Office of the Mayor, April 2, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner in reply to your order of March 14, 1927, in relation to repaving West Third street, from B to Dorchester streets, and E street, from West First street to Fourth street, South Boston, with smooth pavement.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, March 29, 1927.
To the Honorable the Mayor.

I return order of the City Council, requesting the Commissioner of Public Works to repave West Third street and E street, South Boston.

West Third street, from B street to Dorchester street, is at present a macadam roadway 3,000 feet long and 34 feet wide. To substitute a smooth pavement would cost approximately \$75,000.

The estimated cost of similarly treating E street, from West First street to Fourth street, is \$20,000, making a total of \$95,000 for the two streets.

Yours respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.

MOTOR VEHICLE STORAGE.

The following was received:

City of Boston,
Office of the Mayor, April 2, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Department in reply to your order of February 28, 1927, in relation to money paid each month for motor vehicle storage in garages not owned by the City of Boston.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, March 28, 1927.
To the Honorable the Mayor.

I return order of the City Council, dated February 25, requesting the Commissioner of Public Works to submit to the City Council the amount of money now paid each month for motor vehicle storage in garages not owned by the City of Boston, and report that the amount for January and February, 1927, is about \$1,150 per month.

Yours respectfully,

CITY YARDS, RUTHERFORD AVENUE.

The following was received:

City of Boston,
Office of the Mayor, April 2, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner relative to demolishing certain buildings at city yards on Rutherford avenue, Charlestown, and replacing same with fireproof buildings, as per your request of March 14, 1927.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Public Works Department, March 29, 1927.
To the Honorable the Mayor.

I return the order of the City Council, dated March 14, 1927, requesting the Commissioner of Public Works to take steps to demolish certain buildings at the city yards on Rutherford avenue, Charlestown, and report that the Rutherford avenue yard is the headquarters for the Paving, Sewer, Sanitary and Street Cleaning Services of the Charlestown district. The buildings and sheds are old and somewhat dilapidated, but still habitable. To replace them with a modern concrete structure would cost about \$80,000.

As there is no budget provision for this project, there is no immediate prospect of complying with the order than by way of a loan.

Yours respectfully,
J. H. SULLIVAN,
Commissioner of Public Works.

HALF-HOLIDAY FOR CLEANERS, CITY HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, April 4, 1927.
To the City Council.

Gentlemen,—I transmit herewith communication from the Boston City Hospital in reply to your order of March 7, 1927, in relation to establishing a half-holiday each week for women employed as cleaners at the Boston City Hospital.

Yours respectfully,
MALCOLM E. NICHOLS, Mayor.

City of Boston,
Hospital Department, March 31, 1927.
Hon. Malcolm E. Nichols,
Mayor of Boston.

Dear Mr. Mayor,—In reply to the order of the City Council "that the Trustees of the Boston City Hospital, through his Honor the Mayor, be requested to establish a half-holiday each week for women employed as cleaners at the Boston City Hospital," I would say, on behalf of the trustees, that if this one group of women were allowed a half-holiday, all the other employees in the hospital who do not now receive the same privilege would request the same, with equal right. This would require many thousand dollars if placed in effect, and inasmuch as the budget is now out of the hands of the trustees they do not deem it wise at this time to grant this request.

Yours respectfully,
JOSEPH P. MANNING,
President Board of Trustees.

SUFFOLK COUNTY APPROPRIATION BILL.

Coun. PARKMAN for the Committee on Appropriations, submitted a report recommending the passage of the following:

COUNTY OF SUFFOLK APPROPRIATIONS AND TAX ORDERS FOR THE FINANCIAL YEAR 1927.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1927, for performing the duties and exercising the powers devolved by statute or ordinance, or by vote of the City Council during the year, upon the City of Boston or County of Suffolk, or the departments or officers thereof, and to meet their obligations for interest on debt, sinking fund requirements and maturing debt not provided for by sinking fund, the respective sums of money specified in the tables and schedules hereinafter set out be and the same are hereby appropriated for the several departments and for the objects and purposes hereinafter stated.

Ordered, That the appropriations hereinafter specified be met out of the money remaining in the treasury at the close of business on December 31, 1926, exclusive of the money raised by loan or needed to carry out the requirements of any statute, gift, trust or special appropriation, and by

the income of the financial year beginning January 1, 1927, and taxes to the amount of \$3,464,763.48 and that said amount be raised by taxation on the polls and estates in the City of Boston.

Ordered, That all sums of money which form no part of the income of the city, but shall be paid for services rendered or work done by any department or division for any other department or division, or for any person or corporation other than the City of Boston, be paid into the general treasury, and that all contributions made to any appropriation be expended for the objects and purposes directed by the several contributors thereof.

Ordered, That all taxes raised to meet the appropriations of the city and county and all taxes assessed for meeting the city's proportion of the state tax for the year 1927, be due and payable on the fifteenth day of September, 1927; that interest shall be charged on all taxes remaining unpaid after the second day of October, 1927, in accordance with the provisions of chapter 59, section 57, of the General Laws, until paid, except the taxes assessed upon shares of national banks, which shall bear interest at the rate of 12 per cent per annum from the fifteenth day of September, 1927, until paid; and that all interest which shall have become due on taxes shall be added to and be part of such taxes.

Ordered, That except as the appropriation for any purpose or item shall be increased by additional appropriations or transfers lawfully made, no money shall be expended by any department for any of the purposes or items designated in the tables and schedules hereinafter set out in excess of the amount set down as appropriated for such specific purposes or items; and except as aforesaid, no salary or wages shall be paid in excess of the rate specified in said tables and schedules.

County Debt Requirements..... **\$118,705 50**

The question came on the acceptance of the report and the adoption of the orders.

Coun. PARKMAN—Mr. President, In submitting this report of the work of the Committee on Appropriations in studying the budget estimates of the County of Suffolk for the year 1927, and with it the accompanying appropriation order the committee thinks it worth while to dispel once more the currently accepted illusion that the city officials and the Council have no power in passing upon the estimates and in making the appropriations, and that consequently they have no duty to perform other than to pass the budget as submitted without consideration and without change. It is commonly stated in connection with the county budget, in a very general and all-inclusive way, that "the expenditures are all fixed by statute" or that "the City Treasurer must provide the money anyway upon the voucher of the county

officer"; both of these statements are true only in a very limited degree and neither goes to the root of the principle of appropriating upon a budget plan, which is that money shall be raised by taxation only to the extent of the necessary requirements of government and administration, as determined in advance. It is true that a certain number of positions and the salaries attached to them are fixed by statute and as to these neither the Mayor nor the Council has any power of change. But the personal service schedule, Schedule A, is only a part of the entire expense of administration, and of that schedule a very large number of salaries are under the control of the Mayor. That this is so has been determined in the courts and the authority of the Mayor is now admitted. In our opinion the argument that "the money must be provided anyway and therefore there is nothing to be gained in considering the budget estimates" does not meet the question which may be stated as follows: "How much money is going to be needed, and therefore must be raised by taxation, for the necessary expenses of the year, and how is it to be divided?" If more money is asked for than is going to be used, and the appropriating body appropriates the full amount, then it is acting to impose a needlessly heavy burden upon the taxpayer. We are dealing not with mere theoretical figures but with figures that will be translated later on into terms of the tax rate. Furthermore, there is the authority of the city charter which provides in section 3 that "It shall be the duty of the city and county officials, when requested by the Mayor, to submit forthwith in such detail as he may require estimates for the next fiscal year of the expenditures of the department or office under their charge, which estimates shall be transmitted to the City Council." With these considerations in mind the committee entered upon its duties. His honor the Mayor submitted the budget to the Council on February 14, 1927, with the statement that he was departing from the policy of deferring the submission of the county budget until the city budget was ready "in order that the Council may have ample time to study the estimates and allowances." Hearings began

at 1 p. m. on March 1, and were continued on March 2, 3 and 8 until almost all the various department heads of Suffolk County had appeared before the committee, and their budget estimates and allowances examined. This included the sheriff, the justices or clerks of all the courts including the district courts and excepting only the Municipal Court, the Medical Examiners, Register of Deeds, and the Commissioner of Penal Institutions. In view of the delay attendant upon the passage of the tax limit bill by the Legislature it has seemed advisable to report the accompanying Appropriation Bill for the County of Suffolk separately in order to enable the auditor to set up the necessary expense control in his books and to assist and facilitate the financial operations of the city.

Commenting generally upon the bill, the total as submitted in the budget estimates (not including county debt requirements), was \$3,543,635.32; as allowed by the Mayor \$3,374,053.81; and as now reported by the committee \$3,346,057.98. The reductions made by the Mayor totaled \$169,581.51, and the further reductions made by your committee, \$27,995.83. The bill as reported herewith represents a reduction of 5 1/2 per cent, or in terms of tax rate, about 11 cents on an equivalent of \$2 of the tax rate, as compared with the estimates originally submitted. The total amount as reported, namely \$3,346,057.98, is \$99,260.10 less than the total appropriated last year and, including the progressive reduction in the requirements for county debt, \$106,670.11. This reduction is accounted for partly by the fact that there were certain unusual expenses last year that did not recur this year (for example in the Probate Court the binding and printing of indices, \$11,000, the furnishing of the Dorchester and Brighton court-houses, \$25,000, and the building of a bulkhead wall at Deer Island, \$15,000), and very largely by the apparently more efficient operation of some of the large departments, and has been effected in the face of an increase in Schedule A of about \$30,000. A table of the increases and reductions in the various departments follows:

Coun. PARKMAN—Mr. President, I will not take the time of the Council to read this table in detail, but will simply at this time call attention to the largest changes. In Suffolk County Courthouse, Custodian, there was an increase of \$10,825.25, largely due to salary overlay, the full effect of general salary increases made last year coming into operation this year, and in addition to that two new positions at the courthouse, a fireman and a janitor. In County Buildings there is a decrease of \$21,692.82. This is entirely accounted for by the fact that the Dorchester and Brighton appropriation was made last year and does not recur this year. There was a reduction in the jail of \$3,542.08; \$2,000 of that represents a more favorable method of purchasing coal, and the balance is due to the death of two pensioners in Item F-7. The item for Superior Court, Civil Session, General Expenses, was reduced as compared with last year \$21,550. That decrease is almost entirely due to a saving in jurors. The Chief Justice of the Superior Civil Court has

co-operated to such an extent that, through more efficient operation, there will be a saving of \$15,000 in that item. The item for Superior Court, Civil Session, Clerk's Office, has been increased by \$4,837.61. That increase is due entirely to salary increases to clerks not provided for last year, those getting between \$1,500 and \$2,100. In the Superior Court, Criminal Session, there is a reduction of \$57,520.19. I will refer to this more in detail later on, at this time simply saying that a reduction of \$20,000, was made in Items B-34 and 35, covering Jurors, Fees, Service of Venires, etc, making a reduction of \$40,000, as compared with last year; \$5,000 in traveling expenses and \$1,000 in the clerks pro tem, and in a vacancy of one interpreter. In the Probate Court, there is a decrease of \$12,975. That is accounted for largely by the fact that the printing of indexes, \$11,000, does not occur this year, and in addition there is a reduction of \$500 in the item for fees and service of venires. In the Municipal Court there is an increase of \$6,186.32, accounted for

by the addition of extra clerical assistance. In the Municipal Court of the Roxbury District there is an increase of \$1,925, accounted for by the extra clerical assistance made necessary by increased business. In Municipal Court, Brighton District, the increase of \$1,799.60 is made up of an allowance of \$700 for new books and the new position of assistant probation officer. In the District Court of Chelsea, a reduction of \$1,407.25 is the result of two vacancies. The increase for Registry of Deeds, \$2,543.32, is due to increased salaries. Coming down to the Penal Institutions Department, the House of Correction item shows a decrease of practically \$10,000, due to the fact that certain seaway work is not required this year; and the increase in the item of steamer "Michael J. Perkins," \$3,107.50, is for repairs in connection with guard rail, and for increase in salaries of men on the vessel. It is worthy of remark that the county pay roll amounted to upwards of \$1,934,000 out of the total of \$3,346,000, or about 58 per cent, leaving only about \$1,412,000 for the other budget schedules. Considering the increase of \$30,000 in salaries together with the net reduction of \$106,000, there has obviously been a reduction in the other schedules of \$136,000, or almost 10 per cent. The most marked reduction occurs in the appropriation for the Superior Court, Criminal Session. For making this possible, credit is almost entirely due to the District Attorney's office. Its expeditious and efficient handling of the large volume of business and the great number of cases which pass through the office enabled the committee to reduce still further the Mayor's allowances for the Items B-34 and B-35, so that the amount appropriated this year for B-34, Jurors, is \$150,000 as against \$175,000 last year, and the amount appropriated for B-35, Fees, Service of Venires, etc., is \$70,000 as against \$85,000 last year, a clear saving of \$40,000. Before making this reduction the committee carefully checked the figures given by the District Attorney in a public speech and the actual three months' expenditures as reported to the auditor's office and is convinced that the figures allowed are amply sufficient to cover the expenses chargeable to these items. Credit is also due to the Chief Justice of the Superior Court, Civil Session, for his co-operation in agreeing to keep the expenses for jurors down to an amount \$15,000 less than that appropriated for 1926. Taking up the changes made by the Committee in detail they are in order as follows:

County Buildings.

In Schedule A-I it was found possible to make a reduction of \$700 on account of the fact that certain cleaners allowed for in the budget were not to be actually employed at the Dorchester Courthouse until at least April 1. Item F-7, Pensions, was reduced \$850 owing to the death of two pensioners since the beginning of the year.

Suffolk County Jail.

D-3, Fuel. A reduction of \$2,000 in this item was found to be possible by arranging for the purchase of coal by the Supply Department under the city's contract.

F-7, Pensions, was reduced \$1,295.83, owing to the death of two pensioners since the first of the year.

Superior Court, Civil Session, General Expenses.

Owing to the resignation of Mr. Bellow, equity clerk, the salary of \$5,000 which he received by statute dropped back to \$4,500. A bill is now passing the Legislature putting this salary back at \$5,000, effective June 1. An allowance of \$4,800, however, is sufficient to cover payment of this salary for the year, and Schedule A-I has accordingly been reduced \$200.

Superior Court, Criminal Session.

Schedule A-I was reduced \$600 on account of an unfilled vacancy in the position of interpreter and Schedule A-2 was reduced \$1,000 in the allowance for clerks pro tem on account of the more efficient expedition of criminal business. The reduction of \$10,000 in B-34, Jurors, has already been explained as has also the reduction of \$10,000 in B-35, Fees, Service of Venires, etc.

Probate Court.

The allowance of \$2,000 for B-35, Fees, etc., was found to be in excess of probable requirement and was accordingly cut \$500.

No changes whatever were made in the allowances for any of the district courts except the

District Court of Chelsea.

Here it was found that on account of an unfilled vacancy in the position of judge, there was some confusion in the method of charging the salary of the temporary judge and it was found possible to reduce Item A-I by \$850.

County Debt.

The debt requirements are a fixed quantity every year, decreasing automatically as debt matures and is retired. The amount of the reduction this year is \$7,410.01, and the total amount required for serial debt, sinking fund and interest is \$118,705.50. The foregoing reductions total \$27,995.83. The committee's work has, I believe, been done painstakingly, and the allowances examined with care. Thanks are due to the

county officials for their courtesy and co-operation. It need hardly be said that the committee would not be able to report even the reductions which it has but for the assistance of the Budget Commissioner, whose work is responsible in the first instance for the excellent condition in which the budget was prepared and submitted. The Committee on Appropriations accordingly recommends the passage of the orders.

Coun. McGRATH—Mr. President, I feel, because of the publicity given last week to the item relative to the District Attorney's office, that a word should be said about it. Everyone who has listened to the report of the committee sees that it is very progressive and is one that has required a good deal of thought on the part of the committee, but, having in mind the position particularly of members like Coun. Mahoney and Lynch of South Boston, I feel that an additional word should be said, because of the misapprehension possibly through the city that they had allowed a cut in the office of a man who is a friend of all the twenty-two members here. As a matter of fact, I would say that both councilors from South Boston communicated with the District Attorney's office, and it is my understanding that this item as reported is perfectly agreeable to him, and that the report is entirely friendly to the District Attorney. I think we all now realize that after listening to the report made by the chairman of the committee.

Coun. MAHONEY—Mr. President, being a member of the Committee on Appropriations, I would like to ask the chairman to read once more the sentence relative to the District Attorney's office.

Coun. PARKMAN—Mr. President, no one could deprecate more than I do the misleading manner in which the action of the committee was reported in the press. As the report states, and it has now gone into the record, the credit for making the reduction which we were able to make on the criminal side of the Superior Court is entirely due to the District Attorney's able management of his office. I shall be pleased to read again the portion of the report which has reference to the District Attorney's office:

"The most marked reduction occurs in the appropriation for the Superior Court, Criminal Session. For making this possible, credit is almost entirely due to the District Attorney's office. Its expeditious and efficient handling of the large volume of business and the great number of cases which pass through the office enabled the committee to reduce still further the Mayor's allowances for the items B-34 and B-35, so that the amount appropriated this year for B-34, Jurors, is \$150,000 as against \$175,000 last year, and the amount appropriated for B-35, Fees, Service of Venires, etc., is \$70,000 as against \$85,000 last year, a clear saving of \$40,000."

Coun. DOWD—Mr. President, may I ask the chairman, through you, what is the total saving in the budget of the District Attorney this year and last year?

Coun. PARKMAN—It is pretty difficult to separate from the items for the Superior Court Criminal Session, the budget for the District Attorney's office, as distinguished from the clerks and other departments. The total reduction for which the District Attorney's office is responsible is probably in the neighborhood of about \$60,000. The reduction of \$1,000 in clerks pro tem is also a reflection of the efficiency of the District Attorney's office, as is also the reduction of \$5,000 in traveling expenses, which involves the sending of men after criminals and bringing them back to this jurisdiction. Does that answer the question?

Coun. DOWD—Yes.

Coun. GUILD—Mr. President, I have a great deal of respect for the work which the Committee on Appropriations has done this year on the budget for Suffolk County. It has taken the several items presented to it and given careful, thoughtful consideration to them, and the efforts of the committee show what can be accomplished when we really get down to brass tacks and put in some conscientious work in an effort to save money for the tax payers of the City of Boston. The City Council as a whole is now called upon to pass upon an item of \$3,300,000 odd. It does not seem to me fitting that the City Council as a whole should allow it to be said that the members of the Committee on Appropriations are the only ones who have given serious careful thought and study to the problem presented; and, frankly, while I admire greatly the report which the Committee on Appropriations has made, I do not think I should be called upon to vote in favor of or against it merely upon the reading of it, but that I should have time to sit down, read it, peruse it, and really know what it is that I am expected to vote upon. I move, therefore, that the report be laid upon the table for one week, so that the report of the Committee on Appropriations may be printed and given to the other members of the Council for their perusal.

Coun. PARKMAN—Mr. President, no one would hesitate more than I to seem to be in the position of denying to any member of this Council the time he thought necessary for consideration of the budget. But the budget hearings before the Committee on Appropriations have been open to all members of this Council. I have had it once or twice thrown back at me by the councilor from Jamaica Plain (Coun. Guild) that I was not present at some meeting that occurred in regard to a matter, when I took occasion to question an order

in which he was interested. I now take great pleasure in throwing the same criticism back at the councilor from Jamaica Plain, and I would also add that I don't see that anything is to be gained by delaying action upon this matter. The Committee on Appropriations is ready to answer any question that any member of the Council may put to it. The budget sheets are here before us. The councilor from Jamaica Plain can be furnished with all the budget sheets, and if it is necessary to stay here until midnight, I think we will all be delighted to do so, and I shall endeavor to answer any questions that may be put. I don't see why we should not discuss this matter here and now, rather than put it over for a week.

Coun. GUILD—Mr. President, before getting into any exchange of courtesies with the learned councilor who has just sat down, I think he has already indicated that the City Council should not undertake to pass the budget with a snap of the fingers, simply because the Committee on Appropriations has passed it. He states that he is willing to sit here until midnight and discuss the matter. There may be some of us who have other engagements between now and midnight, and it is not always convenient for us to put in that amount of time, without any notice, upon a matter coming before us. Therefore, without gainsaying anything that the previous speaker has said regarding times that I called him for not appearing before certain committees, I will simply say that I did not get any invitations or any notices that meetings of the Committee on Appropriations were being held, myself, and knew nothing about it at the time. So, while I was absent from the committee meetings, there was a reason why I was absent. I think, however, that nothing I might say in addition would add any weight to the fact that I ought not to be expected to vote upon this until I know something about it. Therefore, I press my motion that the matter be laid on the table for one week.

President HEFFERNAN—The question is on assignment of the matter to the next meeting.

The motion to assign was lost by a rising vote, 2 to 17.

Coun. WILSON—Mr. President, similarly to Coun. Guild I received no notice of the meetings of the Committee on Appropriations, not myself being a member, and accordingly was not aware of the days and hours when those meetings were held. As a matter of interest I did attend one meeting, and I would now be interested in finding out how many of the members who seem to be prepared to vote for the adoption of these orders today without further consideration and debate have attended the meetings of the committee. I would like to have those members who are prepared now to vote in the affirmative on this budget rise, those who have attended at least one meeting of the Committee on Appropriations.

President HEFFERNAN—The question is on the acceptance of the report of the committee and the passage of the orders.

Coun. PARKMAN—Mr. President, I would simply like to make a public apology for my ignorance of the etiquette of these things. I had supposed that councilors were chargeable with notice of the business of the Council, and I have never waited to receive an engraved invitation from the chairman of any committee before I attended a meeting of the committee. The notice of any committee meeting is always posted in the committee room, where it may be easily seen. In future, I shall be very glad to send invitations to all the councilors to attend meetings on the subject of the budget.

Coun. WILSON—Mr. President, while Dorchester is always willing and ready to receive lessons in etiquette from the Back Bay, I still feel that a very important question suggests itself here, as raised by Coun. Guild's remarks and motion. I do feel, as Coun. Guild feels, that such councilors as have not been present at the meetings of the budget committee, might well and properly be afforded an opportunity to read and study the very illuminating, able and scholarly report presented by the chairman of the committee, so that all the members might at least be able to say that they had been afforded an opportunity to consider and digest the work of the Committee on Appropriations, and when we have another meeting would be in a position where they could say that they knew something about the subject.

Coun. FITZGERALD—Mr. President, I am a member of that committee, and I attended practically every meeting, with the exception of one, and I want to say that the procedure was a great deal different from that carried out a year ago. It was carried out, in my opinion, this year the best I have ever seen it carried out. Everybody was summoned here before the committee, every individual who had anything to do with any department and who from his connection with the department should come here. The thing certainly seemed to be very efficiently handled, as far as I could see, when I was present at the meetings.

Coun. ARNOLD—Mr. President, I am in the same position that I was last year, when I was following a different chairman. The chairman of the Committee on Appropriations last year took the same position that the chairman of the Committee on Appropriations has taken this year. I was with the chairman last year, against those who objected to prompt action, and I am with the chairman this year as against those who are objecting to action at this meeting.

Coun. WILSON—Mr. President, not wishing to drag this thing out further, but having some

interest in the chairman of the committee of last year (laughter), I wish to state that at no meeting of the Committee on Appropriations last year was there less than a quorum present. At every meeting, I believe five or six, every member of the Council was invited, and at practically every meeting a majority of the Council were present. While the meetings may have been fewer, the general interest in the Council was greater last year than it has been this year. I feel, therefore, strongly, without reflection on Coun. Parkman, who I admit has gone very carefully into the matter, even more deeply than it was gone into last year, that Coun. Guild's suggestion is not a peculiar or unreasonable one.

The report was accepted, and the order passed, yeas 19, nays 1.

COMPETITIVE BIDS ON FIRE APPARATUS.

Coun. DOWD offered the following:

Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to ask for competitive bids on all fire apparatus to be purchased by the City of Boston.

Passed under suspension of the rule.

COST OF FIRE APPARATUS.

Coun. DOWD offered the following:

Ordered, That his Honor the Mayor be requested to ascertain from the American-LaFrance Company and submit to the City Council information as to why the city of St. Louis was allowed to purchase five 750-gallon pumps for its Fire Department at a cost of \$10,700 each, while the price given the City of Boston is 20 per cent higher.

Coun. DOWD—Mr. President, this order is in line with the effort of last year to compel the Fire Commissioner to ask for competitive bids on the purchase of all fire apparatus. To substantiate my claim in reference to what St. Louis has paid, I have here a letter received by me from the St. Louis *Globe-Democrat*, in reply to a letter of mine. It says:

"Mr. John F. Dowd, City Councilor, Boston City Council, City Hall, Boston.

"Dear Sir,—The pumps you asked about which were purchased from the American-LaFrance concern by the city of St. Louis cost \$10,700 apiece. There were five of them, all 750-gallon pumps, for which the city paid a total of \$53,500."

I wish to call to the attention of the President and members of the City Council the fact that the City of Boston last year purchased the same kind of pumps from the same concern and, in spite of the fact that Elmira, from which place they were shipped, is very much nearer Boston than St. Louis, the City of Boston paid \$13,500 apiece, or an increase of 20 per cent on every machine purchased. This goes on:

"At that time there were three aerial hook and ladder trucks purchased, but these were obtained from the Seagrave Company. They cost the city \$45,200, or \$15,066.50 each."

The City of Boston purchased the same apparatus and paid \$17,500 apiece. I believe if the City of Boston is going this year to expend the same amount of money—and I have been advised that it is proposing to expend \$140,000 for new fire apparatus—it should be on the basis of competitive bids. When they tell you that they cannot buy any other machines than American-LaFrance, because the machines are standardized in Boston, that is a lot of bunk. We recently saw the Fire Commissioner, for the first time in a great many years, break away from the Buick Automobile Company and purchase Chandler cars for the chiefs of the department. The same parts that you get from the American-LaFrance can be bought from any of the five different companies selling such apparatus. I do not believe any of us, if we were going to expend \$100,000 or \$150,000 of our own money, would pass it to the first man we met. The Seagrave, Fox, Stutz, and other people are making fire apparatus which is being used in New York, Chicago, St. Louis and every other large city of the country, and there is no real reason why the City of Boston should not compel its representative, the Fire Commissioner, to ask for public competitive bids in a matter of this kind.

Coun. GUILD—Mr. President, as I understand the order before us, it embodies a request for information. I assume that in introducing the order the gentleman had some useful purpose in mind in securing the information. Apparently, from the figures the gentleman has quoted at some length, the information which the gentleman asks for is already in his hands. So I do not see how it can serve any useful purpose to him to secure it over again. Therefore, I see no reason why the Council should go through the motions of asking for the information over again. If some useful purpose is to be served by an order, that is one thing, but I can see no useful purpose to be served by the order which has been presented, under the circumstances. I am, therefore, opposed to its passage as implying a duplication of effort, the councilor having already secured the information which he here asks.

Coun. DOWD—Mr. President, replying to Coun. Guild I would simply say that the information I have is from the city of St. Louis, but I want to find out now whether the representative of the American-LaFrance Company proposes to charge the City of Boston 20 per cent more than was charged the city of St. Louis for similar apparatus. If we have to pay on every machine \$1,500 to \$2,000 more, I think we are entitled to know it. If the American-LaFrance Company is deliberately charging this city that amount more on every machine, it is time that the citizens of Boston and the City Council should know that fact definitely and should know where the money is going to.

Coun. GUILD—Mr. President, in order to dispel any illusion I may be under, I will ask the clerk to read the order again.

(The order was read.)

The order was passed, under a suspension of the rule.

TEMPORARY EMPLOYMENT OF ONE THOUSAND MEN.

Coun. DOWD offered the following:

Ordered, That his Honor the Mayor be requested to consider the advisability of placing one thousand men at work temporarily to clean the streets and alleys of the city.

Coun. DOWD—Mr. President, in presenting this order I do so because of the fact that never in my short span of life have I seen the streets of Boston in the terrible condition that they are at the present time. To place 1,000 men at work for, say, a week, at \$30 a week each, will cost the City of Boston only \$30,000, and I certainly think, with the situation we are in, it is time that some real effort was made not only to clean the streets but also to remove the garbage and ashes that have been resting in the back yards of the people of Boston for the last month or two, and in some cases three months.

Coun. WARD—Mr. President, this morning the Mayor saw fit to see a delegation in his office relative to the matter of unemployment. One question that was brought up was the deplorable condition of the streets and alleys of the City of Boston. The necessity of placing to work 1,000 men to clean up the streets was impressed upon his Honor the Mayor, and I believe Coun. Dowd's order is a very fitting one at the present time.

The order was passed under suspension of the rule.

SIDEWALK ON HOWARD AVENUE.

Coun. McGRATH offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along 159 and 161 Howard avenue, Ward 13, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

COST OF RECONDITIONING OLD STATION 2.

Coun. McGRATH offered the following:

Ordered, That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to submit to the City Council an estimate as to the cost of placing in suitable condition for occupancy by some branch of the Police Department, the building formerly occupied as Station 2 on City Hall avenue.

Passed under suspension of the rule.

USE OF OLD STATION 2 BUILDING.

Coun. McGRATH offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to consider the advisability of transferring some branch of the Police Department to the old Station 2 building on City Hall avenue.

Coun. McGRATH—Mr. President, up to a short time ago we had within a third of a mile of City Hall three units of police. One was in Station 2, next door, another was the Bureau of Criminal Investigation at Pemberton square, and the third was in Faneuil Hall, where the traffic squad were housed. As it stands today, the nearest station to City Hall is down Hanover street, a third of a mile away, Station 1. Station 2 is at the end of Milk street, half a mile away, as is Station 3 at Joy street, and Station 4 on La Grange street. It does seem to me, with a city such as we have, where the great banking interests are centered around the top of State street and the lower section of Court street, and with the natural activity there is around City Hall, that we should have some unit of police as a reserve force here in our downtown section. Someone has surely made a mistake in taking entirely away from this section such reserves of the police force as we formerly had. Next door we have the station house, which has been abandoned, assessed for approximately \$100,000, and lying idle now

for two or three years. I believe there have been attempts to auction it twice, and they have failed. It is a peculiar piece of property, on a back street, which in some way does not seem to appeal to possible purchasers, and I understand that depositors under a tentative sale have twice surrendered the deposits that they have put up for the purchase. Where we have a building here next door with a "For Sale" on it month after month, I feel that it hurts the little places of business around the hall and does not create a proper atmosphere in what is supposed to be the active part of the city, this section around City Hall. Therefore, this order suggests itself, that we get an estimate from the Superintendent of Public Buildings, or through his Honor the Mayor, as to how much it will cost to refit that station house next door, which never should have been abandoned in its entirety, and, furthermore, to get some opinion from the Commissioner of Police as to whether it would be possible, say, to take the fifty men in the Bureau of Criminal Investigation, whose work would naturally center down in this section, and place them down here, sending that branch back near the heart of the financial section of Boston.

The order was passed under suspension of the rule.

PROTECTION AT ELEVATED STATIONS.

Coun. MAHONEY offered the following:

Ordered, That his Honor the Mayor be requested to take such action as may be necessary to compel the Boston Elevated Railway Company to provide sufficient protection for the public at the various stations in the subways and elevated routes by the construction of railings or fences or movable gates so that accidents such as recently occurred at the Broadway Station may be prevented hereafter.

Coun. MAHONEY—Mr. President, my main reason for introducing the order is the protection and safeguarding of those people who daily patronize the subway stations, and to prevent the recurrence of such a catastrophe as that which happened in the Broadway Tunnel on Saturday. I ask a suspension of the rule and the passage of the order.

Coun. GUILD—Mr. President, I would ask the councilor who introduced this order what he thinks the Mayor of Boston can do about it? My understanding is that the operation of the Boston Elevated Railway stations and cars comes under the control of the State Department of Public Utilities, and I don't myself know what the Mayor of Boston can do about it. I would be pleased to hear the councilor state.

Coun. MAHONEY—Mr. President, if I have been correctly informed, his Honor the Mayor can ask the Elevated to take such action.

The order was passed under suspension of the rule.

EXPENSES OF SUFFOLK COUNTY APPOINTMENT COMMISSIONERS.

Coun. KEENE offered the following:

Resolved, That the City Council of Boston hereby favors the enactment of legislation authorizing the city to pay counsel fees and expenses for services rendered for the Suffolk County Apportionment Commissioners.

Coun. KEENE—Mr. President, in compliance with the Revised Laws as amended, at the election in 1924, apportionment commissioners were elected to divide Suffolk County into representative districts. These apportionment commissioners stood in the place of county commissioners in the other counties. These commissioners met to effect their organization and thereafter, in due time and in a proper manner, performed their duties and submitted their report to the Secretary of the Commonwealth. Thereafter a writ of mandamus was filed in the Supreme Judicial Court for the County of Suffolk, in which it was alleged that the apportionment was illegal and not in accordance with the provisions of the Constitution. Upon notification of the filing of this writ with the clerk of the court, it became necessary for the said Board of Apportionment Commissioners to secure assistance of counsel to properly represent them in the said proceedings. Application was first made to secure the services of the Law Department of the City of Boston and a request was made to the Mayor of the city with that end in view. While it was agreed that the apportionment commissioners in Suffolk County were elected to perform duties which are performed in every other county by county commissioners, and while it was admitted that the members of the Boston City Council are duly authorized to act as county commissioners of Suffolk County in the performance of the duties usually appertaining to such office, yet it was felt that the Law Department of the City of Boston could not represent a board of commissioners, created by an act of the Legislature to perform special duties in the county, any more than could the law departments of Chelsea, Revere and Winthrop. It therefore became necessary for the apportionment commissioners to retain the services of special counsel to represent them and defend the action brought against them in their official capacity, in accordance with the usual practice of county commissioners in other counties in like cases, as instanced by the action of the county commissioners of Essex in the same

year, when the legality of the apportionment in that county was assailed in similar proceedings. The apportionment commissioners are informed that there are no funds of the county available for the payment of services of the counsel who were retained to represent them in the aforesaid proceedings and that it is therefore necessary to secure authorization for the payment of the said legal services by act of the Legislature. The services included examination of the proceedings and the report of the Board of Commissioners and obtaining a legal opinion in regard to the constitutionality of the action taken by the commissioners in making their report. The special counsel then represented the commissioners in proceedings upon demurrer and answer in the Supreme Judicial Court, which resulted in the proceedings brought by the petitioner being dismissed. A report of the case was then ordered at the request of the petitioner for consideration by the full bench, and further proceedings were rendered necessary in connection with this report. The report was finally discharged after hearing upon motion filed by the special counsel for the apportionment commissioners because of delay in prosecuting the report before the Supreme Judicial Court for the Commonwealth. I would move you, sir, that this matter be referred to the Executive Committee, and I would suggest that the City Messenger ask Mr. Deland, the Corporation Counsel, to appear before us at once in executive session, and we can then go into details.

Coun. FITZGERALD—Mr. President, I did not thoroughly hear the order read. I understand that it is proposed to go to the Legislature to get the necessary authority to pay this money?

Coun. KEFNE—That was the intent, and the Council and the Mayor would have to act on it afterwards. It is proposed that an amount not to exceed \$1,000 be authorized.

Coun. FITZGERALD—Mr. President, judging from what has happened in connection with these apportionments in the past, I don't know but what that would be establishing a very bad precedent here. These last commissioners, for instance, distinctly knew the law. The committee of the Legislature laid out the wards of the city, dividing them as nearly equally as possible, to give approximately 11,000 voters to each ward, with the absolutely distinct understanding that each ward was to have two representatives in the Legislature. There was very little work for this commission naturally to do, because the Supreme Court had advised the Legislature that certain people would be considered as legal voters. But the apportionment commissioners had the right to count potential voters. The law was absolutely clear. In the final result, one ward, Brighton, with 10,000 and almost 11,000 voters, was given one representative, while another ward with a few hundred was given three. This commission knew at the time what its duty was. Ten years ago the apportionment commissioners were compelled to pay money out of their own pockets for litigation they got into. Twice the Supreme Court told them to do thus and so, and they did something else and, not having acceded to the wish of the Supreme Court, they had to pay their expenses out of their own pockets. These men here knew what they were about, and they deliberately did what they did do. No public hearings were held, everything was done quietly, and they now come in here and want to be reimbursed for money paid to counsel. If we refuse to sanction this, we will be giving notice to future apportionment commissioners that when they do not do what they are expected to do under the law, they can pay their own bills. I repeat, these people knew what they were doing. It was a clear open-and-shut case, each ward having about so many voters and having so many representatives to a ward. They undertook to monkey with the thing and do things that they shouldn't do, and I don't think we should now give our authorization or sanction to reimbursement. They did not give a fair and equal representation to the different wards of this city, Mr. President, and they were clearly at fault.

The order was referred to the Executive Committee.

Referred to the Executive Committee.

QUARTERS OF MAHONEY POST, ROXBURY.

Coun. WARD offered the following:

Ordered, That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to place in suitable condition the quarters occupied by the Mahoney Post, Veterans of Foreign Wars, on Elmwood street, Roxbury.

Passed under suspension of the rule.

INCANDESCENT LAMPS FOR ROSEMONT STREET.

Coun. WRAGG offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install two incandescent lamps on existing poles on Rosemont street, Ward 18, in front of the Trescott School.

Passed under suspension of the rule.

SIDEWALK ON ALMONT STREET.

Coun. WRAGG offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along the westerly side of Almont street, from Walkhill street to Alabama street, Ward 18, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

BRANCH LIBRARY, EGLESTON SQUARE.

Coun. ENGLERT offered the following:

Ordered, That the trustees of the Boston Public Library be requested, through his Honor the Mayor, to locate and maintain a branch library and reading room at Eggleston square, Ward 11, for the convenience of school pupils and for the use of adult residents of the locality.

Passed under the suspension of the rule.

ARC LIGHT, WASHINGTON AND FOREST HILLS STREETS.

Coun. ENGLERT offered the following:

The question came on confirmation. Committee, Coun. McGrath and Englert. Whole number of ballots, 15, yeas 15, and the appointments were confirmed.

RULES OF CITY COUNCIL.

Coun. WILSON offered the following:

Ordered, That the rules of the City Council be amended by adding at the end of Rule 13 the following:

Any order or resolution referred to any Standing Committee of the Council shall be reported back within thirty days or same may be ordered out of the committee by vote of a majority of the Council for action by the Council.

Coun. WILSON—Mr. President, as I understand, under our present rules, practically every order or resolution is referred to a committee, and it sometimes stays there, to die a natural or unnatural death, unless a two-thirds vote can be obtained to pull it out for action in this body. This amendment is aimed at allowing a majority of the Council to vote one way or another on any order or resolution, even after it has gone to a committee.

The order was referred to the Committee on Rules.

COMMITTEE OF PUBLIC SAFETY.

President HEFFERNAN announced the appointment of the following as the Committee on Public Safety: Coun. Mahoney, McGrath, Parkman, McMahon, Ruby, Dowd, Donovan.

Average annual income from all invested funds, nearly 4 per cent.

PORT OF BOSTON.

Boston Harbor comprises an area of about 47 square miles, (exclusive of the islands) including all the expanse of tidewater within a straight line from Point Allerton to Point Shirley and extending therefrom to the mainland. It is the best of natural harbors, near open sea, sheltered and spacious for anchorage; main ship channel 35 feet in depth at mean low water, increasing to 40 feet from President Roads to open sea; new dredging operations in charge of U. S. engineers are under way for increasing depth of said main channel to 40 feet; waterfront (i.e., lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water.

Commonwealth Pier No. 5, South Boston 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space, total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston, (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. Commonwealth Pier, No. 1, East Boston, 900 feet long, costing State \$764,600 for site and \$426,674 for construction. New dry dock at South Boston, (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing \$3,169,651 and taken by U. S. Government at total cost.

Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 143, of which 8 are owned by the City.

There are 32 foreign steamship lines with regular sailings to and from Boston and 18 coastwise lines (5 to Pacific ports).

In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, will be filled in and used for extensive commercial developments under State control. About 175 acres of flats have recently been filled in and added to the land area of East Boston and 160 acres to that of South Boston.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, soon followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was \$26,000,000.

Total expenditures by State for improvement of Boston Harbor \$22,160,342, from 1859 to 1925, inclusive; in the same period, there was expended additionally \$843,676 on small channels; total Federal expenditure from 1790 to June 30, 1925, \$13,046,044 (corrected figure).

EXPORTS AND IMPORTS, 1925.

For Mass. Customs District (Boston and eight minor ports) in calendar year, 1925, the total value of exports was \$47,473,803 or \$9,881,843 less than in 1924; of imports, \$321,563,908 or \$67,712,375 more than in 1924; total foreign trade, \$369,037,711 or \$57,830,532 more than in 1924. Boston's total foreign trade for year 1925 ranked sixth among American ports, New York, Galveston, New Orleans, Seattle and San Francisco exceeding the former in value. As to imports alone, Boston ranked second, Seattle taking third place, and as to exports alone, 18th (the unusual decline in exports due largely to discrimination against Boston in through railroad freight rates). Tonnage of vessels in foreign trade in year 1925, entered 3,896,383; cleared, 2,457,605; number of vessels entered, 1,540; number cleared 1,082.

For the fiscal year ending June 30, 1926, the total imports at Boston reached \$327,860,000 in value.

VALUATION AND TAX RATES OF GREATER BOSTON.

Total valuation of taxable property in District on April 1, 1925, \$3,430,298,752 or an increase of \$167,103,259 (5.12 per cent) over the 1924 total. Of said 1925 valuation 54.30 per cent applied to property in Boston and 45.70 per cent to that in the 13 cities and 26 towns outside.

The 13 cities in the Metropolitan District outside of Boston all had higher tax rates than Boston's (\$26.70) in 1925. The highest of these was Revere's, \$48.80; (2) Chelsea's, \$38.80; (3) Lynn's, \$35.80; (4) Medford's, \$33.20; (5) Woburn's, \$33.20; (6) Cambridge's, \$32.50; (7) Everett's, \$32.20; (8) Malden's, \$32.20; (9) Melrose's, \$32.20; (10) Waltham's, \$31.40; (11) Newton's, \$27.40; (12) Somerville's, \$27.40; (13) Quincy's, \$27.00. Average tax rate of the 13 cities of Metropolitan District other than Boston, \$33.24 or \$6.54 more than Boston's rate. Said average tax rate was \$1.99 more than in 1924.

ANNEXATIONS TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 423; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of City's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included. By 1915 the total was 549,139, or 73.67 per cent of City.

SETTLEMENT OF BOSTON, 1630.

Effected by Puritan colonists under Governor John Winthrop in the latter part of August, 1630. The name of the original settlement was changed to Boston from Trimountaine by order of the Court of Assistants on September 7 (O. S.), 1630. This date was moved forward by the New Style calendar in 1752 to September 17, the recognized date of the founding of Boston. The name, Trimountaine, had been given because of the three peaks of the most prominent hill, afterward called Beacon Hill, much higher then than now. By the Indians the place was called Shawmut. The name, Boston, was derived from the English town of Boston in Lincolnshire, the home of some of the leading colonists and promoters of the enterprise.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN ROSSMORE ROAD AND FOREST HILLS STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Rossmore road and Forest Hills street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of thirty-three hundred (3,300) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Rossmore road, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Wednesday, April 20, 1927, with a certified check for four hundred (400) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

(April 9.) JAMES H. SULLIVAN,
Commissioner of Public Works.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR COAL.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 801, City Hall Annex, until 12 m., Thursday, April 21, 1927, at which time and place they will be publicly opened and read, for furnishing and delivering semi-bituminous steam coal. The coal delivered will be paid for on the basis of the prices named in the proposal for coal specified, corrected for variations in the heating value and ash as shown by the analysis, above and below the standard established by the contractor. Forms of bids and specifications may be obtained at the office of the Superintendent of Supplies, and only bids on these forms will be considered: Institutions Department, Long Island, 6,500 gross tons (2,240 pounds), more or less, in bins; Penal Department, Deer Island, 7,000 gross tons (2,240 pounds), more or less, alongside; Ferry Service, 12,000 net tons (2,000 pounds), more or less, to be delivered in the bins aboard boats at East Boston. The coal to be delivered as ordered from time to time by the Superintendent of Supplies, before May 1, 1928. Proposals must state the kind and price per ton delivered as above, including the cost of weighing and stevedoring at Long Island and Deer Island, to the satisfaction of the Superintendent of Supplies. Said proposals must be accompanied by a properly signed check for \$500, made payable to the City of Boston, to be forfeited to the City of Boston in case of failure to appear and sign the contract within five days after the date of award. A bond for one quarter the total amount of the contract must be furnished by the successful bidder or bidders with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

PROPOSALS FOR COAL, FIRE AND POLICE BOATS.

The Supply Department of the City of Boston invites proposals for furnishing 3,700 tons, more or less, of Pocahontas or New River coal to the police and fire boats as follows: Fire boats, 2,500 tons; police boats, 1,200 tons. The bidder must use the form of proposal to be obtained at the office of the Supply Department, Room 801, City Hall Annex, and furnish a certified check for \$500, payable to and to become the property of the City of Boston if the proposal is not carried out. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. The bidder must state the price per ton of 2,000 pounds, and leave his proposal at the office of the Supply Department on or before Thursday, April 21, 1927, at 12 m., at which time and place they will be publicly opened and read. Deliveries to be made as per specifications. The successful bidder must furnish a bond for one quarter the total amount of the contract with a surety company authorized to do business in Massachusetts, as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Fire Department Headquarters, 60 Bristol street, for all information relative to the erection of poles, the building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 906, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, Room 30, City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

DAMAGES AWARDED.

Thomas M. Merrill has agreed to accept the sum of \$1 as full payment for all land taken from, all rights acquired in, and all damages occasioned to his estate on Vermont street, West Roxbury district, by the taking of 1,659 square feet of land therein for sewerage works purposes under the order of June 26, 1923; this acceptance being made on condition that the aforementioned estate comprising the property numbered 9 Vermont street (deed, lot 4), and the parcel (deed, lot 5), next west thereof, be given, free of assessment, the right of drainage into the public sewer in said Vermont street built under an order of November 17, 1926.

MAYOR'S STATEMENT ON GOVERNOR'S VETO OF BOSTON TAX LIMIT BILL.

In commenting on Governor Fuller's statement when vetoing the \$13 tax limit for Boston Mayor Nichols issued the following:

The Governor's message vetoing the \$13 tax limit for the City of Boston is interesting, chiefly because of the amount of misinformation which it conveys to the Legislature. If the Governor shares my desire to reduce the burden of taxation, certainly the way is not by creating deficits which must be met by temporary loans. This policy already discredited by a unanimous Legislature is again restated, but not quite so well as before and with additional inaccuracies.

I regret that the Governor has neglected to avail himself of the assistance of the men in the State House who are perhaps best informed on the question of Boston's financial condition. The Committee on Municipal Finance, presided over by the Hon. Harvey Gallup of North Adams, a former mayor of that city, and his colleague, the Hon. John Beck, former mayor of Chelsea, have given three months of their undivided attention to this subject, and could, if asked, have given good advice to the Governor.

I might say in addition that my attention has been called to the fact that though the members of the Committee on Municipal Finance, every one with experience, were at all times prepared to co-operate with his Excellency in a consideration of this matter—they were never invited to attend any hearing or to confer with his Excellency on the Boston tax bill.

The Governor himself is familiar with the rising costs of administration and in speaking of his own economies will, of course, remember that state costs have doubled in ten years and that in the three years representing his own administration the cost has risen from forty-six millions to fifty-five millions.

The Governor's veto presents a curious admixture of inaccurate statements and fallacious reasoning. Throughout his whole consideration of the bill there is a most improper blending of tax limit and tax rate as if they were synonymous. At the outset let us understand that a tax limit is not a revenue-producing method. A tax rate is. The purpose of a tax limit is merely that of measure. It is the maximum set upon municipal expenditures per thousand dollars of valuation—that and nothing more.

The Mayor, after a careful study of municipal requirements, causing a cut of nearly two million dollars of departmental estimates, submitted the cost at \$31,300,000. To keep that within the law, the limit per thousand dollars of valuation was placed at \$13.50. At the hearing before the Committee on Municipal Finance, the Mayor presented his

MAYOR CALLS PROPOSALS OF GOVERNOR IN TAX LIMIT VETO UNWISE.

On April 9 the Mayor addressed the following communication to Governor Fuller on his veto of the Tax Limit Bill.

BOSTON, April 9, 1927.

HON. ALVAN T. FULLER, *Governor of the Commonwealth*, State House, Boston.

DEAR GOVERNOR FULLER,—I cannot believe it is your desire to impose upon the City of Boston a system of financing its appropriations found by experience to be unwise. It is incredible that you should be content to remain in the position of attempting to force the city to change the policy of much more than a generation in the face of a protest from the Mayor and every official vested with responsibility in the finances of the city.

The policy outlined in your veto message upon the Boston tax limit bill involves a double use of the same money for appropriations with an immediate shortage which must be covered by borrowing. This produces not a saving but an extra loss in interest charges. This policy has never worked satisfactorily anywhere. It was abandoned in Boston thirty-four years ago and condemned by ex-Mayor Matthews who stated in his celebrated valedictory address that as taxes are never paid in full during the year of levy, this way of figuring out the annual receipts of the city would obviously result in a deficit because of the appropriation of too much money.

The Mayor, the City Auditor and the Budget Commissioner have tried to make clear the case of the city. The members of the Legislative Committee on Municipal Finance, who are thoroughly acquainted with the problem, could have helped you. You could have asked former City Auditor J. Alfred Mitchell, a splendid official of many years' experience. You might have obtained the opinion of several able ex-mayors. The policy I advocate was that of ex-Mayors Matthews, Curtis, Quincy, Hart, Collins, Whelton, Fitzgerald, Hibbard, Curley and Peters.

Hon. William E. Russell was Governor of Massachusetts when this policy was inaugurated. He saw no reason to differ with the Mayor as you differ with me, nor did Governors Greenhalge, Wolcott, Crane, Bates, Douglas, Guild, Draper, Foss, Walsh, McCall, Coolidge or Cox, an unbroken line of your distinguished predecessors, ever try to force upon Boston this outworn policy. All former mayors, Democrats as well as Republicans, had the courage and the capacity to administer the city without recourse to the money-wasting scheme urged upon the city in your veto message.

Your advice received from the Finance Commission could have been safeguarded by consulting with a former chairman of the Finance Commission, Hon. John A. Sullivan, also former Corporation Counsel. It would have been possible for you to secure the opinion of Hon. George U. Crocker, former city treasurer.

In fact so much competent guidance has been available that your own experts can hardly be excused for having omitted to call your attention to the possibility of obtaining it. You have been misled, Governor, but there is no reason why you should continue to urge on Boston a mistaken policy desired by nobody. Why not trust the Mayor of Boston? His judgment is at least as good today as it was when he advocated your election

last fall for Governor of the Commonwealth, and you thought it pretty good then.

Your publicity director last Saturday heralded the opinion that you may condescend to step down from where you are to where I am, of course after a residential trip from Malden to Boston. It's no step down, Governor, from any office on earth to the Chief Magistracy of the great City of Boston. But wherever you intend to step, make a good start now. Your veto message is an unfortunate mistake and I ask you to consider seriously the advisability of withdrawing it forthwith from the Legislature.

Sincerely yours,

MALCOLM E. NICHOLS, *Mayor*.

Mayor Nichols made public a letter from John A. Sullivan, former chairman of the Boston Finance Commission, in which Mr. Sullivan strongly indorses the position of the Mayor on the Boston Tax Limit Bill vetoed by Governor Fuller.

BOSTON, April 9, 1927.

HON. MALCOLM E. NICHOLS, *Mayor of Boston*.

DEAR SIR,—The proposal of his Excellency, Governor Fuller, to cut the tax limit bill for the City of Boston by 50 cents on each \$1,000 of valuation is based primarily upon his desire to prevent the City of Boston from applying to the needs of the current year the back taxes of previous years which are always collected in part but which are never collected wholly, either in the year of assessment or the succeeding year.

After an experience of several years at the Legislature I am convinced that the proposal to forbid the use in the current year of the back taxes of preceding years is unwise and impracticable.

The Legislature has persistently refused to forbid the use in the current year of such back taxes. Their refusal was based upon the belief that it was good business on the part of the city to use the back taxes and thus pay the current bills when they accrued instead of being forced to borrow money from the banks for such purposes. Their views are sustained in the practice of private business corporations which never would countenance the idea of borrowing money to pay their bills when they actually had cash on hand which could be used for paying them.

The practice of the city for over forty years of using the back taxes in the current year has worked well on the whole.

Former City Auditor Mitchell, with an experience for more than a generation in that office, always defended and maintained the practice of using back taxes to pay the bills for current needs. The present City Auditor has always defended and maintained the practice now in existence. The mayors of the city for nearly forty years have maintained this practice in their administrations.

Against the sound judgment of these officials and in spite of their long experience, it is now proposed to make a radical change which will upset the financial methods of the city. These methods have resulted in establishing a credit to the City of Boston not excelled by any of the larger cities of the country.

The present system has worked well; why change it? It is not good business to abandon a system which has been tried for a long time with success and to substitute a system which may work disastrous results. The city is committed to the policy of financing its needs through taxes rather than by loans. The use of

back taxes to pay for current needs tends to support that policy. One thing is certain as the result of the application of the proposed system, the city will be forced to borrow more money and the taxpayers will have the added interest to pay.

I am strongly in favor of the Mayor's position in this matter, and I trust that the Legislature will indorse that position.

Very truly yours,

JOHN A. SULLIVAN.

Mayor Nichols announced today the receipt of the following telegram from former Mayor Andrew J. Peters indorsing the position of the Mayor on the Boston Tax Limit Bill vetoed by Governor Fuller:

April 9, 1927.

Regard your position use of uncollected taxes as sound. Hope views of officials of city which follow precedent of many years financial custom will not be overriden by Legislature.

ANDREW J. PETERS.

Mayor Nichols made public today a letter from former City Treasurer George U. Crocker, in which Mr. Crocker unqualifiedly indorses the Mayor's position on the Boston Tax Limit Bill vetoed by Governor Fuller.

Following is the text of the letter:

April 9, 1927.

DEAR MR. MAYOR,—I hope that the City of Boston will not depart from the old, conservative method of dealing with money received from back taxes each year, even if you are unsuccessful in getting a \$13 city rate. The old method is sound, safe and conservative, and has, in my opinion, added very much to the credit of the city. Other cities which have not followed the Boston method have been in trouble, and, as you know, some of our neighboring cities are unable to pay their temporary loans, and have carried them for many years.

Of course no benefit is gained from making the change which is recommended by the Governor and the Finance Commission except to reduce the tax rate a little for one year. The city collects about one year's taxes every year, there being a lot of back taxes received and an offsetting amount of the taxes of the current year not collected, so that if you appropriate the back tax money you will be left the next year with a shortage by the amount of the uncollected taxes for that year, and don't get anywhere.

I am able to say from my experience and knowledge of city finances covering a good many years that I never found anybody who really understood the situation who did not deprecate any such change as is now suggested.

Very truly yours,

GEORGE U. CROCKER.

GOOD FRIDAY OBSERVANCE FOR CITY EMPLOYEES.

BOSTON'S TAX LIMIT.

(Continued from page 413.)

budget, and no sound criticism of any major item of expenditure in that budget was presented. The Finance Commission, however, did present an old-time suggestion, that the tax limit be lowered, and as an offset suggested the applying of back taxes. The Budget Commissioner presented a statement showing that this method would produce a huge deficit. The Boston Finance Commission and the member from the Division of Accounts were invited to go down to the Budget Commissioner's office and go over all his work sheets, and indicate any error. Up to this moment, this has not been done.

What is the difference in the application of the present method and the one advocated by the Governor? At present the City of Boston uses the flow of back taxes to pay the bills as they mature, which projects the day of borrowing into the future. The Governor's theory of practice would force the city immediately on a borrowing venture.

The city must have sufficient money to meet its legitimate needs. The Governor favors a sum \$920,000 greater than the Mayor will receive under the bill just vetoed. No matter what the method the money must come in the long run from the taxpayers. But if the city is steered into a deficit the taxpayers must bear the burden in the form of future taxation. If the city is forced to issue temporary loans to meet this deficit, then the taxpayers must pay the burden and the interest too.

This is wholly contrary to the pay-as-you-go policy which looks to the present to keep down the burdens of the future. If the Governor's contention is right, then the city should no longer pay for school-houses out of current taxation, nor should it reconstruct its streets out of the tax levy. The \$23,000,000 which the city has raised by taxation to pay for the construction of school buildings since 1916 ought, according to the Governor, to have been placed upon future generations by the issue of loans for the purpose of reducing the current tax rate.

The Governor speaks about the use of back taxes by other cities for the purpose of reducing current taxation. Let him examine the records of the State Division of Accounts. He will find that in many municipalities the temporary loans are so constant as to take on the appearance of being perpetual. Of course, I am not concerned with the Governor's complaint against the Legislature, but I might remind him that the Boston tax limit has been heard by the Legislature, through its Municipal Finance Committee, about as thoroughly as it is possible for any measure to be heard.

I cannot agree with his Excellency that this matter has received scant consideration at the hands of the Legislature, even though the Legislature reduced our appropriations by the sum of \$920,000, which the Governor is willing to restore as an incident to his unsound financial policy.

The veto message alludes to the figure of outstanding back taxes of \$8,800,000 at the beginning of this year in support of an argument that the city last year and years prior thereto overestimated the amounts necessary to carry on its business. This figure of \$8,800,000, is not a reliable figure as it does not represent at this moment a reservoir upon which the city can draw for funds for the following reasons:

The taxes outstanding as of April 1, 1927, are not \$8,800,000, but are

\$5,127,772.15. Of this sum it has been estimated that \$2,538,311.79 will have to be eventually abated as uncollectible, leaving a balance of estimated good taxes at \$2,589,460.36. These revised figures were all presented two days ago to the Finance Commission which has been advising the Governor in this matter and these figures should have been made available to him for use instead of the archaic figure which he introduced into his veto message.

The Governor says, in support of his position, that every other city in the Commonwealth utilizes its cash surplus in connection with its current tax rate. This is exactly what the City of Boston does, and if the Governor rests on his own message, then he has no quarrel with the Legislature. Last year our cash surplus, as shown to the Committee on Municipal Finance, amounted to \$309,000. This cash surplus included back taxes collected to the first of January, 1927, and is used to reduce taxation this year as it affects both tax limit and tax rate. The Governor, in asking that Boston do nothing more than other cities and towns do voluntarily, will find that this is what we are doing, but this part of the message either agrees with the City of Boston or is utterly meaningless.

The Governor says that it will cost the city this year \$1,340,000 more than it cost last year. I do not know how he arrived at that figure. The proposed appropriations for 1927 are \$30,383,463.98. The appropriations for 1926 amounted to \$30,833,236.52. Thus under a \$13 tax limit as voted by the Legislature and vetoed by the Governor the appropriations are this year \$450,000 less than last year, and these appropriations would be almost a million dollars less than in 1926 but for the 300 additional policemen and the living wage for laborers.

These two measures have commanded widespread approval and favorable comment throughout the Commonwealth. Does the Governor doubt it? The Governor reminds me of my promise to give an economical administration to the City of Boston, and there is nothing in his message to indicate that I have not kept this promise. He says he is going to help me, but I look in vain through this veto message to find out where help is coming. I have always striven for a wise economy, that which protects life, health and property at a reasonable cost, but in the name of economy I cannot accept even from the Governor of the Commonwealth a measure which injures the financial structure of the city for a superficial advantage.

By an obvious confusion of tax limit with tax rate the Governor placed the increase of \$5.10 on last year's tax rate wholly upon my shoulders. Let me remind him that the only items over which I could exercise by law any official responsibility amounted only to \$1.27. The increases for which I was not responsible, but for which the Governor was partly responsible, amounted to \$3.83, making the total of \$5.10. This \$1.27 increase of last year will be entirely absorbed by the reduction in taxation this year. Thus I have kept my promise to the taxpayers and I expect, and ought to have, the cordial co-operation of the Governor in so doing.

The Governor works out an ingenious plan whereby we are supposed to have large balances on hand if the recommendations repudiated by the Legislature should ultimately be adopted. As these

figures are all based, not upon cash surplus, but upon back taxes, they are valueless for purposes of discussion.

It should be remembered that under the charter our budget must be submitted to the City Council before the last day of January. If the provisions of the city charter were carried out all of this argument about tax limits could never take place. The city has tried in every possible way to co-operate with the Legislature in the determination of the tax limit and feels that there has been on the part of both branches a spirit of cordiality and helpfulness. It was my desire to have the appropriations fixed by the tax limit sent to the City Council weeks ago. This tax limit has been under discussion week after week, meanwhile the city is approaching the time when its appropriations must finally be determined.

The Governor contends that the City of Boston will not be hampered in its functions through the sustaining of his veto since he will, in the event of such happening, immediately send to the Legislature a special message with definite recommendations as to the fixing of the tax limit for the current year. Inasmuch as the whole argument of the veto is exactly similar to that used by him last week for a \$12.50 tax limit the Governor must assume that the Legislature this week or next week must feel that they committed a serious error in refusing to allow back taxes to be used in computing the tax limit.

I have no reason to suppose that the members of the upper and lower branches of the Legislature have changed their minds any more than the Governor has changed his. If they have not changed their minds the predicament of Boston, if this veto were to be sustained, would be appalling. It would mean a complete derangement and practical suspension of the regular functions of the municipal government of the capital city of this Commonwealth.

THE GOVERNOR'S STATEMENT.

April 8, 1927.

To the Honorable Senate and House of Representatives.

The Legislature of 1913 enacted into law chapter 719, entitled "An Act Relative to Municipal Indebtedness." Section 19 of that act provided for the establishment of tax limits in all cities except Boston and the responsibility for fixing these limits was placed in these various city governments. The responsibility for the tax limit of the City of Boston was left to the Legislature, subject to executive approval. The merit of that particular act is not before me for approval. It is not of my making. It has never been before me on its merits.

The Executive cannot ignore the law or pass it by lightly because some are of the opinion it should never have been enacted. It is the law and as such must receive the same careful consideration that all laws of the Commonwealth deserve and will receive from me from an executive standpoint as long as I hold public office. So much for the inception of this legislation and its enforcement.

In every branch of government—federal, state and municipal—the burden of taxation is today of paramount importance, more so than in any other period of history because of its present crushing weight.

The public official who ignores the importance of this fact or attempts to

pass over it lightly will unquestionably have a rude and bitter awakening when the records of public service receive the scrutiny of the public. But of far greater importance is the fact that failure to act with careful consideration on such matters is a wanton disregard of public duty.

With reference to the legislation now before me—House Bill No. 257—the Mayor of Boston asked for a tax limit for \$13.50. The Legislature did not accept this request. It made a tax limit of \$13. When the bill reached the Executive Department for approval, it was referred to the Boston Finance Commission and the State Division of Accounts for report, in accordance with the usual practice of ascertaining the facts pertaining to each bill under consideration. The Boston Finance Commission, established by an act of the Legislature long before my term of office, urged a tax limit of \$11.40, and presented its facts. The various sums of money set forth in this message have been submitted by the Boston Finance Commission. The State Division of Accounts urged a tax limit not greater than \$12. Later, a long hearing was given by me to all interested parties at the executive office, and after that hearing I was convinced that a lower tax limit than that adopted by the Legislature could well be enacted and so recommended. The recommendation was not adopted. It received scant consideration. Was that giving to the taxpayers of this great city—extremely important to them, relatively unimportant to me except as it affects my public duty—the consideration which is their due?

And who are those taxpayers? They are the humble folk of life who are well-nigh inarticulate in political matters. Just where do they have an opportunity to state their protest? How great must be the burden before they will cry out? Let me admonish you that continued increase in taxation will meet with something more than murmuring. Unless a halt is called, this murmuring will not be from the inside of the State House out, but from the outside in.

The problem that confronted the City of Boston is quite similar to the problem that confronted me when I became Governor. My financial advisors urged upon me a fifteen million dollar tax to pay old obligations and to have the money for expanded service. I kept the state tax at twelve million dollars, and at the end of two years all debts were paid and there was six hundred thousand dollars in the treasury.

Last year the Mayor of Boston allowed an increase of five dollars and ten cents in the tax rate. Now this settles down squarely upon the shoulders of the tenants and the home owners. With this increase of five dollars and ten cents per thousand over the tax rate of a year ago the Mayor said he had inherited some obligations and there were things that ought to be done, but that this year he would give the taxpayers relief. The Mayor promised the voters an economical administration of the City of Boston, and I am going to help him give it to them.

This discussion must not get down to a squabble between political representatives either in the State House or City Hall on the one hand, or real estate dealers on the other. It is the tailor in the basement and the printer in the attic and the humble people in the tenements who are paying the taxes, make no mistake; and I hope their plight and your opportunity to give them a little encouragement will be greeted with an earnest effort to co-

operate and with careful consideration of the fact that every other city in this Commonwealth, according to our Division of Accounts, utilizes its cash surplus from past taxes in connection with its current tax rate. We are asking that Boston do nothing more than other cities and towns do voluntarily. Surely the Legislature ought to be willing to indorse a sound financial policy with due regard for the taxpayers, which is in accord with the general practice throughout the cities and towns of the Commonwealth.

It cannot be argued that if this veto is sustained the City of Boston will be hampered in its functions. The sustaining of this veto will enable me to send in immediately a special message, so that we may co-operate in fixing a tax rate lower than that provided by this bill.

To leave out of consideration the accumulation in the treasury from back taxes is to indorse the gradual establishment of a municipal bank to which all taxpayers contribute but from which only political representatives are accorded the privilege of withdrawing funds. It is my understanding that the citizens are assessed taxes for expenditures for a year, not to accumulate a fund in addition.

The real point is this—the present method pursued by Boston gives no incentive for the prompt collection of taxes and the longer the taxes remain unpaid the greater the chance of losing them altogether.

At the beginning of this fiscal year in the City of Boston it appeared that all the bills for the fiscal year of 1926 had been paid and that there was still due the city in outstanding taxes the sum of \$8,800,000.
